VACUUMS

PRO-LITE LIGHTWEIGHT VACUUM

At only 8 lbs., our Pro-Lite lightweight vacuum delivers commercial cleaning results without the operator fatigue and injury risk of heavier uprights. A powerful motor, combined with twin fans that produce a massive 160 CFM of suction, help the Pro-Lite clean up to 50% better than other lightweight vacuums.

Pro-Lite's ergonomic design, easy operation and superior filtration make it the durable choice for many industries, including healthcare, education, restaurant and hospitality, retail stores and many more!

- Dual fan technology provides greater airflow for superior cleaning performance and edge cleaning on both sides
- Top fill Enviro-Clean™ high filtration bags hold more debris than other lightweight vacs, increasing operator productivity and improved indoor air quality
- Unique design allows this vacuum to automatically adjust to any carpet height
- A special squeegee attached to the base plate allows you to move from carpet to hard floors with ease
- Ships complete with a 50' cord to maximize reach for larger cleaning areas

IRONSIDE ALL METAL VACUUMS

Hardy
Production/Quality Supervisor

ALL METAL CONSTRUCTION

The all metal construction of our Ironside vacuum line stands up to the most rigorous demands of the cleaning industry. No other vacuum provides this combination of durability and suction power—it picks up things that other vacuums leave behind.

Available in 12" and 16" models with a variety of filter bag options, each Ironside is crafted with an all metal housing, aluminum chassis and heavy-duty steel hood assembly.

- Aluminum chassis is lightweight and very durable with an extended 5 year warranty
- Extra tough metal fan withstands wear and tear from objects like paper clips and coins, and produces impressive air flow for superior cleaning
- Handle and cord hooks are chrome steel - Guaranteed Not to Break!
- All metal fan with extended 2 year warranty
- Variable height adjustment goes from commercial grade carpet to extra thick plush for the perfect setting on any type of floor
- Vacuum turns on automatically when handle is lowered
- Central belt design with extra large edge cleaning channels provides great cleaning from edge to edge

HEPA UPRIGHT WITH TOOLS

Powr-Flite's PF82HF clean-air carpet vacuum, with sealed HEPA filtration system, dramatically reduces pollutants that contribute to what the World Health Organization calls "sick building syndrome!" The HEPA filter captures dust and allergen particles as small as .3 microns in size — trapping them in the filter so they are permanently removed from the environment.

- Increase productivity with the wide 15" cleaning path - cleans over 20% faster than a 12" vacuum
- Anytime cleaning with low 69 dBA noise level
- Convenient tools-on-board allows the operator to easily switch between carpet and detail vacuuming tasks
- Oversized diameter hose resists clogging and stretches to 10' to reach all above-floor jobs
- Bag safety latch prevents vacuum from operating without a bag in place
- Your investment is protected by thermal overload protection that switches vacuum off to prevent overheating
- Headlight makes it easy to use in low light areas
- Accepts Electrolux replacement parts

Hose stretches to 10' to reach all above floor jobs

Crevice, dust brush and 10' stretch hose included for detail cleaning

SINGLE MOTOR HEPA COMMERCIAL UPRIGHT

Quality, dependability, price...an outstanding value in a durable commercial upright! The easy to use Powr-Flite PF90 is built commercial tough with an all metal handle, base plate and brush roll in a heavy-duty housing. The performance of the powerful double ball-bearing motor provides the suction power needed for commercial cleaning without the expense of two motors.

The self-adjusting height goes from plush carpeting to commercial grade and even hard floors with ease. Optional tools are also available to add the convenience of performing every type of vacuuming job!

- Heavy-duty metal components for rugged commercial use
- Self-adjusting height provides superior cleaning for any type of carpet
- Soft furniture guard protects furniture and baseboards
- Thermal overload protection that switches the vacuum off to prevent overheating
- Lays completely flat - excellent for getting under the lowest furniture

Low profile lies completely flat to reach under beds and furniture

DUAL MOTOR HEPA UPRIGHT WITH TOOLS

Our PF14 and PF18 models offer dual motor cleaning efficiency and the increased productivity of off-floor cleaning with convenient tools-on-board. These vacuums have an enclosed bag filtration system that does not allow dust to escape, as well as optional HEPA filtration system for improved indoor air quality.

- Dual motor design for dedicated power to the vacuum and brush motors for the ultimate in cleaning performance
- Anytime cleaning with low 69 dBA noise level
- Convenient tools-on-board for all cleaning jobs with crevice tool and dust brush
- Long life belt is sealed from the dirt path so it lasts much longer
- Thermal overload protection shuts the vacuum off to prevent overheating
- Bag safety latch prevents vacuum from operating without a bag in place
- Electronic indicator lights for full bag, bristle contact, belt breakage, brush roll blockage, cord connection and airway blockage
- See through hose makes it easy to identify any clogs
- Protect floors from aggressive brush action – the brush roll turns off when the on-board wand is removed or handle is raised
- Convert to a shake-out bag with optional cloth bag

Adjustable brush height

Telescopic wand with ergonomic handle and 10' stretch hose

Optional

Lies completely flat to fit under the lowest furniture

WIDE AREA VACUUMS

NEW Wide Area Sweeper Vacuum

The PF28SV is a powerful sweeper vacuum that is a great option for use on multiple floor types and will pick up larger debris that often clogs traditional vacuum cleaners. The large ¾ bushel recovery bag and 60' cord allow you to work more and change bags or cord location less. Don't spend a lot of time training operators, the PF28SV's one button operation will get you up and running quickly.

