**Professional Fountain
And Pond Equipment
Since 1987**

FT-53 Medici Ellipse Fountain

WHO WE ARE:

Water Arts Inc. was founded in 1987. The company was originally formed as a fountain design and consultation firm; however, a demand for quality equipment and sound advice resulted in the expansion of the company.

Thus In 1990, Water Arts Inc. launched into the sales of professional fountain and pond equipment to Landscape Architects, Landscape Contractors, Garden Centres, Water Garden Centres and Homeowners.

As the business and industry matured and changed Water Arts Inc. moved to a new space, 4152 Dundas St. W. in the spring of 2009.

Fountains and pond equipment, garden statuary, ornamental fountains, and water plants are on display here. Visit our website detailing all the amazing products available through our store and online. www.waterartsinc.com

Our expertise is supplying the best products for each project and each client. Our staff are well trained in the use of fountain and pond equipment and are delighted to offer their advice.

Water Feature Pumps

Franklin Electric offers the Little Giant® brand of Water Feature Pumps to exacting specifications for optimum efficiency and long life. Our new line of "flexible" water feature pumps are designed for in and out of pond use, and are constructed with stainless steel and durable thermoplastic. Plus, each pump meets the rigorous demands of the most impressive water features. There are five different sizes to match virtually any application for use in or out of water. Recommended for Koi and Goldfish ponds as well as features without fish. Use in conjunction with Little Giant skimmers and biological waterfall filters for a complete, ecologically balanced system. 1/5" Solids-handling Ability.

5MSPR-WG

- Epoxy - coated cast , aluminum housing.
- Removes water down to 1/8".
- Bottom inlet has removable screen for easy cleaning.

8-CBM

- Cast bronze pump housing for corrosion and rust resistance.
- Oil filled motor housing for lifetime lubrication and rapid heat dissipation.
- Stainless steel bolts, screws and handle.
- Mechanical seals (stainless steel spring, nitrite parts, carbon & ceramic faces).
- Thermal overload protection.
- 1 Year limited warranty.

10EN-CBM

- 1/2 HP Permanent Split Capacitor (PSC) motor with thermal overload protection
- Energy saving low amp draw
- Cooler running motor which extends pump life
- Cast bronze housing with polypropylene base, Vortex impeller.
- Solids handling up to 1/2 inch diameter

20E-CIM

- Cast iron pump housing with protective epoxy coating for corrosion resistance
- Oil filled motor housing for lifetime lubrication and rapid heat dissipation. Stainless steel bolts, screws and handle.
- Mechanical seals (stainless steel spring, nitrite parts, carbon & ceramic faces).
- Thermal overload protection.

Out of Pond Pumps

1 Year limited Warranty.

Little Giant - OPWG - Out of Pond Pumps

- The OPWG Series of Pumps produce a maximum flow rate with a minimal electrical consumption.
- Housing is moulded of glass filled polypropylene ensuring that motors are enclosed for excellent protection and weather resistance.
- The leaf basket is necessary in order to reduce clogging of pump motor and it also acts as a priming chamber. Requires a "flapper" foot valve for easy priming.
- Operates Quietly

Variable Speed Pump

HAY10-0100 SP3400VSP
2.75 HP

Cable not Included

EcoStar variable speed pump is the most efficient pump at any speed that can save you up to 90% on energy costs over a single-speed pump. EcoStar matches pump flow to a fountain's needs, versus running at full power 100% of the time and is suitable for both new construction and the aftermarket. Integrated controller is programmable with a self-contained 24-hour clock and up to 8 custom speed and timer functions that allow EcoStar to manage flow throughout the day.

Ultraviolet Clarifiers

Little Giant UV clarifiers eliminate green water fast to improve pond health and beauty. Built to last from industrial-grade materials, these units are easy to maintain and have a safety feature to prevent UV-C exposure.

