EXCLUSIVE SWIVELGRIP™

SwivelGrip™ action allows the water hose to rotate freely inside the grip. It eliminates twists in the hose as you uncoil it and prevents kinks in the hose as you move across the yard.
(Male SwivelGrip™ Patent Pending)

WATER HOSES

EXTREME ALL-WEATHER FLEXIBILITY

Lightweight and easy to handle, Flexzilla hose lays flat and has no memory even in extreme weather conditions.

FLEXIBLE HYBRID POLYMER

Flexzilla hoses have a durable, abrasion-resistant outer cover.

SwivelGrip™ Garden and Lead-in Hose Assemblies

Flexzilla® makes it easier to work around your home and lawn. SwivelGrip™ action eliminates twists that occur when uncoiling a hose. Conventional garden hose can trap coils that tighten into kinks as you move across the yard. SwivelGrip releases these trapped coils because the hose rotates freely inside the grip. The large, comfortable gripping surface on both ends of the hose makes connections much easier to turn and tighten. All SwivelGrip hoses are also drinking water safe.
