

KÄRCHER

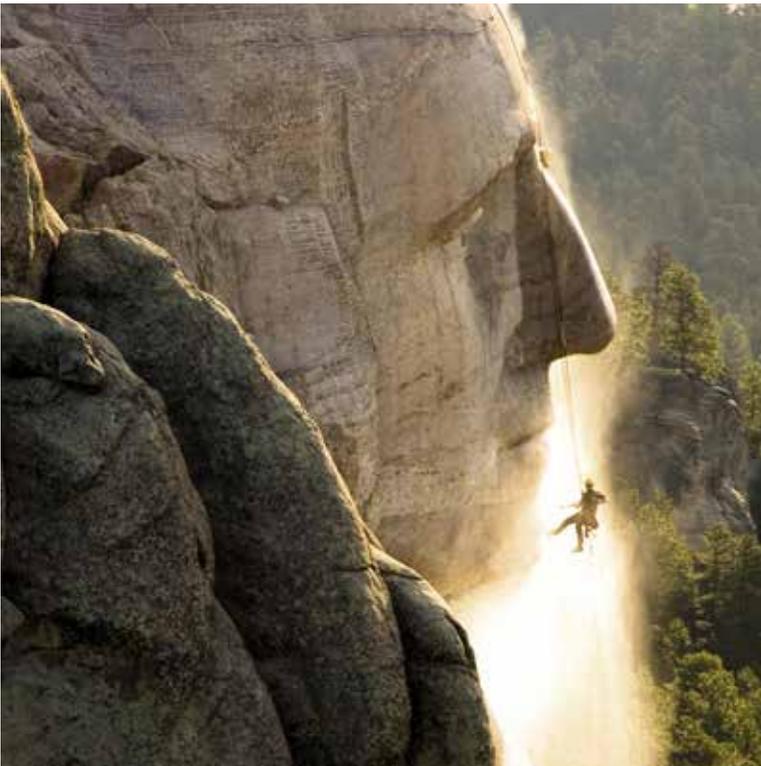

Product Catalog 2016

Every day, we at Kärcher work towards making a difference. Whether a simple driveway or the magnificent Mount Rushmore, no project is too large or too small. We've devoted our lives to the art of cleaning, from the Space Needle in Seattle to neighborhoods around the globe.