- Safe for plants and fish
- Easy maintenance and cleaning
- Installs in-line easily (cannot be submerged)
- Efficient compact size
- Clear cap to see bulb working

Filters

AquaDyne Bead Filter - Ideal for fish ponds

Aquadyne Bead Filter Systems are specifically engineered to host a multitude of aquatic inhabitants in both fresh and salt water. They offer high efficiency, low maintenance, mechanical and biological filtration in one package with up to 5300 ft² of biological contact surface area in a small footprint. Aquadyne filtration systems are widely used in aquatic environments from ponds, public aquariums, zoos, hatcheries, research facilities, academics, aquaponics, quarantine and environmental biological recovery systems. The Dynamax blower aggressively agitates the debris collected in the media bed and suspends it in the water column which is easily backwashed to waste.

- Patented Water Flow Control System protects against friction loss, eliminating 90° turns inside the system allowing a more natural unrestricted water flow.
- Air Wash System fluidizes and pre-washes media prior to backwash, reducing the amount of water needed to clean the system, which increases biological efficiency.
- Bottom Mounted Sludge Drain discharges heavy solids without media interference.
- Filter Media Bypass isolates beneficial bacteria and media without disturbing normal water flow. Ideal for medicating the aquatic environment without killing the beneficial bacteria.
- Micro Sediment Removal of smaller particulates than other filters, yielding greater water clarity.
- Systems include pressurized bead filter, 115V 60 Hz blower, three each 1-1/2" or 2" self-sealing union valves and filter bead media

UV Lites

SMART UV Sterilizers, our flagship UV line, feature a 3" UV Housing that utilizes their standard-output lamps' UV-C output to its maximum potential. SMART UV Sterilizers offer a heavy-wall UV resistant body and come with a Lifetime UV Housing Warranty*. The SMART Ballast drives the lamp(s) at peak efficiency which ensures maximum UV-C output, as well as expected useful life.

Filters

TadpoleUV - Submersible Filter/UV System

The Tadpole UV Filter is a complete pond filtration system, the ONLY complete pond filter that is entirely submersible! Each Tadpole UV Pond Filter includes: 500 GPH Pump, Solid Waste Filtering Pad and an Internal 25 watt UV Sterilizer. Suitable for ponds of up to 1,500 gallons, the Tadpole UV Filter is an excellent choice when external filters or plumbing are not options. Submerge the Tadpole UV Filter in the deepest area of the pond and it will maintain clear, healthy water by eliminating waterborne pathogens, viruses, algae, bacteria and protozoa.

Recommended Filter Applications:

The Tadpole UV Filter is specifically designed for small pond filtration, suitable for ponds of up to 1,500 gallons with a moderate fish load. No other filtration is needed when using a Tadpole UV Filter, and since it is completely submersible, no external plumbing either! Tadpole UV installation.

For Best Filtration Results

Submerge the Tadpole UV Filter in the deepest area of the pond and provide professionally installed, outdoor, dual GFI electrical outlets. Clean the re-usable Filter Pad occasionally to maintain effective solid waste capture and wipe down the UV Lamp and Quartz Sleeve to assure optimum UV Sterilization. Be sure to test for water leaks before reinstalling the filter in the pond.

Cartridge Filter - Hayward Star Clear

Hayward Star-Clear™ cartridge filters provide crystal clear water and have extra cleaning capacity to accommodate pools, spas and fountains of all types and sizes.

- Single locking knob securely fastens head to filter tank, eliminating bolts or clamps.
- Attractive, durable filter head may be rotated to conveniently position pressure gauge and manual air relief.
- Injection-molded filter tank for dependable corrosion-free performance.
- Extra-large cartridge element with new precision engineered core provides extra-strength and maximum flow.
- Elevated, filtered water collector and debris sump prevents accidental by-pass of heavy debris to pool or spa when cartridge is removed for cleaning.

