**HOMEOWNERS** will have the confidence to keep their chain in top condition.

**ARBORISTS AND LANDSCAPERS** can stay in the cut and on the job.

**FARMERS AND RANCHERS** will find sharp chain is as close as the nearest toolbox.

## ADVANCED TECHNOLOGY

As the PowerSharp® chain moves through the bar-mount sharpener, the unique top-sharpening cutters contact the stone.

The guidance drive link works together with the cutter, cutter depth gauge, and depth gauge tie strap to provide the stability required to create a precision cutting edge.

The diamond-coated dresser link resurfaces the stone, ensuring flat cutter to stone contact.
