Working Innovation For You

Innovative Products

That complement talent and experience.

When you use Gator Finishing Products®, you get projects done faster, easier, and better than you expected. You start to grow ambitious about the next project when you use our Products®.

Gator is synonymous with innovation. Gator Finishing Products® developed the Zip family of products for one main reason: there had to be a better way to sand. The line of Zip products has been a great success, offering a simple, comfortable, and easy way to sand. Gator is committed to continuously pursuing innovative designs for our customers. Look for new and exciting things to come!

A Family of Innovation

Designed for comfort, ease of use, and quality results, the **Zip Sander®** is the new way to sand just about anything. There are several different Zip Sanders, so you can select the version that best fits your store and your customers' needs.

Zip Sander®
Sponge holder

Zip Sander®

Micro Zip Sander®

Zip Sander XL®

Zip Sander XL® Pole Sander

- **Zip Sander®** – Ideal for sanding flat areas or detail sanding for corners or edges, the lightweight and ergonomically designed Zip Sander® is perfect for DIY or professionals.
- **Micro Zip Sander®** – The smallest hand sanding tool on the market gives you the ability to sand very tight spaces with comfort. This amazing little tool also comes with the Hook & Loop system.

- **Zip Sander XL®** – This handled sander is specially designed for large, flat surfaces such as drywall or between coats of paint.
- **Zip Sander XL® Pole Sander** – Easily sand ceilings, floors, decking or other hard-to-reach areas with the large-surface Zip Sander® with 5' pole extension.

The Perfect Finish Starts With The Right Sandpaper.

New Ali Industries Plan-o-gram

Ali Industries has been manufacturing high quality abrasives for contractors and DIYers for over 50 years.

The Gator Plan-o-gram offers higher margins, is easier to shop with new color-coded packaging, and has more product selection than the leading competition.

Providing customers with the finest in quality and innovation.

Hand Sanding

Hand sanding products from Gator Finishing offer both quality and variety, giving you the best possible finish for any project. Our high-quality standards and premium products are designed with the consumer in mind, offering clear usage guides to aid the decision process. Our innovative abrasive products improve any sanding experience!

Quality Sandpaper Construction

All Gator abrasive products go through rigorous testing to meet the high standards we demand from our products. We purposely try to make our products fail so when you use them, they don't. Our sandpaper resists heat & humidity, is designed for hand or machine sanding, is made with heavy grade paper that resists tearing, and offers professional results at a great value.

Gator Finishing Application System

We all know it's the best prep work that results in the best finish. Here are our recommendations with the easy-to-follow Gator Finishing selection chart and numbering system. We want it to be simple for you to choose the right sandpaper for the right application so you get professional results every time.

SANDPAPER SELECTION CHART / GUIA PARA SELECCIONAR LA LIJA			
	STEP 1 – STRIPPING	STEP 2 – SANDING	STEP 3 – FINISHING
Grit / Grano	60 – COARSE / GRUESO	120 – MEDIUM / MEDIANO	220 – FINE / FINO
	80 – COARSE / GRUESO	150 – MEDIUM / MEDIANO	320 – FINE / FINO
	100 – COARSE / GRUESO	180 – MEDIUM / MEDIANO	400 – FINE / FINO
Use / Uso	Best for stripping latex & oil-based paint, polyurethane, varnish & lacquer.	Best for preparing hard & soft woods, drywall compound, fiberglass & metal.	Best for between coats of latex & oil-based paint, stain, polyurethane, varnish, sealer & lacquer.

Zip Sander® and Refill

No matter what your sanding project may be, the **Zip Sander®** will quickly help sanding projects produce a perfect finish.

- Designed for comfort and ease of use
- Offers a wide variety of refill packs so you can find the ideal grit for most woodworking projects
- Perfect for a wide range of finishing requirements

No Wall Stands A Chance

With Gator's drywall sanding products, you'll have confidence knowing what the end result will be.

Drywall Sanding

When hanging, smoothing or finishing drywall, having the highest quality materials makes any job go faster and last longer. Our drywall products not only meet the highest industry standards— *they exceed them.*

Powerful Construction

Gator abrasive products go through rigorous testing to meet the high standards we demand from our products. We purposely try to make our products fail so when you use them, they won't. Our drywall sandpaper resists heat & humidity, is designed for hand sanding, and offers professional results at a great value. You can choose from Hook & Loop sandpaper to regular clamp-on sandpaper and screens.

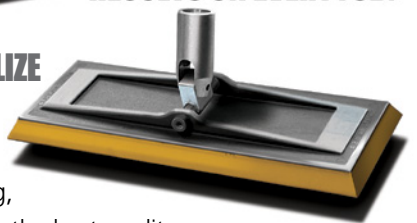

Manufactured by Ali Industries, Inc.

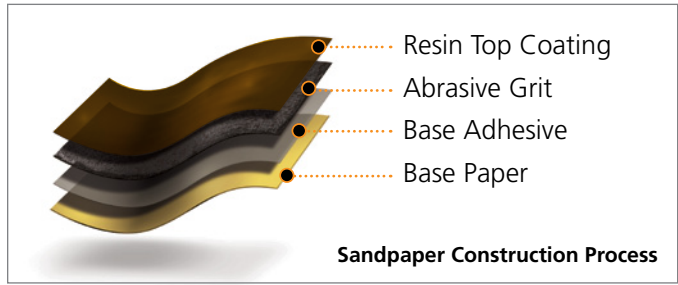

EVEN IF YOU ARE A DO IT YOURSELF YOU WANT PROFESSIONAL GRADE RESULTS ON EVERY JOB.

THAT'S WHEN YOU REALIZE YOU NEED A GATOR.

When hanging, smoothing, or finishing drywall, having the best quality tools makes any job go faster while saving money and time. Our innovative drywall products ease the stresses of smoothing joint compound or prepping a wall for new paint. Once you use one of our Gator Finishing Products®, you'll wish you had them sooner. All the drywall tools were designed with your convenience in mind. They're easy to use, come at an affordable price, and leave professional results every time.

**LIFE IS
SO MUCH
SMOOTHER,**

**WHEN USING
OUR NEW
PREMIUM
SANDING
SPONGES.**

What Makes our Premium Sanding Sponges so Effective?