SIMPLE POND SYSTEM

- No Limitations on your creative vision.
- No Fragile ecosystem to maintain.
- Operate only when desired.
- Can be placed away from water feature
- Minimal footprint in landscape.
- Requires much less digging.
- Reduces energy consumption.
- Reduces evaporation.
- Sturdy, durable, yet light weight material.

T40F- Filter Tank

- 40 lbs. Dimensions: L: 29", W: 31.75", H: 24"
- A 4" intake port handles flow rates up to 80 GPM (4,800 GPH)
- Provides 20 gallons of water-in-motion reserve @ 9" residual water depth
- Large pumping chamber, bolt down integrated lid system, convenient 13" diameter filter access
- Removable filter carriage
- Front & Back Discharge Ports for two pumps
- Additional Capacity Port for expandable water containment

T40SP- Side Pod Expansion Tank

- 40 lbs, Dimensions: L: 32", W: 24", H: 20"
- Side-nesting Expansion Tank connects to either side of the T40F or T75F Filter Tank
- Adds an additional 10 gallons of water-in-motion reserve when connected to the T75F Filter Tank
- The top of the Side Pod rests 4" below ground level allowing it to be placed beneath lawn, ground cover or walkways.
- A 4" connection on both sides for connecting to a Filter Tank or additional Side-Pod Tanks
- Includes vented cap. The Air Vent allows water to flow quickly in and out of the tank.

T75F- Filter Tank

- 72 lbs, Dimensions: L: 35", W: 36", H: 32"
- A 6" intake port handles flow rates up to 200 GPM (12,000 GPH)
- 75 gallon Filter Tank (provides 40 gallons of water-in-motion reserve @ 9" residual water depth)
- Large pumping chamber
- Bolt down integrated lid system
- Convenient filter access (Filter Basket purchased separately)
- Removable Filter Carriage
- Front & back discharge ports for up to four pumps
- Front and back additional capacity ports for expandable water containment

T165XP- Xtended Pod Expansion Tank

- 156 lbs, Dimensions: L: 63", W: 37", H: 32"
- Four 6" coupling ports for connection to Filter Tanks or additional Expansion Tanks, One 3" overflow port
- Adds an additional 140 gallons of water-in-motion reserves when connected to the T390F Filter Tank
- Adds an additional 95 gallons of water-in-motion reserve when connected to the T75F Filter Tank
- Reinforced domed lid can be covered by the landscape
- Lid vented for pressure equalization to allow easy fill and pump down of stored water
- Includes coupling pipe & fittings

T390F- Filter Tank

- 256 lbs, Dimensions: L: 70", W: 51.5", H: 48"
- 6" / 10" combination intake port handles flow rates up to 700 GPM (42,000 GPH)
- 390 gallon Filter Tank (provides 270 gallons of water-in motion reserve @ 9" residual water depth)
- Accepts interchangeable skimmers
- Large pumping chamber. Bolt down integrated lid system
- Convenient filter access (Filter Baskets purchased separately). Removable Filter Carriage
- Front & back discharge ports for up to four pumps
- Front and back additional capacity ports for expandable water containment

Fixed Skimmers

Low Profile Fixed Skimmers allow precise adjustment of the water level and are nearly invisible at the pools edge. An eccentric coupling provides fine tuning of the skimmer height to accommodate increased flows, and the un-tapered skimmer design allows the skimming edge to be incrementally trimmed as needed. Optional drain port allows for water to drain completely into tank when pump is shut off.

Door Skimmers

The door skimmer rests inside the liner and is designed to disappear into the ponds edge. The skimmer door self-adjusts to fluctuating water levels. Floating debris in the pond is swept through the skimmer door and into the filter basket inside the filter tank. It accommodates fluctuating water levels and pumping volumes. Allows for bottom draw in pond through a connection to Bottom Draw Disk.

In Wall Skimmers

There are 2 types of stainless steel skimmers. For use in elevated pools the S5 in-Wall Skimmer exits out of the bottom and provides a strong low profile design for 10" or wider concrete walls. In installations where the top of the Filter Tank is level with the pool edge, the S6 In-Wall Skimmer exits out the back for a same level connection with the Filter Tank and provides a strong narrow design for 10" or wider concrete walls.

