Wide Head Landscaping Rake

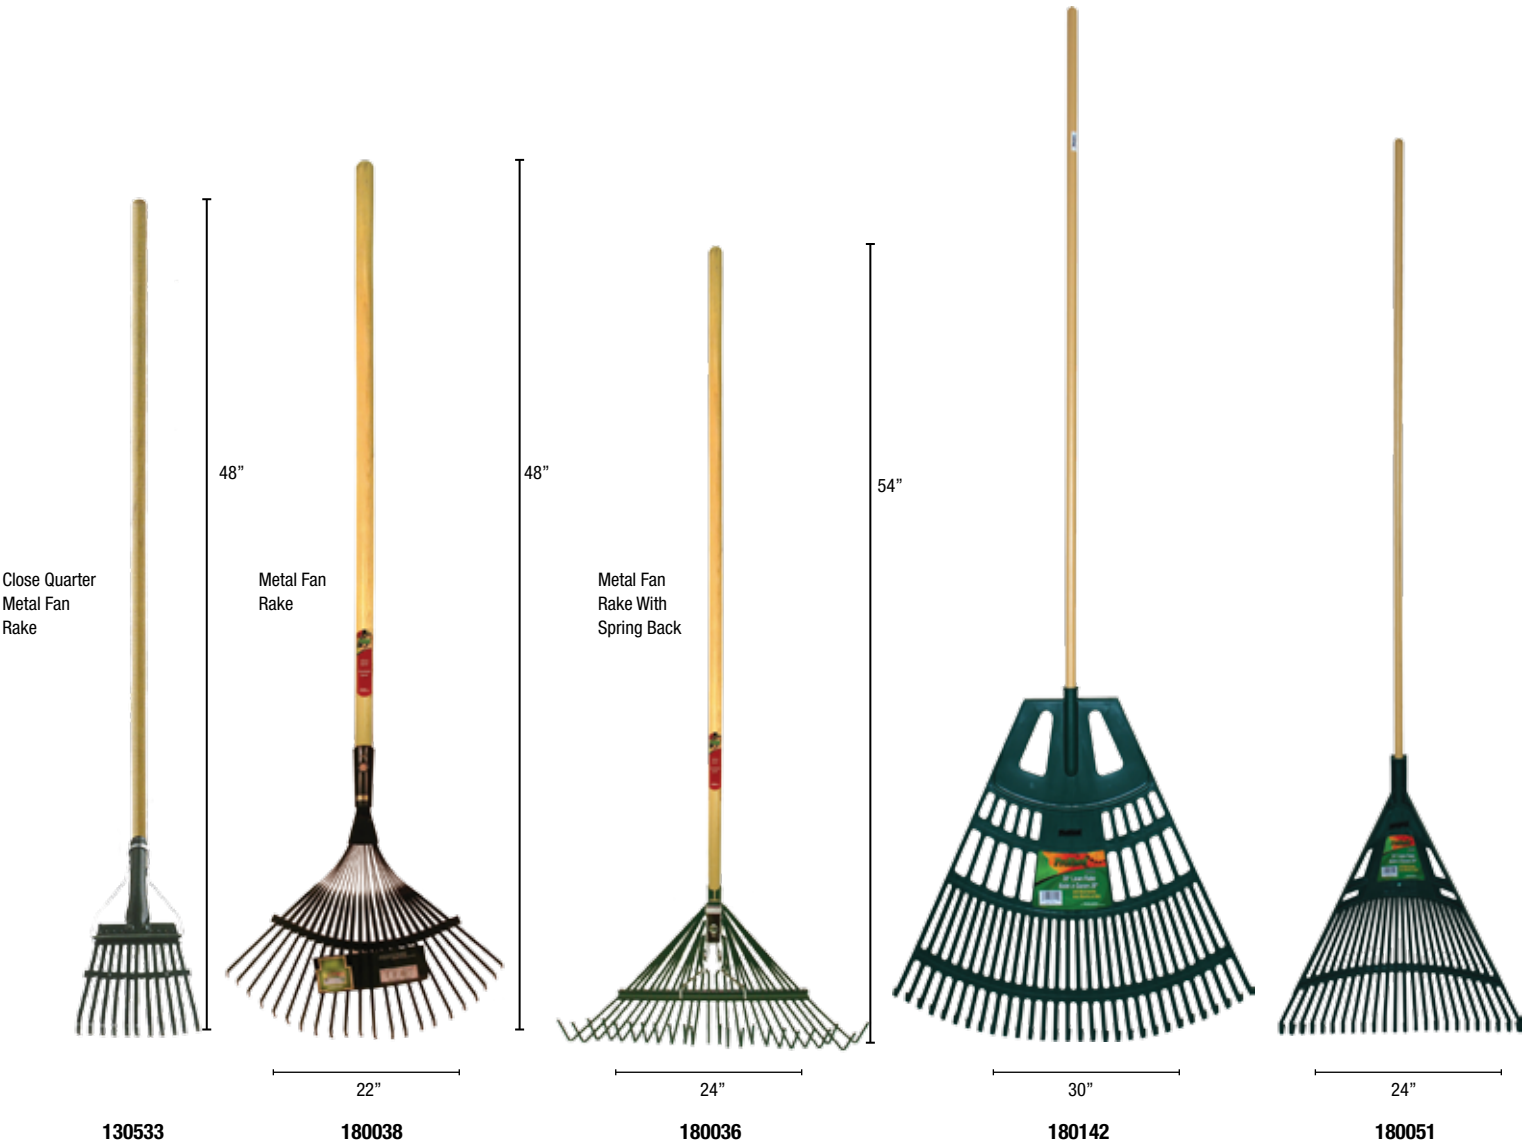

Landscaping level rake 36"
Ideal for leveling the ground when
arranging flowerbeds or vegetable
gardens or adding the finishing touches.

Designed with a wide head to level quickly
and smoothly. The aluminum head is light
weight despite its size. It is a heavy-duty lute
that is great for contractor and professional
use, as well as serious homeowners.

Proland

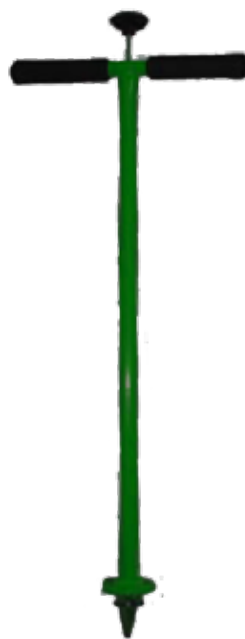

This weed brush has brass coated bristles, it features a heavy duty metal scraper for removing moss and weeds and a wooden handle. The brass coated bristles are angled and are durable but soft enough to effectively clean between decking grooves. This brush is perfect for in the garden cleaning patios, pathways, driveways and decking, ideal for smaller areas of paving, such as paved steps and larger areas,

INDUSTRIAL SPRAYERS WITH DRIPLESS SHUT-OFF

Chapin's Dripless Shut-Off seals at the nozzle tip & eliminates excess buildup in the extension wand that can cause unwanted drips when the shut-off is disengaged. When the trigger grip is released from spraying, the shut-off seals at the nozzle tip keeping the excess product left in the wand from dripping.

65 LB LAWN SPREADER

- 8" Deep lug poly wheels
- U-shaped flip up handle for easy assembly, with no tools required
- Handle with 30 gate adjustment settings
- Powder coated steel frame for a longlasting, durable finish

KILLER INSTINCTS YOU CAN TRUST™

GET THE BROMETHALIN ADVANTAGE

- TOMCAT® is the only consumer retail brand that offers Bromethalin Mice and Rat bait stations.
- All TOMCAT® baits are made with carefully chosen human food ingredients and target female rodent eating preferences to eliminate the infestation as quick as possible.
- Top quality testing ensures all TOMCAT® baits are highly palatable for mice and rats.
- Each 28 g Bromethalin bait block can kill up to 12 mice* and one 113 g Bromethalin bait block can kill up to 10 rats.* This is significantly more effective than other actives, providing consumers with a higher value proposition.

The speed of kill is key to successful rodent bait stations!

*Based on no choice laboratory testing.