We fuse our premium sandpaper right to the sponge during the manufacturing process.

This unique process creates an ultra flat surface that cuts 5 times faster and lasts 5 times longer than most other traditional sponges

For use on wood, metal, fiberglass, and painted surfaces, these premium sponges are a must have for that next weekend project.

■ Drywall Sanding Sponge and Holder

Manufactured by Ali Industries, Inc.

Power Sanding Abrasives

Gator Finishing’s power sanding line includes everything you need for sanding wood, metal, fiberglass, and painted surfaces. The quality **Red Resin®** and premium **Black Zirconium®** are both designed specifically for power tool needs, including heat and moisture resistance. Common power tool formats and sizes are available in stick-on or Hook & Loop form.

Powerful Construction

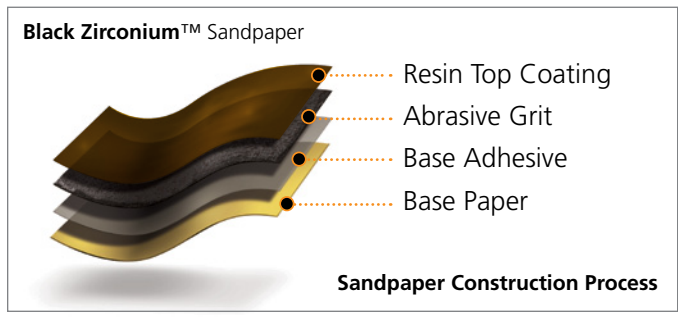

All Gator abrasive products go through rigorous testing to meet the high standards we demand from our products. We purposely try to make our products fail so when you use them, they won’t. Our sandpaper resists heat & humidity, is designed for hand or machine sanding, is made with heavy grade paper that resists tearing, and offers professional results at a great value.

Power Sanding Application System

When it comes to a professional looking finish, you need to know the proper sandpaper for the appropriate application. Here are our recommendations with the easy-to-follow Gator Finishing selection chart on every power sanding package.

ULTRA POWER Premium Series

These professional quality sheets are designed to provide ultimate performance and longest life. Made with zirconium oxide, this fast-cutting and durable grain is ideal for extremely tough sanding and grinding jobs.

Zirconium Oxide Usage Chart / Guía para el uso de las zirconio oxido	
220 – EXTRA FINE/EXTRA FINO	• Final finish sanding & preparation before stain & varnish / Para acabados: finales preparación de superficies para la aplicación de color ó varnis
180 – FINE/FINO	
150 – FINE/FINO	• Light stock removal & final preparation before painting interior surfaces / Remover materiales ligeros preparación final de superficies interiores antes de pintar/las
120 – FINE/FINO	
100 – MEDIUM/MEDIANO	• Moderate stock removal & sanding before painting surfaces / Remover materiales moderadamente difíciles y lijado de exteriores antes de pintar
80 – MEDIUM/MEDIANO	
60 – COARSE/GRUESO	• Heavy stock removal & paint stripping / Remover materiales difíciles y raspado de pintura
50 – COARSE/GRUESO	• Rough surface sanding / Lijar superficies ásperas

■ 9" x 11" Multi-Purpose Aluminum Oxide Power Sandpaper

Aluminum Oxide sheets coated with Red Resin® resist heat and clogging for increased durability and performance.

- For hand or machine sanding.
- Cut to fit 1/2, 1/3, or 1/4 sheet clamp-on orbital sanders.
- For use on wood, metal, drywall, fiberglass, and painted surfaces.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.

How A Gator Can Help You Feel Right at Home

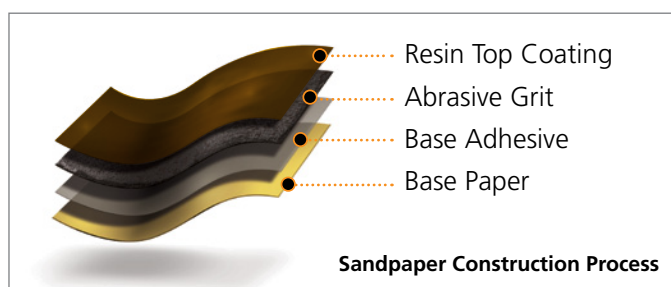

Manufactured by Ali Industries, Inc.

Specialty Products

Known for quality and innovation, Gator Finishing has been a supplier of high quality finishing products for nearly 50 years. From sheet sandpapers to discs and Zip Sanders to grinding wheels, Gator Finishing Products® deliver unsurpassed quality and value. The Gator family of products is available from home improvement, paint, automotive, and many other fine retailers across North America. Our focus on finishing products allows us to continually enhance our quality and performance, as well as continually develop useful new products. Whether you are a DIYer or professional, Gator Finishing products were created to deliver exceptional performance, quality, and value.

Powerful Construction

All Gator abrasive products go through rigorous testing to meet the high standards we demand from our products. We purposely try to make our products fail so when you use them, they don't. Our sandpaper resists heat & humidity, is designed for hand or machine sanding, is made with heavy grade paper that resists tearing, and offers professional results at a great value.

HEAVY DUTY, LIGHT DUTY, No Problem

*Cutting, Grinding or Sharpening
Gator has the product that
can handle it all.*

Manufactured by Ali Industries, Inc.

Cutting :: Grinding :: Sharpening

When you want to cut, grind, or sharpen almost anything, turn to Gator Finishing Products®. Gator and GatorBlade® brand products guarantee results. Gator products are tested to meet the highest safety standards and to optimize performance. With their reliable and sturdy construction, GatorBlade® provides both the professional and the DIYer with an important tool for their arsenal. When you need products you can depend on, look for Gator Finishing Products®.

