Do You Know Sun Gro?

Sun Gro® Horticulture is one of the largest horticultural companies in North America. Since its humble beginnings in 1929, it has become the leading supplier of soilless growing mixes to professional greenhouse and nursery growers. In fact, Sun Gro has the proud distinction of being the number one supplier to the top 100 commercial growers in North America, shipping over 70,000 truckloads of product annually.

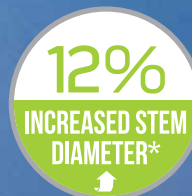

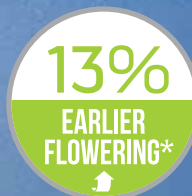

Sun Gro offers several IGC-oriented brands, which are held to the high industry standards of its professional lines. These include well-known industry names like Black Gold®, Fafard®, Sunshine® and Sunshine Advanced® retail lines. Each brand has a distinct set of characteristics that sets it apart from the rest; among them you will find a wide array of potting and specialty mixes, garden amendments and natural & organic fertilizers. Many are OMRI Listed® products approved for organic gardening, and Sun Gro's Canadian production facilities are Veriflora Certified for sustainability, so you know our products meet the highest environmental standards. Sun Gro products are available through many distributors and hardware co-ops, making them fast and easy to order.

Need more info on RESiLIENCE™?

www.sungro.com/resilience

The screenshot shows the RESiLIENCE website homepage. At the top, the RESiLIENCE logo is displayed with the tagline "LTCOM ENRICHED" and "By sungro". To the right, the text "Enhanced Plant Growth with RESiLIENCE™ Silicon Enriched Growing Mixes" is shown, along with navigation links for "Top", "Results", "Videos", "Articles", and "Brochures". The main content area features a large video player with the title "RESiLIENCE™ PATENTED GROWING MIXES ENRICHED WITH" and a play button. Below the video player, four circular icons highlight key benefits: "40% BETTER ROOT GROWTH", "13% EARLIER FLOWERING", "12% INCREASED STEM DIAMETER", and "77% LONGER TIME TO WILT". To the right of these icons, there are images of two product bags: "Propagation Mix" and "Professional Growing Mix". Below the bags, the text "RESiLIENCE™ ORGANIC STRENGTH" is displayed, followed by "THICKER STEMS", "IMPROVED ROOT MASS", and "ENHANCED WILT RESISTANCE".

This brochure is titled "RESiLIENCE™ Growth Trial Results". It features a large image of a field of yellow flowers under a blue sky. The text "Discovery CENTER" is prominently displayed. Below this, it says "Trial Results Poinsettias". On the right side, there are three smaller images showing different stages of poinsettia growth, labeled "Secondary Center", "Poinsettias", and "Plug Production".

This brochure is titled "Dry Down Video Comparisons". It displays a grid of nine images showing various plants in pots, each with a caption indicating the plant name and the time after transplant. The plants shown include: *Cerbera Jamesonii* (wilted), *Salvia splendens* (48 days after transplant), *Calceolarias e Hybrid* (43 days after transplant), *Euphorbia buerhaniana* (12 weeks after pinch), *Salvia splendens* (wilted), *Verbena* (4 weeks after transplant), *Tegaria Patula* (in standard Peat and Bark Mixes), *Budleja Virga* (7 weeks after transplant), and *Chrysanthemum* (10 weeks after transplant).

This brochure is titled "Articles: The Science of Silicon". It features three columns of text. The first column is titled "Introducing RESiLIENCE™". The second column is titled "The Sun Gro Silicon Story." and the third column is titled "Time to Say Si to Silicon – a Q&A.".

This brochure is titled "Brochures and Sell Sheets". It displays a grid of nine images showing various plants in pots, each with a caption indicating the plant name and the time after transplant. The plants shown include: *Cerbera Jamesonii* (wilted), *Salvia splendens* (48 days after transplant), *Calceolarias e Hybrid* (43 days after transplant), *Euphorbia buerhaniana* (12 weeks after pinch), *Salvia splendens* (wilted), *Verbena* (4 weeks after transplant), *Tegaria Patula* (in standard Peat and Bark Mixes), *Budleja Virga* (7 weeks after transplant), and *Chrysanthemum* (10 weeks after transplant).

