PORTER PAINT GLYPTEX SATIN WATERBORNE ALKYD INTERIOR/EXTERIOR ENAMEL PAINT

Offers an environmentally preferred, low VOC, low odor product with performance characteristics of a conventional alkyd, but with the application ease and water clean up of a latex. It is a super premium, versatile product which can be used for both interior and exterior applications including wood and trim, drywall, plaster, wall paper, metal and masonry surfaces, offering superior hiding, long-lasting beauty and durability. It has been formulated to provide excellent flow and leveling and adhesion to provide a smooth film hardness that resists abrasions and stains, washes easily and has excellent color and gloss retention. The WB alkyd technology minimizes yellowing vs. conventional alkyds, but provides similar hardness, sandability and blocking resistance.

FIXALL TRIUMPH WHITE ACRYLIC SEMI-GLOSS PAINT

Fixall Triumph Semi-Gloss is a premium quality, self-priming, Zero VOC interior acrylic latex enamel with exceptional durability and ease of application. Triumph Semi-Gloss is ceramic fortified for extra washability and is formulated an anti-microbial protection to help resist mildew from growing painted surfaces. Walls and trim painted with Triumph Semi-Gloss dry to a medium sheen, and painted rooms can be occupied right away with no paint odor or compromise to indoor air quality. Triumph is self-priming on most surfaces. Gallon.

Paint, Fixall Paint, Traffic Marking

FIXALL TRAFFIC MARKING PAINT

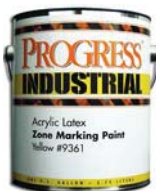

For marking streets, parking areas, storage areas, crosswalks, etc. Can be applied over concrete, brick or asphalt surfaces. Use as it comes in the can. May be thinned with VM & P Naphtha only. Contains silicates, if sprayed, respiratory protection must be used. Use when surface and air temperature are above 50 deg. F. High humidity will increase dry time.

STORM SYSTEM CATEGORY 1 NATURAL OIL FINISH

Provides maximum protection to exterior wood decks and surfaces exposed to water, ultraviolet rays and general atmospheric contamination including acid rain. This durable resin seals, waterproofs and protects exterior wood decks subject to the rigors of drastic weather and temperature changes. This finish restricts cracking, peeling and blistering and can be used on new wood, previously stained wood and new pressure treated wood with proper preparation. One coat should be applied over new or previously stained or finished decks that have aged and have been properly prepared. This finish has a honey color and is formulated for maximum abrasion on wear areas.

Wood Stains, Finishes and Sealers, Fixall Wood Stains, Finishes and Sealers, Storm System Finishes and Stains

STORM SYSTEM CATEGORY 5 OIL BASED PRIMER

These special wood primers should be used under Storm System Stains. May be used under either Linseed Oil or Urethane Acrylic Latex Base. These coatings are designed to neutralize and help eliminate the natural tannin or sugar staining and discoloration produced by bare woods such as red cedar, redwood, fir, pine or white cedar and seal the wood for uniformity of the finish. This product is excellent for use under the Storm System Category IV Acrylic Stain finish coats.

STORM SYSTEM CATEGORY 5 ACRYLIC LATEX PRIMER

These special wood primers are formulated for use under Storm System Solid Color Stains, either Linseed Oil or Urethane Latex Base. These exterior base coats are designed to help eliminate the natural tannin or sugar staining and discoloration produced by bare woods such as red cedar, redwood, fir, pine or white cedar. These primers have excellent adhesion to all wood surfaces and are highly resistant to peeling. The unique formulation also helps to retard the surface rusting of uncoated nails. These products are excellent for use under the Storm System Category IV Acrylic Stain finish coats.