Waterfall Starter

Filtrific Waterfall Starter's innovative rock-bearing design allows only the natural elements and flowing water to be seen. Surround the Waterfall Starter with rock to create a completely natural looking water feature. Invert the Waterfall Starter for a low profile start to a waterfall or stream. Recommended flow up to 9600gph. 3" Connection

Optional Accessories

SH1 & SH2

A recessed top supports large or small rock overlays and two front and back skimming windows handle large leaves and debris.

CD1

The Bottom Draw Disk connects directly to the S44D, S64D, or S66D and removes small organic debris with a maximum flow rate of 15gpm.

SG1 & SG2

Use the stainless steel skimmer Grate for applications with smaller organic debris. Extension risers can be added to lift the grate off the skimmer and allow larger debris to pass below the grate.

K5 & K6

The Auto-Fill Assembly connects to the overflow port on the Filter Tank and can be positioned according to the application at either a high or low level in the Filter Tank.

RISER

Extension risers elevate the grate 1-3/8" to accommodate larger debris. Four self-tapping screws secure the riser to the skimmer. Top bolts fasten the grate to the top of the risers allowing convenient internal access of the skimmer

UV57-FH

UV light is a popular and effective way of turning green water into clear water. It contains a 57watt UV lamp transformer, 22" housing with 2" connection pipe and flex connectors, 14ft cord and 2" check valve.

Drilled Stones, Liner, Geotextile

Drilled Stones

Bubbling boulders offer the sound of flowing water in a pond or pondless environment. They will accent any garden and are very easy to install.

Mill Stones

Sizes and Prices vary based on weight and dimensions. Please call for Pricing

HYDROPLAN PVC Liner

- NON-toxic, pure, un-recycled Polyvinylchloride (PVC)
- German technology (ask us for an engineer's report)
- UV and frost resistant (-40°C)
- Suitable for waterproofing any pond, waterfall, stream, etc.
- Olive green in colour looks more natural than black
- Standard and custom sizes (up to 2000 sq.ft.)
- Larger sizes must be fabricated on site, due to weight
- 40mil repairable by heat welding
- 10 year manufacturer's warranty

Why Choose PVC liner ?

- Design Flexibility. Your pond can be made to any size or shape. The liner can be fitted to your design. (Reminder: check with your zoning department for water depth restrictions in your neighbourhood).
- Economical. The PVC liners are less expensive than the fibreglass and polyethylene pools.
- Durable. HYDROPLAN liners have been in use for over 50 years withstanding the test of time and the environment! Also, should you wish to treat your pond with chemicals such as algacide and chlorine they will not harm the liner.

Glue		Retail (\$)	Underlay		Retail (\$)
PVC Glue		69.98	Roll 5.5ft x 492ft		649.98
Liner Repair Kit		29.98	per sq. ft.		0.29

NOTE: Liners can be cut from roll according to the following guidelines and sold at per sq.ft. prices. Liner available in 5' (1.5m) lengths. Liner available in 6.5'(2M), 13'(4M), 19.5'(6M) and 26'(8M) widths. Example liner sizes available 5'x 13' or 5' x 26' or 10' x 13' or 10'x 26'

How to calculate the size of pond liner:

Length= (Depth x 2) + Length + 2 ft. (for overlap) Width= (Depth x 2) + Width + 2 ft. (for overlap)

Halogen Lighting - Low Voltage

20 watt EggLite includes a 60 watt transformer that can run up to three 20 watt EggLites. Kit also includes a mounting stand, clear front lens cover, four colored lenses, magnetic base. Submerged use only.