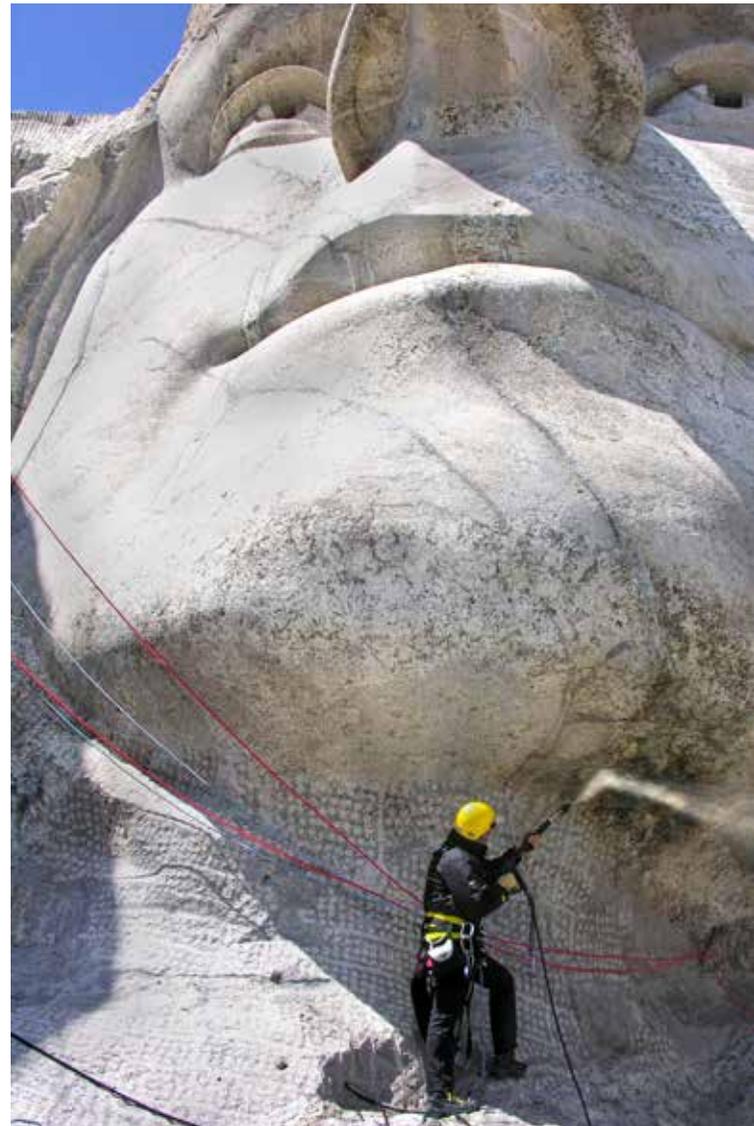

We place exceptional demands on our cleaning solutions to make a difference in our customers' lives. Sometimes we do things that nobody else would consider, because we enjoy tackling monumental challenges. We have been cleaning historical monuments and buildings for more than 30 years as part of our cultural sponsorship program. This includes the Colonnades in St. Peter's Square in Rome, the Colossi of Memnon in Egypt (you really have to know your stuff when cleaning massive statues over 3,300 years old!) and the heads of the presidents on Mount Rushmore. We are happy to take on any challenge - no matter the size! We have made cleaning our sole focus. This has enabled us to expertly craft the right solution for any project, from residential areas to construction sites to the Statue of Liberty.

ONLY ONE COMPANY IS TRUSTED TO CLEAN THE WORLD'S MOST BELOVED MONUMENTS.

Mount Rushmore

Kärcher cooperated with the National Park Service to clean the presidents' heads on Mount Rushmore in South Dakota. The restorative cleaning work was carried out as part of our commitment to cleaning and preserving the world's greatest monuments. We helicoptered pressure washers, water and supplies to the top of the monument, then suspended the cleaning crew to remove lichen, algae, moss and other organic stains that could corrode the underlying rock. The massive project started on Independence Day, July 4, 2005, and was completed a few weeks later in early August.

While global large-scale cleaning projects capture the imagination, we're even more motivated to help our customers with their own monumental projects. Everything we do, we do with our customers in mind. For us, their everyday life is the best challenge in the world. No matter what the cleaning problem, our engineers and cleaning experts will find an effective solution, all the while keeping an eye on usability and environmental responsibility.

In order to know the precise needs of customers around the world, we are globally active - employing more than 11,000 people from over 130 countries. Despite our scale, we remain a family-owned company that knows its roots and responsibilities to employees and society.

BY FOCUSING ON THE NEEDS OF OUR CUSTOMERS, WE REMAIN TRUE TO OURSELVES.

Alfred Kärcher was highly talented: he was an innovative inventor who was never satisfied with the first solution. Whether it was de-icing aircraft wings or cleaning large surfaces efficiently and thoroughly, he was always creative and committed to providing outstanding products for his customers. Sometimes even before they knew what they needed!

His secret was being particularly close to his customers. And they are still key to our success today. By focusing on their needs, we remain true to ourselves. We actively seek out feedback and insights from users across the globe, often spending time in our customers' homes and businesses to best understand their needs. Those insights have made us world market leaders in cleaning technology - renowned for reliable, uncomplicated products that succeed in fulfilling the Kärcher promise:

