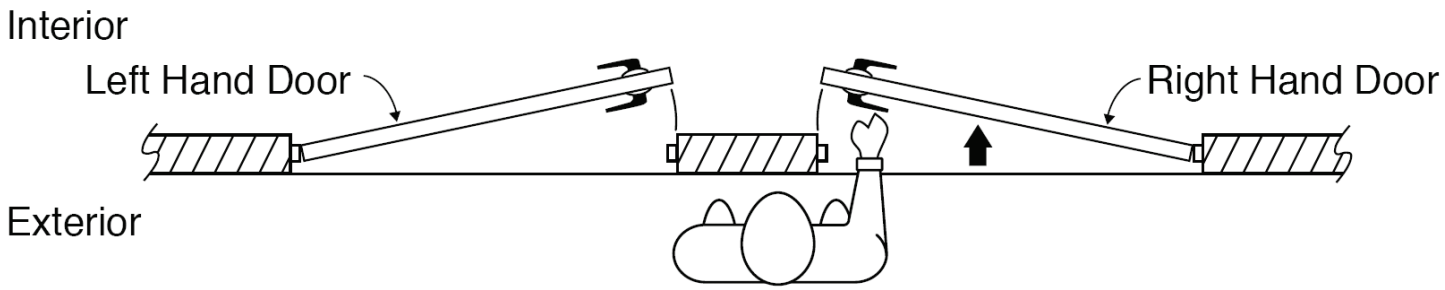
REFERENCE GUIDE

GENERAL DOOR LOCK INFORMATION

- Baldwin locks (all functions) are packed with six-way adjustable latches and dual strikes (round and square corner).
- Kwikset passage, privacy and entry locks are packed with six-way adjustable latches. Kwikset handlesets and deadbolts are packed with either round corner adjustable latches or square corner adjustable latches.
- Schlage and Dexter handlesets, entry locks and deadbolts are packed with triple-option (also known as six-way adjustable) latches. Schlage and Dexter passage and privacy locks include dual-option (round corner and drive-in) adjustable latches.
- Unless otherwise noted, Weiser handlesets, deadbolts, passage, privacy and entry locks are packed with six-way adjustable latches.
- Stone Harbor handlesets, deadbolts, interior trim packs and entry locks are packed with four-way adjustable latches (round corner and square corner). Stone Harbor passage and privacy locks include a six-way adjustable latch.
- Entry locks and deadbolts that are keyed alike are indicated as KA3 or K3. The number following the letters indicates the quantity of locks in the keyed alike group.
- We can key your lock order. The charge is **$3.99** per cylinder keyed for regular keying. Master keying is **$5.99** per cylinder keyed. Key cuts are **$2.00** and include one key blank.

DOOR HANDING

Handing is always determined from the outside of the door and depends on the hinges. If hinges are on the right, the door is right-handed. In-swing or out-swing doesn't matter; it's always the hinge side.



LOCK ABBREVIATIONS

K3	Keyed Alike in groups of three
KA3	Keyed Alike in groups of three
KD	Keyed Different (same as KA1)
LH	Left Hand

FINISH CHART

Many products have a finish reference.
Use this chart to identify equivalent finish codes.

Description	BHMA	US/ANSI	Baldwin
Polished Brass	605/632	3	003
Lifetime Brass	505	L03	
Satin Brass	608	4	
Antique Brass	609	5	
Oil-Rubbed Bronze	613/640	10B	102
Venetian/Aged Bronze	716	11P	112
Satin Nickel	619/646	15	150
Antique Nickel	620	15A	152
Polished Nickel	618		141
Matte Black	622	19	190
Polished Chrome	625	26	260
Satin Chrome	626/652	26D	264
Polished Stainless Steel	629	32	
Satin Stainless Steel	630	32D	
Distressed Nickel	621		
Iron Black		514	
Distressed Oil-Rubbed Bronze			402
Dark Bronze			481
White Bronze			492

Satin is used interchangeably with the terms *Dull* and *Brushed*.
Nickel (Kwikset) and *Pewter (Schlage)* are interchangeable.

In Schlage and Stanley Commercial Hardware, 613 (oil-rubbed bronze) finishes are "living" finishes that will wear with use, revealing a light bronze finish underneath the darker bronze. 716 (aged bronze) and 11P (Venetian bronze) are stable finishes that will not change with use.