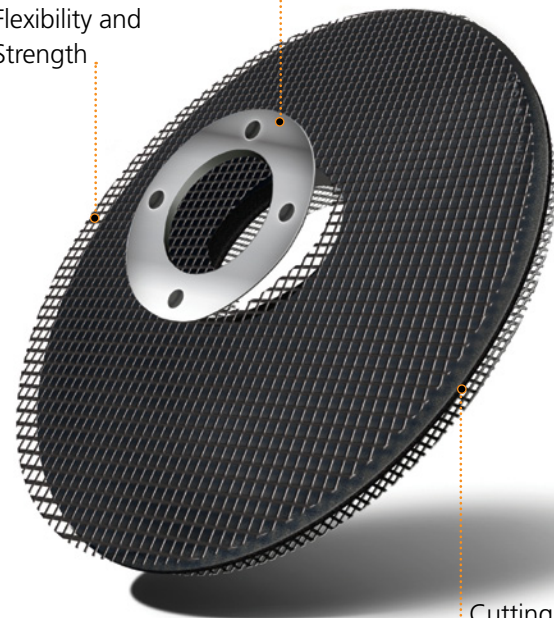

Indestructible Construction

All Gator abrasive products go through rigorous testing to meet the high standards we demand from our products. We purposely try to make our products fail so when you use them, they don't.

6159	3/4" x 3/4" Straight Cup Stone	60	1	4/40

Bench Top Aluminum Oxide Grinding Wheels

• For grinding metal and steel and for sharpening blades and cutting tools.

Item No.	Description	Grit	Pk. Qty.	Inner/Master.
6000	8" x 1" x 1"	80	1	-/2
6001	8" x 1" x 1"	60	1	-/2
6002	8" x 1" x 1"	36	1	-/2
Includes set of bushings to reduce the diameter to fit 1", 3/4" & 5/8" shafts.				
6005	6" x 1" x 1"	80	1	-/2
6006	6" x 1" x 1"	60	1	-/2
6007	6" x 1" x 1"	36	1	-/2
Includes set of bushings to reduce the diameter to fit 3/4", 5/8" & 1/2" shafts.				
6010	6" x 3/4" x 1"	80	1	-/2
6011	6" x 3/4" x 1"	60	1	-/2
6012	6" x 3/4" x 1"	36	1	-/2
Includes set of bushings to reduce the diameter to fit 3/4", 5/8" & 1/2" shafts.				
6025	5" x 3/4" x 1"	80	1	-/2
6026	5" x 3/4" x 1"	60	1	-/2
6027	5" x 3/4" x 1"	36	1	-/2
Includes set of bushings to reduce the diameter to fit 3/4", 5/8" & 1/2" shafts.				
6047	6" x 1" x 1" Grinding Wheel Dressing Stick	20/24	1	1/10

The above Silicon Carbide Dressing Stick resurfaces Grinding Wheels by removing particle build-up.

Rubbing Bricks

Item No.	Description	Pk. Qty.	Inner/Master.
6069	6" x 3" Rubbing Brick with Handle	1	-/5
6068	8" x 3" Rubbing Brick with Handle	1	-/5

Sharpening Stones

For sharpening hand and cutting tools, removes burrs and pits from tool/blade, produces sharp edge.

Item No.	Description	Pk. Qty.	Inner/Master.
6050	3" Pocket Stone	1	10/50
6063	4" x 1 3/4" x 5/8" Combination Stone	1	-/10
6047	6" Grinding Wheel Dress Stick (20-24 grit)	1	-/10
6061	6" x 2" x 3/4" Aluminum Oxide Combination Stone	1	-/10
6060	6" x 2" x 1" Combination Stone (80 and 60 grit)	1	-/10
6058	8" x 2" x 1" Combination Stone	1	-/10
6055	10" Scythe Stone	1	-/10

Premium Abrasive Products

Manufactured by Ali Industries, Inc.

Ali Industries, Inc. is dedicated to the development and manufacturing of premium abrasive products that exceed the expectations of our customers.

We credit our success as a result of listening to the needs of our customers in conjunction with research and development of new innovative products. We are so confident that you are going to love our products that we placed our 4X Performance Guarantee on every package.

If our product fails to give complete satisfaction, it will be replaced FREE of charge.

The Shopsmith "Step" Finishing System?

Shopsmith makes achieving the perfect finish as easy as "1-2-3-4" with our professional "Step Finishing System".

Developed by finishing experts, this "Step" system takes the guess work out of how to achieve a beautiful finish every time. Armed with this knowledge, the average consumer can now become a finishing expert!

G2 Technology

G2 Technology, simply put, means using the finest materials, brought together to produce the highest quality abrasives available in the world!

G2 Technology combines high performance grains with the most durable backings to create the fastest cutting and longest lasting abrasives available. Compared to standard abrasives, Shopsmith Abrasives, with G2 Technology, will cut 4 times faster and last 4 times longer.

▶ SHOP SMITH® FINISHING SYSTEM

- EXTREME REMOVAL **P40**
- COARSE REMOVAL **P80**
- MODERATE REMOVAL **P100**
- MODERATE SURFACE PREPARATION **P120**
- LIGHT SURFACE PREPARATION **P150**
- FINAL SURFACE PREPARATION **P180**
- FINE SCUFFING **P220**
- EXTRA FINE SCUFFING **P320**

Premium Projects Require Premium Abrasives

Why Film is Better

G2™ Sanding Discs are Designed for Ultimate Performance and Longer Life.

Shopsmith G2 Abrasive Film Discs will take your sander to the highest levels of performance and produce unbelievable finishes.

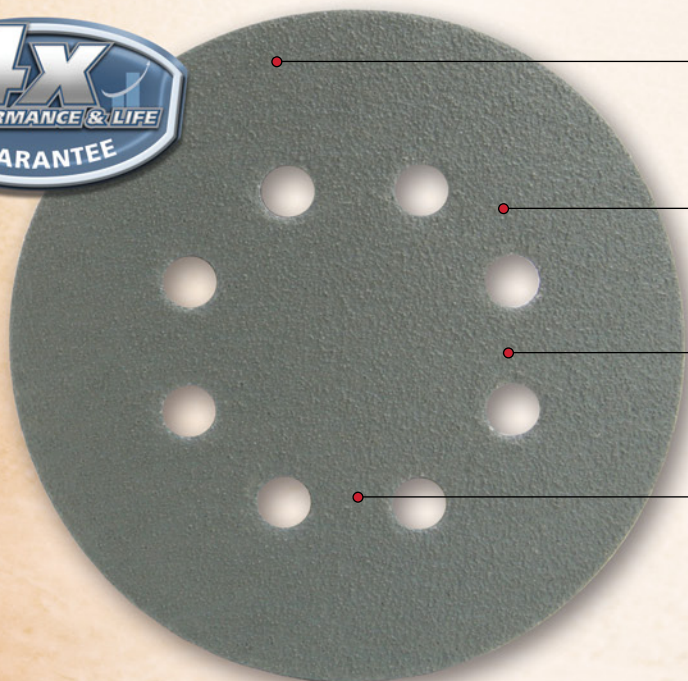

Unlike traditional paper discs, Shopsmith's film discs resist tearing and edge wear for 4 times longer life. The plastic film also provides an ultra smooth surface that ensures even grain coverage for consistent finishing results that are unsurpassed.

