PORTER PAINT GLYPTEX SATIN WATERBORNE ALKYD INTERIOR/EXTERIOR ENAMEL PAINT

Offers an environmentally preferred, low VOC, low odor product with performance characteristics of a conventional alkyd, but with the application ease and water clean up of a latex. It is a super premium, versatile product which can be used for both interior and exterior applications including wood and trim, drywall, plaster, wall paper, metal and masonry surfaces, offering superior hiding, lon-lasting beauty and durability. It has been formulated to provide excellent flow and leveling and adhesion to provide a smooth film hardness that resists abrasions and stains, washes easily and has excellent color and gloss retention. The WB alkyd technology minimizes yellowing vs. conventional alkyds, but provides similar hardness, sandability and blocking resistance.

Contractor Paint, Porter Paint, Stains

PORTER PAINT ACRI-SHIELD EXTERIOR SOLID COLOR STAIN

An excellent urethane modified, 100% acrylic latex solid color stain. It is used for all types of new or previously stained or painted smooth or rough sawn siding, shingles, shakes, fences and decks. Its heavy bodied consistency results in easier, smoother application. It is self priming, scuff resistant, has tannin blocking capabilities, and can be applied down to 35F (2C). It is formulated to provide rich, opaque color that hides the wood grain while allowing the woods natural texture to show through.

- **This product available to Authorized Porter Paint dealers only**

PORTER PAINT ACRI-SHIELD EXTERIOR SOLID COLOR ALKYD/OIL STAIN

An excellent, full bodied, oil modified alkyd solid color stain. It is used for all types of new or previously stained or painted smooth or rough sawn siding, shingles, shakes and fences. Its heavy bodied consistency (compared to other stains) results in easier, smoother application. Acri-Shield Exterior Solid Color Alkyd/Oil stain may be applied as a single coat for economy, or in a two coat system for extended performance.

PORTER PAINT ACRI-SHIELD EXTERIOR SEMI-TRANSPARENT STAIN

Deeply penetrating acrylic/oil exterior wood stain that adds color while allowing wood's natural grain and texture to show through. It combines the penetrating capabilities of oil with the superior weathering properties of acrylic. Can be used for sealing, protecting and coloring rough-sawn or smooth, new or weathered, exterior pressure-treated wood, cedar and redwood. It is ideal for wood decks, siding, trim, shingles, shakes, fences, and more and can be used on damp or dry wood.

Paint, Rustoleum Paint, Interior/Exterior Multi-Purpose Enamels

RUST-OLEUM ENAMEL PAINT

This Paint will take the bumps, resists cracking, peeling and chipping. You get a tough resilient finish that lasts and lasts. It provides a smooth, rich, colorful finish that protects against weathering and corrosion. They're flexible. Rust-Oleum coatings give the elasticity needed for expansion and contraction due to hot summer and sub-zero winter weather on items left out of doors.

STORM SYSTEM CATEGORY 5 OIL BASED PRIMER

These special wood primers should be used under Storm System Stains. May be used under either Linseed Oil or Urethane Acrylic Latex Base. These coatings are designed to neutralize and help eliminate the natural tannin or sugar staining and discoloration produced by bare woods such as red cedar, redwood, fir, pine or white cedar and seal the wood for uniformity of the finish. This product is excellent for use under the Storm System Category IV Acrylic Stain finish coats.

STORM SYSTEM CATEGORY 5 ACRYLIC LATEX PRIMER

These special wood primers are formulated for use under Storm System Solid Color Stains, either Linseed Oil or Urethane Latex Base. These exterior base coats are designed to help eliminate the natural tannin or sugar staining and discoloration produced by bare woods such as red cedar, redwood, fir, pine or white cedar. These primers have excellent adhesion to all wood surfaces and are highly resistant to peeling. The unique formulation also helps to retard the surface rusting of uncoated nails. These products are excellent for use under the Storm System Category IV Acrylic Stain finish coats.

STORM SYSTEM CATEGORY 1 LIFE EXTENDER

Storm System Wood Life Extender has been developed to prolong the life of wood and wood products. This clear zinc naphthenate is designed to retard warping, swelling, shrinking and checking of previously unfinished woods. This product repels moisture and resists the growth of mildew and other fungus on the cured surface. Wood surfaces protected with this product will be affected by UV light unless topcoated with pigmented paints or stain systems. This product can be recoated after 24 hours dry with either latex or stain systems.

STORM SYSTEM CATEGORY 1 NATURAL OIL FINISH

Provides maximum protection to exterior wood decks and surfaces exposed to water, ultraviolet rays and general atmospheric contamination including acid rain. This durable resin seals, waterproofs and protects exterior wood decks subject to the rigors of drastic weather and temperature changes. This finish restricts cracking, peeling and blistering and can be used on new wood, previously stained wood and new pressure treated wood with proper preparation. One coat should be applied over new or previously stained or finished decks that have aged and have been properly prepared. This finish has a honey color and is formulated for maximum abrasion on wear areas.