Cleaner. Quicker.™

GAS PRESSURE WASHERS

CLEANER.QUICKER.™

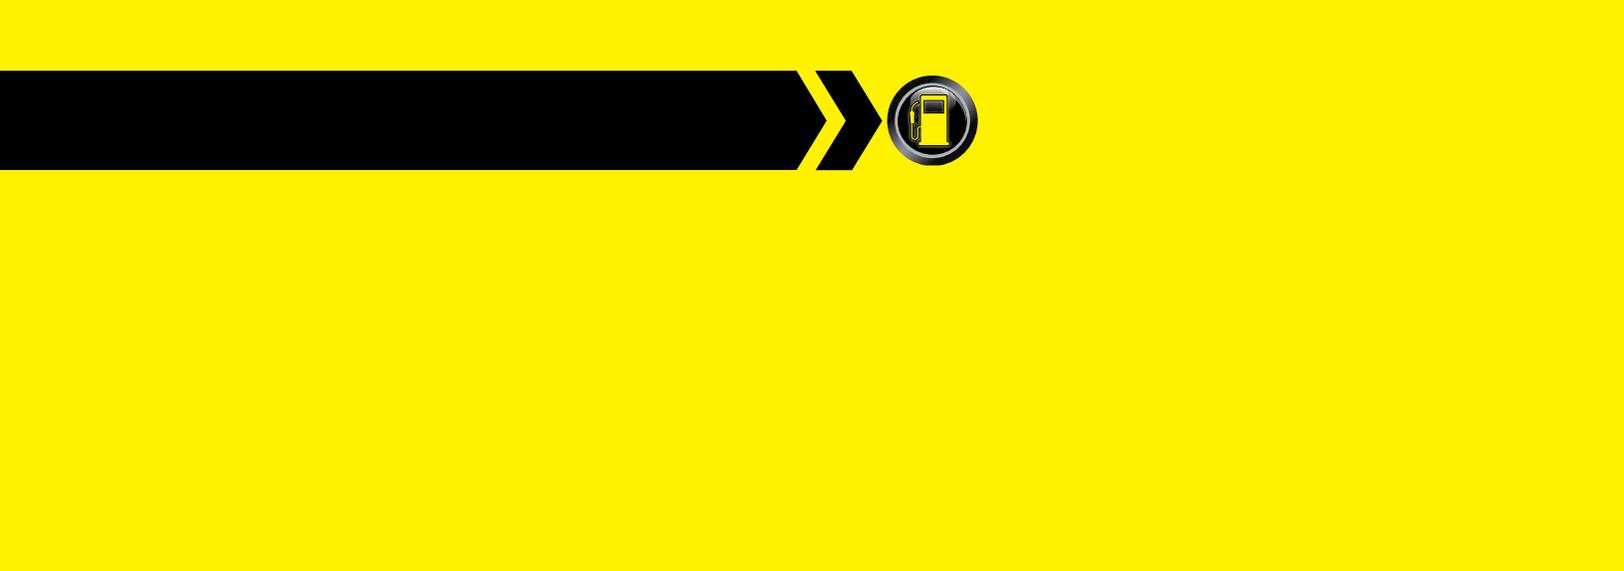

New for 2016

Our gas lineup is expanding in 2016 to include more units with crankshaft/triplex pumps and Honda engines.

VersaGRIP™ - 2016 will also see the launch of our all-new VersaGRIP™ trigger gun. Its patent-pending design and dual trigger technology will allow users to easily clean from different angles, even overhead.

GAS PRESSURE WASHERS

HD SERIES

Kärcher offers a full line of industrial and commercial grade pressure washers. Every Kärcher pressure washer is designed to withstand the most demanding conditions and applications. Only professional grade components are used to assure superior performance and durability. When you demand the best, insist on Kärcher.

NEW 2016

POWERED BY
HONDA

The HD 4.0/50 PeB roll cage design pressure washer is Kärcher's most powerful unit in our cold water line.

POWERED BY
HONDA

The HD 4.0/40 AGB is a "workhorse" pressure washer featuring a belt drive and triplex pump for longer life and superior performance and is backed by an industry-leading warranty.

NEW 2016

POWERED BY
HONDA

The HD 4.0/41 is a high-performing pressure washer on a corrosion-resistant aluminum frame which can be converted from the standard cart configuration to a skid configuration, offering maximum flexibility.

GAS PRESSURE WASHERS

EXPERT SERIES

ADVANCED SOLUTIONS. ENHANCED PERFORMANCE.

Kärcher's Expert Series features the most ergonomic frame on the market. With a balanced center of gravity, these units are very easy to move and transport. The welded frame folds down to make the pressure washer easy to lift and compact to store. Tie down slots add a useful function that you won't find on most units!

INNOVATION AND QUALITY - A RELENTLESS PURSUIT

Versa**GRIP**™

- Dual Trigger Technology for multiple applications, allows you to easily clean from different angles, even overhead
- Fatigue reducing stock
- Large soft grip for comfortable use.

K3 Follow Me

A Family Handyman™ Magazine Editors' Choice and Focus Design Award winner.

ELECTRIC PRESSURE WASHERS

CLEANER.QUICKER.™

New for 2016

K2 - All Kärcher electric pressure washers feature patented maintenance-free N-Cor pumps and DirtBlaster® spray wands, quick connect accessories and a two year warranty.