Premium quality, earthworm enriched, OMRI Listed® products that are the ideal choice for IGC retailers.

All the Riches of the Earth™

Black Gold® is Sun Gro's top-selling retail line of premium potting mixes, specialty mixes, garden amendments and natural & organic fertilizers. Award-winning packaging and premium, high-performing products have led to the iconic appeal of Black Gold®. And many are OMRI Listed® for organic gardening, which further increases their consumer demand. The Black Gold® line is self-promoting. Our many growing products consistently yield great gardens, service almost every gardening need and come in a variety of package sizes.

Black Gold® All Purpose Potting Soil

- This nutrient-rich blend is great for indoor and outdoor container plantings
- Provides superior moisture retention, excellent drainage and is specially formulated with a controlled release fertilizer that feeds plants for up to six months
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

8 QT (240/pallet), 16 QT (120/pallet),
1.0 CF (70/pallet), 1.5 CF (50/pallet), 2.0 CF (40/pallet)

Ingredients: Canadian Sphagnum peat moss, bark, compost, perlite or pumice or cinders, earthworm castings and controlled release fertilizer. Plus RESILIENCE!

Black Gold® Natural & Organic Potting Soil

- Made from the finest ingredients, our Natural & Organic Potting Soil is an all-purpose mix recommended for containers and raised beds and ensures good aeration
- Contains Resilience™: May improve resistance to wilting
- OMRI Listed®

Available Sizes:

8 QT (240/pallet), 16 QT (120/pallet),
1.0 CF (70/pallet), 1.5 CF (50/pallet), 2.0 CF (40/pallet)

Ingredients: Canadian Sphagnum peat moss, bark, compost, perlite or pumice or cinders, earthworm castings, and organic fertilizer. Plus RESILIENCE!

Indoor Set & Garden Amendments

Black Gold® Waterhold Cocoblend Potting Soil

- Our all-organic Waterhold Cocoblend Potting Soil naturally retains water and has added beneficial ingredients for optimal growth and aeration
- Blend with Black Gold's® Starter & Transplant Fertilizer with mycorrhizae to boost new plantings
- Contains Resilience™. May improve resistance to wilting
- OMRI Listed®

Available Sizes:

8 QT (240/pallet), 16 QT (120/pallet),
1.0 CF (70/pallet),
1.5 CF (50/pallet), 2.0 CF (40/pallet)
60 CF tote size available

Ingredients: Canadian Sphagnum peat moss, coir, perlite or pumice or cinders, earthworm castings and organic wetting agent. Plus RESILIENCE!

Black Gold® Seedling Mix

- This highly refined, organic seedling mix is excellent for root growth for newly germinated seedlings, has low-salt and is fine, yet porous and water-retentive and has an organic wetting agent to ensure uniform water penetration
- Contains Resilience™. May improve resistance to wilting
- OMRI Listed®

Available Sizes:

8 QT (240/pallet), 16 QT
(120/pallet), 1.5 CF (50/pallet)

Ingredients: Canadian Sphagnum peat moss, perlite and organic wetting agent. Plus RESILIENCE!

Black Gold® Just Coir

- This natural soil amendment with high water-holding capacity is pure, processed, low-salt coconut coir
- We take the highest quality coir, and reconstitute it into a user-friendly, ready-to-use growing amendment
- OMRI Listed®

Available Sizes:

2.0 CF (40/pallet)
60 CF tote size available

Ingredients:
Coconut coir

Black Gold® Moisture Supreme Container Mix

- Black Gold® Moisture Supreme Container mix is specifically formulated for all your patio plants, hanging baskets and window boxes
- Includes coir for outstanding water management
- Feeds plants up to six months
- Contains Resilience™. May improve resistance to wilting

Available Sizes:

8 QT (240/pallet), 1.0 CF (70/pallet),
1.5 CF (50/pallet), 2.0 CF (40/pallet)

Ingredients: Canadian Sphagnum peat moss, bark, compost, coir, perlite or pumice or cinders, earthworm castings, controlled release fertilizer and wetting agent. Plus RESILIENCE!

