THE ORIGINAL WOOD PELLET GRILL

TRAEGER INVENTED THE ORIGINAL WOOD-FIRED GRILL
30 years ago in Mt. Angel, Oregon. We continue to lead the industry as the world's #1 selling wood-fired grill, perfected by decades of mastering the craft of wood-fired cooking.
A Traeger grill will transform the way you cook because it creates consistent results, every single time. Fuel your hunger for wood-fired flavor with Traeger.

SIX WAYS TO MASTER YOUR GRILLING GAME

WHEN YOU FIRE UP YOUR TRAEGER, you ignite the power to grill, smoke, bake, roast, braise, and BBQ — you're the master of all trades. From baby back ribs to wood-fired pizza, smoky mac & cheese and even homemade apple pie, anything you can cook up in your head, you can cook up on your Traeger.

COOKING OVER WOOD, MADE SIMPLE

TRAEGER'S EASE OF USE and simple controls let you focus on what matters: your food, your family, and your friends.

1. HOPPER

Holds 100% pure Traeger Hardwood Pellets.

2. CONTROLLER

Delivers and maintains precise temperature, just like your oven.

3. AUGER

Brings pellets to the fire pot. The higher the temp, the faster it moves pellets.

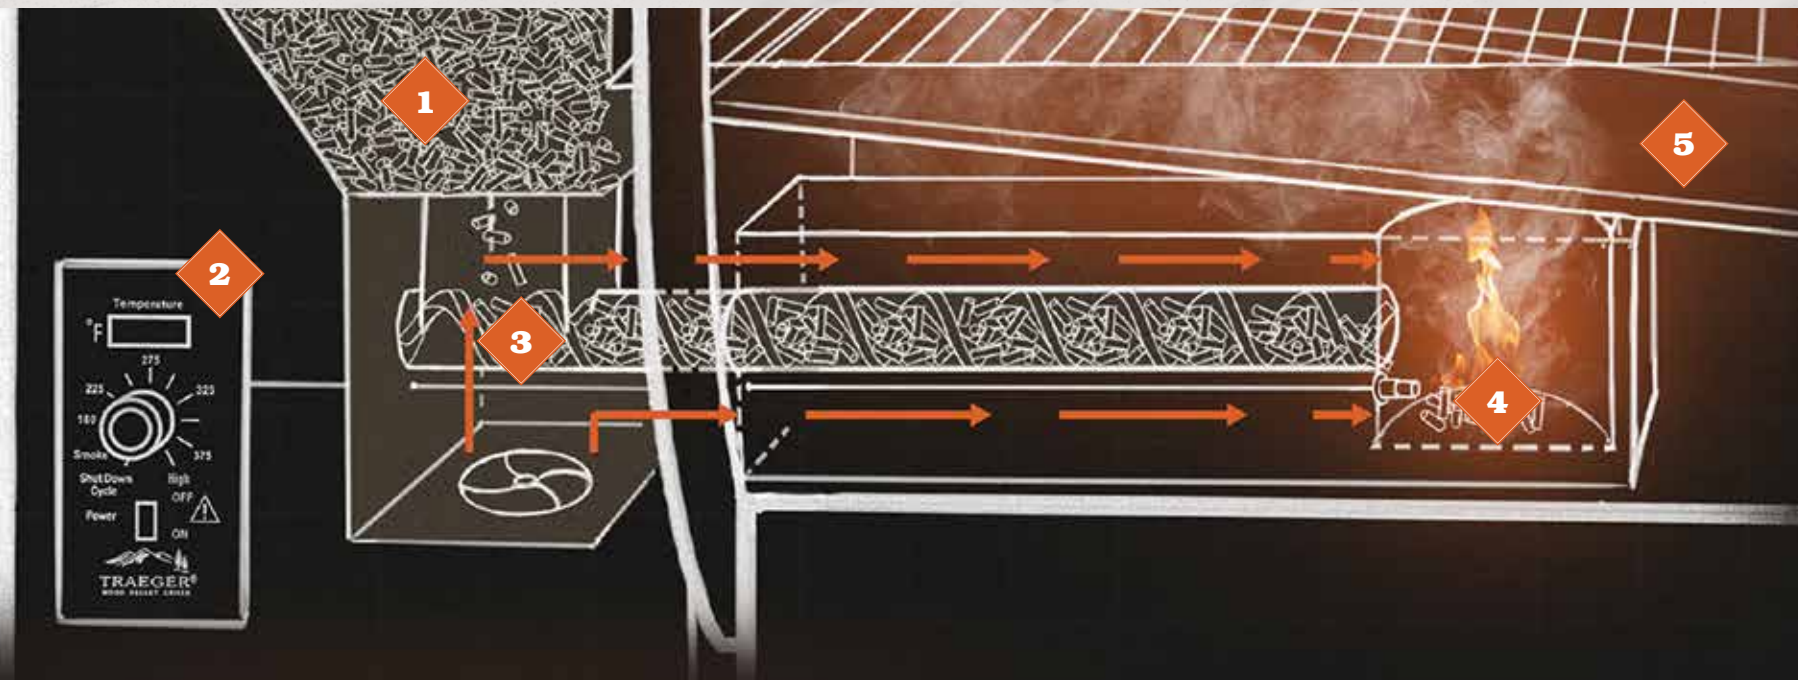

4. FIRE POT

The hot rod starts the fire, the fan stokes the fire and creates a convection of heat circulating around your food.

5. DRIP TRAY

Keeps the direct flames off your food while catching food drippings to prevent flare-ups.

(cover with aluminum foil for easy clean up)

THE PRO SERIES

HOPPER CLEAN-OUT

Changing wood flavors? No problem. From applewood bacon to hickory smoked ham, changing wood is easy with the hopper clean-out feature.

EXTRA GRILL RACK

The Pro Series extra grill rack gives you the ability to grill more meat at once. With 30% more cooking capacity, cook for your family and invite the neighbors.

SIDE-LIFT BAR

Now, with the lift bar on the side of the barrel, easily haul your grill around the yard. It's even weight distribution makes your BBQ more maneuverable than ever.

DIGITAL PRO CONTROLLER

Upgraded Digital Pro Controller with Advanced Grilling Logic™ (AGL) delivers precise and consistent temperature to +/- 15°F.* Dual meat probes make checking internal temperatures simple.

FOLDING FRONT SHELF

A folding front shelf makes a great landing pad for messy grilling utensils or a cold beverage. (Sold Separately)

SAWHORSE CHASSIS

Traeger's new proprietary sawhorse chassis: wide-angled 3-inch thick legs, skirt, and logoed leg braces let your Traeger stand stable, like a linebacker.

BOTTOM SHELF

Add a bottom shelf to your Pro Series grill for easy pellet storage. (Sold Separately)

ALL-TERRAIN WHEELS

Larger wheels are designed to roll smoothly over deck slats and concrete expansion joints. Solid compound material makes them durable.

LOCKING CASTERS (STANDARD ON PRO SERIES 34 ONLY)

With maneuverable, hard-wearing casters, transporting the Pro Series 34 around the patio & locking it in place is as easy as Traeger-baked apple pie.

*Average variance over an hour long cook after grill has properly reached initial set temp of 375°F. Ambient air temp @72°F without wind