- Increase productivity and cleaning coverage with wide 28" cleaning path with nearly three times the productivity of traditional upright vacuums
- Improve versatility – 5 levels of height adjustment quickly transition to different cleaning surfaces, ensuring that dirt, dust and debris are removed the first time, regardless of carpet height
- Improve maneuverability and easily clean hard-to-reach areas with a low profile design
- Increase operator comfort with fully adjustable handle and fold-down design for convenient storage

Doane
Manufacturing Engineer

30" Wide Area Vacuum

The PF2030 wide area vacuum is a feature packed and powerful wide area vacuum that will help you tackle the largest carpeted areas including convention centers, airports and hotels. Its 30" cleaning path makes quick work of large areas by doing the work of 3 vacuums in one pass. The PF2030 includes our 4-stage filtration technology, filtering 98.6% of dust and debris particles down to .3 microns. This wide area vacuum is a must have for all large applications.

- Dual 1 hp vacuum motors have excellent cleaning power with 224 CFM and an 1800 RPM brush that loosens ground in dirt and revives compressed carpet
- Quiet 70 dBA noise level is safe for operators and building occupants alike - meets LEED requirements
- Wide 30" cleaning path and 75' power cord maximizes working area
- Adjustable brush roll with 5 pile settings

32" Manual Sweeper

Easy to push and maneuver at only 30 lbs., the PS320 manual sweeper is an efficient option for removing dirt and debris from large areas and is ideal for maintaining parking lots, garages, patios, warehouses or any other hard floor area. The 4 brush system utilizes two side brooms to sweep dust and debris toward the two main brooms that lift the debris into the 1.6 cubic foot hopper. The hopper's convenient carrying handle allows for effortless emptying in any trash or waste bin.

- 32" cleaning path sweeps over 17,000 square feet per hour for higher productivity
- Adjustable side brooms and main brooms allow for operation in various conditions
- Dual side brooms provide excellent edge cleaning
- Rugged all-plastic housing resists corrosion and is easily cleaned
- Handle folds for convenient upright storage

36" Battery Powered Sweeper

The PS900BC is the choice of cleaning professionals for medium to large sized sweeping jobs like warehouses, parking lots and access ramps. The PS900BC is extremely easy to use. The free-wheel drive transfers the power of the motor to both drive wheels simultaneously. The PS900BC uses the highly efficient Quadra Brush System for effective dust and debris containment. The main brooms and side brushes are infinitely adjustable for efficient dust-free sweeping of different terrains. The PS900BC can climb ramps with a grade of up to 18 degrees making it the most versatile sweeper available.

- 36" cleaning path sweeps over 30,000 square feet per hour for increased productivity
- Battery provides for up to 3 hours of continuous run time for extended cleaning time
- High efficiency dust filter traps fine dust, protecting both the operator and the environment
- Large 2 cubic foot debris hopper is much larger than competitive sweepers
- Super quiet at only 65 dBA for safe operation for the operator, building tenants and customers - meets LEED requirements
- Ships complete with battery and charger

20 GALLON HEAVY DUTY WET/DRY VACUUMS

Rated for constant industrial pick up, Powr-Flite's heavy-duty wet/dry vacuums feature double-sealed motor bearings for reduced maintenance and downtime. For added reliability and longer lasting performance, the 2.5 peak hp motor has a high-volume blower port which allows clean, dry air to cool the motor and moist or dirty air to bypass it.

- Heavy-duty 20 gauge stainless steel or epoxy painted steel tanks stand up to the demands of tough constant industrial wet and dry recovery
- External power plug for accessories such as Powr-Flite's commercial power nozzle (PEB)
- Swivel hose connector allows 360° hose rotation, letting you move the vacuum without fear of disconnection
- External drain for easy waste disposal and cleanup
- Convenient hose storage and tool caddy included
- Ships complete with 10' swivel hose, 2-piece all metal wand and floor/rug and squeegee tools
- Item# PF27HM includes HEPA Filtration

20 GALLON DUAL MOTOR WET/DRY VACUUMS

Dan
Engineering Manager

Designed for heavy-duty industrial cleaning and material handling, Powr-Flite's dual motor wet/dry vacuums boost the power to 192 CFM with 80" waterlift. Available in stainless steel or durable polyethylene, these models are built for the toughest commercial jobs and are the ideal choice for a wide range of general shop cleanup tasks, from liquid recovery to picking up metal shavings.

POWERFUL DUAL MOTOR PERFORMANCE

- 2-stage filtration with a washable cloth filter bag that keeps dust from circulating back into the air and a super performance pleated, washable synthetic cartridge filter for higher filtration of fine dust
- Waste disposal and cleanup is easy with a drain on the polyethylene model and simple tip and pour on the stainless steel model
- Sound insulated vacuum head lowers decibel level for safety (77 dBA at 8')
- Fewer clogs with the large 1-1/2" vacuum hose
- Swivel hose connector allows 360° hose rotation, letting you move the vacuum without fear of disconnection
- Ships complete with 10' swivel hose, 2-piece wand, crevice and dusting tools and 14" floor/rug and squeegee tools

Item# PF57

Item# PF58

Optional front mount squeegee system picks up water faster than a hose and wand and is especially effective in tight spots...maneuvering right up to wall and into corners, picking up in forward and reverse.