Also, each disc is treated with a special anti-clog coating that reduces particle build-up, keeping the high performance grain exposed longer, allowing these discs to cut 4 times faster.

For increased productivity, you have a choice of two "quick-change" holding systems: Hook & Loop or Stick-On (pressure sensitive adhesive). Either system allows faster and easier disc changing.

G2 Premium Features:

- Durable film backing resists tearing & edge wear – lasts 4 times longer
- Anti-clog coating prevents particle build-up
- "Quick-change" holding systems: Hook & Loop or Stick-on (pressure sensitive)
- High performance grain cuts 4 times faster
- Premium resin bonding system provides longer life

FILM:

Extremely durable plastic film backing provides 4 times longer life

GRAIN:

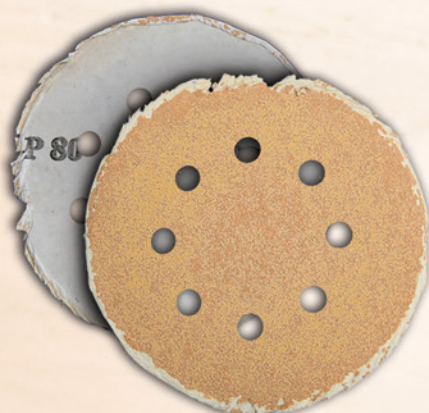

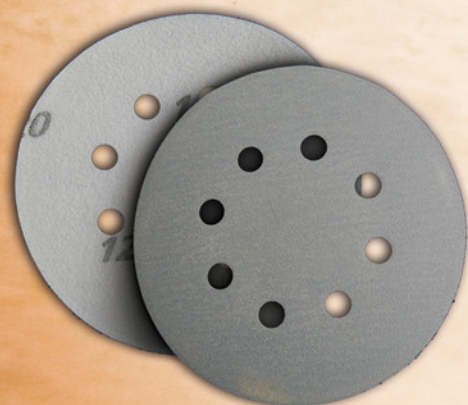

High performance grain cuts 4 times faster, increasing productivity

ANTI-CLOG:

Coating resists material build-up on the abrasive surface

RESIN BONDING:

Advance resin bonding system for increased durability & performance

Film backing helps eliminate tearing & edge wear.

Compared to standard abrasives, G2™ Technology allows up to 4 times faster cutting & lasts up to 4 times longer!

*Each disc tested in a controlled environment with the same surface type, speed, and time.

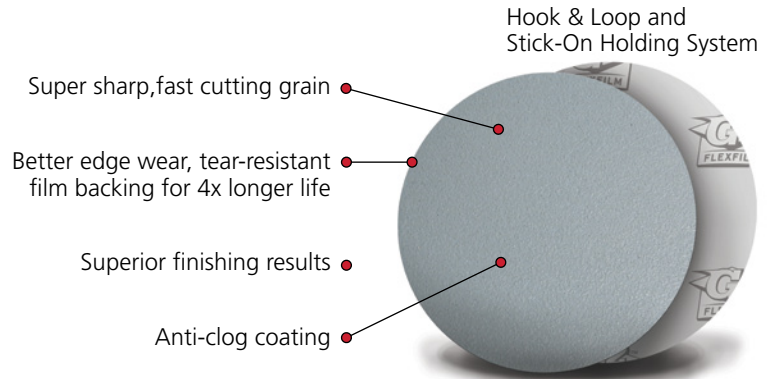

Abrasive Film Discs With or Stick-On Holding Systems

Shopsmith abrasive film discs will take your Random Orbit & DA sanders to the highest levels of performance! Featuring G2 technology, Shopsmith abrasive film discs cut 4 times faster and last 4 times longer than ordinary sandpaper discs! Until now, discs of this quality were only available through industrial channels. Shopsmith is proud to offer a complete line of or Stick-On abrasive film sanding discs for 5" & 6" Sanders. So the choice is yours!

■ Finishing Block and Abrasive Film Sheets

The Shopsmith “Finishing Block” is a new twist on a timeless design. The first thing you’ll notice is its’ unique shape. But there is a hidden feature that other blocks just don’t have: a steel reinforcement plate. This plate ensures that your Shopsmith Finishing Block will always remain flat. This is very important when you are trying to achieve the best possible finish. In addition, the plate also adds weight, which provides maximum control of your Shopsmith Finishing Block.

Hook & Loop Backing

Superior finishing results

Better edge wear, tear-resistant film backing for 4x longer life

Super sharp, fast cutting grain

COMMERCIAL PACKS

■ Micro Zip Sanding Kit

Measuring 1" x 3-1/2" long, this little sanding tool is a perfect fit for those hard-to-sand detail areas. The Micro Zip Sander fits snugly under your index finger and allows you to get into the tight spots to sand with great performance. This is the perfect sanding tool for furniture restoration, refinishing a rare mahogany wood door jamb, or working on a detailed hobby project.

- Comfortable curved handle is contoured with indents on the sides for fingers and thumb, for a better grip
- The "Quick-Change" hook and loop holding system allows faster sheet changes
- Small size allows for easy access to tight spots

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
12171	Coarse Removal	80	1 + 12	5/10
12173	Moderate Surf. Prep	120	1 + 12	5/10
12176	Fine Scuffing	220	1 + 12	5/10

■ Premium Tack Cloth

- Removes dust and lint particles before applying top coat
- Easy to pull apart allowing use of the whole cloth
- Use for wood finishing, paint, automotive and marine finishes
- Compatible with all finishes

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
12195	Surface Cleaning	N/A	1	-/25

■ 4 1/2" Paint & Rust Stripper

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
12603	Extreme Removal	60	1	5/50

■ 4 1/2" Ceramic Flap Disc

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
12600	Extreme Removal	40	1	5/50
12601	Extreme Removal	60	1	5/50

■ Premium “Foam” Sponges

Designed for high performance and longer use, our special process of laminating actual premium sandpaper directly to a foam block gives you the best of both worlds: sandpaper performance, sponge convenience.

