

ShurTech Brands™

Our Heritage — The Early Years 1950 - 1960

ShurTech Brands, traces its roots to 1950, when the Melvin A. Anderson Company was founded. Anderson, a tiny industrial tape distributor, set out to supply duct and electrical tapes to area factories. Serendipitously, almost 60 years later, Shurtape Technologies, Anderson's key supplier, would become the new parent company. However, the unique business relationship between Shurtape and the Melvin A. Anderson company, one that blossomed and helped define the industry, would have never come to fruition had it not been for the key growth engine and eventual owner, Jack Kahl.

Jack Kahl — The Beginning of a Legacy 1960 - 1978

Jack Kahl started in 1963 as Melvin Anderson's first full-time employee. Through proactive and assertive sales and marketing efforts, Jack grew sales to \$800,000. Eight years later, Jack acquired the company and changed the name to Manco Tape, Inc., an acronym for **M**elvin **A.** **A**nderson **C**ompany; the name was later simplified to Manco, Inc.

As sales of its flagship product, duct tape, continued to soar, so did the relationship with Shurtape Technologies, a full-line manufacturer of pressure sensitive tapes. Additional Shurtape supplied products, namely masking tape and packaging tape, were eventually added to Manco's product portfolio and launched in the retail marketplace.

Duck Tape® — The Building of a Brand 1978 - 1998

In 1980, against all conventional wisdom and protests from outside consultants, Jack decided to sell the company's duct tape (then a commodity product) as a branded product under the trademarks Duck® and Duck Tape®. Jack wanted customers to have a brand champion who represented a helpful, upbeat spirit.

In 1984, a friendly mascot, Manco T. Duck, was created by a former Disney artist and added to the packaging. The duck theme complemented Manco's unique corporate culture and deep commitment to be fun, friendly, helpful, imaginative and resourceful. Within four years, sales of Duck® brand duct tape skyrocketed, making it the #1 brand in America for duct tape mass retail sales and brand recognition; a place of distinction it still holds today.

ShurTech Brands Headquarters, Avon, Ohio

Going Global — The Henkel Years 1998 - 2009

In 1998, while still maintaining Manco's singular corporate culture and entrepreneurial spirit, Jack sold the company to The Henkel Group, a multinational company headquartered in Dusseldorf, Germany. Shortly thereafter in December 2000, Jack retired and his son, John Kahl, was named the new CEO of the Avon, Ohio based Henkel subsidiary.

The Henkel Group's global presence was deemed highly favorable as it allowed Manco to better serve its North American retailers with their international expansion plans. In efforts to leverage the well-recognized Henkel brand, Manco officially changed its name, in 2002, to Henkel Consumer Adhesives, Inc.

In 2004, Henkel strategically acquired certain assets of Tape Specialties Limited and a new brand, Painter's Mate Green® was added to the portfolio. However, within a half-decade, Henkel's strategic focus began to transition to their core adhesives.

The Shurtape Union — The Beginning of ShurTech Brands 2009 - Present

In 2009, The Henkel Group sold the do-it-yourself (DIY) line of tapes, office and housewares products to Shurtape Technologies, LLC in Hickory, North Carolina. The formalized union between Shurtape Technologies and its newly-named subsidiary ShurTech Brands is often described as a "marriage that was meant to be", as the collaborative partnership has been over a half-century in the making.

The transaction combined the consumer brands Duck®, Painter's Mate Green® and EasyLiner® with Shurtape's professional brands and manufacturing base. In addition, the acquisition brought a new innovative painting tape brand, FrogTape®, previously handled by Shurtape, to the ShurTech Brands portfolio.

Together, our focus is to further drive innovation, category leadership and value for our retail partners.

Shurtape®

Shurtape Overview

Shurtape Technologies, LLC, the new parent company for ShurTech Brands, is an industry-leading producer of pressure sensitive tapes focused on design, development and manufacturing. As tape specialists, Shurtape is guided by a single purpose: to help tape users do their jobs better.

Headquartered in North Carolina, the company is privately owned and operated with both domestic and international manufacturing, converting and distribution capabilities. Shurtape has a 55-year history of making pressure sensitive tapes and shares a 40-year history with ShurTech Brands, together serving the retail marketplace.

