

OUTDOOR EQUIPMENT

Outdoor Equipment

Husqvarna

Chainsaws 235 e-series

For pruning and light cutting applications. Features centrifugal air cleaning system, smart start, air-purge, low vibration, and tool-less chain tensioning. 1.8 HP, 9000 max. RPM.

No.	Order No.	Bar Lgth. In.	Engine Disp. CC
952-80-22-39	7286111	16	34.4

Chainsaws

Gas powered. Low Vib® system isolates handle from engine to reduce vibration. Air filtration removes majority of particles before air reaches filter.

No.	Order No.	Cyl. Disp. Cu. In.	Engine HP	Bar Lgth. In.
340	6437211	2.5	2.7	16

Chainsaws

Gas powered. Low Vib® system isolates handle from engine to reduce vibration. Smart Start® feature reduces required pulling force at start. Adjustable oiler. Side chain tensioner. Air filtration removes majority of particles before air reaches filter.

No.	Order No.	Cyl. Disp. Cu. In.	Engine HP	Bar Lgth. In.
353	6437411	3.2	3.3	20

Chainsaws 460

X-TORQ 3.7 HP engine produces high torque at low RPMs with reduced fuel consumption and exhaust emissions. Air Injection™ system removes dirt and contaminants, extending filter life and saw performance. Designed with side-access chain tensioning and comfort-grip handles. 24" bar length.

No.	Order No.	Bar Lgth. In.	Engine Size	dBA
46024	7286211	24	3.6 cu. in./60 cc	104

Husqvarna

Chainsaws 455 Rancher

X-TORQ 3.4 HP engine produces high torque at low RPMs with reduced fuel consumption and exhaust emissions. Air Injection™ system removes dirt and contaminants, extending filter life and saw performance. Features purge bulbs, decompression valve and combined choke/stop control for easy starting.

No.	Order No.	Bar Lgth. In.	Engine Size	dBA
45520	7286311	20	3.4 cu. in./56 cc	104

Fuel & Oil Tank Caps

No. 531 30 03-54. For models 340, 345, 350, 351, 353 and 346XP.

No. 531 30 03-55. For models 51, 55, 55 Rancher, 136 and 141.

No. 531 30 03-56. For models 338XPT, 340, 345, 350, 351, 353, 346XP, 357XP, 359, 365, 372XP, 385XP, 395XP, 3120XP, 455 Rancher, 570, and 575XP.

No.	Order No.	Desc.
531 30 03-54	7286411	Bar and chain oil tank cap
531 30 03-55	7286511	Bar and chain oil tank cap
531 30 03-56	7286611	Fuel tank cap

Bar Nuts Chainsaw

Fits all Husqvarna chainsaws except Electric 316.

No.	Order No.	Pkg. Qty.
531 30 03-82	7286711	4

Poulan

Chainsaws Model P3314

Vertical cylinder design. Features dual-counterweight crankshaft, gear-driven automatic oiler, inertia chain brake and full-wrap handle. 2.0 cu. in., 33cc engine with SuperClean™ filter. Primer bulb allows easier starting.

No.	Order No.	Bar Lgth. In.	Chain Type
P3314	6225311	14	91VJP

Poulan

Chainsaws Model P4018WT

Vertical cylinder design. Features dual-counterweight crankshaft, gear-driven automatic oiler, inertia chain brake and full-wrap handle. 2.0 cu. in., 40cc engine with SuperClean™ filter. Primer bulb allows easier starting. Includes carrying case.

No.	Order No.	Bar Lgth. In.	Chain Type
P4018WT	6225511	18	91VJ

Makita

Chainsaws 13-3/4"

Features inline motor with ball bearing construction for smooth operation, chain brake with trigger-mounted micro switch, direct-drive transfer and visible oil level window. Includes chain, guide bar, chain cover and universal wrench. 15A @ 115V.