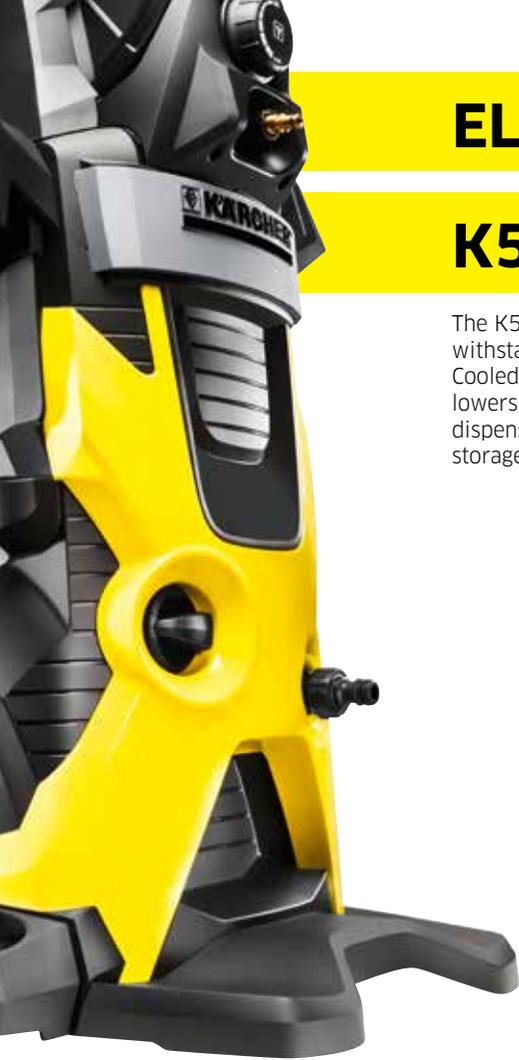

K5 PREMIUM - Our top of the line units feature innovations such as water cooled induction motors, as well as pressurized hose reels and detergent tanks with chemical regulation.

ELECTRIC PRESSURE WASHERS

K5 and K4 SERIES

The K5 and K4 series are our "Best in Class" electric pressure washers. They are built to last and can withstand the rigorous demands of more frequent use. All units are equipped with a patented Water Cooled Induction Motor that prolongs the life of the motor by up to 5X, reduces noise output and lowers energy consumption. Onboard detergent tanks with chemical regulation allow you to easily dispense soap at the desired rate. Premium units also include a pressurized hose for convenient storage of the high pressure hose.

ELECTRIC PRESSURE WASHERS

K3 SERIES

The award-winning Follow Me is the only 4-wheel pressure washer on the market! It follows you as you clean around vehicles, home exteriors, driveways and more. The compact, horizontal design delivers optimal stability and takes up very little storage space. Thanks to its 4-wheel design with steerable front wheels, you'll never have to interrupt your cleaning again to reposition the pressure washer behind you. Both K3 units include onboard detergent tanks that automatically dispense detergent in low pressure mode. Other features include a large on/off switch, onboard storage for all accessories and an ergonomic trigger gun with child safety lock. The K3 Follow Me was a 2015 Family Handyman Magazine Editor's Choice and is our best-selling electric pressure washer in North America.

KÄRCHER

TROY LEE DESIGNS

We are proud to announce the newly formed partnership between Kärcher North America and Troy Lee Design Racing.

Over the last several years, Troy Lee Designs Race team has built a successful team of top-notch racers who consistently find themselves among the leaders in this action-packed sport, and we are excited to join this elite team to help promote our high-performing products.

To be successful in the highly competitive field of professional Supercross and Motocross, there is no margin of error for making mistakes. With this in mind, "Making a Difference" on the track, Troy Lee Designs race team's mantra is...Run a **Clean** Race, and do it **Quicker!!!** A perfect fit for Kärcher North America!

Watch our Facebook pages and Twitter accounts for updates, contests and upcoming events throughout the season.

Race On!

DAKAR

2015 was our fourth year cleaning the vehicles as an official supplier at Rally Dakar. We also sponsored the KTM and Mini's Monster Energy Rally Raid Teams.

We set up cleaning stations along the almost 5,600 mile route, where all teams were able to clean their vehicles using our pressure washers. About 2,500 racing and support vehicles were washed along the route. This assistance demonstrated the effectiveness of Kärcher systems, even under tough, challenging conditions.

We also demonstrated our leadership as a company committed to environmental issues. Kärcher high-pressure cleaners use up to 80% less water than cleaning with a garden hose. Additionally, the water used at the stations was collected and recirculated.