Garnet Paper - For Wood

The sharp, light edges of this naturally occurring mineral have made it a traditional choice for sanding bare wood. Garnet is not recommended for finishing or tasks other than stock removal.

Reciprocating Saw Blades

- Variable tooth design provides faster cuts with less vibration in nail-embedded wood
- High performance carbide for greater durability and cutting performance
- Enhanced carbide tip to blade connection for extreme impact resistance
- Unique plunge tip design that enables faster and easier plunging
- 1" oversized blade body for straighter cuts with less vibration
- 9/6 TPI – 9 TPI at the base of the blade and 6 TPI toward the end of the blade – for faster performance

- Designed for extreme thin metal cutting including high strength alloys, cast iron and stainless steel
- 20 times longer cutting life than standard bi-metal blades in thin metal cutting applications less than 3/16"
- Specially formulated carbide for increased hardness to deliver longer cutting life
- Solid carbide creates full barrier to heat resistance for maximum durability
- Carbide strip teeth are milled for smoother quality cuts
- Perma-SHIELD non-stick coating for less heat and friction

8-Function Digital Multimeter with NCV Detector

GT01731 DMM30 1 $36.40

- Ideal for electrical contractors, HVAC/R technicians and MRO professionals
- 18 functions, 48 ranges
- Measures AC/DC voltage, AC/DC current, resistance, capacitance, frequency and duty cycle
- Measures surface temperature using included "K" type stem thermocouple probe
- Uses beeper to verify integrity of diodes and check circuits for continuity
- True RMS measurements
- 6' drop-resistant
- ETL certified to meet CAT III 1000V, CAT IV 600V safety standard
- Auto or manual ranging
- Non-contact votlage (NVC) detector
- Large, backlit 4,000-count LCD + analog bar graph
- Min/max memory and data hold
- Relative measurement mode
- Auto power off (can be disabled)

Rugged True RMS Multimeter with NCV Detector

GT01683 DMM550 1 $131.20

- Ideal for measuring the moisture content of wood and construction materials
- Separate settings for drywall, masonry, softwood and hardwood
- Non-invasive measurement technique produces relative readings
- Jumbo backlit LCD and tricolor LED bar graph
- Auto calibrating
- Data hold
- Separate out-of-range alarms for wood and building materials

Pinless LCD Moisture Meter w/ Tricolor Bar Graph

GT01583 MMD7NP 1 $72.90

- Ideal for use in woodworking, building construction, home inspection, lumber selection and water damage restoration
- Wood/building materials selection switch
- Low, medium and high moisture tones and on-screen icons
- Reading HOLD button
- #PIN3 replacement pins are available
- Pin cap doubles as a calibration checker
- Auto power off

Pin-Type LCD Moisture Meter

GT41447 MMD4E 1 $72.90

- Ideal for measuring the moisture content of wood and construction materials
- Wood/building materials selection switch
- Non-invasive measurement technique produces relative readings
- Jumbo display
- Wide measurement range
- Intuitive on-screen icons for high/medium/low moisture content and wood/building materials mode
- Data hold
- Audible peak reading alert
- Auto power off

Pinless LCD Moisture Meter

GT40142 MMD5NP 1 $87.50

- Ideal for creating pocket holes or counterboring
- Replacement bit for 849 and 850 E-Z Pro Pocket Jig Kits and 852, 8561 and 8562 Face Frame Jigs and Jig System

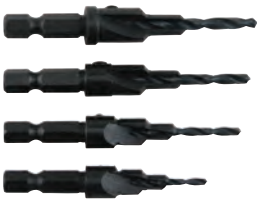
Step Drill Bit

GT00052 32 4 $15.70



- Made of hardened, high-speed steel
- Black oxide finish deters rust
- 1/4" hex shank prevents slippage in electric drills and allows use in power screwdrivers
- Fits screw sizes 6-7 (3/32"), 8-9 (7/64"), 10-11 (1/8") and 12-14 (9/64")

4-Piece Pilot Drill Set

GT23041 34ST 2 $19.20

- Ideal for angled drilling, doweling, plug cutting and edge sanding
- Protractor allows adjustment of any power drill's vertical angle from -45° to +45° in 5° increments
- Positive stop for accurate drill depth control
- Dual locking knob and handle hold exact settings
- Self-centering channel for edge drilling
- Folds flat for storage
- 3/8" shank size