These “Premium” sponges cut much faster than standard sanding sponges and will last up to 4 times longer.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
7341-030	Coarse Removal	80	1	-/50
7362-030	Moderate Removal	100	1	-/50

7297-030	Extra Fine Scuffing	320	8	5/50

Anti-clog coating reduces buildup

PREMIUM SANDPAPER

For Hand or Machine Sanding

High performance grain cuts faster

Super Flexible latex backing

Why Ceramic is Better

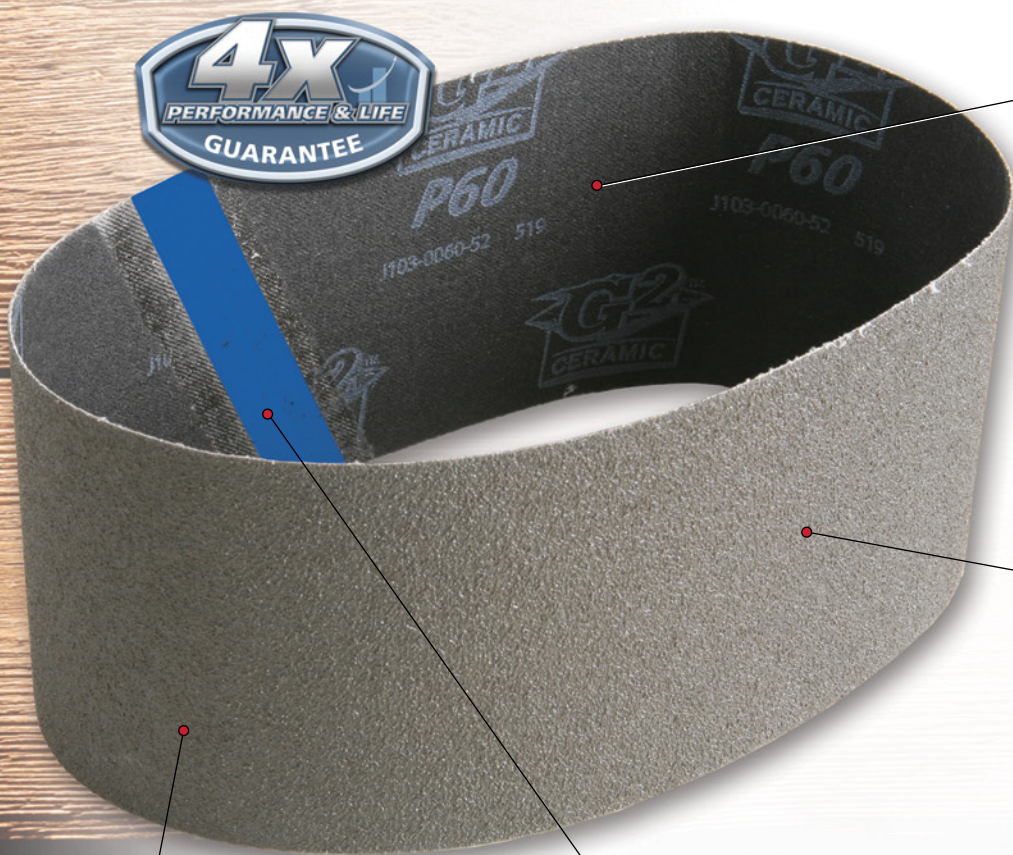

G2™ Sanding Belts are Designed for Ultimate Performance and Life.

Are you looking for abrasives that will perform up to your expectations? Well, the wait is over: Introducing Shopsmith Premium Quality Abrasives with G2 Technology.

Our ceramic belts are designed to last up to 4 times longer and cut up to 4 times faster compared to standard abrasive belts.

Shopsmith is proud to introduce our high performance abrasives to fit most popular hand and power sanders available on the market today.

All Shopsmith abrasives feature G2 Technology, the next generation in sanding and finishing. G2 Technology combines the highest quality materials to produce the fastest cutting and longest lasting abrasives available today, guaranteed.

HEAVY DUTY BACKING:

Polyester cotton cloth backing resists tearing & wear for 4 times longer life.

GRAIN:

Ceramic grain runs cooler, reducing heat build-up during sanding.

Razor sharp ceramic grain also cuts up to 4 times faster.

PREMIUM RESIN BONDING:

Advance resin bonding system for increased durability and performance.

FLUSH JOINT:

Bi-directional flush joints runs smoothly in both directions.

High tensile strength reinforced tape provides heat resistant joint for maximum seam durability.

Ceramic Sanding Belts

Experience sanding and grinding like never before! Shopsmith - G2 Sanding Belts set the new standard that all other belts will be judged by. Designed for ultimate performance and life, Shopsmith Ceramic Belts are designed to last 4 times longer and cut 4 times faster compared to standard abrasive belts.

Premium Abrasive Cutting Wheels

Manufactured by Ali Industries, Inc.

Premium Cutting and Grinding Wheels

Ali Industries has been manufacturing cutting and grinding wheels since the start of the company over 50 years ago and steadily improving our quality as technology advancements allow.

In 2011, Ali industries entered into a business relationship with a German based abrasive wheels company. Through the mutual exchange of abrasive technology, Ali Industries developed a new line of Premium Cutting and Grinding Wheels. Infusing their wheel formulas with our G2 Technology, we have produced a SUPERIOR line of industrial cutting and grinding wheels and are excited about releasing these to the Industrial Market in 2013.

What Makes These Wheels So Special?

It's simple... They cut faster and last longer. In fact, compared to other blades, these blades last 4X longer and come in 6 specific categories: ThinCut, MultiCut, Cut&Grind, DuraCut, DuraGrind and StudCut. One of these blades is sure to provide the solution for the difficult cutting situation.