Black Gold® Garden Soil

- Regionally formulated by professional horticulturists to best suit your local garden soils
- Improves soil structure by adding organic matter
- Feeds plants up to six months

Available Sizes:

1.0 CF (70/pallet)

Ingredients: Regionally formulated blend of bark plus one or more of the following: Canadian Sphagnum peat moss, compost, forest products, perlite, pumice, cinders, vermiculite plus dolomite lime and controlled release fertilizer

Black Gold® Garden Compost

- All-natural and rich in organics, Black Gold® Garden Compost offers a mixture of peat moss and aged compost to improve soil moisture retention, aeration and drainage
- This top-quality garden amendment is OMRI Listed® for organic gardening

Available Sizes:

1.0 CF (70/pallet)

Ingredients:
Compost, bark and Canadian Sphagnum peat moss

Indoor Set & Garden Amendments

Black Gold® Orchid Mix

- Recommended for terrestrial to semi-terrestrial orchids, this premium quality special blend contains added lime, to regulate pH and is highly recommended for Cymbidium, Paphiopedilum, and Phaius orchid species, among others

Available Sizes:
8 QT (240/pallet)

Ingredients:

Bark, Canadian Sphagnum peat moss, perlite or pumice or cinders and dolomite lime

Black Gold® African Violet Mix

- Picky African violets thrive in this blend which maintains a good balance between porosity and organic matter for happy, blooming plants with beautiful foliage
- It is also suited to Gloxinia, Sinningia, Streptocarpus and other gesneriads and sensitive container plants

Available Sizes:
8 QT (240/pallet)

Ingredients:

Canadian Sphagnum peat moss, bark, compost, perlite or pumice or cinders and earthworm castings

Black Gold® Vermiculite

- A naturally occurring mineral, vermiculite is highly absorbent, lightweight and an essential part of many professional soilless growing mixes
- CEC (Cation Exchange Capacity) for better fertilizer retention and release when used in the potting mix
- When used alone, it is perfect for rooting cuttings
- OMRI Listed®

Available Sizes:
8 QT (240/pallet)

Ingredients:

Vermiculite

Black Gold® Earthworm Castings

- This enriching soil amendment is great for use as a top-dressing or can be added to water to make a rich "casting tea"
- OMRI Listed®

Available Sizes:
8 QT (240/pallet), 16 QT (120/pallet)

Ingredients:

Earthworm castings, Canadian Sphagnum peat moss

Black Gold® Soil Conditioner

- Helps build soil structure while supplying needed nutrients and mycorrhizae for top performance
- Black Gold® Soil Conditioner is one of the most powerful garden soil amendments on the market

Available Sizes:
compressed bale
2.2 CF (30/pallet)

Ingredients:

Bark, compost, Canadian Sphagnum peat moss, earthworm castings, organic fertilizer and mycorrhizae

BLACK GOLD® SOIL CONDITIONER AVAILABLE IN THE WEST ONLY.

Black Gold® Peat Moss Plus

- Comprised of Canadian Sphagnum peat moss, plus an added organic wetting agent, Peat Moss Plus is particularly suited to acid-loving plants and can slightly lower the pH of more alkaline soils
- Great as a soil amendment to mix your own like the pros
- OMRI Listed®

Available Sizes:
8 QT (240/pallet), 1.0 CF (70/pallet)

Ingredients:

Canadian Sphagnum peat moss, organic wetting agent

Black Gold® Perlite

- A natural mineral used to improve the drainage and aeration of any growing medium, perlite is a lightweight, expanded volcanic rock
- Its high porosity makes it suitable for rooting cuttings
- OMRI Listed®

Available Sizes:
8 QT (240/pallet)

Ingredients:
Perlite

Black Gold® Cactus Mix

- This fast-draining medium formulation is ideal for succulent plants
- Its balanced blend of perlite/pumice, earthworm castings and compost encourages vigorous growth while ensuring ample aeration and drainage that most cacti, bromeliads and succulents require to thrive