EggLite	
Size (Ø x H) (inches)	2.75" Diam.
Voltage	12
Power Consumption	20 watt
Cable (feet)	10
Limited Warranty	1 year
Part Number	517404
Retail (\$)	109.98

Each EggLite comes with a 10' cord, 10-watt EggLite 60-watt transformer, Mounting stand, Clear front lens cover, 4 color lens set, Magnetic base with stainless steel screw and nut. Up to six 10-watt EggLites can be run in series using their standard 60-watt transformer. Submerged use only.

EggLites	
Size (Ø x H) (inches)	2.75" Diam.
Voltage	12

Professional / Quality Lighting

ELA-020 Submersible Light

- Sturdy bronze body.
- Light must be submerged at all times as fixture is water cooled.
- This is a low profile underwater light, 8" x 3" high.
- It has the option of a swivel "T" foot base or swivel yoke and base for angle adjustment.
- 9' standard cord (longer lengths may be requested at an extra charge).
- Quartz 250Watt light bulb.
- Filters available in: amber, blue, green and turquoise.
- CSA approved.
- Bronze rock guards and replacement parts are available .
- Plug Not Included

EL002 Submersible Light

This attractive, compact light is available in a variety of wattage and voltage configurations. Its compact size allows close placement to any jet for maximum light usage or in tight surroundings. Halogen lamps are available in spot and flood to allow gentle lighting of low effects and waterwalls as well as very good projection for high vertical nozzle effects. Available with integral rock guard, thermal cutoff and different cable lengths. UL and ULC listed. Made of 316L stainless steel. Requires 12V transformer.

Note: Please specify Flood or Spot Bulb when ordering

Water Treatments

MICROBE-LIFT® WATER CLARIFIERS

MICROBE-LIFT/PL Any time your pond water is not as clear as you'd like, the temperature is over 8°C, there is sediment buildup on the bottom of your pond or your pond is not cycling.

10PLP	1 pt. MICROBE-LIFT PL	30.98
10PLQ	1 qt. MICROBE-LIFT PL	46.98
10PLG6	1 gal. MICROBE-LIFT PL	139.98

PL/GEL (Filter Pad Inoculant) To help stabilize the pond environment quickly upon startup and eliminate transient instability that can occur when filter media is cleaned or replaced. Accelerates the breakdown of organic solids.

GEL8	8 oz. ML/PL Gel Bacteria	21.98
------	--------------------------	-------

BSP (Barley Straw Pellets+) Start in the spring before water temperatures reach 10°C and continue maintenance throughout the year. To provide additional water clarity when **ML/PL** alone does not provide the desired clarity.

10BSPP2.2	2.2 lb. Barley Straw Pellets	29.98
-----------	------------------------------	-------

Barley Straw Concentrated Extract (CBSE) Start in the spring before water temperatures reach 10°C and continue throughout the year to provide water clarity when **ML/PL** alone does not provide the desired results.

MLCBSE250	8 oz. Barley Straw Extract	20.98
MLCBSE500	16 oz. Barley Straw Extract	27.98

MICROBE-LIFT® SEASONAL

SPRING/SUMMER CLEANER accelerates decomposition of dead leaves and other and residual organic sediment on the pond's bottom from the previous fall and winter season

10XSSCX1	1lb.Spring/Summer Cleaner	49.98
----------	---------------------------	-------

AUTUMN/WINTER PREP helps accelerate the decomposition of leaves, sediment and other organic matter during the fall and winter months.

AUTPREP	1 qt. Autumn/Winter Prep	54.98
---------	--------------------------	-------

MICROBE-LIFT® DYES

BIO-BLUE Enzymes & Pond Colorant: Whenever the appearance of your pond water is not acceptable.
BIO-BLACK Enzymes & Pond Colorant: to create a reflective pond

MLBB8	8 oz. Bio-Blue	17.98
MLBB16	16 oz. Bio-Blue	27.98
BIOBLK08	8 oz. Bio-Black	20.98
BIOBLK16	16 oz. Bio-Black	32.98

MICROBE-LIFT® PLANTS

BLOOM & GROW Whenever aquatic or terrestrial plants are actively growing. Provides essential micronutrients, co-factors and minerals for optimum plant health.