Don't Forget About The Tins!

Aside from protecting the blades from damage, each tin includes a Silica packet that prevents moisture from entering the blades, keeping them fresh and enabling them to last longer.

Silica packet that prevents moisture from entering the blades.

**TINS PROVIDE
30% LONGER
BLADE LIFE!**

ThinCut

COMMERCIAL PACKS

ThinCut: Clearly faster – clearly more precise – clearly better: Top class 1mm cutting disc in best quality.

For precision cutting accurate to the millimeter and extremely fast cutting with minimum power consumption. No burring, no blue thermal discoloration. Outstanding optimized service life. True performance for your money.

- Outstanding service life
- Outstanding cutting speed
- Precision cutting accurate to the millimeter
- Low-burr or burr-free edges

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13820	4.5" x .040" x 7/8"	Steel / Stainless	13,300	1	5/25
13830	5" x .040" x 7/8"	Steel / Stainless	12,200	1	5/25
10 Pack Tin Commercial Packs (UPC Coded Individual Wheels)					
13920	4.5" x .040" x 7/8"	Steel / Stainless	13,300	10	-/10
13930	5" x .040" x 7/8"	Steel / Stainless	12,200	10	-/10

Cut&Grind

COMMERCIAL PACKS

Cut&Grind: The first cutting disc you are also allowed to use for grinding.

The Cut&Grind cuts at a comfortable speed with a thickness of 2.5 mm or 3/32 In., You can immediately deburr and grind without changing the disc. That saves setup time and, therefore, money! Good removal rate for light grinding tasks. Of course, the disc complies with the prescribed lateral load for grinding discs of 290 N.

The first thin cutting disc you are also allowed to use for side grinding.

- Depressed center - Type 27
- Cutting and light grinding work in one step
- Good cutting speed / Good removal rate
- No time-consuming disc changes required
- No need to purchase different discs

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13822	4.5" x 3/32" x 7/8"	Steel / Stainless	13,300	1	5/25

5 Pack Tin Commercial Packs (UPC Coded Individual Wheels)					
13922	4.5" x 3/32" x 7/8"	Steel / Stainless	13,300	5	-/10
13932	5" x 3/32" x 7/8"	Steel / Stainless	12,200	5	-/10

DuraCut

COMMERCIAL PACKS

DuraCut

This disc developed by Ali Industries (patent pending) is a revolution in its field. More durable than any other blade on the market. This Cutting-Wheel is designed for Ultra-Long Life and dependability.

- Ultra-Long Life and Extremely Durable
- Good cutting speed / Good removal rate
- Good cutting performance

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13823	4.5" x .060" x 7/8"	Steel / Stainless	13,300	1	5/25
13833	5" x .060" x 7/8"	Steel / Stainless	12,200	1	5/25
10 Pack Tin Commercial Packs (UPC Coded Individual Wheels)					
13923	4.5" x .060" x 7/8"	Steel / Stainless	13,300	10	-/10
13933	5" x .060" x 7/8"	Steel / Stainless	12,200	10	-/10

MultiCut: Stainless steel, mild steel and stone!

The special recipe of this new combi-disc ACS60T-MULTI allows cutting of metal and all masonry without changing the disc. A special tool for special users, such as plumbers.

- Three discs in one / No time-consuming disc changes required
- Combi-disc for stainless steel, steel, and wall tiles
- Good cutting performance / Low-burr to burr-free edges
- Comfortable cutting

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13821	4.5" x .045" x 7/8"	Steel / Stainless Wall Tiles	13,300	1	5/25

TINS PROVIDE 30% LONGER BLADE LIFE

P.O.P RACKING SOLUTIONS

DuraCut

7" DuraCut: Steel

Long service life, even when used to cut different materials, and cutting stability allow working cost-effectively, whether you are cutting profiles, pipes or solid metal.

- Ultra-long life and extremely durable
- Great cutting speed
- Great removal rate
- Great cutting performance
- Steady cutting with longer life

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13850	7" x 3/32" x 5/8"	Steel / Stainless	8,600	1	5/25

DuraCut

7" DuraCut: Masonry

Cuts granite, concrete, brick, and other construction site materials effectively. Also perfectly suitable for ceramic, porcelain, and marble.

- Ultra-long life and extremely durable
- Good cutting speed
- Good removal rate
- Good cutting performance
- Steady cutting with longer life

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13851	7" x 3/32" x 5/8"	Masonry	8,600	1	5/25

14" StudCut

Created to be used on a chop saw, this amazing blade is designed to last. Tried and tested, this wheel is ideal for cutting drywall studs, all ferrous metal, steel, iron, pipe, and light gauge material.

- Extremely long life
- Smooth cutting with least amount of pressure
- Fast cutting
- No burning
- The perfect cutting wheel for the contractor

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13890	14" x 7/64" x 1"	Steel / Stainless	8,600	1	-/10

StudCut

14" DuraCut

Particularly suitable for construction steel and tool steel. Good performance on cast.

More durable than any other blade on the market. This cutting wheel is designed for ultra-long life and dependability.

- Ultra-long life and extremely durable
- Good cutting speed / good removal rate
- Good cutting performance

Item No.	Description	Application	RPM	Pk. Qty.	Inner/Master.
13891	14" x 7/64" x 1"	Steel / Stainless	4,300	1	-/10

The Right Sandpaper for A Perfect Finish

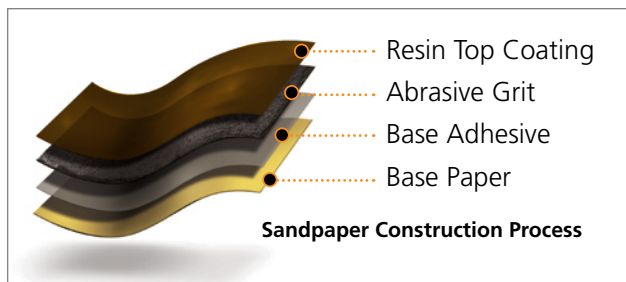

Manufactured by Ali Industries, Inc.