WET/DRY VACUUMS

20 GALLON HEPA WET/DRY VACUUM

Powr-Flite's HEPA wet/dry vacuum is perfect for debris recovery applications where critical filtration is required. The PF55HM features 3-stage filtration for improved indoor air quality: a two-ply enclosed paper bag, double layer glass pre-filter and individually certified HEPA filter that is 99.97% efficient in filtering particles down to .3 microns, ensuring that the exhaust air is clean and free of hazardous airborne pollutants.

Anthony
National Accounts

- 1.6 hp, 1200 watt motor with 114 CFM and 100" waterlift provides the high performance for both dry and wet recovery
- Sound insulated vacuum head lowers decibel level for safety (77 dBA at 8')
- Optional wet adapter must be added for wet recovery

10 GALLON HEPA WET/DRY VACUUM

Designed and engineered to high standards with affordability in mind. Standard HEPA filtration effectively traps fine particles that trigger allergic reactions and asthma while keeping the product cost affordable. Features include 2-stage industrial motor, HEPA certified cartridge filter, high efficiency fine dust collection bag with closure, washable Dacron style pre-filter, ball bearing casters, heavy-duty hose, lighted plug, heavy gauge powder coated stainless steel tank, large on/off switch all at a competitive price.

- Increased indoor air quality with HEPA filter (99.97% efficient on .3 microns)
- Improved performance with 2 stage industrial motor
- Maximized versatility with wet or dry capabilities
- Increased detailing productivity and cleaning coverage with on-board round horse hair brush, crevice tool, power tool adapter, 15" floor nozzle with 2 brushes

WET/DRY VACUUMS

15 AND 20 GALLON WET/DRY VACUUMS

Item# PF53

Powr-Flite's rugged 15 and 20 gallon wet/dry vacuums, available in stainless steel or durable polyethylene, outperform and outlast models sold in a retail store. Easy maneuverability and stability, plus a 2-stage filtration process that keeps dust from circulating back into the air, makes these models contractors' number one choice for strip jobs, water recovery, dust pick up and general maintenance needs.

- 1.6 hp, 1200 watt motor with 114 CFM and 100" waterlift provides the high performance for both dry and wet recovery
- Waste disposal and cleanup is easy with a drain on the polyethylene model and simple tip and pour on the stainless steel model
- Sound insulated vacuum head lowers decibel level for safety (77 dBA at 8')
- Fewer clogs with the large 1-1/2" vacuum hose
- Swivel hose connector allows 360° hose rotation, letting you move the vacuum without fear of disconnection
- Ships complete with 10' swivel hose, 2-piece wand, crevice and dusting tools, and 14" floor/rug and squeegee tools

Simple tip and pour for easy waste removal (stainless steel models only)

Item# PF54

Item# PF53

Optional front mount squeegee system picks up water faster than a hose and wand and is especially effective in tight spots

5 GALLON WET/DRY VACUUM

Our 5 gallon PF51 is ideal for smaller tasks, but has the power to perform any commercial job. It picks up water, mud, sludge, nails, screws, food—anything you would find on the toughest job. This compact wet/dry fits in your truck or janitor closet, and its 360° swivel hose connector allows you to move freely without fear of disconnection.

Troy
Marketing Specialist

- 1.6 hp, 1200 watt heavy-duty commercial vacuum motor with 114 CFM and 100" waterlift for the toughest jobs
- Washable cloth filter keeps dust from circulating back into the air
- Ships complete with 7' hose, 39" 2-piece wand, 11" floor tool, 14" squeegee tool, crevice tool and dust brush

Pistol grip on hose provides maximum control and ease of use with tools

BLACKMAX EXTRACTORS

Perfect Heat

Powr-Flite BlackMax extractors, available in mid-size and full-size platforms, deliver truckmount power without the truck! BlackMax combines our patented Perfect Heat System with a 500 p.s.i. pump and dual vacuum motors to give you one of the most powerful portable carpet extractors on the market.

TRUCKMOUNT POWER WITHOUT THE TRUCK

- Patented Perfect Heat® technology maintains the hottest water/solution temperatures in a portable unit
- 1800 watt heater produces temperatures up to 212° F
- Dual 3-stage vac motors provide nearly 50% more waterlift than dual 2-stage vac motors
- Powerful solution pump delivers 1.25 GPM at 500 p.s.i.
- Exclusive handle mounted transport wheels for easy loading and unloading
- Unit dimensions:
10 Gallon - 25"L x 20"W x 34"H
13 Gallon - 35"L x 22"W x 45"H

PERFECT HEAT® EXTRACTORS

Powr-Flite Perfect Heat® extractors share the features of our standard models, but deliver a steady supply of hot water with no temperature fall off. Heavy-duty construction and the highest quality components make Perfect Heat® extractors the perfect choice for carpet care professionals.

PH models heat water without an electric heater and run on only one cord at an energy-saving 15 amps—no more blown breakers and down time. Upgraded EPH models combine Perfect Heat technology with a powerful electric heater that produces and maintains the hottest temperatures found in any portable extractor.

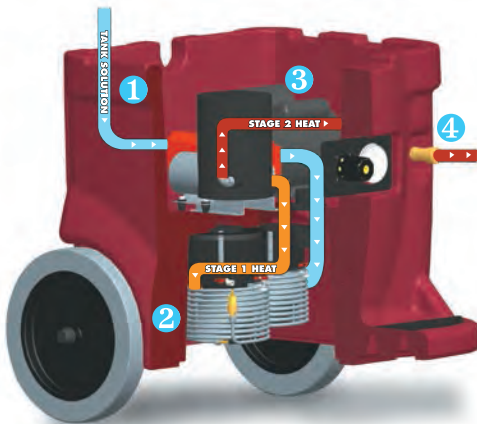

- Dual, 2-stage vacuum motors provide excellent solution recovery, allowing carpets to dry faster
- Pumps available in 100 and 200 p.s.i.
- PFX1380 model features exclusive handle mounted transport wheels for easy loading and unloading
- Unit dimensions:
10 Gallon - 25"L x 20"W x 34"H
13 Gallon - 35"L x 22"W x 45"H

PFX1380PH IS CERTIFIED SILVER!

