DUCHESNE

Solidly Dependable®

Collated Nails

Indoor projects and outdoor projects nails Products List

AVAILABLE FINISHES

INDOOR only

Bright

The nail's natural finish. Ideal for indoor uses requiring no corrosion resistance.

Electro-galvanized

Finish resulting from a coating of zinc applied to nail through electrolysis. Ideal for indoor uses requiring minimal corrosion resistance.

OUTDOOR

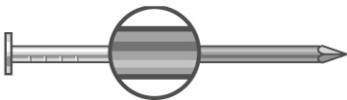

Hot dip galvanized

Finish obtained from immersion in a basin of molten zinc for superior corrosion resistance. Lends itself remarkably well to the full range of outdoor applications, including ACQ pressure-treated lumber.

Galvanized with dichromate

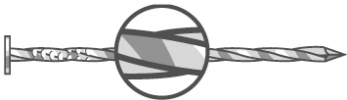

Finish obtained from the application of a coat of zinc covered with dichromate. Lends itself remarkably well to a wide range of outdoor applications. Tests have shown that Duchesne's dichromate finish provides superior corrosion resistance. Less expensive than hot dip galvanized nails, Duchesne's galvanized with dichromate nails deliver excellent performance along with an outstanding quality-price ratio.

AVAILABLE SHANKS

SMOOTH

Easy penetration

SPIRAL

Better hold, reduces the formation of cracks

RINGED

Better hold