Available Sizes:
8 QT (240/pallet), 1.0 CF (63/pallet)

Ingredients:
Perlite or pumice or cinders, bark, compost and earthworm castings

Black Gold® Pumice

- Pumice is a light, porous, quarried rock that adds lightweight bulk to growing medium
- Its high porosity increases aeration and drainage, making it an ideal medium supplement for containers as well as cacti and succulent culture
- Western United States only

Available Sizes:
4 QT (270/pallet)

Ingredients:
Pumice

BLACK GOLD® PUMICE AVAILABLE IN THE WEST ONLY

Black Gold® Peat Moss

- 100% Canadian Sphagnum peat moss, the best all-purpose natural soil conditioner, is particularly suited to acid-loving plants, can slightly lower the pH of alkaline soils and is ideal for improving water retention and aeration in garden soil
- OMRI Listed®

Available Sizes:
1.0 CF (100/pallet), 2.2 CF (50/pallet)
3.0 CF (35/pallet), 3.8 CF (30/pallet)

Ingredients:
Canadian Sphagnum peat moss

Black Gold® Orchid Bark Medium

- Our orchid bark is specially graded for uniformity and can be used as a functional and decorative component for dish gardens, terrariums and tropical plantings
- It is perfect for orchids with medium-diameter roots

Available Sizes:
8 QT (240/pallet)
1.0 CF (100/pallet)

Ingredients:
The Western United States: Fir bark
The Eastern United States: Pine bark

BLACK GOLD® ORCHID BARK MEDIUM AVAILABLE IN THE WEST ONLY

Black Gold® Orchid Bark Small

- Our small orchid bark is perfectly suited to the culture of terrestrial orchid species, such as Paphiopedilum and Cymbidium, which naturally populate woodland habitats
- Provides structural root support and aeration and is ideal for terrestrial bromeliads and ferns

Available Sizes:
8 QT (240/pallet)
1.0 CF (100/pallet)

Ingredients:
The Western United States: Fir bark
The Eastern United States: Pine bark

BLACK GOLD® ORCHID BARK SMALL AVAILABLE IN THE WEST ONLY

Black Gold® Natural & Organic Soil Builder

- This essential soil builder enriches soil with needed organic matter to increase moisture retention and promote aeration and drainage
- Apply to new or existing garden beds or when planting perennials, shrubs or trees

Available Sizes:
1.5 CF (50/pallet)

Ingredients:
Bark, compost and forest products

The Science Behind the Art®

When creating a work of art, it's important to start with the right materials.

The Science Behind the Art®

Since 1920, Fafard® has been providing Canadian Sphagnum peat moss to gardeners in the United States. The Fafard retail line consists of a variety of premium peat-based potting soils, specialty plant mixes as well as amendments, so gardeners are certain to find a product to fit their growing needs. And since 2011 the Canadian production facilities that produce Fafard have been Veriflora Certified, which means they comply with rigorous environmental, social and product quality standards. Sun Gro® offers the same popular Fafard formulations, so customers can enjoy the same superior and very consistent quality they have come to rely on in the past.

Potting Mixes

Fafard® Ultra Container Mix with extended feed

- This all-purpose container mix with Moisture Pro™ water holding crystals, helps maintain mix moisture for longer, and an extended-release fertilizer to keep plants fed up to four months
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

1.0 CF (90/pallet), 2.0 CF (48/pallet)

Ingredients: Regionally formulated blend of Canadian Sphagnum peat moss and one or more of the following: peat, processed softwood bark, forest products, compost, perlite, vermiculite, peanut hulls; dolomitic limestone, controlled release fertilizer, hydrogel and wetting agent. Plus RESILIENCE!