BNG16	16 oz. Liquid Bloom N Grow	19.98
BNG32	32 oz. Liquid Bloom N Grow	30.98

MICROBE-LIFT® OXYPOND CLEANER

OXY POND CLEANER To spot-treat all areas of light to heavy accumulations of debris on rocks, waterfalls, streams, planters, etc.

OPCSM	2 Lb. Oxy Pond Cleaner	34.98
-------	------------------------	-------

MICROBE-LIFT® SPECIALTY

SA (SLUDGE AWAY) will accelerate the solubilization and biological digestion of organic solids in your pond.

MLXSAQ	32 oz. Liquid Sludge Away	55.98
MLXSAQ6	1 gal. Liquid Sludge Away	139.98

MICROBE-LIFT® CHEMICAL TREATMENTS

FLOCCULANT PLUS To clear cloudy water and improve filtration.

FPLUS16	16 oz. Flocculant Plus	19.98
FPLUS32	32 oz. Flocculant Plus	27.98

DECHLORINATOR PLUS To dechlorinate, detoxify and condition water when making regular, partial water changes and when replacing lost or evaporated water in BOTH fresh and saltwater.

DECHL16	16 oz. Dechlorinator Plus	15.98
DECHL32	32 oz. Dechlorinator Plus	25.98
DECHGAL	1 Gal. Dechlorinator Plus	69.98

MICROBE-LIFT® BIRDBATH & FOUNTAINS

BIRDBATH CLEAR For new or existing birdbaths to prevent deposits of organic and inorganic contaminants from forming (i.e. crusty white scale, iron, copper and hard water stains).

10BBC4	4 oz. Birdbath Clear	17.98
--------	----------------------	-------

SMALL FOUNTAIN CLEAR and LARGE FOUNTAIN CLEAR To ensure clear, sparkling water that keeps water filters and pumps free from organic debris in small or large water fountains.

10TTFC4	4oz. Small Fountain Clear	16.98
---------	---------------------------	-------

PROTEC Safely removes and prevents white calcium scales and deposits. Prevents pump damage from mineral buildup and corrosion

PTECH	8oz. Protec	40.00
-------	-------------	-------

PHYSAN 20 is effective at controlling algae and odor in fountains, birdbaths, swimming pools and decorative water displays. It is simple to apply, and safe around birds, mammals and plants. It should not be used in the presence of fish.

P20	16oz. Physan 20	36.98
-----	-----------------	-------

FISH FOOD

ALL SEASON fish food formulations contain select, high quality ingredients that provide pond fish with excellent nutrition and a balanced diet. As a result, less food is required during feeding time, translating into less waste and cleaner water. It contains multi-vitamins and stabilized vitamin C, and will not cloud water.

PT62	17 oz Small Floating Pellets (fish size 1-1/2"-3")	17.98
PT73	2.2 lb Medium Floating Pellets (fish size 2-1/2"-7")	29.98
PT81	2.2 lb Large Floating Pellets (fish size 6" or larger)	29.98
PT82	4.4 lb Large Floating Pellets (fish size 6" or larger)	54.98
PT83	9.9 lb Large Floating Pellets (fish size 6" or larger)	99.98

FLAKE FOOD is fortified with multi-vitamins and stabilized vitamin C. For all coldwater fish.

A7106	7 oz. Nutrafin Flakes	19.98
-------	-----------------------	-------

COLD WEATHER (Wheat Germ) specially formulated for Spring/Fall feeding. The scientifically-formulated diet includes multi-vitamins and stabilized Vitamin C which help improve disease resistance and the health and longevity of fish. Feed Goldfish & Koi Food with wheat germ when water temperature is between 8° to 10° C (47° to 50° F).