RUST-OLEUM RESTORE DECK START WOOD PRIMER

Eliminates the need for stripping and sanding. Simply clean the surface, apply 1-coat of the primer and the deck is ready to be coated with any solid color coating. Suitable for outdoor application on wood decks, fences, siding, furniture and more. Formulated with innovative adhesion chemistry that provides superior grip between the existing surface and new top coat. Works on weathered, worn or previously coated wood. Works with any solid top coat and eliminates the stripping and sanding step. Dries to touch in 1 hour. Allow to dry for 1 to 2 hours before applying solid color top coat. Low-VOC, water-based formula with minimal odor. Cleans with soap and water. Use under solid top coats only, do not use under a transparent, semi-transparent or clear coating.

ENCORE 2.5 GALLON WOOD KIT DECK COATING

Encore is an environmentally-friendly water-based coating that you can apply in less than a day using a paint roller and/or brush. To achieve the perfect color, add one gallon of exterior latex paint in your color choice. The pigment in the paint transfers for a perfect color match. Encore is fire and stain resistant and can be cleaned easily with water. Encore imparts a comfortable, skid-resistant finish that's ideal for bare feet and safety. In most cases, Encore will protect a wood deck for 4-5 years. Thereafter, a maintenance coat extends performance again. Everything cleans up with water. Maintain your Encore deck with soap & water. This is the perfect DIY product!

ENCORE COATINGS POLYMATRX PAINT ADDITIVE

Tired of painting? Then make POLYMATRx part of your painting project. Add one quart of POLYMATRx to a gallon of paint and paint. It's that simple. POLYMATRx turns paint into an elastomeric coating so it can expand and contract with exterior siding. Homes and buildings painted 30 years ago with this product have not been repainted. POLYMATRx does not change the color of the paint, but could add a slight sheen to some paints. Paint modified with POLYMATRx is easier to apply, easier to clean too. One quart modifies one gallon of acrylic/latex paint.

Wood Stains, Finishes and Sealers, Stains, Finishes and Cleaners, Old Masters Stain

OLD MASTERS GEL STAIN

Highly pigmented, oil-based stain designed to achieve intense colors on interior and exterior wood, fiberglass, metal and composition surfaces. Thick formula allows easy application and superior color control, necessary to achieve a rich and uniform color on most surfaces in a single application. Ideal for difficult-to-stain woods such as pine, poplar, maple, plywood and veneers, as well as nonporous surfaces including metal, composition (Masonite), interior and exterior fiberglass doors and plastic moldings.

OLD MASTERS OIL BASED SANDING SEALER

A high-caliber alkyd stain designed for the professional craftsman who values speed, versatility and performance. This stain's heavy consistency provides ease of application and achieves warm, rich colors in one coat. Its formulation allows the color to flow easily onto the surface and penetrate deep into the wood's natural grain. Within minutes of the stain's application, you can apply virtually any finish. This product is ideal on all interior wood surfaces, such as cabinets, doors, furniture, floors and woodwork.

Wood Stains, Finishes and Sealers, Stains, Finishes and Cleaners, Old Masters Stain

OLD MASTERS FAST DRY WOOD STAIN

A high-caliber alkyd stain designed for the professional craftsman who values speed, versatility and performance. This stain's heavy consistency provides ease of application and achieves warm, rich colors in one coat. Its formulation allows the color to flow easily onto the surface and penetrate deep into the wood's natural grain. Within minutes of the stain's application, you can apply virtually any finish. This product is ideal on all interior wood surfaces, such as cabinets, doors, furniture, floors and woodwork.

OLD MASTERS EXTERIOR OIL-BASED SPAR-MARINE VARNISH

A superior exterior coating formulated with Tung Oil and Ultraviolet Absorbers (UVA), produces a high quality, flexible finish that withstands weathering due to sun, water, and salt spray. POLY PLASTIC provides an extremely durable coating for all exterior wood surfaces, such as fences, railings, lawn furniture, doors, boats, and marine surfaces. POLY PLASTIC may be used in interior applications where added protection is necessary, such as interior window sills. POLY PLASTIC requires no sealer on new wood and may be applied over previously varnished, lacquered, or stained surfaces which are free of waxes, silicones, household greases, or other substances which would impair adhesion.