NAME

0° Quick-Connect Nozzle

Part Number 8.641-026.0
List Price (USD) **\$6.99**

15° Quick-Connect Nozzle

8.641-027.0
\$6.99

Works in tandem with your gas pressure washer to quickly deliver professional level cleaning without splash back. Cleans an area 15" wide with two spinning nozzles instead of one, reducing your cleaning time. Eliminates streaks by keeping the nozzles at a fixed height from the surface.

15" Surface Cleaner

8.641-035.0

\$69.99

Includes rotating brush, soft bristle brush and adapters that are compatible with all Kärcher pressure washers, as well as most brands of gas pressure washers.

Universal Dual Brush Kit

8.923-681.0

\$34.99

Made with extra soft synthetic bristles that are safe for all painted surfaces. Automatically dispenses detergent to help remove dirt and grime. Ideal for use on cars, trucks, motorcycles, boats, patio furniture and other delicate surfaces. Easily attaches to the trigger gun. Includes adapters

Universal Standard Brush Kit

8.923-683.0

\$24.99

Incoming water pressure causes inner brushes to rotate, providing the right amount of agitation to easily remove stubborn dirt and debris. Detergent dispenses through the brush for effortless cleaning of most flat surfaces. Included adapters.

Universal Rotating Brush Kit

8.923-682.0

\$24.99

- Quickly adjust the spray pattern of your pressure washer
- Perfect complement to VersaGRIP Spray Gun
- Max 4000 PSI
- Fits most brands

Variable Nozzle

8.641-048.0

\$19.99

- Quickly change spray patterns to match you cleaning application
- Includes 0°, 15°, 25°, 40°, Rinse/Soap Nozzles
- Max 3300 PSI
- Fits most brands

6-in-1 Quick Connect Nozzle

8.641-033.0

\$29.99

- Increases effective cleaning power by up to 50%
- Perfect for cleaning stubborn areas on driveways, concrete and stone
- Max 4000 PSI
- Quick Connect, fits most brands

Turbo Nozzle

8.641-034.0

\$34.99

- Easily reach hard-to-clean areas such as second floors
- Includes long-range spray and soap nozzles
- Max 4000 PSI
- Quick Connect, fits most brands

2nd Story Nozzle Kit

8.641-032.0

\$14.99

- 3.5 Orifice Size
- Great for general cleaning applications
- Max 4000 PSI
- Fits most brands

25° Quick-Connect Nozzle

8.641-028.0

\$6.99

- 3.5 Orifice Size
- Great for general cleaning applications
- Max 4000 PSI
- Fits most brands

40° Quick-Connect Nozzle

8.641-029.0

\$6.99

- Automatically dispenses soap at low pressure
- Reduces cleaning time, suitable for most applications
- Max 4000 PSI
- Fits most brands

Quick-Connect Soap Nozzle

8.641-030.0

\$6.99

- Includes 0°, 15°, 25°, 40°, Rinse/Soap Nozzles
- Color-coded for ease of use
- Max 4000 PSI
- Fits most brands

5-Pack Quick-Connect Nozzle

8.641-031.0

ACCESSORIES

ELECTRIC PRESSURE WASHERS

With Kärcher original accessories, you can optimize the cleaning power and extend the use of your electric pressure washer. Accessories are the ideal solution for specific tasks such as cleaning vehicles, wood decks, driveways and even blocked pipes! Not only do they help reduce the cleaning time - they also deliver more polished and professional results.

*Cleaning a large area such as a deck with regular spray wand can be time consuming and may leave behind streaks. The T300 cleans an 11" area with every pass and eliminates streaks by keeping its nozzles at a fixed height from the surface. **Safe to use on wood and composite decks.***

The hard surface PS40 Power Scrubber has three integrated high pressure nozzles and a stiff bristle design for removing stubborn dirt and stains quickly and efficiently. Suitable for a wide variety of hard surfaces and ideal for scrubbing concrete, pool areas, steps and hard to reach areas.

The Chassis Cleaner is designed to reach the underside of vehicles and remove corrosive sediments. A build-up of salt, oil, or mud can cause severe long term damage to any vehicle if left untreated. The Chassis Cleaner is designed with spinning dual upward pointing spray nozzles to safely clean.

NAME	T300 Deck+Driveway Cleaner	PS40 Powerscrubber	Chassis Cleaner
Part Number	2.643-211.0	2.642-582.0	2.642-561.0
List Price (USD)	\$49.99	\$59.99	\$129.99

An ideal accessory for cleaning wheel rims and spokes. The high quality bristles clean hard to reach wheel areas on vehicles, motorcycles, bicycles and more. The ergonomic handle automatically dispenses detergent reducing the amount of time it takes to get your wheels clean.