PT91	2.2 lb Medium Floating Pellets (fish size 2-1/2"-7")	39.98
------	--	-------

Maintenance and Seasonal Products

Liquid Rubber

- Creates a long lasting waterproof membrane
- Resists cracking, chipping, impact and abrasion
- Resistant to freeze/thaw cycles
- Excellent adhesion, chemical and UV resistance

Liquid Rubber (black)	Retail (\$)
3.78 Litre Can	79.98
18.9 Litre Pail	329.98

Concrete Sealer

This water based sealer specifically designed for concrete, brick and masonry. It works better and lasts much longer than conventional sealers because it contains a blend of silane and siloxanes compounds which chemically react with silicates below the surface of substrate. This reaction forms an insoluble, water repellent barrier within the surface that cannot wear away, fade, crack or peel. The finished application is virtually invisible, leaving the surface with its original appearance.

Hydro Stop Concrete Sealer	Retail (\$)
1 Litre Jar	19.98

Black Foam

- Water-resistant
- Expands to fill gaps or make seals
- Bonds rocks together
- Nozzle adaptor reaches into tight spaces
- UV-resistant
- Fish-safe once dried
- Dries tack-free in 5 minutes, cures in less than 24 hours

Black Foam		
12 oz. Can	PT590	29.98

Leaf Netting

In the fall it is important to prevent any excess material from falling into the pond water. Leaves left in a pond can be dangerous for both plants and fish. As leaves on the pool floor decompose, noxious gases form which can suffocate pond life. Netting a pond can help prevent this and simplify fall maintenance.

Code	Netting	Retail (\$)
PT953	12' x 15'	39.98
PT954	15' x 20'	59.98
PT955	20' x 30'	109.98

Air Pump Kit

These aerating pumps are an effective tool to over winter plants and fish outside. They continuously blow air/oxygen into the pond via flexible hose. Even in the coldest weather the aerator will pump sufficient oxygen into the pond to provide oxygen to fish at all times and create an insulation layer between water and ice. Comes complete with 30' of tubing, air stone and styrofoam float.

Air Pump Kit		
WAAIRP	5 Watts, 6 PSI, 6' cord	119.98

Pond Heater

The 500 watt De-Icer creates and maintains a thawed, open area at the surface of the pond, allowing toxic gases from fish respiration and decomposing organic matter to escape. The open area also allows oxygen to re-enter the pond. Safe for plastic and liner ponds, the Pond De-Icer will not harm fish or plants. It is made from stainless steel the heater has an extremely high impact resistance. The unit has dual-zone integrated thermostats to help heat distribution.

Complete with a 22 ft electrical cord and grounded plug.

Floating Heater		
PT1643	500 watt Floating Heater	309.98

Air Pump Kit

Laguna Air Pump Kit provides a variety of very practical benefits for ponds with fish all year round. In summer, pumping oxygen into your fish pond is crucial for their health, particularly in a densely-stocked pond and during very hot periods when oxygen levels decline. Fresh oxygen contributes to a clean and clear aquatic ecosystem, promotes healthy aquatic life, and helps break down fish waste. In winter, air circulation generated by the pump prevents pond surfaces from completely freezing, allowing fresh oxygen to enter the water and toxic gases to escape. This gas exchange is vital for the survival of hibernating fish. The pump requires no lubrication and is certified for outdoor use.

The Kit Includes: Air Pump, Two Air Stones (2" diameter), Chrome-coated metal manifold, and 16' of Air Tubing (0.16")

2 Year Warranty.

Air Pump Kit		
PT1624	50 Watt, 5.37 PSI, 32' Cord	469.98

Floating Pond De-Icer

The thermostat activates at 32-35 degrees F, thus maintaining an ice-free area on the pond. This allows oxygen to enter and toxic gases to escape, ensuring the well-being of fish during the winter months. It has an enclosed heating element for safety. The use of a timer will reduce energy consumption.

