## Cascade - Fiber Clay

The Cascade pot is strong yet light in weight, able to stay outdoors all year long without fear of harming the pot and, with the addition of anti-UV and aging additives, color-fast. The products look like ceramic but without the weight, breakage or fading of ceramic.

## COCOMOSS

The secret behind success of the Austram coconut fiber-lined baskets is in the coconut fiber liner. It is woven from 4" and longer fibers on a U.S. made knitting machine. The flat liners are then cut from the consistently ½" thick rolls and placed in display boxes or sewn to 10" through 20" fitted liners and placed into display boxes. Our 2'x36' and 3'x36' rolls of fiber not only are the longest in the industry, but they also are consistently ½" throughout with no bald spots or holes associated with competitive glued liners.

## WATER-SOLUBLE & TIME RELEASE FERTILIZERS

### CLASSICOTE 15-8-23 TIME-RELEASE

**USES: Indoor and outdoor plants.**  
Contains 11 essential nutrients which release gradually to the roots providing vigorous growth throughout the growing season. Plants are fed when moisture and temperature levels are optimal.

### JACK'S HYDROPONIC 5-12-26

Designed as a base foundation for hydroponic growing. It can be manipulated to provide virtually any combination of nutrient levels desired, providing the highest availability to plants.

### JACK'S HYDROFEED 16-4-17

Provides all the macro, secondary and micronutrients in a 1-part system. Made specially for hydroponically grown herbs, lettuce and most vegetables. Includes iron chelates and a significant level of soluble calcium and magnesium.

### HYDRANGEA BLUE 7-3-3

**With Micronutrients and Aluminum Sulfate**  
This combination formulation of nutrients and acidic elements, along with important addition of aluminum sulfate, will help plants produce deep blue flowers.

# BAMBOO PLANT SUPPORTS & STAKES

## BAMBOO CANES

Up to four times stronger than wood and are rot resistant. Excellent crop support for field grown nursery stock and unruly vining plants.

## BAMBOO HOOPS

Available in a variety of lengths to support almost any vine for a longer period of time. Use a single hoop or double them up for those extra aggressive vines.

## HYACINTH/FLORAL STAKES

Our Hyacinth/Floral Stakes and Split Bamboo are "pencil" shaped with one pointed end and one blunt end. Ideal alone for supporting spring flowering bulbs, mums, poinsettias and more. Or use one with our Plant Support Rings for more branch and stem support.

## INFO STICKS

Info Sticks hold picture labels either vertically or at 45°. Label is very easily and quickly clipped into position. Over non-return prongs. The label is securely held and will not spin, be blown or pulled out easily. The label pivots on prong and the customer can read the back of the label without pulling the stick out of the soil.

# COROPLAST

Coroplast is a plastic product which refers to a wide range of extruded twinwall plastic-sheet products. It is a lightweight tough material commonly used to erect commercial, political or other types of signs. We print all of our coroplast signs with the "flutes" vertically so you can easily put it on a holder. Our coroplast signs are guaranteed against yellowing.

We offer a large selection of plant information signs that are already designed. However if we do not have what you are looking for we can create a custom sign for you. Check our pre-designed plant information sign index on page 99-100 and our custom COROPLAST sign pricing below.