Ideal for cleaning wheel wells, vehicle roofs, and other hard-to-reach areas. The 90° angle on the end of this metal wand (30" long assembled) makes it easy to clean the roof area of trucks and SUV's. Great for cleaning gutters when paired with a Kärcher extension wand.

Increase your reach by up to 66" with this extension wand. Four aluminum sections combine to create lengths of 33", 51" or 66" fully assembled. Attaches easily and securely to the trigger gun of your Kärcher pressure washer.

NAME > Wheel Rim Brush

Part Number 2.642-186.0

Right Angle Wand

2.640-741.0
\$49.99

Four Piece Extension Wand

2.640-746.0
\$49.99

Replacement trigger gun for Kärcher electric pressure washers with Quick Connect.

The DirtBlaster® uses patented technology to increase the effective pressure of your Kärcher electric pressure washer by up to 80%. It is ideal for areas where more intense cleaning is needed. Included with most electric pressure washers.

Allows you to easily switch between low and high pressure, and everything between, while you clean. Automatically dispenses detergent at the low pressure setting. Included with most electric pressure washers.

Connects directly with Quick Connect to the high pressure water outlet on your pressure washer and to your existing high pressure hose on the other end. Fits most Kärcher electric pressure washers up to 2000 PSI.

ACCESSORIES

ELECTRIC PRESSURE WASHERS

The pipe cleaner uses four backward firing high pressure water jets to propel itself through pipes to break up and evacuate built-up debris and grime. The kink resistant flexible hose includes measurement markings and a ring to indicate progress. Connect directly to the trigger gun.

Replacement hose for Kärcher electric pressure washers **with hose reels.**

25 ft. Quick Connect high-pressure hose securely attaches to the trigger gun. Includes a Quick Connect adapter for rapid attachment of the high-pressure hose. Trigger Gun is designed to work with Kärcher electric pressure washers up to 2000 PSI.

Note: Not compatible with pressure washers with an onboard hose reel.

Easily replace your pressure washer's O-rings. Set includes O-rings for the high pressure hose and attachments including spray wands, brushes and more.

Use to replace the garden hose quick connect adapters on electric pressure washers. Also can be used to convert threaded connectors on gas pressure washers.

Ideal for applications which require a thick foam. Simply fill the reservoir cup with liquid pressure washer detergent to generate a foam spray. Connects directly to the trigger gun.

Connects to your Kärcher pressure washer's water inlet, allowing you to use ponds, lakes, buckets, tanks and rain barrel as an alternate source of water. 9.8" (3m) length.

WET DRY VACS, SWEEPERS AND BLOWERS

CLEANER.QUICKER.™

New for 2016

NT DUST EXTRACTORS -

Kärcher's NT line of dust extractors offer several industry-leading features, including fully and semi-automatic "Tact" filter cleaning that allows over 770 pounds of dust to be vacuumed before the filter needs to be manually cleaned.