1 Year Warranty

Restrictor Clamp

Description	Retail
For use in restricting flow on the discharge of a pump Restricts tubing up to 1/2" I.D.	15.98

Tubing and piping

Utilizing the correct size tubing is essential, especially when constructing a waterfall; the incorrect choice can seriously affect pump performance. Durable fiberglass reinforced tubing is available for projects using large rocks and large volumes of water. Never assume the discharge size on the pump is the size of pipe required for all jobs.

Vinyl Tubing

How to Calculate Volume of a Pond:

Length x width x depth x 7.5= Pond Gallons
 Example: 12' x 10' x 2' x 7.5 =1800 Gallons

Cost of Ownership:

(Watts/1000)=kwh x 8760 (Hrs per Year)
 x .10 (kwh cost) = Energy Cost per Year

Example: (345 Watts/1000) =
 .345 kwh x 8760 x .10 =\$302.22

Fire and Water Bowl Systems

Tuscano Fire and Water Bowl

Bowl Options:

- Available in Copper or Cast Concrete (10 concrete colour options).
- As a Planter only or as a Planter with Water Feature.
- As a Fire Bowl only or as a Firebowl with Waterfeature.
- As a Water Feature only.

Fire Options:

- Operates with Natural Gas or with Propane (additional propane adder required)

Fire/Bowl filler:

- Available in Reflective Fire Glass (6 color choices), Ceramic Stone, or Volcanic Rock (3 different shapes)

Fire Effect:

- Operates on 12VAC/60Hz or 220VAC/50Hz.
- Optional Remote control for Fire Unit.
- All controls are electronic and comply with CSA standards.

The Corinthian

A clean cut contemporary bowl shape available in Copper - Oil Rubbed Bronze or Concrete. A perfect addition for modern environments. Available in systems of 1-4 bowls that can run on one control panel, comes as a complete kit.

Bowl Options: Fire, Fire and Water, Water Only, Planter with Water.

Copper Bowl Dimensions: 29"L x 29"W x 9" H x 17" SQ Base
Concrete Bowl Dimensions: 30"L x 30"W x 10" H.

Fire Pit

Fire and Water Bowl

The Tuscano

A traditional urn shape bowl available in Copper - Oil Rubbed Bronze.

A versatile addition to any location. Available in systems of 1-4 bowls that can run on one control panel, comes as a complete kit.

Bowl Options: Fire, Fire and Water, Water Only, Planter with Water.

Dimensions: 31" Diameter x 11" H x 10" Base

Fire and Water Bowl

Fire and Planter Bowl

The Essex

A classic bowl shape in Copper - Oil Rubbed Bronze or Concrete with strong lines and substantial edge.

Available in systems of 1-4 bowls that can run on one control panel, comes as a complete kit.

Bowl Options: Fire, Fire and Water, Water Only, Planter with Water.

Copper Bowl Dimensions: 31" Diameter x 10" H x 10" Base
Concrete Bowl Dimensions: 31" Diameter x 10" H x 10" Base
36" Diameter x 11.5" H x 10" Base

Fire Bowl

Fire and Water Bowl

The Biltmore

This low profile bowl of cast concrete has an inviting shape and spherical ball-feet giving it real presence. Available in systems of 1-4 bowls that can run on one control panel, comes as a complete kit.

Bowl Options: Fire, Fire and Water, Water Only, Planter with Water.

Dimensions: 32" Diameter x 9" H.
4.5" Diameter Balls on 18" Diameter Center

Fire and 365 Degree Water Bowl

Fire and Water Bowl

Fire and Water Bowl Systems

The Legacy

This sleek cast concrete bowl design is sure to complement any backyard. Available in systems of 1-4 bowls that can run on one control panel, comes as a complete kit.

Small Legacy

Dimensions: 30" Diameter x 12"H x 15" Diameter Base
Bowl Options: Fire, Fire and Water, Water Only, Planter with Water.

Tall Legacy

Dimensions: 24" Diameter x 36"H x 13" Diameter Base
Bowl Option: Water Only
