

WHAT'S NEW IN

PROTECTIVE Footwear

Comfortable Feet

The one piece of Personal Protective Equipment that can change the mood of workers is their footwear. When feet hurt, a worker hurts all over, causing production to slow and workers to be distracted to the point of possible accident and injury.

Servus® exceeds the competition by providing **COMFORT** with **SAFETY!** Ergonomically-engineered design provides all day comfort and reduced leg fatigue with boots that conform to your feet with FOOT FORM™ contour cushion insoles and contour molded heel cups, all of which help to prevent feet from slipping around inside the boot. Steel shanks are thicker, wider and longer to provide firm arch support and help alleviate pain caused by standing all day.

Your choice in Footwear can help you reduce the cost of injury, increase worker productivity and more importantly save your workers from a possible lifetime of chronic pain.

Our Honeywell Sales Representatives can perform an on-site, slip-and-trip hazard assessment to demonstrate how you can increase your safety record by selecting the correct footwear for the environment.

SERVUS®
by Honeywell

THE IMPORTANCE OF TREAD

Like tires on a car, your choice in outsole compound and tread pattern makes all the difference when it comes to slipping and tripping hazards.

TDT: Triple Density Technology allows injection-molded footwear to have different compounds merged into one boot. TDT™ dual outsoles have dual compounding for enhanced slip and abrasion resistance. Durable outer-soles resist abrasion and organic chemical deterioration. The advanced pattern squeezes fluids out from underfoot, prohibiting hydroplaning. A softer centersole compound has increased surface to surface contact for maximum traction.

CHEVRON: Designed to be self-cleaning to remove debris that may cause slips and falls. The flat surface content decreases slip hazard by providing excellent traction on floors that contain liquids and debris. Perfect for Food and Meat Processing industries, Oil and Gas industries and Fishing industries, among others.

STABILicers®: Outsoles provide the ultimate in slip resistance for outdoor winter applications. Wide traction tread has 32 replaceable, tungsten carbide studs to dig into ice and snow for greater traction, helping to reduce the risk for slips and falls. Workers will walk with confidence in even the harshest of winter conditions.

PVC FOOTWEAR

CT™ – Comfort Technology

- Seamless, PVC injection molded footwear is 100% waterproof to ensure workers' feet are dry and comfortable
- CT offers a unique scalloped top-line design to accommodate flexing and prevent irritating rubbing on legs for added comfort
- Unique Trac10™ outsole pattern is engineered to reduce slip and fall in hazardous environments
- Contour heel cup molding and removable FOOT FORM contour cushion insoles reduce heel slippage and provide added support for all day comfort
- 18821C meets CAN/CSA Z195-09 Grade 1

SKU	Description	Men's Whole Sizes	Packaging
18821C	Black, 35.6 cm height, Steel Toe	3-15	1 pr/bag, 6 pr/case
18822C	Black, 35.6 cm height, Plain Toe	3-15	1 pr/bag, 6 pr/case

All PVC footwear is made in the USA.

PRM II™

- Seamless, injection molded footwear is 100% waterproof to ensure workers' feet are dry and comfortable
- Flexible steel midsole provides outstanding under-foot puncture protection
- Open pattern outsole design self-cleans liquid and debris with every step, helping to prevent slip and trip hazards
- Removable FOOT FORM contour cushion insoles provide all-day comfort and support
- Meets CAN/CSA Z195-09 Grade 1 and Puncture Protection

SKU	Description	Men's Whole Sizes	Packaging
75125C	Black, 38.1 cm height	7-14	1 pr/bag, 6 pr/case

PRM™

- Seamless, injection molded footwear is 100% waterproof to ensure workers' feet are dry and comfortable
- Flexible steel midsole provides outstanding under-foot puncture protection
- Open pattern outsole design self-cleans liquid and debris with every step, helping to prevent slip and trip hazards
- Removable FOOT FORM contour cushion insoles provide all-day comfort and support
- Meets CAN/CSA Grade 1 and Puncture Protection

SKU	Description	Men's Whole Sizes	Packaging
75145C	Black/Orange, 38.1 cm height	7-14	1 pr/bag, 6 pr/case

XTP™ and PRO®

- Seamless, PVC, 3-stage injection molded construction is 100% waterproof to keep workers' feet comfortable and dry
- TDT outsole compounds are formulated for longer wear to reduce inventory, and slip-resistance to reduce the cost of injury
- Steel shank is longer, larger and positioned for optimal support to help prevent foot pain when standing all day
- Boot heights are graduated and proportional to sizing to ensure comfort and prevent chafing when walking
- Removable FOOT FORM contour cushion insoles provide support and wick away moisture to keep workers' feet dry
- Meets CAN/CSA Z195-09 Grade 1