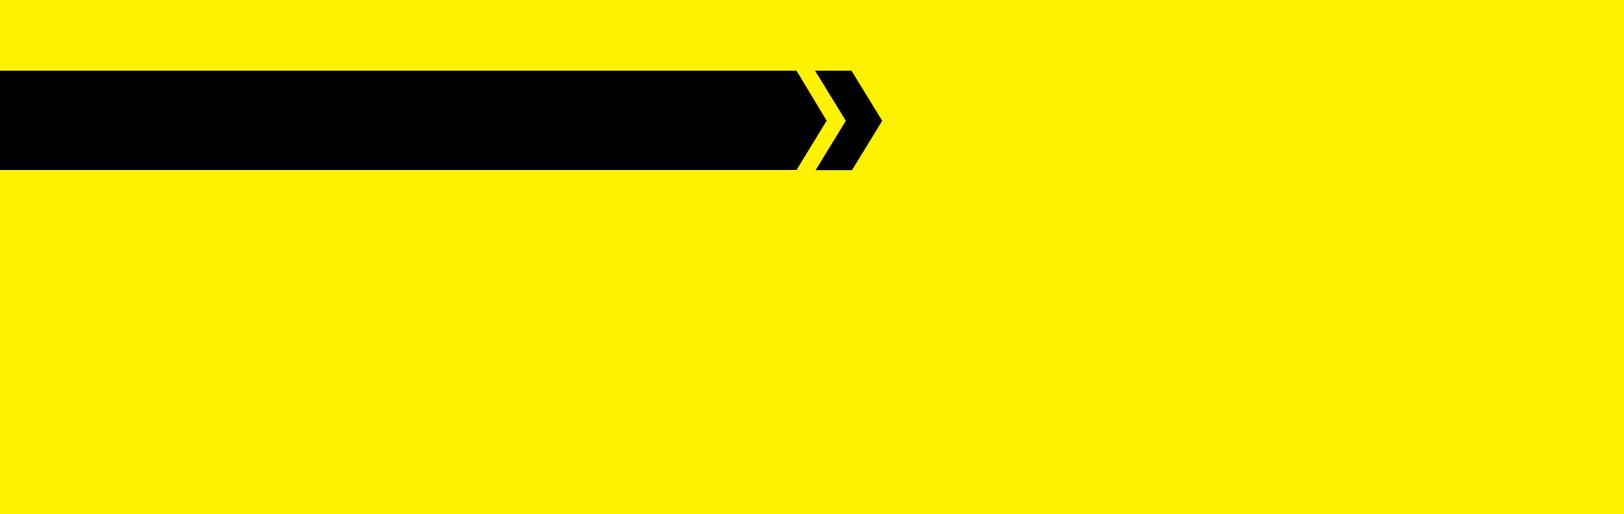

WD WET/DRY VACS -

New for 2016 is our WD line of residential wet/dry vacuums. These space-saving vacuums are unique in that the filter is housed overhead, maximizing the available tank capacity.

PUSH SWEEPERS -

Push sweepers clean up to 5 times faster than brooms and require no electricity or gas. Ideal for driveways, garages, patios, warehouses and more. So quiet they won't disturb the neighbors!

NT DUST EXTRACTORS & ACCESSORIES

OUTDOOR

Our NT line of dust extractors were designed for professional users. The NT line of commercial grade dust extractors provide dependable, trouble-free operation due to an advanced filtration system. Our patented Tact filter technology ensures continuous fine and coarse dust retrieval without a need to shut down to change or clean your filter. Suction remains constant throughout the entire job without loss in performance or power.

WINDOW VACUUM & ACCESSORIES

WV

The cordless Window Vac is the best tool for cleaning windows, glass and other flat surfaces. Simply spray the surface you want to clean with the included concentrate, use the microfiber pad to distribute the cleaning fluid and then vacuum the surface until all the cleaning fluid is removed. Gone are the streaks, spots and lint that you would normally get from cleaning with paper towels. Works perfectly on windows, mirrors, shower doors, tile, countertops, vehicle glass and more! Powered by a lithium-ion battery that never needs changing. When you're finished cleaning, simply empty the reservoir and plug in the charger so the Window Vac will be ready to clean the next time you are!

The WV 60 Window Vac Plus vacuums away dirty cleaning solution. Eliminates streaks, spots and smudges. Perfect for windows, mirrors, shower doors, tiles, counter tops and more.

Kärcher provides the Industry Leading **Rapid Exchange Program** for our electric pressure washer line

Industry leading warranty return program providing exceptional service and support to your stores:

- Eliminates the need for warranty return processing at the store.
 - Saves time and the expense of in-store return processing.
 - Customer friendly easy to use return policy.
 - Lowers the amount of non-warranty returns.
 - Improved customer satisfaction.

SOMETIMES WE DO THINGS THAT NOBODY ELSE DOES.

FOR US, EVERYDAY LIFE IS THE BEST CHALLENGE IN THE WORLD.

BY FOLLOWING WHAT PEOPLE WANT, WE REMAIN TRUE TO OURSELVES.

OUR CUSTOMERS' EVERYDAY NEEDS DEMAND NEW ANSWERS. WE ARE HAPPY TO PROVIDE THEM.

THE BIGGER THE TASK - THE GREATER THE ENJOYMENT.

WHEN OUR CUSTOMERS SHINE - WE SHINE.

**THE MOST POWERFUL FORCE IN THE WORLD FOR US:
OUR EMPLOYEES**

WITH OUR CAMPAIGNS, WE SHOW HOW WE MAKE A DIFFERENCE.

**WE WANT TO MAKE THE WORLD A BETTER PLACE.
A LITTLE BETTER EVERYDAY.**