No.	Order No.	Chain Speed FPM	Lgth. In.	Wt. Lbs.
UC3530A	7286811	2600	19-3/8	11

Milwaukee

Electric Chainsaws

Features 16" bar, 2-1/4 HP motor and adjustable clutch. 6-1/2 oz. oil tank. 120V, 13A. Includes wrench, screwdriver and scabbard.

No.	Order No.	Chain Speed FPM	Wt. Lbs.

Grease Guns Disposable

For delivering measured amounts of lubricant. Preloaded with factory-specified grease.

No.	Order No.	Desc.
31187	6196511	Disposable grease gun

Chainsaw Tools Scrench

For bar removal and chain tensioning. Features two socket sizes on barrel, flat screwdriver blade on shank.

No.	Order No.	Barrel Size In.	Socket Sizes mm
512959	6195111	2	13, 19
38532	6195211	3-1/4	14, 19

Husqvarna Chainsaw Chains

Features 3/8" pitch and .050" gauge. Fits models 288XP, 298, 357XP, 359, 362XP, 365, 371, 372XP, 380, 385XP, 394XP, 395XP, 2100, 2101, 3120XP, 455 Rancher, 460, 570 and 575XP.

No.	Order No.	Desc.
531 30 06-24	7287311	24" chain
531 30 05-56	7287411	24" chain

Outdoor Equipment

OREGON® Chain & Bar Fit-Up Chart

To Buy A Chain, You Need To Know:

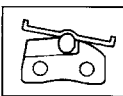

A Chainsaw Brand **B** Chainsaw Model Number **C** Cutting Length of Bar **D** Number of Drive Links

E Your selector code.
For example: If saw brand is **POULAN**, model number **2450**, and bar length is **16"**, chain drive link count would be **56**. The replacement chain you would buy is marked **S56**. (See page 6.)
Look For → **S56**

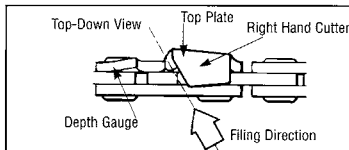

(Number of drive links equal length of chain.)

WHY IT IS IMPORTANT TO HAVE A SHARP SAW CHAIN.

When the cutters on saw chain are sharpened to the correct angles, the cutters do the work. When the angles are not correct, you do the work by forcing the chain to cut. This causes chain wear and eventual chain breakage. The bar can also be damaged by forcing a dull or damaged chain to cut. Forcing chain to cut leads to unsafe working conditions which can result in injury to yourself or bystanders.

Showing file in file holder, resting on cutter top plate and depth gauge.

ATTENTION:

The OREGON® chain shown in this selector chart is low-kickback chain. It meets the reduced kickback performance requirements of ANSI B175.1 when tested on a representative sample of chainsaws. These chains significantly reduce the hazard of chainsaw kickback while maintaining high cutting performance. **All cutting chain can kick back, which may result in severe personal injury to the saw operator or bystanders.** Operate your saw safely. Read your saw operator's manual, OREGON® chain maintenance booklet and follow all instructions.

TOOLS YOU WILL NEED TO SHARPEN YOUR SAW CHAIN.

(Instructions are included in each package of chain.)

The following OREGON® products are available for sharpening chain cutters. File sizes should match your specific chain.

- File Guide with File - 7/32", 5/32", 3/16" (for manual sharpening of cutters).
- Round Files - 7/32", 5/32", 3/16" (extra files for sharpening).
- SURE SHARP® - (manual, precision-filing guide for chain cutters).
- Electric SURE SHARP® - 12V (power-precision-grinder for chain).
- Depth Gauge & Flat File - (for precision filing of depth gauge of cutter).

In 1977, there were 14 production platforms in Cook Inlet, one of which produced only natural gas. Built to contend with extreme tides, siltation and ice floes, the Cook Inlet platforms were in one of three successful areas of offshore oil production in the United States. Gas reserves in the Kenai gas field were estimated to be the third largest in the United States.

Outdoor Equipment

Husqvarna Chainsaw Scabbards

Covers bar and chain; protects against damage. Impact-resistant plastic construction.