MAXIMUM HEAT NO FALL OFF

How Perfect Heat® works

- 1 Water is delivered from the tank to the pump
- 2 The Perfect Heat® coils maintain hot water
- 3 The electric heater super heats the already preheated water
- 4 A steady supply of hot water is sent to the wand

EXTRACTORS

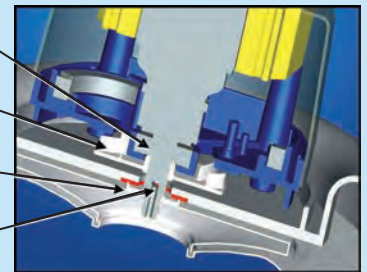

AIRWATT EXTRACTORS

Airwatt Extractors redefine power without sacrificing performance! Airwatts measure airflow (CFM) and suction (waterlift), providing a true indication of extractor performance. Powr-Flite Airwatt Extractors are powered by the revolutionary Ametek® airwatt motor, the most advanced vacuum motor on the market.

- Powerful, single 2-stage fan airwatt vacuum motor outperforms conventional vacuum motors
- New advanced technology airwatt motor is specifically designed for foam and moisture-laden applications
- State-of-the-art, patent-pending bearing design virtually eliminates bearing failure – the number one failure on carpet extractor vacuum motors
- Lower amp draw for energy saving cleaning with fewer overloaded breakers, especially in applications where power is at a premium
- Outstanding vac motor performance with an extended two year warranty

- 'Eternity' brushes – Patented curved carbon brush to improve brush life
- Cooling Fan/Commutator relocated to minimize noise & improve cooling
- Designed to maximize cooling airflow through the hottest areas of the motor
- Single frame fan shell on multi-stage models minimizes risk of damage in shipment

- Bearings moved to clean dry area of motor
- Additional protection from relocated Cooling Fan (between fan system and bearing)
- Isolated with a seal
- Additional bypass prohibits water near dry area - secondary bearing protection

HOT WATER AND CAR WASH EXTRACTORS

Add heat to your cleaning arsenal with Powr-Flite's Hot Water extractors! Hot water adds cleaning power by dissolving many types of soil including grease and oil, and reduces the levels of biological contamination in the carpeting. Both the 10 and 13 gallon models feature waist-high controls and handle-mounted transport wheels for easy loading and unloading.

Designed specifically for full-service car wash and mobile detailers, our Car Wash Extractors include an in-line heater and 20' Insider Hose with detailer hand tool. With a variety of power and pressure choices Powr-Flite is the professional's choice for automotive upholstery cleaning and detailing.

Easily accessible front mounted pressure gauge and brass hose connector

Detailer hand tool included with car wash models

- 1200, 1750 and 1800 watt in-line electric heaters provide superior cleaning power on the toughest dirt, grease and grime
- Pumps available in 100, 200 and 500 p.s.i
- Dual 2-stage vac motors provide excellent solution recovery, allowing carpets to dry faster
- Front mounted adjustable pressure gauge and recessed brass hose connector on 200 and 500 p.s.i. units
- Unit dimensions:
10 Gallon - 25"L x 20"W x 34"H
13 Gallon - 35"L x 22"W x 45"H

EXTRACTOR ACCESSORIES

WONDER WAND™

Recovers more solution leaving carpets cleaner and drier!

- Atomized, high-speed solution works as an agitator, cleaning better than a brush without damaging the carpet
- Soil is flushed from the carpet fibers at 750 p.s.i.
- 1-1/2" one piece stainless steel double bend tube

1. Air induction head atomizes high velocity solution
2. Hyper-charged droplets penetrate and scrub each individual fiber
3. Solution is kept under constant vacuum control
4. Solution is simultaneously recovered

ITEM#	DESCRIPTION
WW1000	Wonder Wand, 1000 p.s.i., 3 jet
WW1000-2	Wonder Wand, 1000 p.s.i., 2 jet
PX810	Wonder Wand, 1000 p.s.i. valve

The final filter and quick release spray jets reduce clogging and provide for easy maintenance.

No need to lift the wand! Unique roller system reduces operator fatigue. Wand rolls across the carpet on the forward stroke.

POWER EXTRACTOR BRUSHES

Add the extra cleaning power of cylindrical brush scrubbing to any upright or box extractor. All Power Extractor Brushes include a 25' combination vacuum/solution hose and power cord for easy connection to extractors of all brands.

- 17" cleaning path for increased productivity over standard drag wands
- 1300 RPM brush powers out dirt and grime from carpets
- Five spray jets for full solution delivery
- Solution control switch for ease of operation
- Stainless steel chassis for longer life

17" wide cleaning path

POWR-SPOTTER

3.5 GALLON PORTABLE SPOTTER

Portable, lightweight and powerful, the Powr-Spotter is perfect for touch-up cleaning and spot removal between scheduled carpet cleanings. The space-saving design is available in three configurations for spot cleaning, small area carpet cleaning and automotive detailing.