Fafard® Professional Potting Mix

- An all-purpose potting mix based on our professional formulation used by commercial growers, Fafard Professional Potting Mix is a top-quality peat-based blend recommended for all indoor and outdoor container plantings
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

8 QT (200/pallet), 1.0 CF (90/pallet), 2.0 CF (48/pallet)

Ingredients: Regionally formulated and contains a blend of Canadian Sphagnum peat moss or peat and one or more of the following: processed softwood bark, forest products, compost, perlite, vermiculite or peanut hulls; dolomitic limestone and wetting agent. Plus RESILIENCE!

Fafard® Ultra Potting Mix with extended feed

- A rich, ready-to-use potting mix recommended for a wide variety of bedding and potted plants grown indoors and out
- It is fortified with a slow-release fertilizer that continues to feed plants for up to six months
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

8 QT (200/pallet), 1.0 CF (90/pallet), 2.0 CF (48/pallet)

Ingredients: Regionally formulated blend of Canadian Sphagnum peat moss and one or more of the following: peat, processed softwood bark, forest products, compost, perlite, vermiculite, peanut hulls; dolomitic limestone, controlled release fertilizer and wetting agent. Plus RESILIENCE!

Fafard® Ultra Outdoor Planting Mix

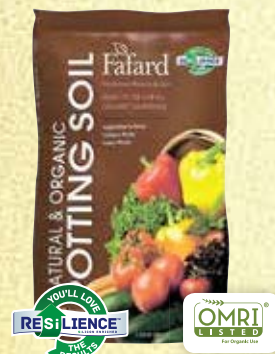

- Rich in organic matter, this high-quality planting mix has been formulated for garden and landscape planting
- It contains Canadian Sphagnum peat moss and aged softwood bark to add structure and needed organic matter to clay-rich or sandy soils

Available Sizes:

1.0 CF (90/pallet)

Ingredients: Regionally formulated and contains a blend of processed softwood bark and one or more of the following: forest products or compost; Canadian Sphagnum peat moss or peat, vermiculite, perlite or peanut hulls and dolomitic limestone

Fafard® Natural & Organic Potting Soil

- Great for organic gardening, Fafard Natural & Organic Potting Soil is a rich blend of natural and organic materials for indoor and outdoor growing
- Contains Resilience™: May improve resistance to wilting
- OMRI Listed®

Available Sizes:

8 QT (200/pallet), 1.0 CF (90/pallet)

Ingredients: Regionally formulated and contains a blend of Canadian Sphagnum peat moss, processed softwood bark, perlite, dolomitic limestone and organic wetting agent. Plus RESILIENCE!

Potting Mixes

Fafard® African Violet Potting Mix

- Picky African Violets grow well in this blend created to maintain a good balance between porosity and organic matter for happy, blooming plants with beautiful foliage. It is also suited to Gloxinia, Sinningia, Streptocarpus and other sensitive container plants

Available Sizes:
8 QT (200/pallet)

Ingredients:

Canadian Sphagnum peat moss, bark, perlite, dolomitic limestone and wetting agent

AVAILABLE IN THE EAST ONLY. LIMITED QUANTITIES.

Fafard® Cactus & Succulent Potting Mix

- A fast-draining medium formulation for succulents, it encourages good growth while providing ample aeration and drainage that most cacti, bromeliads and succulents need

Available Sizes:
8 QT (200/pallet)

Ingredients:

Canadian Sphagnum peat moss, processed softwood bark, perlite, dolomitic limestone and wetting agent

AVAILABLE IN THE EAST ONLY. LIMITED QUANTITIES.

Fafard® Orchid Potting Mix

- Ideal for terrestrial to semi-terrestrial orchids, it is highly recommended for Cymbidium, Paphiopedilum, and Phaius orchid species, among others

Available Sizes:
8 QT (200/pallet)

Ingredients:

Bark, coir and perlite

AVAILABLE IN THE EAST ONLY. LIMITED QUANTITIES.