OLD MASTERS EXTERIOR OIL-BASED PENETRATING SEALER

a clear, penetrating oil formulated with natural Tung oil to protect and seal a variety of surfaces. This product seals surfaces to resist weather, mold and mildew. On wood surfaces, this product seals out moisture to enhance the life and natural appearance of wood while preventing staining and checking. On masonry and concrete it will produce a moisture seal that reduces concrete dusting, staining and efflorescence of masonry and brick surfaces. Sealer also hardens masonry and natural rock surfaces and reduces frost damage.

OLD MASTERS BRUSHING LACQUER

This is crystal clear, fast drying and self-leveling interior lacquer that provides a durable finish resistant to water and alcohol. It is easily repaired and recoated without removing the old finish. Fast drying, this formula allows multiple coats and one day finishing. Ideal for use on cabinets, furniture, woodwork and trim, and antiques. It is recommended for use on interior wood, metal and fiberglass surfaces. It can be used on unfinished wood surfaces or previously finished surfaces that have been properly prepared. It can also be used over stained surfaces that have been thoroughly dried.

DAMTITE WATER REPELLENT

An odorless water-based siloxane formulated to penetrate the surface of concrete, brick, mortar, tile, stucco and other masonry surfaces. It forms a water repellent shield for long lasting wear. It can be used on vertical and horizontal above-grade surfaces, interior and exterior. Clear Shield protects concrete driveways and walks against adverse effects of deicing salts (chloride ions), water, ice, and weathering damage. It will not discolor concrete. Coverage: Ranges from 75-125 square feet per gallon, depending upon porosity and density of surface.

AMES RESEARCH CLEAR SEAL

Clear Seal is a unique, semi-clear elastomeric plastic sealant and adhesive for wood and concrete. It penetrates deeply into wood and concrete to actually glue and bind together the molecules of the surface it is being applied to. Rotting and deteriorating surfaces can be restored to a somewhat new condition and often the surface life can be extended for one or more years of usefulness. Clear Seal helps preserve wood from mildew and moss formation, helps to prevent concrete efflorescence and helps to prevent rust from penetrating metal by preventing air from reaching the surface.

AMES RESEARCH SUPER ELASTO BARRIER

A waterbase liquid dual-rubber coating that has better adhesion than before. It is used primarily for roof, wall, and roof deck waterproofing in extreme wet situations such as ponding water. It has excellent adhesion to rusty surfaces. Super Elasto-Barrier is especially effective in saving old tar roof systems. It flows into cracks and crevices as a liquid, and then sets up as a durable rubber to seal leaks wherever they occur. Super Elasto-Barrier must be top coated with Maximum-Stretch, Snow Seal, or Iron Coat roof coating.

JETCOAT FIBERED ALUMINUM ROOF COATING

A blend of pure waterproofing asphalt and high grade aluminum pigments plus the addition of fibers. Reflects up to 80% of the sun's rays, helping prevent excessive drying and cracking of substrate, thus reducing leaks. Areas immediately under roof will remain approximately 15-20 degrees cooler in summer. In winter, inside heat is reflected back into the building, thus saving energy costs. Dries silver. Use on metal roofs, mobile homes, weathered asphalt and built-up roofs.

FRANKLIN INTERNATIONAL TITEBOND WOOD MOLDING GLUE

Titebond Molding & Trim Wood Glue. The thickest, fastest drying glue available for use with porous and semi-porous substrates. This no-run, no-drip formula dries clear and is ideal for finish and trim carpentry, including crown moldings, chair rails, cabinet trim, baseboards and window casings. Titebond Molding & Trim Wood Glue provides strong initial tack and fast speed of set, yet allows realignment of working pieces to ensure proper positioning before bonding. This professional-grade glue develops a bond stronger than the wood itself, offers excellent sandability and is unaffected by finishes. Titebond Molding & Trim Wood Glue is easy to use, non-toxic, solvent free and cleans up with water.