PORTABLE POWERFUL

10' stretch hose provides maximum flexibility

Shown with optional Spotting Kit
Item# SPKT

- Powerful 2-stage vacuum motor and 60 p.s.i. for deep cleaning
- Large 3.5 gallon solution and 2.5 gallon recovery tanks provide extended cleaning between refills
- Aluminum telescopic handle slides easily back into the unit and makes transporting a breeze
- Can use up to 240° water
- Expandable solution and vacuum hose on PS35 stretches from 2.5' to 10' - PS35E and PS35ER come with standard 10' hose
- Ships complete with upholstery tool, wheels and transport handle
- Unit Dimensions: 22"L x 13"W x 24"H

PROWLER™ 9 GALLON SELF-CONTAINED EXTRACTOR

1300 RPM BRUSH FOR MAXIMUM AGITATION

The Prowler self-contained extractor provides maximum productivity in large areas with the added flexibility of attaching tools for cleaning spots, stairs and upholstery. A 1300 RPM floating chevron style brush head that maximizes agitation and leaves carpets cleaner than traditional self-contained extractors. This machine is great for use in medium-sized offices, schools, healthcare facilities and hotels.

Easily attach an upholstery tool

Optional upholstery kit
Item# PFX900S-KNS

Longlasting stainless steel brush housing features two easily removable spray jets for even spray pattern

- Compact size for easy transportation and storage
- Separate vacuum, brush and pump switches make operator training a breeze
- Fixed vacuum shoe with floating brush head for maximum cleaning performance and water recovery
- Heavy-duty polyethylene body provides long lasting durability
- Powerful 3-stage vacuum motor maximizes recovery for faster drying times
- Unit Dimensions: 38"L x 19"W x 36"H

3 GALLON SELF-CONTAINED EXTRACTOR

PORTABLE POWER

Powr-Flite's 3 gallon self-contained extractor offers quick and easy one-pass carpet cleaning for use in homes and small commercial facilities. Simple, ergonomic controls make training and operation easy for novice users, and its combination of size and power are great for any cleaning job.

- Powerful 111 CFM and 92" waterlift
- Thermal overload protection prevents damage by inexperienced users
- Reduce clogging and streaking with easy to remove and clean spray jet
- Deep cleaning chevron style brush for aggressive agitation
- Ergonomic handle operated solution lever reduces operator fatigue
- 35' 16/3 cord
- Unit Dimensions: 20"L x 14"W x 27"H

Waste water disposal is easy with the "no slosh" lift-off recovery tank

INTRODUCING
POWR²

THREE STYLES, SAME GREAT RESULTS

Powr-Flite offers heavy-duty, high performance floor machines in three styles, including a rectangular orbital design that is new for 2014.

Powr², our new 1.5 hp orbital floor machine, is designed with rectangular pads to help reach corners and powerful performance that allows you to skip the traditional stripping process. Learn more about the features and benefits on page 37.

Millennium floor machines feature a patented, rotationally molded one-piece housing that absorbs vibration and controls torque for easier operation. Available in heavy-duty 1.5 hp and .5 hp single speed (page 35) and dual speed (page 36) models.

Classic floor machines combine rugged, all metal construction with the most technologically advanced motors, transmissions and electrical components. Available in heavy-duty 1.5 hp single speed (page 35) and dual speed (page 36) models.

SINGLE SPEED AND SANDING FLOOR MACHINES

Single speed and sanding floor machines, available in Classic stainless steel or durable molded Millennium editions, combine a low profile design and heavy-duty all steel triple planetary transmissions to stand up to your most demanding work. All metal handle housings, tube and trigger assemblies add to the long-lasting durability of Powr-Flite floor machines.

Item# C201HD

Single Speed Classic Floor Machines

- Available in 17" or 20" models with 1.5 hp motors
- Full surround non-marking bumpers help prevent damage to walls and furniture
- High polish chrome finish is chip and corrosive resistant, keeping the Classic looking newer longer
- Thumb activated safety interlock switch prevents accidental start ups
- Universal pad driver holder

Item# P131-7

Item# M201-3

Single Speed Millennium Floor Machines

- Available in 13", 17" or 20" models, with .5 hp or 1.5 hp motors
- Heavy-duty, rotationally molded one-piece housing reduces noise for operator safety and absorbs vibration, controlling torque for better operator control
- Ultra high output motor features a lower amp draw while maintaining the power and torque necessary for the toughest floor jobs
- Thumb activated safety interlock switch prevents accidental start-ups

Item# C171SD

Item# M171SD-3

Sanding Floor Machines

Equipped with a heavy-duty sandpaper driver, Classic and Millennium 17" sanding floor machines have the power to handle tough floor jobs like sanding, scraping and grinding.

- Powerful 1.5 hp, dual capacitor motor starts easily, even with the most aggressive sandpaper
- Thumb activated safety interlock switch prevents accidental start-ups
- Full surround non-marking bumpers help prevent damage to walls, baseboards and furniture

POWR-FLITE FLOOR MACHINES

DUAL SPEED FLOOR MACHINES

Powr-Flite's dual speed floor machines, available in Classic stainless steel or durable molded Millennium editions, let you move from stripping and scrubbing to high-speed spray buffing with the flip of a switch. The standard 175 RPM handles the most aggressive workloads and a high 320 RPM provides the power and speed to spray buff and dry polish tile floors with excellent results.