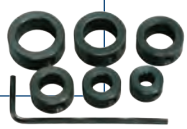
Precision Drill Guide with 3/8" Chuck

GT23059 36/37 1 $68.70

- For covering screw heads
- Cuts and ejects 1/4", 3/8" or 1/2" diameter plug from wood stock
- Made of hardened alloy steel
- Usable with a hand-held drill or a drill press
- Forest Stewardship Council (FSC)-compliant

3-Piece Plug Cutting Bit Set

GT23036 S31 4 $19.10



- Prevents excessive penetration of twist and brad point drill bits
- Positive depth control assures identical hole depths on successive jobs
- Made of cold rolled steel with black oxide finish
- Include one of each of the following sizes: 3/16", 1/4", 5/16", 3/8", 7/16" and 1/2"

6-Piece Drill Stop Set

GT23096 S838 5 $6.00

- Detects faulty wiring in 3-wire receptacles
- Different combinations of three lights indicate six different fault types
- Designed for 120VAC circuits
- ETL listed

Circuit Analyzer

GT01359 CT300 1 $8.70

- Backlit LCD
- Targeting laser can be turned off
- F/C switch
- Auto power off
- Ideal for most applications in HVAC/R, plumbing, heating electrical, automotive and other industrial jobs

8:1 Non-Contact Infrared Thermometer

- Spiral flutes are designed to embed themselves deeper into the metal as you turn the tool, so the fastener resistance increases with the extractor's grip
- High speed steel drill bit ensures fast, clean drilling

IA53703	53703	EX-3 + 5/32"	3	$5.40

- Titanium nitride coating extends the life of the bit, lasts up to six times longer than standard high speed steel drill bits
- Heavy-duty web design provides extreme rigidity when drilling in metal applications
- Shorter cutting lips reduce torque when drilling in high tensile strength materials
- 135° split point reduces feed pressure for easier penetration without work hardening

- Ideal for drilling in hard-to-reach areas and for running wires and cable
- Bit is constructed of M-2 high speed steel for the best combination of strength, heat resistance, and wear resistance
- For general use in wood, metal, and plastic
- Black oxide coating resists corrosion
- 135° split point ensures a true start and eliminates bit walking

- Fits all hammer drills with 3-jaw or Jacobs chuck
- Chrome vanadium shaft through-hardened to 50-53HrC
- Patented flute geometry removes dust quicker for fast drilling and long life
- Up to 150% faster than other competitive bits
- Shot-peened, double-tempered finish reduces breakage
- Hot isostatically pressed to extend life and resist breakage
- Copper braze gives high heat resistance for reduced tip loss
- All tips made to ANSI specifications

Impact Driver Bits

Torx Phillips Square Slotted

- Built for maximum durability and long life with impact drivers
- Forged bit (vs. milled) for superior fit, which reduces stripping and increases bit life by 3X
- Manufactured with heavy-duty, cold-forged high-grade steel to withstand high torque output
- Black oxide finish resists corrosion and increases bit life

29-Piece Black & Gold HSS Drill Index

IA3018005	3018005	Sized 1/16" to 1/2"	4	$159.80

- Oxide treatment resists corrosion, helps prevent bit from rusting
- 135° split point tip starts on contact, cuts with less force
- Reduced shank above 3/8" allows the use of larger drill bits in a 3/8" chuck
- Rubber overmolded case protects kit if dropped
- Tap & Drill selection chart for convenient reference.
- Automatic indexing for easy bit access and identification
- Removable cartridges: easy to carry bits from case to worksite
- Sizes include 1/16" to 1/2" in 1/64" increments

29-Piece Black Oxide Industrial Bit Set

IA3018004	3018004	Sized 1/16" to 1/2"	4	$142.10

- M-2 high speed steel for strength, heat resistance and wear resistance
- For wood, metal and plastic
- Black oxide resists corrosion
- 135-degree split point for true start and no bit walking
- Set includes: 1/16"(2), 5/64", 3/32"(2), 7/64", 1/8"(2), 9/64", 5/32", 3/16", 7/32", 1/4", 5/16" and 3/8"

- Constructed of M-2 high speed steel for the best combination of strength, heat resistance and wear resistance

IRWIN General Purpose High Speed Steel Fractional Straight Shank Jobber Length Drill Bits 13-piece set

