Fresh Scent

Storage » Clears » Fresh Scent

Fresh Scent storage boxes feature an innovative ventilation compartment that helps keep clothes smelling fresh. This unique product line is the ideal solution for seasonal or longer term storage, or when additional freshness is desired. A standard dryer sheet fits in the lid's ventilation unit where it works to eliminate unpleasant odors and ensure contents keep that "just-washed" scent when retrieved. The tinted bases and coordinated lid and latches give the Fresh Scent boxes a refreshing appearance, throughout the home and at retail. Select sizes share an indexed lid to allow both shallow and deep sizes to be stored in the same footprint.

Ultra-Seal™ Food Storage containers are available in 11 different sizes. Color-coded accents clearly identify which lid belongs to its matching base. A vent in each lid releases steam when being used in the microwave to heat up leftovers. Four latches and a silicone gasket create an airtight and watertight seal, keeping food fresh and preventing liquids from spilling.