Dual Speed Classic Floor Machines

- Powerful 1.5 hp motor maintains power to perform multiple floor maintenance tasks
- Low profile design for getting under and around obstructions
- Full surround non-marking bumpers help prevent damage to walls and furniture

Dual Speed Millennium Floor Machines

- Patented, heavy-duty, rotationally molded one-piece housing reduces noise for operator safety and absorbs vibration, controlling torque for better operator control
- Dual 175 / 320 RPM operating speeds effectively scrubs, strips, spray buffs and polishes every type of floor
- Ultra high output motor features a lower amp draw while maintaining the power and torque necessary for the toughest floor jobs
- Full surround non-marking bumpers help prevent damage to walls and furniture

POWR² ORBITAL FLOOR MACHINE

POWER AND PERFORMANCE...

...at a price you will love.

POWR² Features:

Safety lock feature prevents start-up when handle is in upright position

Dual lever switch allows left or right handed machine operation

One-piece all metal handle housing, tube and trigger assembly

Large non-marking transport wheels

Totally enclosed fan motor with added protection of motor fan guard

Convenient lift handle

Heavy-duty cast iron frame and cast aluminum pad driver for the weight needed for aggressive performance

Customers love the increased productivity, performance and low cost of ownership on the NEW Powr² Orbital Floor Machine

- Saves time and effort compared to traditional chemical stripping process
- Rectangular design helps reach corners that are missed by round pads
- Improve performance with optional weights for increased down pressure and pad loading
- Anytime cleaning with low 69 dBA
- 1.5 hp fan-cooled motor is enclosed and protected by a motor fan guard

CORDED BURNISHERS

Powr-Flite's high-speed burnishers, available in Classic stainless steel or durable molded Millennium editions, provide exceptionally smooth operation and innovative features for use in many different environments. Unlike conventional burnishers, both styles feature precision balanced weight distribution for complete pad-to-floor contact and sustained RPMs, eliminating the need for a compensating caster.

Classic Burnisher

- Powerful 1.5 hp motor, with 1600 RPM pad speed provides consistent results, bringing the shine out of the most worn floors
- Floating handle design provides great maneuverability and lets even the most inexperienced operator achieve a smooth, even shine
- Pad driver provides full pad to floor contact conforming to low spots and rising up and over high areas
- All metal base, handle housing, tube and trigger stand up to years of wear and tear
- Thumb activated safety interlock switch prevents accidental start-ups
- Ships complete with flexible pad driver

Millennium Burnishers

- Available in 1200, 1600 or 2000 RPM models
- Heavy-duty 1.5 hp motor with low start up and operating amp draw
- Patented rotational molded housing absorbs vibration and minimizes torque for easy operation and control
- Floating handle provides great maneuverability with no "flutter" or pull
- Optimal head weight for maximized pad-to-floor contact, providing the best shine possible
- Low profile for easy maneuverability
- Ships complete with flexible pad driver

PROPANE BURNISHER

One propane burnisher can outperform 6 workers with traditional 20" low speed floor machines, covering 48,000 sq. ft. per hour. Powr-Flite's burnishers feature premium engines that provide superior levels of power for any burnishing job while offering reduced noise and vibration for added operator comfort and reduced disruption to others in the area. Flexible pad drivers provide maximum pad-to-floor contact, even on unlevel floors. Built-in safety features keep working environments safe for operators and customers alike. Ease of operation, durability, and reliability make these units the propane-powered cleaning equipment of choice for the floor care professional.

- Powerful and dependable, Kawasaki® engines are CARB and EPA certified and are built with a catalytic converter to help reduce emissions
- Minimum 1850 RPM ensures maximum operational efficiency with the speed and performance to maintain a high gloss shine for large floor areas
- Safety features include an electronic fuel shut-off and a low oil pressure shut-off
- Durable and virtually maintenance free, our propane burnishers have excellent oil control, high torque, and cold starting capacity
- Quick change 80% all steel safety fuel tank increases operator safety and allows nearly continuous operation

POWR-SCRUB COMPACT SCRUBBER

Adjustable folding handle for comfort and storage

16" wide cleaning path with front and rear squeegees for cleaning/drying pushing and pulling the machine

Easy to use controls

Solution and recovery tanks simply lift off for easy emptying and cleaning

The Powr-Scrub compact automatic scrubber is designed for exceptional cleaning on hard surfaces, including non-slip, safety and textured floors. With greater productivity and better performance than traditional mopping, the Powr-Scrub is ideal for small to medium areas such as food service areas and kitchens, entrance lobbies, classrooms, shops and offices. This machine is extremely easy to use—very little training is required.

- 750 RPM high pressure cylindrical brush for maximum cleaning performance on uneven or tiled flooring
- Powerful brush and vacuum action restores ceramic tile floor right down to the grout
- Cleans right to the edge with the optional add-on side brush
- Simple, no tool brush change
- Compact, low profile design fits easily under tables and furniture
- Quiet 70 dBA operator noise level for day cleaning applications – meets LEED requirements
- Ships complete with 1 standard brush

MULTIWASH MULTI-SURFACE SCRUBBER

SUPERIOR CLEANING ON HARD & SOFT FLOORS

Powr-Flite's Multiwash offers quiet, high quality cleaning performance on virtually every type of floor, including escalators and entrance matting. This machine will wash, mop, scrub and dry in a single pass—resulting in a low cost of ownership and improved productivity. The Multiwash is truly one scrubber for the entire facility and is perfect for use in retail stores, restaurants and food preparation areas.