Automotive Abrasives

The unique Finish 1st™ Automotive Finishing System offers a comprehensive line of quality sandpaper products created specifically for the demands of automotive bodywork. From grinding and sanding to finishing and feathering, create the perfect surface for a beautiful paint job. Available in either dry or wet sanding, a variety of sizes and shapes are offered to meet any project large or small.

Powerful Construction All Finish 1st™ abrasive products go through rigorous testing to meet the high standards we demand from our products. We purposely try to make our products fail so when you use them, they don't. Our sandpaper resists heat and humidity and is designed for hand or machine sanding. All of our abrasive products are made with heavy grade paper that resists tearing, and offer professional results at a great value.

When it comes to a professional looking finish, you need to know the proper sandpaper for the appropriate application. Here are our recommendations with the easy-to-follow Finish 1st™ numbered steps and grit selection on every Finish 1st™ sanding package.

PREP — P24-P320 Used for the harshest of applications and for ripping through layers of paint and corrosion, Prep is where you get started. Engineered to reach bare metal with ease and preps surfaces for priming.

PRIME — P360-P600 Used for preparing bare metal surfaces for body fillers, smoothing body fillers, and feathering high and low spots in old paint after filler has been applied. Prime is designed to get the body level and ready for sealers and primers.

PAINT — P800-P2500 Used for smoothing primer, Paint is the last step before applying paint. Use 800 or 1000 grits to smooth and level primers. Use 400 or 600 grits to wet sand the primers. This step may need to be repeated 3 or 4 times to ensure a smooth and flawless finish. Apply sealer coat after Step 3 to ensure a good bond for when paint is applied.

POLISHING — P3000 Now that paint is applied, it's time to bring the finish out. Start with 3000 grit and end with 2000 grit for best results. Wet sanding is more effective because it keeps the surface cleaner and allows the abrasive to cut more efficiently while not clogging as easily. Take a couple passes over with 2000 grit, and now you're ready to get the buffer pads and compound out to achieve the final brilliant finish.

■ 9" X 11" Waterproof Sandpaper

- For wet sanding primers, base coats, and top coats.
- For hand or machine sanding.
- Cut to fit 1/2 sheet, 1/3 sheet, or 1/4 sheet sanders.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8226	Extra Fine	220	4	10/100

8404	Mirror Fine	1500	25	-/10

■ 9" X 11" Premium Sandpaper

- For sanding fillers, primers, fiberglass, plastics, and metal.
- For hand or machine sanding.
- Cut to fit 1/2 sheet, 1/3 sheet, or 1/4 sheet sanders.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8232	Coarse	60	3	10/100
8233	Very Fine	120	3	10/100
8234	Extra Fine	320	3	10/100
8235	Assorted	Assorted	3	10/100

■ 9" X 11" Multi-Surface Sandpaper

- For sanding fillers, primers, fiberglass, plastics, and metal.
- For hand or machine sanding.
- Cut to fit 1/2 sheet, 1/3 sheet, or 1/4 sheet sanders.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8224	Assorted	Assorted	3	10/100

■ 9" X 11" & 1/3 Sheet Emery Cloth

- Emery cloth is used for sanding metals to deburr and smooth out rough cuts.
- Manufactured with a flexible fiber backing, this emery cloth can take on any shape, size, or type of metal and clean it up.
- For hand or machine sanding.
- Cut to fit 1/2 sheet, 1/3 sheet, or 1/4 sheet sanders.

Item No.	Description	Grade	Pk. Qty.	Inner/Master.
8225	Emery Cloth	Assorted	3	10/100
8260	3-2/3" 9 Emery Cloth	Assorted	5	10/100

■ 1/3 Sheet Waterproof Sandpaper

Made with Silicon Carbide to really dig in and finesse to a fine finish while resisting breakdown and loading up when wet sanding.

- Use waterproof sandpaper to wet sand primers, base coats, and top coats.
- Sized for 1/3 sheet (3²/₃" x 9") clamp-on tools.
- For hand or machine sanding.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8265	Extra Fine	320	5	10/50
8266	Super Fine	400	5	10/50
8267	Ultra Fine	600	5	10/50
8268	Mirror Fine	1000	5	10/50
8269	Mirror Fine	1500	5	10/50
8270	Mirror Fine	2000	5	10/50

■ 1/3 Sheet Premium Sandpaper

Made with Aluminum Oxide for efficient sanding of welds or body fillers.

- Sized for 1/3 sheet (3²/₃" x 9") clamp-on tools.
- For hand or machine sanding.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8261	Coarse	60	5	10/100
8262	Very Fine	120	5	10/100
8263	Extra Fine	320	5	10/100
8264	Assorted	Assorted	5	10/100

■ 2-3/4" x 16-1/2" Stick-On Body Files

- For dry sanding body fillers, primers, and paints.
- Stick-on adhesive holds securely without slipping so you can smooth large surfaces.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8280	Extra Coarse	40	3	5/50
8281	Medium	80	3	5/50
7541	Extra Coarse	40	5	5/50
3256	Medium	80	6	5/50
3257	Extra Coarse	40	5	5/50
7540	Medium	80	6	5/50

■ 5" Stick-On Gold Anti-Clog Discs

Made from heavy duty sandpaper, these resin-bonded discs are designed for power tool sanding and to resist heat and humidity for longer life.

- Discs fit 5" dual-action air sanders, orbital sanders, or backer pads.
- This quality sandpaper provides maximum resistance to clogging and loading which increases your productivity.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8241	Extra Coarse	40	3	5/50
8242	Medium	80	4	5/50
8243	Very Fine	180	4	5/50
8240	5" Disc Pad for PSA Discs	N/A	1	1/10
8350	6" DA Pad for PSA Discs	N/A	1	1/10

■ 6" Stick-On Gold Anti-Clog Discs

Made from heavy duty sandpaper, these resin-bonded discs are designed for power tool sanding and to resist heat and humidity for longer life.

- Discs fit 6" dual-action air sanders, orbital sanders, or backer pads.
- Provides maximum resistance to clogging and loading which increases your productivity.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8246	Medium	80	4	5/50
8247	Very Fine	180	4	5/50
Value Packs				
8251	Medium	80	25	5/20
8252	Very Fine	180	25	5/20
8253	Extra Fine	220	25	5/20
8254	Extra Fine	320	25	5/20

■ 2" Surface Conditioning and Preparation Discs

2" Surface Conditioning Discs are engineered as an open nylon web, interlaced with abrasive grains and offer a continuous and controlled finish with minimal material removal.

