Stronger ideas for a sustainable world

ADFORS
SAINT-GOBAIN

Saint-Gobain ADFORS.
A History of Strong Solutions

Saint-Gobain ADFORS' parent company, Saint-Gobain, has emerged as the world's largest building materials firm.

A continuous commitment to product innovation has led to over $590 million invested annually in R&D and more than 400 new patent applications filed each year. And the technology and knowledge Saint-Gobain has gained through OEM experience are directly transitioned to retail product solutions.

As a retailer, you can take advantage of the same product advancements and quality that have made Saint-Gobain ADFORS such a valued resource to industrial manufacturers for centuries.

FibaTape® is a complete line of drywall finishing solutions backed by industry leading innovation.

A Stronger Future for Your Business

Selling the complete project to your customers – that's the smarter way to sell. And that's why the FibaTape family of products includes a complete range of innovative drywall joint tapes and reinforcing products for both professionals and DIYers.

Designed to help ease customer confusion at shelf level, the FibaTape line encourages add-on sales by offering a more complete range of project solutions. More than just drywall tape, the line includes patch and wall repair, as well as sanding and specialty products so customers are assured of a more complete project every time. Plus, a full line of products encourages a full market basket.

You can count on Saint-Gobain ADFORS as a valuable, long-term retail partner. Whether it's new construction, renovation, or at-home repairs, our wall-to-wall project solutions have you and your customers covered.

Specialty Tapes Designed for Maximum Performance in Specific Applications

Perfect Finish™

- 33% thinner for a flatter joint