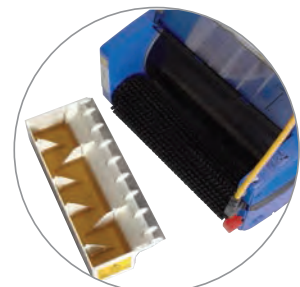

Move machine easily with convenient transport cart

Wall-to-wall cleaning with optional side brush

Multiple brush options for different cleaning tasks

Removable recovery tray for easy waste disposal

- Cylindrical brush system provides deep scrubbing at 650 RPMs – over three times higher than rotary brush scrubbers and 4-6 times more contact pressure for superior cleaning
- Save time with self-cleaning brushes – no messy pads to worry about and brushes far outlast pads, using an average of one set of brushes for every 100 floor pads
- Eco-friendly low moisture cleaning uses 30% less chemical and water providing increased savings
- Whisper quiet 69 dBA level for day cleaning and noise sensitive applications – meets LEED requirements
- Ships complete with 1 standard brush

Wash, mop, scrub and dry... in one pass!

AUTOMATIC SCRUBBERS

PREDATOR 16

CORD-ELECTRIC SCRUBBER

Compact and lightweight, the Predator 16 breezes through open spaces and glides easily through confined areas including non-standard doors and tight corners. This automatic scrubber will cover more floor surface quicker, finishing your stripping and cleaning jobs faster and increasing productivity.

- 290 RPM pad speed tackles the dirtiest floors
- 16" cleaning path that conforms to floor levels with brush assist forward motion
- Convenient foot operated squeegee lift and brush control is simple to use
- Four-wheel design provides complete stability for climbing ramps and inclines
- Heavy-duty polyethylene housing and solution tank on non-corrosive steel frame
- 75' cord provides excellent reach for higher productivity

Convenient drain hose for easy clean up

Easy to use control panel

REPLACE THE MOP

PREDATOR 14

BATTERY POWERED SCRUBBER

Compact and powerful, the Predator 14 captures the dirt and debris traditional mops leave behind. The ergonomic, adjustable handle reduces worker fatigue and safety issues are minimized with cord-free operation eliminating the concern of cords stretched across rooms. The Predator 14 is ideal for confined or small to medium sized areas in restaurants, small retailers, schools, medical facilities and much more.

- Eco-friendly low moisture system saves on chemicals and water
- Low operating noise level of 68 dBA is safer for employees, allows for cleaning during business hours and meets LEED standards
- Ships complete with maintenance free gel batteries and integrated onboard charger making it simple to recharge at any location
- Compact 14" cleaning path fits easily down narrow, crowded aisles
- Gets in hard to reach places - low profile and fully adjustable handle make it easy to clean under counters, desks and tables
- Minimize worker fatigue and injury with the ergonomic, adjustable handle - unit fits operators of any height
- Easy maintenance - recovery tank lifts off and the solution tank features an easy to use drain hose for simple disposal of waste water
- Gets excellent results on multiple hard floor types: concrete, terrazzo, marble, slate, stone and vinyl composition

Compact design cleans close to walls

Easy access to motor and battery

Simple controls, easy to use and transport, the Predator 17 provides excellent scrubbing results on a wide range of hard floor surfaces including tile, linoleum, cement, epoxy and rubberized surfaces. The low profile, ergonomic design provides easy maneuverability while the unique fully adjustable parabolic swing squeegee completely recovers solution even on the tightest turns. The Predator 17 is ideal for use in commercial and industrial applications with moderately spaced interiors.

- 200 RPM brush speed provides aggressive scrubbing power for the dirtiest floors
- To help conserve water and chemicals, solution flow is activated by the brush/pad driver
- In-line solution capacitor controls solution flow optimizing cleaning times
- Simple control panel includes key switch, battery meter and hour meter
- Keep track of usage hours with convenient hour meter
- Clean up is easy with quick release recovery tank drain
- Ships complete with two 12 volt batteries, charger and pad driver

PREDATOR 20, 28 & 32 BATTERY POWERED SCRUBBERS

Predator 20 Battery Powered Scrubber

The Predator 20, self-propelled with a direct drive system, makes work virtually effortless for the operator. This machine will clean 20,000 square feet per hour and features aggressive cleaning power with 90 lbs. of floating brush pressure. Reduce maintenance and downtime with easy access to batteries, vacuum motor and tanks, plus a lifetime lubricated differential motor.

- Large 17 gallon solution and recovery tanks clean the biggest jobs without emptying and refilling
- Batteries provide up to 3-4 hours of operation for continuous scrubbing power
- Electronic speed control in forward and reverse
- Dual wheel drive for straight tracking
- Twin swivel casters turn on a dime for easy maneuverability
- Self-propelled with a direct drive system meaning effortless work for the operator
- Durable and long lasting with non-corrosive steel frame and polyethylene tank construction
- Large parabolic adjustable squeegee leaves floors virtually dry even on the tightest turns
- Squeegee and brush controls are activated with conveniently placed foot pedals

Predator 28 & 32 Battery Powered Scrubbers

Item# PAS32-DXBC

Predator 28 and 32 models have a remarkable 5-6 hours of operating time, plus a self-propelled direct drive system that provides straight tracking on slick surfaces and less effort for the operator. Just set the solution rate and go—the machine does all of the work in one easy pass and leaves floors clean, dry and ready for immediate use.

