Every Weapon You Need to Protect Your Lawn.

Sweeney's® a leading manufacturer of mole, gopher and nuisance wildlife control products, was founded in 1892 by W.R. Sweeney. A skilled pharmacist, Mr. Sweeney invented a mouse killer that was so effective the Sweeney's® brand was expanded to include additional quality rodent control products. Since then, determined to help homeowners win the war on unwanted backyard invaders, Sweeney's® brand has expanded and includes an array of mole and gopher traps, repellents, poisons and nuisance wildlife repellents.

Early in 2012, Senoret Chemical Corporation was acquired by Woodstream Corporation, a leading manufacturer of quality-branded rodent control products, caring control products for pets and wildlife, natural solutions for lawns and gardens, wild bird feeding products and outdoor living décor. With over a 100 year history of excellence, growth and innovation, Woodstream has built a strong market presence through organic growth and strategic acquisitions.

Browse Sweeney's® line of mole and gopher products and nuisance wildlife repellents at www.wrsweeney.com.

Product Index 9

Poison Moleworms™

- S6009 - (6 per case)
- 10 Worms per pack
 - Active tunnel locator flags included

Poison Peanuts Bait

- S6006 - (12 per case)
- Attracts and kills Gophers
 - Use "Cone Tip" to punch hole and apply bait
 - 6 oz. Cone

Mole Trap

- S9011 - (6 per case)
- Kills Moles
 - All steel construction
 - Easy activation

Deadset™ Mole Trap

- S9015 - (6 per case)
- Durable construction
 - Easy to place & set
 - Unique packaging

Gopher Traps

- S9013 - (12 per case)
- Kills Gophers inside tunnels without the use of poisons
 - 2 pincher traps

Sonic Spike™

S9012-1 - (6 per case)

- Sonic pulses penetrate soil, driving rodents away!
- Satisfaction Guaranteed
- Covers 7,500 sq. ft.

Sonic Spikes™

S9012 - (6 per case)

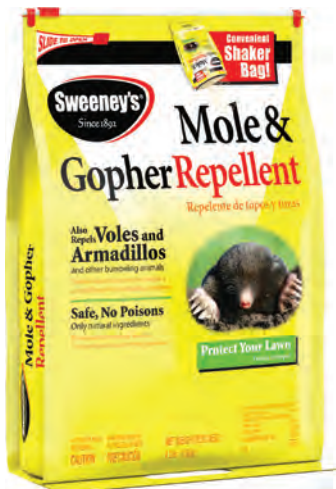

- Sonic pulses penetrate soil, driving rodents away!
- Satisfaction Guaranteed
- 2 Spikes cover 15,000 sq. ft.

Solar Powered Sonic Spike™

S9014 - (12 per case)

- Sonic pulses penetrate soil, driving rodents away!
- Covers 7,500 sq. ft.

Repellent Granules

S7001 - (6 per case)

- Safe, no poisons
- Also repels Voles & Armadillos
- 4 Lb. Shaker Bag

Repellent Granules-2x

S7002 - (4 per case)

- Concentrated formula
- Also repels Voles & Armadillos
- 10 Lbs. cover 10,000 Sq. Ft.

Repellent Spray

S8002 - (6 per case)

- Protect your lawn
- Treats 10,000 square feet
- 32 oz. hose-end spray

Poison Peanut Display

S6006-24

- 24 - Poison Peanut Cones - 6 oz. (S6006)

Rolling Rack Display

SW-RK5

- 36 - Poison Peanut Cones - 6 oz. (S6006)
- 18 - Poison Moleworm™ Packages - 10 worms per pack (S6009)
- 6 - Repellent Granules Shaker Bag - 4 lb. (S7001)
- 6 - Repellent Spray - 32 oz. (S8002)
- 6 - Deadset™ Mole Trap (S9015)
- 6 - Sonic Spike™ (S9012-1)
- 6 - Solar Powered Sonic Spikes™ (S9014)

Poison Moleworm Display

S6009-FD

- 36 - Poison Moleworm™ Packs - 10 worms per pack (S6009)

Sonic Spike Display

S9050-FD

- 16 - Solar Powered Sonic Spikes™ (S9014)
- 6 - Sonic Spike™ Twin Pack (S9012)