STORM SYSTEM CATEGORY 3 ALKYD LINSEED OIL FINISH

Rich in linseed oil is designed to provide years of service and beauty for most exterior wood surfaces. The partial pigmentation of this finish blends with the colors and tones of the wood without distracting from the natural graining and texture inherent in the wood itself. Semi-Solid linseed oil base finish repels water and provides maximum protection from the ravages of weather. This product contains wood preservatives which help protect the film against mildew, fungus and moisture on properly prepared wood.

STORM SYSTEM CATEGORY 4 100% ACRYLIC STAIN

This heavily pigmented acrylic latex matte finish stain is ideal for use on new or previously stained exterior woods. The durable light fast pigments provide maximum fade resistance and color retention. This product is self-priming over most substrates where extractive bleeding is not a concern. Solid Color Latex Stains are extremely high-hiding and provide maximum stain durability while enhancing the natural grain and texture of the wood. Solid color stain is water repellent, mildew, fungus resistant and long lasting.

ENCORE 2.5 GALLON WOOD KIT DECK COATING

Encore is an environmentally-friendly water-based coating that you can apply in less than a day using a paint roller and/or brush. To achieve the perfect color, add one gallon of exterior latex paint in your color choice. The pigment in the paint transfers for a perfect color match. Encore is fire and stain resistant and can be cleaned easily with water. Encore imparts a comfortable, skid-resistant finish that's ideal for bare feet and safety. In most cases, Encore will protect a wood deck for 4-5 years. Thereafter, a maintenance coat extends performance again. Everything cleans up with water. Maintain your Encore deck with soap & water. This is the perfect DIY product!

ENCORE COATINGS POLYMATRX PAINT ADDITIVE

Tired of painting? Then make POLYMATRx part of your painting project. Add one quart of POLYMATRx to a gallon of paint and paint. It?s that simple. POLYMATRx turns paint into an elastomeric coating so it can expand and contract with exterior siding. Homes and buildings painted 30 years ago with this product have not been repainted. POLYMATRx does not change the color of the paint, but could add a slight sheen to some paints. Paint modified with POLYMATRx is easier to apply, easier to clean too. One quart modifies one gallon of acrylic/latex paint.

ENCORE COATINGS ADHESIVE PRETREAT SURFACE PRIMER

Ensure the success of your Encore deck project with Pretreat, an adhesive primer that is designed specifically for Encore! Pretreat penetrates deep into old, dry decking and creates a sub-surface bond for the Encore coating. This sub-surface bond creates unbelievable adhesive properties to help insure a lasting job. In most cases, Pretreat also extends the coverage of an Encore kit, helping to offset its cost!

AMES RESEARCH CLEAR SEAL

Clear Seal is a unique, semi-clear elastomeric plastic sealant and adhesive for wood and concrete. It penetrates deeply into wood and concrete to actually glue and bind together the molecules of the surface it is being applied to. Rotting and deteriorating surfaces can be restored to a somewhat new condition and often the surface life can be extended for one or more years of usefulness. Clear Seal helps preserve wood from mildew and moss formation, helps to prevent concrete efflorescence and helps to prevent rust from penetrating metal by preventing air from reaching the surface.

ANVIL ROOF-TEC ELASTOMERIC ROOF COATING

An acrylic latex roof coating formulated to provide superior bridging of the coating over seams and small separations. Exceeds performance of similar coatings of this type for adhesion and longevity. Its brilliant white finish not only beautifies, but reflects up to 90% of the sun?s rays lowering heat buildup and reducing air conditioning costs. It contains a fungicide to resist mildew growth on the product film, so it stays brighter longer. Not for use on flat roofs. Roofs must have adequate pitch to allow water to run off.

AMES RESEARCH SUPER ELASTO BARRIER

A waterbase liquid dual-rubber coating that has better adhesion than before. It is used primarily for roof, wall, and roof deck waterproofing in extreme wet situations such as ponding water. It has excellent adhesion to rusty surfaces. Super Elasto-Barrier is especially effective in saving old tar roof systems. It flows into cracks and crevices as a liquid, and then sets up as a durable rubber to seal leaks wherever they occur. Super Elasto-Barrier must be top coated with Maximum-Stretch, Snow Seal, or Iron Coat roof coating.

JETCOAT FIBERED ALUMINUM ROOF COATING

A blend of pure waterproofing asphalt and high grade aluminum pigments plus the addition of fibers. Reflects up to 80% of the sun's rays, helping prevent excessive drying and cracking of substrate, thus reducing leaks. Areas immediately under roof will remain approximately 15-20 degrees cooler in summer. In winter, inside heat is reflected back into the building, thus saving energy costs. Dries silver. Use on metal roofs, mobile homes, weathered asphalt and built-up roofs.