Fafard® Natural & Organic Seed Starter

- Fine textured yet porous mix which retains water which is needed for newly germinated seedlings
- It ensures uniform water penetration, a common problem with comparable mixes, and excellent root growth for newly germinated seedlings
- Contains Resilience™: May improve resistance to wilting
- OMRI Listed®

Available Sizes:
1.0 CF (70/pallet)

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomitic limestone and organic wetting agent

Fafard® Seed Starter Potting Mix

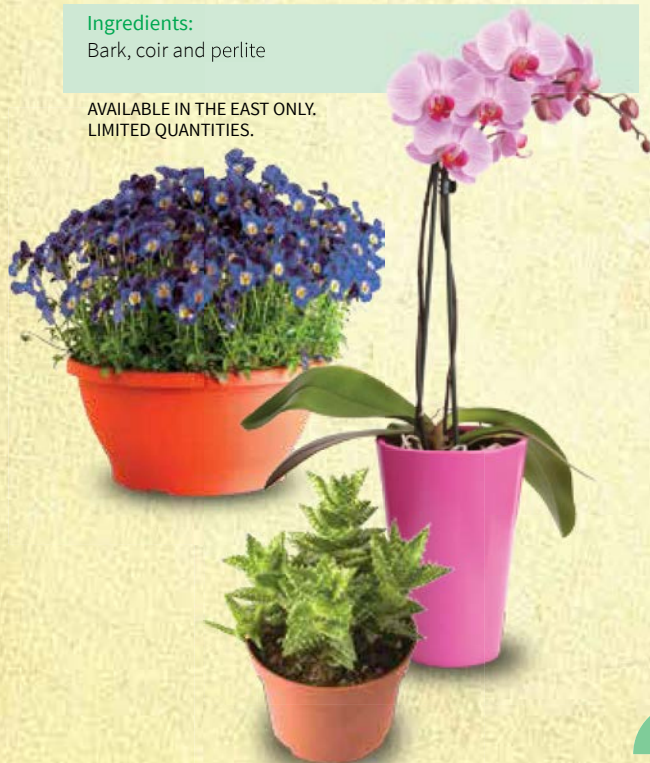

- This seed starting mix is fine, yet porous, and retains water well
- We add a wetting agent to ensure uniform water penetration, a common problem with comparable mixes, and plug grade peat moss and perlite to ensure excellent root growth for newly germinated seedlings
- Contains Resilience™: May improve resistance to wilting

Available Sizes:
8 QT (200/pallet)

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomite lime and wetting agent. Plus RESiLIENCE!

AVAILABLE IN THE EAST ONLY. LIMITED QUANTITIES.

Amendments

Fafard® Horticultural Perlite

- Used to improve the drainage and aeration of any growing medium, Fafard Horticultural Perlite is odor free
- Its high-porosity makes it perfect for use in plant propagation
- OMRI Listed®

Available Sizes:
8 QT (200/pallet)

Ingredients:
Horticultural grade perlite

AVAILABLE IN THE EAST ONLY. LIMITED QUANTITIES.

Fafard® Premium Natural & Organic Compost

- Formulated for organic gardening, this is a rich blend with added nutritive benefits
- Enriches any garden bed or landscape planting, from bedding annuals, perennials and vegetables to trees and shrubs

Available Sizes:
1.0 CF (70/pallet)

Ingredients: Regionally formulated and contains a blend of compost and one or more of the following: Canadian Sphagnum peat moss or peat, processed softwood bark, forest products, perlite, vermiculite or peanut hulls, seaweed and shrimp compost

Fafard® Premium Topsoil

- Will add much-needed organic matter to any garden soil or landscape planting requiring enrichment
- It is also ideal for starting or top-dressing lawns or filling low spots in the landscape or garden

Available Sizes:
1.0 CF (70/pallet)

Ingredients: Regionally formulated and contains a blend of compost and one or more of the following: Canadian Sphagnum peat moss, peat, processed softwood bark, forest products, compost, perlite, vermiculite or peanut hulls

Fafard® Garden Manure Blend

- This product is best used for flower beds, vegetable gardens, annuals, perennials, trees, shrubs and lawns

Available Sizes:
1.0 CF (70/pallet)

Ingredients:
A blend of manure and organic materials (derived from peat, forest products or compost)

SUNSHINE
ADVANCED

Developed
to be the best
performing
grow mixes on
the market.

