Alexandria East Guidelines

BUNDLE POLICY

Our 7' & 8' program and random length mouldings are sold on a minimum quantity per bundle basis only. Please refer to the price list for the specific quantity per bundle. A 20% surcharge will apply on orders requesting less than minimum bundle quantities.

** All mouldings of our Decorative Collection are sold in a minimum pack quantity only.

RETURNS POLICY

Prior approval from Head Office is required before any material is returned for credit or exchange. A 10% restocking charge will be applied to any returns unless the material is not as ordered or is received in unsaleable condition.

DAMAGED MATERIAL

Damaged material must be identified and reported to your local sales representative or the Customer Service Desk no later than 7 days after the material is received.

MINIMUM QUANTITIES

A minimum order of \$500 is required. Any order under the \$500 minimum order requirement will be shipped F.O.B. our facility.

FREIGHT

All order will be subject to a freight charge (maximum \$75).

Royal Woodworking Guidelines

LENGTH STRUCTURE

Royal Woodworking product line is based on a Random Length structure. All prices are based on random lengths of 6' to 16' unless otherwise indicated. Specified lengths will be subject to a premium and prior approval.

RETURNS POLICY

Prior approval from Head Office is required before any material is returned for credit or exchange. A 10% restocking charge will be applied to any returns unless the material is not as ordered or is received in unsellable condition.

DAMAGED MATERIAL

Damaged material must be identified and reported to your local sales representative or the Customer Service Desk no later than 7 days after the material is received.

PLACING ORDERS

Overruns of up to 10% will be shipped and billed. Please contact customer service for any special requests.

FINISHED MATERIAL

We recommend that all materials be sanded before installation or finishing.

Flat Back Crown – Angle Charts

The following table displays all crown profiles offered in the price book.

The table indicates the swing angle, the wall coverage, and the ceiling coverage of the crown.

As wall/ceiling angles and installation angles may vary, these values are to be used as approximations only.

Please contact your sales representative or our customer service department for pricing.

Coverage Calculation

$$\frac{\text{Sq. Ft. of wall}}{\text{Sq. Ft. of wall}} \times \frac{\text{\# of lineal feet required for 1 Sq. Ft.}}{\text{\# of lineal feet required for 1 Sq. Ft.}} = \frac{\text{LF of panelling required}}{\text{LF of panelling required}}$$

Notes

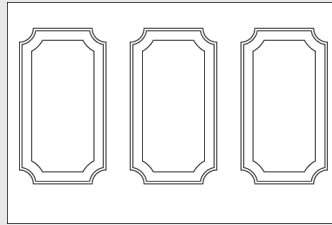

- Sold in full lift quantities (304 PCS) or half lift quantities (152 PCS) only.
- Rebates are applicable.
- Prices are based on lift quantities per model.

Poplar

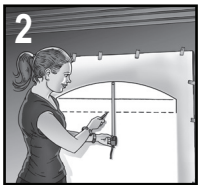

Measuring Instructions

Custom Curves are designed for use in Residential, Commercial, Institutional, Retail and Hospitality applications.

Ellipses, Eyebrows, Ovals, or Any Other Geometric Shapes requiring templates

1. Align and affix the paper material to be traced horizontally to window or door frame.
2. Accurately trace the inside edge of the frame; starting at the top (centre) of your arched area and clearly indicate the bottom edges of the window or doorway on your template.
3. Clearly label the Top, Bottom, Left and Right areas of the archway.

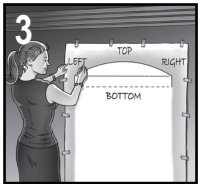

Tip

Daylight or back lighting the arched area allow for a cleaner, more accurate trace.

4. Indicate the size of reveal required. Unless otherwise noted a standard 3/16" reveal will automatically be applied to the Custom Curves arch.
5. Return the traced materials and information to your retailer for forwarding to Alexandria Moulding.

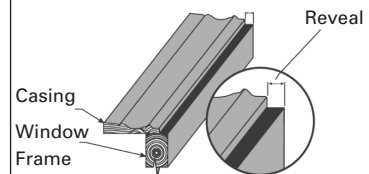

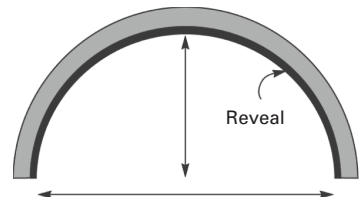

Note

If you want arches for different windows or both sides of a doorway, please provide a separate well labelled traced template for each Custom Curves arch product required because minute differences do exist between each window or side of doorways constructed.

Reveal Tips

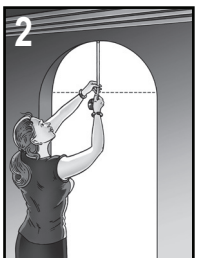

A reveal is the space between the window or door frame and the Custom Curves arch. Please refer to the diagram below.

Full, Half and Quarter Circles requiring measurements

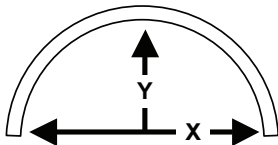

1. Align and affix the paper material to be traced horizontally to window or door frame.
2. Accurately trace the inside edge of the frame; starting at the top (centre) of your arched area and clearly indicate the bottom edges of the window or doorway on your template.
3. Clearly label the Top, Bottom, Left and Right areas of the archway.
4. Indicate the size of reveal required. Unless otherwise noted a standard 3/16" reveal will automatically be applied to the Custom Curves arch.

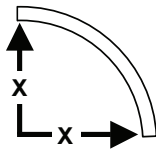

Shapes Available

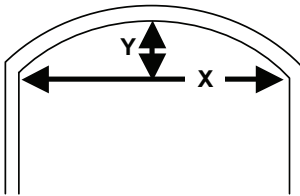

Half Circle (or Full Circle)

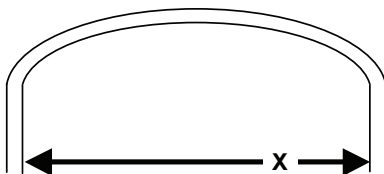

Quarter Circle

Eyebrow

Ellipse or Oval

Dimensions Required

in 16ths of an inch

X (Diameter)

Y (Radius)

Reveal: included or not

Note: X should be 2 times Y
Otherwise you may not have
a half circle or full circle

X (Radius)

Reveal: included or not

Note: X should be the same both places
otherwise you may not have
a quarter circle

X (Width)

Y (Height)

Reveal: included or not

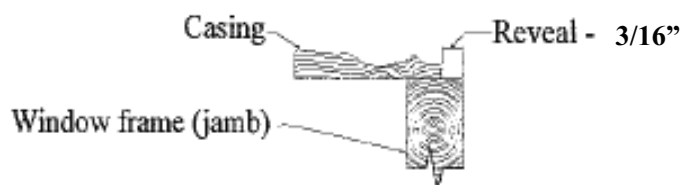

X (Width)

Template Required

Reveal: included or not

What is a Reveal ?

The reveal is the amount of "jamb" that can be seen once the moulding is in place.
A standard reveal is 3/16"