WHIZZ PAINT ROLLER REFILL COVER

4 inch premium paint roller refill cover with Gold Stripe. Whizz polyamide yarn offers unparalleled loading and unloading characteristics, with virtually no splatter. The Gold Stripe yarn is substrate responsive providing the best possible finish on a variety of surfaces. The yarn bases are actually baked into place (melted), minimizing shedding. Gold Stripe is densely woven into a sturdy backing. For flat and low sheen paints and primers. Works on all Whizz handles for 4 inches and 6 inches. Ultra low splatter. More paint rolled per dip. Easy clean-up. Covered end paints corner. 4 inch length. 1/2 inch nap. For medium to rough surfaces. 2 per polybagged.

DAP SUBFLOOR GEL FOAM CONSTRUCTION ADHESIVE

A unique technology that applies as a foam and transforms by collapsing into a high-strength, fast-curing adhesive gel. It develops a strong, durable and permanent bond to dimensional lumber, plywood, OSB and Enhanced OSB for all subfloor applications. It bonds to wet, dry, frozen and treated lumber. It has 8X the coverage of a traditional 28 oz. cartridge. 3X stronger than the subfloor adhesive specification requirements. Achieves structural strength in about two hours. Can be stored and used for up to 30 days.

Caulking Compounds and Guns, Caulk and Sealants, Firestop Sealant

ACCUMETRIC BOSS 136 FIREBLOCK/DRAFTSTOP SEALANT

BOSS 136 Firestop/Draft Sealant is ideal for use in residential construction in areas that require sealing to maintain the integrity of a firestop. BOSS 136 Firestop/Draft Sealant can be easily applied with a standard caulk gun, pneumatic pumping equipment, or a putty knife. It adheres to virtually any material, including wood, masonry, metal and plastic. It is red in color and applies like conventional caulk. This fireblocking material is a one-part, non combustible, general purpose fire-rated sealant that meets and exceeds the specifications for ASTM E-136 and conforms to all national building codes, including BOCA, CABO, SBCCI, ICBO, NFPA and the 2003 International Building Codes. It is one of the most versatile firestop products available in today's marketplace.

439630	136/13605 SEALANT FIRE BLOCK 10 OZ RED	12@	EA A	7.49 V.YZX

ACCUMETRIC 10OZ. RED INTUMESCENT LATEX FIRESTOP SEALANT

In the event of a fire, BOSS 814, a one-part, elastomeric, intumescent firestop sealant will expand to form an insulating char that prevents the spread of fire, smoke, and toxic gases through construction openings. Formulated with non-combustible, inorganic materials. Remains flexible when cured, making it ideal for both horizontal and vertical joints that are subject to vibration or dynamic movement. With its excellent adhesion properties, it is particularly suited for sealing walls and floors that have been penetrated by pipes, conduits, and electrical cables in all types of construction. It can also be used to fill interior voids around HVAC, plumbing, and framing. BOSS 814 Intumescent Latex Firestop Sealant meets or exceeds ASTM E-814 (UL 1479) and meets the criteria for fire/smoke/draft stop for BOCA, CABO, UBC, SBCCI, IRC and the 2003 International Building Codes. The product is very easy to apply using a standard caulking gun or trowel and cleans up with water, prior to curing. It can be used for interior or exterior applications and can be painted (after inspection).

DAP ALEX FLEX PREMIUM MOLDING & TRIM SEALANT

Specifically formulated for use on molding & trim applications. It delivers maximum adhesion & flexibility for a crack proof seal. It provides easy tooling, low odor, water clean-up & outstanding paintability. In just 30 minutes, the sealant forms a tough outer skin that?s dry enough to paint over with latex or oil based paints, thereby saving time since the job is finished faster. It provides a long-lasting, durable seal that will not shine through paint. Ideal for achieving a professional look with paint projects when sealing gaps around windows, doors, trim, crown molding, chair rails and baseboards. Cured sealant is mold and mildew resistant. Indoor use. Exceeds ASTM Specification C920, Class 12.5.

WERNER TYPE 1A PODIUM LADDER

Offers the same reach height as a stepladder and is ideal for working at fixed heights and is easier to maneuver than scaffolds or lifts. The extra-large platform with toe guard feels like you are standing on the ground and 4X Work Zone allows you to work facing any direction. This ladder features full aluminum bracing and a full set of rear horizontals. The LOCKTOP? extended guardrail provides an extra point of contact and conveniently organizes tools and accessories. The newly designed EDGE360? gives the bottom of the ladder protection from every angle with integrated rail shield, EDGE bracing and over-sized foot pads.

Ladders, Ladder Accessories, Ladder Tray

MATTHEW LADDER SAFE TRAY

Designed to safely and securely hold all your tools and accessories when working on a stepladder. Taking only moments to install, the Safe Tray can hold just about everything your project demands while securing your ladder legs and your tools in place when you need to move or walk your ladder. Most ladder trays can barely hold a soda let alone a hammer, but the deep reservoir of the safe tray can hold an ocean of tools while saving you time from climbing up and down your ladder.