Grow with Confidence

Trust OMRI Listed® Sunshine Advanced to fire-up growth for all your plants. Each product is meticulously formulated to meet the needs of professionals, yet they're so easy to use that even beginning gardeners achieve success. Whether you've got tomatoes in containers on your deck or an entire herb garden indoors under lights, Sunshine Advanced will help you grow bountiful harvest naturally and organically.

Sunshine® Advanced Mix #4

- Sunshine Advanced #4 Growing Mix is recommended for indoor growing
- This myco-active mix retains moisture while providing improved root aeration and drainage
- Contains Resilience™: May improve resistance to wilting
- Expands up to 2x
- OMRI Listed®

Available Sizes:

3.0 CF (35/pallet) (expands to up to 6 CF)
60 CF tote size available

Ingredients:

Canadian Sphagnum peat moss, perlite, coir, dolomite lime, gypsum, organic fertilizer, proprietary blend of endomycorrhizae and organic wetting agent. Plus RESILIENCE!

Sunshine® Mix #4 with Mycorrhizae

- For indoor growing!
- Contains a higher amount of horticultural perlite for plants that prefer greater air porosity
- Our classic #4 boosted with endomycorrhizae
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

3.0 CF compressed bales
(expands to up to 6 CF)
(35/pallet)
60 CF tote size available

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomite lime, low phosphorus fertilizer, proprietary blend of endomycorrhizae and wetting agent. Plus RESILIENCE!

Sunshine® Advanced Rain Forest Blend

- Offering optimal water retention and porosity, this blend is a myco-active medium ideal for growing many herbs and vegetables
- It contains starter organic fertilizer, along with humic acid, kelp meal and alfalfa meal, for an initial boost; start your own feeding program 14 days after planting or seedling emergence
- Contains Resilience™: May improve resistance to wilting
- OMRI Listed®

Available Sizes:

2.0 CF (40/pallet)
60 CF tote size available

Ingredients:

Bark, coir, perlite, compost, earthworm castings, organic fertilizer, proprietary blend of endomycorrhizae and organic wetting agent. Plus RESILIENCE!

Sunshine® Advanced Ultra Coir

- Modeled after our professional coir-based mixes
- It is specifically designed for growing foliage crops, vegetables, herbs and other consumable crops. It is suitable for both indoor and outdoor growing but is most recommended for indoor use for crops requiring a lot of water
- Contains Resilience™: May improve resistance to wilting
- OMRI Listed®

Available Sizes:

2.0 CF (40/pallet)
60 CF tote size available

Ingredients:

Coir, Canadian Sphagnum peat moss, perlite, organic fertilizer, proprietary blend of endomycorrhizae and organic wetting agent. Plus RESILIENCE!

For vegetables and herbs or whatever your gardening needs, Sunshine® Mix #4 and Sunshine® Advanced are consistent grow mixes for extreme performance.

Sell your customers the most popular professional grower brand in the market.

Plants Love Sunshine® and so Will You!

Growers choose Sunshine garden mixes for a reason. This prestigious, top-quality brand offers a wide variety of potting mixes and Canadian Sphagnum peat moss to satisfy a multitude of gardening needs. The Sunshine label includes multi-purpose blends for general gardening and many are OMRI Listed® mixes approved for organic gardening.

Sunshine® All-Purpose Potting Mix

- Formulated for indoor use
- Premium growing mix effectively retains nutrients and water
- Comprised of peat moss, perlite and starter fertilizer
- Certified as a Premium Potting Soil by the Mulch and Soil Council®
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

1.5 CF (75/pallet), 2.5 CF (45/pallet)

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomite lime and wetting agent. Plus RESILIENCE!

Sunshine® Professional Growing Mix

- Premium multi-purpose blend formulated for a wide range of indoor and outdoor gardening
- Plants will thrive in this ready-to-use formulation made with the best Canadian Sphagnum peat moss
- Contains controlled release fertilizer to feed up to 6 months
- Certified as a Premium Potting Soil by the Mulch and Soil Council®
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

1.5 CF (75/pallet), 2.5 CF (45/pallet)

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomite lime, controlled release fertilizer and wetting agent. Plus RESILIENCE!

