

A scenic outdoor trail with two hikers. One hiker is wearing a red backpack and the other is wearing a dark jacket. They are walking on a dirt path that winds through a lush green forest. A large, mature tree with a thick trunk and dense foliage is on the left side of the frame. The sky is a clear, light blue. The overall atmosphere is bright and natural.

MOSQUITO PROTECTION ZONE

WHAT IS A ZONE REPELLENT?

A zone repellent protects you and everyone around you within a 15ft X 15ft area. No need to use smelly, harmful sprays or oily lotions. Our technology uses heat to disperse a repellent into the air creating a zone of protection from those pesky mosquitoes.

Now that's what we call freedom to enjoy the outdoors.

BE INVISIBLE

Movement, sound and scent -- three things that can quickly alert prey to your presence. Thermacell products allow you to create a 15ftx15ft Zone of Protection. The optional Earth Scent mats mask your scent and repel mosquitoes and biting insects that can blow your cover. Be sure to pack Thermacell with your hunting gear and stay safe, focused and undetected.