With ShurTech as its retail arm, Shurtape's customer base continues to center around the industrial sector serving a variety of markets. Key segments include: packaging, industrial and commercial supply, professional paint, building and construction, hardware/home improvement, arts & entertainment, transportation, government/military, power generation, MRO and converting.

Global Operations and World Class Manufacturing

From duct, masking and packaging tapes to foil, double-coated and specialty tapes, Shurtape makes it! Since 1997, sales have quadrupled and Shurtape's global presence has exploded. With facilities in eight countries and on four continents, Shurtape is currently operating in the United States, Canada, Mexico, Peru, United Arab Emirates, Germany, the United Kingdom and China.

Driven by the growing needs of international customers, Shurtape has developed a global manufacturing, distribution and customer service infrastructure. Integrated via a powerful enterprise resource planning platform, each facility is able to leverage accurate, up-to-date information to improve efficiency and service execution. Ultimately, customers win, as each country is able to produce and deliver the finest tapes in the industry at competitive prices.

State of the Art Research and Development Center

World-class research and development, the foundation for world-class products, has lead Shurtape to invest over \$100 million, since 1997, into new technology, equipment, distribution and expanded manufacturing.

New product development and existing product improvements are the #1 priority and central focus for associates at Shurtape's multi-million dollar research facility. With multi-process laboratory coaters, an applications lab and an environmental chamber, technicians are consistently able to produce innovative, value-engineered products that reflect the company's emphasis on environmental stewardship.

Shurtape's technological processes and ISO-certified quality systems help ensure dependable quality and proven performance in every roll of tape. Operating under a self-directed, continuous improvement philosophy, the manufacturing team is highly encouraged to seek and continually adopt new best practices.

| 280222 | 1.88" x 60 yd Roll | 8/CA |

The **ONLY** Tape Treated With

PAINTBLOCK

The FrogTape® Difference

FrogTape® is the only tape treated with **PaintBlock® technology**, a super-absorbent polymer which reacts with latex paint and instantly gels to form a micro-barrier that seals the edges of the tape, preventing paint bleed.

The result? **Very sharp paint lines!**

| | FrogTape® Multi-Surface | FrogTape® Delicate Surface |
|-------------------------------------|-------------------------|----------------------------|
| Fresh paint (Dried 24 hours min.) | | ● |
| Cured paint (Dried 3 days min.) | ● | |
| Wallpaper / Decorative Painting | | ● |
| Unfinished wood | ● | |
| Finished wood (Polyurethane, Stain) | | ● |
| Sheetrock primed only | | ● |
| Veneer / laminate / vinyl | | ● |
| Metal / glass | ● | |
| Carpet / stone | ● | |

How PaintBlock® works

PaintBlock® is added to a cup

Water (simulating latex paint) is added

PaintBlock® instantly gels to form a micro-barrier that seals the edges of the tape, preventing paint bleed.

Go to **FrogTape.com** to see a demo of how PaintBlock® works.

Masking and Painting Tape

Duck® brand has you (and your trim) covered. Our selection of painter's tapes and masking tapes will help you finish any paint job or DIY project with ease.

BubbleWrap[®]

BRAND

Superior Quality

Not all bubbles are created equal! Bubble Wrap[®] brand cushioning is a “pop” above its many imitators due to Barrier Bubble[®] technology, a nylon layer that helps prevent air loss.

Original 3/16" Bubbles

- Provides surface protection and cushioning
- Conforms easily around items
- Ideal for wrapping
- Perforated every 12 inches (except on 12" x 5' and 16" x 9' rolls)

12" WIDE

1061835 12" x 60' Roll 8/CA

12" WIDE

393251 12" x 30' Roll 12/CA

12" WIDE

Brown is the New ~~Black~~[™] Green!

Mailing products that care for the earth like you care for your items.

From tape and boxes to mailers, wrap and box fill, the Caremail® brand program is “packed” full of exciting products!

While each item has its own unique sustainability story and degree of recyclability, the main focus is the use of 25-100% post-consumer recycled fiber, exceeding the EPA's CPG guidelines.

Why is this so important? Because recycled paper production consumes 65% less energy, uses 80% less water and creates 90% less air pollution than virgin paper production.*

And that's not all ... most items are recyclable and/or biodegradable, and several can be reused.