Sunshine® Natural & Organic Professional Growing Mix

- An ideal mix for foliage, bedding plants, solariums and container gardens for your organic indoor and outdoor needs
- Contains Canadian Sphagnum peat moss, plus perlite, a natural mineral which provides good air space
- Certified as a Premium Potting Soil by the Mulch and Soil Council®
- Contains Resilience™: May improve resistance to wilting
- OMRI Listed®

Available Sizes:

2.2 CF (50/pallet)

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomite lime and organic wetting agent. Plus RESILIENCE!

Sunshine® Container Potting Mix

- A premium Canadian Sphagnum peat-based potting mix with an added water-holding polymer
- Retains and slowly disseminates water, so you don't have to water as often
- It is formulated for summer container plantings, hanging baskets or window boxes
- Contains a controlled release fertilizer to feed up to 6 months
- Contains Resilience™: May improve resistance to wilting

Available Sizes:

1.5 CF (75/pallet), 2.5 CF (45/pallet)

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomite lime, controlled release fertilizer, water-holding polymer and wetting agent. Plus RESILIENCE!

Sunshine® Rose & Flower Planting Mix

- Comprised of Canadian Sphagnum peat moss, perlite and bark for good flower growth and to improve the soil in your garden
- It is recommended as both a premium planting mix for containers or a garden amendment for flower beds

Available Sizes:

1.5 CF (75/pallet),
 2.5 CF (45/pallet, this product is not available in the Eastern Region)

Ingredients:

Canadian Sphagnum peat moss, aged or composted bark, perlite, dolomite lime and wetting agent

SUNSHINE® ROSE & FLOWER PLANTING MIX AVAILABLE IN THE WEST ONLY

Sunshine® Natural & Organic Planting Mix

- Designed by professional horticulturists, this is the same formulation used by commercial greenhouse growers throughout North America
- It is an all-purpose potting medium that works well indoors and out
- Contains Resilience™: May improve resistance to wilting
- OMRI Listed®

Available Sizes:

1.5 CF (75/pallet), 2.5 CF (45/pallet)

Ingredients:

Canadian Sphagnum peat moss, perlite, dolomite lime and organic wetting agent. Plus RESILIENCE!

Sunshine® Peat Moss

- Organic soil conditioner recommended as a soil amendment or for seeding lawns
- Suited to acid-loving plants and can slightly lower the pH of more alkaline soils
- Compressed bales to allow for convenient storage and easy handling
- OMRI Listed®

Available Sizes:

- 1.0 CF (100/pallet) (compressed bales)
- 2.2 CF (50/pallet) (compressed bales)
- 3.0 CF (35/pallet) (compressed bales)
- 3.8 CF (30/pallet) (compressed bales)

Ingredients:

Canadian Sphagnum peat moss

Sunshine® Coarse Perlite Premium Grade

- Professional grade perlite – the same as what is used in Sunshine professional mixes
- Works well for rooting cuttings or adding aeration and drainage to mixes
- OMRI Listed®

Available Sizes:

- 2.0 CF (60/pallet)

Ingredients:

Perlite

Sunshine® Vermiculite Premium Grade

- Professional grade vermiculite used in commercial greenhouse Metro Mixes
- Improves CEC (Cation Exchange Capacity) in mixes to help retain and release nutrients
- Used as a 'seed topper' or cutting medium by professional growers
- OMRI Listed®

Available Sizes:

- 2.0 CF (60/pallet)

Ingredients:

Vermiculite

MARKETING INITIATIVES

Redefining Retail

At Sun Gro, we believe in educating our customers by providing a steady stream of helpful tips and ideas for consumers through events, expert-driven blogs and other resources. Our Black Gold®, Sunshine®, Sunshine® Advanced® and Fafard® retail specific websites are equally exciting, informative and helpful. Our team of horticultural experts provide loads of garden articles and best-use growing tips.