- Adjustable brush pressure provides smooth consistent brush action even on unlevel and grouted floors
- Independent dual wheel drive in forward and reverse
- Self lubricating traverse differential motor requires no maintenance
- Dual motor brush operation with up to 150 lbs. of brush pressure
- Large parabolic adjustable squeegee leaves floors virtually dry even on the tightest turns
- Squeegee and brush controls are activated with conveniently placed foot pedals

HYBRID DRYERS

Powr-Flite Hybrid dryers combine the best features of a squirrel cage design with the increased drying power of an axial fan. Leveraging state-of-the-art engineering, this dryer has an incredible maximum air velocity of 3,400 feet per minute in a compact, highly efficient size. Long-lasting and durable, Hybrids are built with heavy duty, co-polymer polypropylene to withstand the tough, every-day use of contract cleaners, restoration professionals and more.

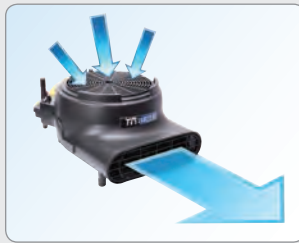

- Innovative go anywhere design
- Maximum running amp draw of 2.8 amps – no more overloaded, blown circuits
- PDH2 model can daisy chain up to 4 units on one 15 amp circuit with built in power outlet – perfect for restoration when power is at a premium or just faster drying to leave your customers with clean and dry carpet

Daisy-Chainable

Deluxe model can daisy chain up to 4 units on a 15 amp circuit.

Efficient

Warm dry air is pulled down and across carpet with a high airflow volume of 3,400 feet per minute.

Weighs Less

Only 18 lbs. – weighs up to 50% less than a traditional dryer.

Quiet

Super quiet 67 dBA meets LEED requirements.

Lower Amps

Maximum running amp draw of 2.8 amps – no more overloaded, blown circuits.

Multiple Position Settings

The deluxe model can be placed horizontally, vertically, on its side against the wall, or at a 5° angle with the kick-stand, directing airflow exactly where you need it most. The standard model offers two operating positions.

FULL AIR FLOW HALF THE SIZE

Compact size at only 11.5" high makes it easy to transport or store more dryers in less space.

Do Hybrid Dryers survive our extreme testing?

F5 AXIAL DRYER

The F5 Axial Fan is one of the most effective solutions for structural drying after floods or leaks. This fan combines flexible positioning with high volume, high velocity airflow for fast drying times. Use the F5 to dry carpets and padding, rugs, dry wall, paint and much more.

- High 3000 CFM dries structures fast
- 2.2 amp draw means fewer blown circuits
- Multiple position versatility for every drying need
- 2 speed motor for maximum versatility in multiple applications
- Heavy-duty design and components provide years of service
- Daisy chain up to 5 together with built-in GFCI outlet
- Plug up to 6 F5 Axial Fans together into one 15 amp circuit

ITEM# PDF5

3000 CFM 4 DRYING POSITIONS

4 positions for different drying needs

DX model comes complete with handle and wheels for added maneuverability

Stack up to five F5 axial fans for easy transport and storage

Optional caster kit for easy transport and to provide downdraft drying

F6 Downdraft® Dryer

The F6 Downdraft® dryer produces 3500 CFM that will dry an entire room in as little as 15 minutes! The 6-blade precision pitched fan pulls dry, warm air from above and pushes it down and across the entire surface of the floor. The stackable design and telescoping handle provide easy transport and storage.

- 2-speed motor rated for continuous use
- Variable angle operation for drying at 15, 30 or 90 degree angles for maximum drying flexibility
- Heavy-duty casters improve mobility and position unit to optimum
- Stackable design

GULPER II FLOOD PUMP

The Gulper III

PUMPS WATER AUTOMATICALLY

Designed for water recovery and flood restoration, the Gulper II flood pump extracts large amounts of water from carpet, bathrooms and other flooded areas quickly and easily. The stainless steel large debris filter prevents debris from clogging pumps, capturing leaves and other objects for easy removal. Waste water is pumped out automatically through a standard garden hose to an acceptable area or drain—no emptying tanks manually!

Louis
Plant Manager

Shown with optional wand
Item# FPW

- Powerful 5 GPM or 10 GPM models make it easy to remove water constantly without stopping
- Convenient single power cord operation minimizes blown breakers and searching for additional power circuits when electrical power is at a premium
- 25 feet of 2" vacuum hose provides higher CFM, without clogging on small debris, and combined with a standard garden hose provides a large coverage area
- Stainless steel large debris filter prevents debris from clogging pumps, capturing leaves and other objects for easy removal
- Large 2" wands are available for carpet and hard floor water recovery

Optional squeegee wand
Item# PF86-S

Connect an ordinary garden hose for handy waste water discharge

Convenient waist high, extra large filter catches large debris

Discharge pump located in equipment bay rather than recovery tank

BETTER QUALITY.

We know you would not settle for less than the highest quality...and we would not either. Our machines are produced with the same or higher quality components used by other top brands. Powr-Flite products are put through rigorous testing to make sure they meet our quality standards, and our extensive warranty stands as proof of our quality.

BETTER PRICES.

Our global sourcing and efficient operations allow us to offer the best value in the industry, and we back it up with our Low Price Guarantee. If you find a lower advertised price on a comparable machine, we will match it! It is part of our commitment to providing the best possible value in floor care equipment, parts and supplies.

GUARANTEED.

Not every manufacturer will back their products with a money back guarantee. We do. We have a reputation for quality workmanship and the most flexible equipment warranty program in the industry. Your complete satisfaction is our ultimate goal; EVERY order carries our 30-Day Money Back Guarantee. If you're not satisfied, we're not satisfied.