- Precise cast rubber with 1/4" diameter shaft.
- Designed for 2" discs with plastic screw backing.
- 2" Preparation Discs are perfect for gasket removal and quickly removing large amounts of material.

Item No.	Description	Grade	Pk. Qty.	Inner/Master.
8290	2" Grind/ Sand Kit	Coarse	1	-/20
8291	2" Surface Conditioning	Coarse	3	-/20
8292	2" Surface Conditioning	Medium	3	-/20
8294	2" Grinding Disc Holder	N/A	1	-/20
Value Packs				
8296	2" Discs	Coarse	25	-/10
8297	2" Roloc™ Discs	Medium	25	-/10

■ Paint & Rust Remover

- For use on die grinders or electric drills for cleaning, blending, and scuffing all surfaces.

Item No.	Description	Grade	Pk. Qty.	Inner/Master.
8238	4" Paint/ Rust Stripper Black	Coarse	1	-/10

■ AutoZip® & AutoZip® Refills

No matter if you're restoring, repairing, or polishing, the AutoZip® will quickly achieve a perfect finish for your project.

- This versatile product is designed for comfort and ease-of-use, and offers a wide variety of refill packs so you can find the ideal grit.
- The AutoZip® is perfect for a wide range of automotive applications.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8300	AutoZip Kit	Assorted	8	-/5
8212	Extra Fine	320	8	5/50
8213	Super Fine	400	8	5/50
8214	Ultra Fine	600	8	5/50
8210	Assorted	Assorted	8	5/50
8308	Polishing Pad	Polishing Pad	1	5/50
Value Packs				
8306	Mirror Fine	1500	20	5/20
8307	Mirror Fine	2000	20	5/20

AutoZip®

■ Micro AutoZip®

The Micro AutoZip® is specially designed to ease the challenges of smoothing door jambs, body seams, trunk lids, under the hood and any other tight space. Being 1" wide and 3-1/2" long, it fits snugly under your index finger. Use a Micro AutoZip® on your next project.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
9800	Micro AutoZip Kit	Assorted	30	-/5

Micro AutoZip®

■ AutoZip® XL & AutoZip® XL Refills

The AutoZip® XL is tailored to help tackle the large areas that need to be smoothed to perfection.

- With a wide choice of hook & loop sandpaper, there is no area too large for the AutoZip® XL.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8312	Fine ZipXL Refill	80-180	6	5/50
8313	Super/Ultra Fine Refill	400-600	6	5/50
8314	Mirror Fine ZipXL Refill	1500-2000	6	5/50

AutoZip XL®

■ Premium Auto Sponges

For use on metal, fiberglass, and painted surfaces. For sanding irregular shapes and contours. Resists clogging and loading.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
	Coarse	60	1	5/50
	Fine	100	1	5/50
	Extra Fine	320	1	5/50

■ Hand Tools and Blocks

Tools designed with ease of sanding in mind.

Item No.	Grade	Grit	Pk. Qty.	Inner/Master.
8237	Rubber Sanding Block	N/A	1	-/10
8331	Project Pack	Assorted grit	12	-/5

■ Backer Pads Disc Kits

- Designed and balanced for DA Sanders

Item No.	Description	Inner/Master.
8350	6" Professional DA Pad For PSA	-/10

Product Display Systems

The Finish 1st™ Display includes a series of space-saving merchandisers designed to showcase the products in a way that is consumer friendly. The color and number coded packaging helps consumers quickly find the right product. Along with our traditional sheets and discs, Finish 1st™ offers new innovative approaches to sanding. Also look for bulk packaged items for big jobs!

COMMERCIAL PACKS

Sanding Belts & Discs

WARNING: Safety Requirements

1. Always wear eye protection.
2. Protect breathing. Do not breathe dust created by sanding or grinding.
3. Follow all warnings and instructions in your power tool operator's manual.

Backer Pads

WARNING: Safety Requirements

1. Always wear eye, face, body, respiratory and hearing protection when operating or changing accessories.
2. Do not exceed maximum RPM.
3. Read safety information before using this product.
4. Read and understand all warnings and manuals supplied with the power tool.

Mounted Grinding Wheels

WARNING: Safety Requirements

1. Always wear eye protection.
2. Protect breathing. Do not breathe dust created by sanding or grinding.
3. Improperly used grinding wheels can cause serious bodily injury to the operator and bystanders.
4. Do not use mounted wheels if excessive vibration occurs.
5. Do not exceed maximum RPM.
6. Follow all warnings and instructions in your power tool operator's manual.

Cut-Off Wheels

WARNING: Safety Requirements

1. Read and comply with Standard B7.1. "Safety requirements for the use, care and protection of abrasive wheels" is available from the American National Standards Institute. Special attention is directed to Section 8 of this Standard.
2. Always wear eye protection that complies with current ANSI Standard Z87.1.
3. **DO NOT** breathe dust created by sanding or grinding. Dust created from some ground materials may be hazardous to your health.
4. Read and understand the machine owner's manual before using abrasive blades.
5. Make sure machine guard is in proper operating condition and is always in place during use.
6. **DO NOT** exceed maximum RPM.
7. Inspect & test blade before each use. Discard any blade that has been dropped, cracked, or broken.
8. Never use excessive force as this could cause the blade to break.
9. Cut-off blades should never be used for side grinding.
10. Never store wheels in places exposed to freezing temperatures, solvents, or water.

Pole Sanders

WARNING: Safety Requirements

1. Always wear eye protection.
2. Protect breathing. Do not breathe dust created by sanding or grinding.
3. When using with extension poles, stay clear of electrical hazards and power lines.

Sponges

WARNING: Safety Requirements

1. Always wear eye protection.
2. Protect breathing. Do not breathe dust created by sanding or grinding.

Synthetic Pads

CAUTION: Always work safely. Protect eyes, face, and breathing for operator and bystanders. When using with water-based or chemical strippers, follow manufacturer's safety instructions for applications and disposal. Do not use on hot surfaces.