IA60136	60136	1/16" - 1/4"	6	$28.50

- High performance metal drilling for portable drill users, works well on curved surfaces
- Revolutionary tip design stays sharper longer and drills up to 10 times faster than other leading drill bits
- High speed steel features a black body and gold flute
- Self-centering Turbomax tip for clean entry and fast starts; stays sharp longer
- Three flatted shank on 3/16" and above for better chuck grip
- Set includes the following bit sizes: 1/16", 3/32", 1/8", 5/32", 1/4", 7/32" and 3/16"

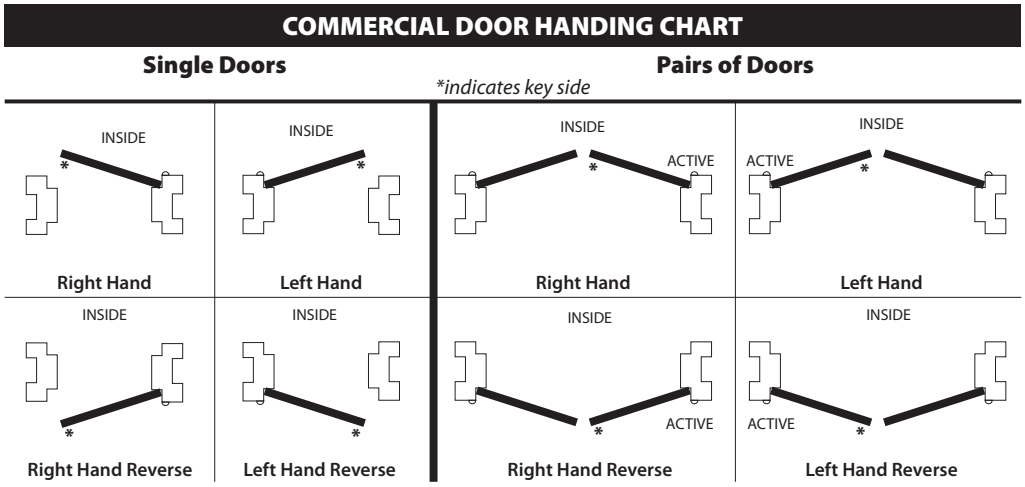
Commercial Door Handing



Commercial Hardware Glossary

Backset
The distance from the edge of a door to the center of the hole drilled for a lock.

Closer functions

Barrier Free
Considered an ADA-compliant closer. Has a spring tension between 1 and 4.

Hold-Open
A closer that holds the door in the open position (typically at 90°).

Deadlatch
The latch for a locking / keyed lock.

Exit Device / Panic Bar
A door locking device that allows instant exit by pressing a cross bar that releases the latch. Also known as an exit device.

Glass Bead Kit
Used to shim exit devices off the face of doors with raised glass beads.

SVR
Surface vertical rod. Latches the door at the top and bottom of the door, instead of at the center.

Hinges

Ball Bearing
A hinge with ball bearings between the hinge knuckles for reduced friction.

NRP
Non-removable pin hinge. A hinge with a set screw in the barrel that prevents someone from removing the hinge pin.

Plain Bearing
A standard hinge (without ball bearings) in the knuckles.

Knurled / Knurling
Texture applied to hardware for safety reasons

Lock functions

Classroom
Outside lever / knob is locked and unlocked by key. Inside lever /knob is always unlocked.

Communicating
Blank plate on one side with non-locking lever on the other side. Lever is always active.

Entrance / Office
Outside lever is locked/unlocked with a key on the outside or the push button on the inside. Rotating the interior lever or using the key unlocks the door.

Passage (Hall / Closet)
Non-locking. Latch is operated by rotating the lever / knob on either side of the door.

Privacy (Bed / Bath)
Locked with a push button or turn button on the inside. Unlocked by either turning the lever / knob or by turning the interior turn button.

Storeroom
Outside lever is fixed. Entrance by key only. Inside lever is always unlocked.

Springlatch
The latch for a non-locking lock.

THE Jeske Company. *We're more than another distributor, and once you get to know us, you'll see why.*

Extensive product line. *Our warehouses are filled with thousands of SKUs. We stock the products so you don't have to! And with most orders shipping the same day, you'll have what you need "just in time."*

Service. *It's more than a buzzword to us. Anyone can put a product in a box, but it takes a special team to personally see your order through, from start to finish.*

Knowledgeable. *Have questions about locks? Looking for a unique product to finish a job? Give us a call. Even if we don't have an immediate answer for you, we'll know where to find one.*

Experienced. *We've been doing this for more than 56 years. Our knowledgable field sales team puts decades of experience to work for you.*