All Season Protection

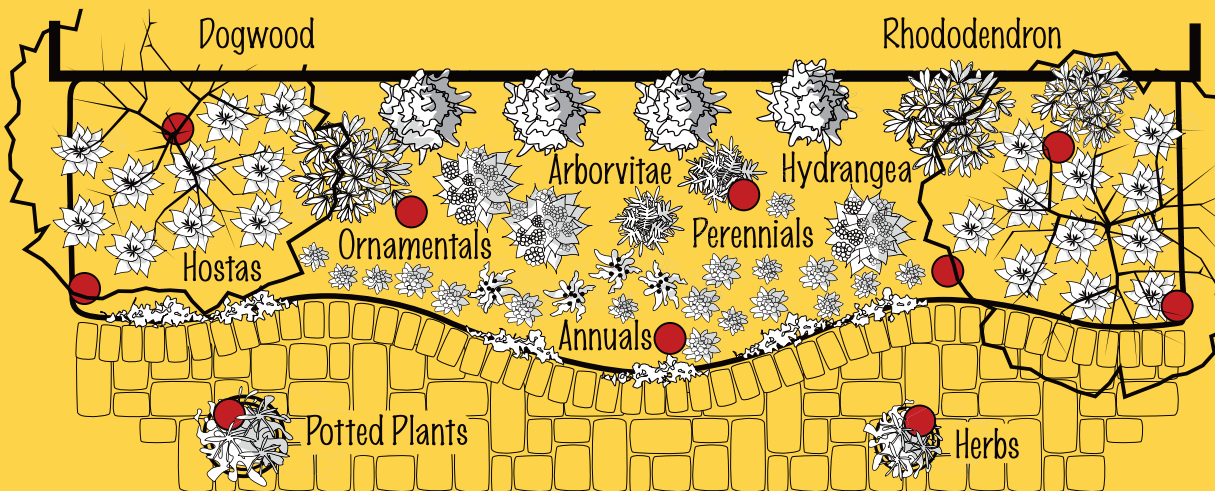

A single application in the Spring protects sprouting plants and new growth for the entire growing season.

Proven Effective in Years of Field Studies

100% dried blood is recognized as the leading deer repellent in university studies and field trials by the U.S. Department of Agriculture.

Non-Toxic, Organic

Safe to use around children and pets. The repellent is continuously released from repellent station, triggering a deer's instinct to avoid predator activity.

Typical 8' x 24' Garden Plan

Sweeney's Deer Repellent can be used as a plant and/or perimeter treatment.

Place or hang stations four to eight feet apart as shown by the red dots.

Weatherproof Deer Repellent

S5600 - (12 per case, 6 stations per package)

- Patented design
- Odorless to humans
- Safe for vegetable gardens

HOW IT WORKS:

Rugged housing protects repellent from the elements.

Natural color virtually disappears in your garden.

Air flows through the station, carrying repellent scent across your garden.

Dried blood triggers a "flight" response when animals "sense" a recent kill from predator activity.

Deer & Rabbit Repellent

S5700 - (6 per case, 32 oz. Ready-to-use Spray)

- Won't wash off with regular watering
- Lasts up to 30 days

HOW IT WORKS:

Micro-encapsulated, time release formula extends the effectiveness of the repellent.

Rain resistant formula protects repellent from rain and regular watering.

High concentration of pepper, garlic oil and butyl mercaptin target the senses of taste, smell and fear.

ANIMAL REPELLENTS

Small Animal Repellents

(S5300 - 6 per case, 2 lb. Granular Bottle)
(S5400 - 6 per case, 32 oz. Ready-to-use Spray)

- Repels Rabbits, Squirrels, Dogs, Cats, Raccoons & Skunks
- Lasts up to 30 days

HOW THEY WORK:

Animals rely on their keen senses of smell and taste to detect predators, territories of other animals, or if the food in front of them is safe to eat. Sweeney's Animal Repellents target these two senses.

Smell – our ingredients create a scent that many animals find unpleasant - naturally repelling them from the area. Dried blood triggers a “flight” or fear response when animals “sense” a recent kill from a predator.

Taste – the oil we use is naturally distasteful to most animals. Animals that feed on treated plants are repelled by the taste and stop foraging.

Snake Repellents

(S5200 - 6 per case, 4 lb. Granular, Easy-to-use Shaker Bag)

- Safe for use around children and pets
- Lasts up to 30 days
- Safe for vegetable gardens

HOW THEY WORK:

Snakes continuously monitor their surroundings by “sensing” the air with their tongue.

This is accomplished with a special organ on the roof of their mouth.

Sweeney's Snake Repellent emits a sweet, pungent aroma that snakes find distasteful, causing them to leave the area.