Glues and Epoxies, Borden Glues and Epoxies, Wood Glue

FRANKLIN INTERNATIONAL TITEBOND WOOD GLUE

The first hide glue to be offered in a liquid, ready-to-use form - requires no heating or mixing. Professional woodworkers use this formula for its exceptional strength, long open assembly time, excellent sandability and superior creep resistance. Craft hobbyists utilize Titebond Liquid Hide Wood Glue as a "crackling" medium to achieve a weathered look on furniture, cabinets, picture frames and other items. Its sensitivity to moisture allows for the easy disassembly of parts, a critical benefit in antique furniture restoration and the repair of musical instruments."

811858	027776 PC-7 EPOXY PASTE 2OZ	12@	EACH A	5.84 0.EXZ

PROTECTIVE COATING PC-11 EPOXY ADHESIVE PASTE

PC-11 formulation provides extended working time, for large and critical jobs, which allows the user to re-position work or makes changes. High wet grab or tack of PC-11 Paste Epoxy makes overhead and sidewall work easy, without drip or sag. PC-11 demonstrates excellent chemical resistance to mild acids, caustics, detergents, gasoline, fuel oil, salt and fresh water. PC-11 will not bond to wax paper, Teflon, Polyethylene and some other plastics. Test a small area when in doubt. Two-part marine epoxy adhesive paste bonds materials in dry, wet, and underwater environments. Bonds many materials, including fiberglass, concrete, many metals, glass, ceramic, and rubber. Can be used in indoor and outdoor applications, with a temperature range of 35 to 115 degrees F and a service temperature range -20 to +200 degrees F. High-tack paste can be used in vertical and overhead applications. Resists mild acids, caustics, detergents, gasoline, fuel oil, and fresh and salt water.

ACCUMETRIC BOSS 136 FIREBLOCK/DRAFTSTOP SEALANT

BOSS 136 Firestop/Draft Sealant is ideal for use in residential construction in areas that require sealing to maintain the integrity of a firestop. BOSS 136 Firestop/Draft Sealant can be easily applied with a standard caulk gun, pneumatic pumping equipment, or a putty knife. It adheres to virtually any material, including wood, masonry, metal and plastic. It is red in color and applies like conventional caulk. This fireblocking material is a one-part, non combustible, general purpose fire-rated sealant that meets and exceeds the specifications for ASTM E-136 and conforms to all national building codes, including BOCA, CABO, SBCCI, ICBO, NFPA and the 2003 International Building Codes. It is one of the most versatile firestop products available in today's marketplace.

Caulking Compounds and Guns, Caulk and Sealants, Firestop Sealant

ACCUMETRIC 10OZ. RED INTUMESCENT LATEX FIRESTOP SEALANT

In the event of a fire, BOSS 814, a one-part, elastomeric, intumescent firestop sealant will expand to form an insulating char that prevents the spread of fire, smoke, and toxic gases through construction openings. Formulated with non-combustible, inorganic materials. Remains flexible when cured, making it ideal for both horizontal and vertical joints that are subject to vibration or dynamic movement. With its excellent adhesion properties, it is particularly suited for sealing walls and floors that have been penetrated by pipes, conduits, and electrical cables in all types of construction. It can also be used to fill interior voids around HVAC, plumbing, and framing. BOSS 814 Intumescent Latex Firestop Sealant meets or exceeds ASTM E-814 (UL 1479) and meets the criteria for fire/smoke/draft stop for BOCA, CABO, UBC, SBCCI, IRC and the 2003 International Building Codes. The product is very easy to apply using a standard caulking gun or trowel and cleans up with water, prior to curing. It can be used for interior or exterior applications and can be painted (after inspection).