MUCK FOOTWEAR

CHS-CSAA

Muck Chore-Guard™

- CR-Foam construction is lightweight and flexible for all-day worker comfort
- Rubber upper overlays offer an extremely durable and lightweight shell for 100% waterproof protection to keep workers' feet dry in almost any climate or condition
- Breathable air-mesh lining wicks away perspiration to increase wearer comfort
- Muck's wide-cut heel base provides maximum stability to help reduce slips and falls
- Steel toe and textile puncture-resistant midsole provide worker protection against impact and under-foot puncture injury
- Meets CSA Z195-09 Grade 1 and Puncture Protection

SKU	Description	Men's Whole Sizes	Packaging
CHS-CSAA	40.6 cm, Steel Toe Textile puncture-resistant midsole	5-14	1 pr/box, 4 pr/case
CHF-CSAA	40.6 cm, Steel Toe Textile puncture-resistant midsole Fleece lined	5-14	1 pr/box, 4 pr/case

NEOPRENE FOOTWEAR

22214C

Neoprene III – Chevron Sole and Heel, Hi-Pac

- 100% waterproof seamless construction keeps workers' feet dry and comfortable
- Unique dipping process makes boots soft and pliable for less leg fatigue
- Chevron outsoles provide excellent traction to prevent slips and falls on wet and slick surfaces
- Removable insoles provide shock absorption and wick away moisture to keep workers' feet dry and comfortable
- Meets CAN/CSA Z195-09 Grade 1

SKU	Description	Men's Whole Sizes	Packaging
22214C	38.1 cm, Steel Toe	3-15	1 pr/bag, 6 pr/case

RUBBER FOOTWEAR

2149C

Flex-Gard™ – Rubber Metatarsal Guard Footwear

- Specialized compound prevents ozone deterioration for longer life for your footwear
- Ultra-composite shank is longer, wider and positioned for optimal support to help prevent foot pain when standing all day
- SAFE-STEP puncture-resistant steel midsoles for maximum puncture protection
- Removable FOOT FORM contour cushion insoles provide support and wick away moisture for wearer comfort
- Heavy Trac Tread™ sole and heel and knurled protective overlays are tough and durable providing longer life to your footwear to help reduce purchasing spend
- Meets CAN/CSA Z195-09 Grade 1 and Puncture Protection

PVC OVERSHOES

SF™ SuperFit – Overboots

- SF™ – SuperFit overboots are oversized to fit over large, expensive work boots to keep them clean and help them last longer
- Seamless, injection molded PVC construction is 100% waterproof to protect more expensive leather work boots from damaging liquids, mud, snow, slush or dirt – your leather footwear will last longer and reduce the overall cost of your footwear expense
- Generously large gusset for ease in slipping on or off work shoes and boots, plus allows overshoes to be easily cleaned and sanitized to reduce risk of contamination
- Boot buttons are part of the injection molding, this eliminates any seams that could leak, keeping workers' feet dry and more comfortable
- SF wide grip outsole design enhances traction to prevent workers from slipping or falling on slick surfaces, reducing the risk of worker injury

SKU	Description	Men's Whole Sizes	Packaging
11993	Black, 10.2 cm height	XS-XL	1 pr/bag, 12 pr/case
11994	Yellow, 10.2 cm height	XS-XL	1 pr/bag, 12 pr/case
11995	Amber 10.2 cm height	XS-XL	1 pr/bag, 12 pr/case
11924	Black, 30.5 cm height	XS-XL	1 pr/bag, 6 pr/case
11926	Yellow, 30.5 cm height	XS-XL	1 pr/bag, 6 pr/case

SF™ SuperFit – Dual-Compound Overboots

- Over-sized design to fit over leather work boots protecting them from harsh environments, increasing the longevity of expensive footwear
- 100% waterproof protection to keep leather work boots and feet dry
- PVC injection molded, dual compounds provide a stretchy top and long-wearing extra-wide grip outsole, providing ease of use and protection from slip hazards
- Dual compounding molds high-stretch uppers to longwearing, slip-resistant outsoles
- Extra large molded kick-off lugs for easy boot removal
- Boot buttons are molded to eliminate seams and provide waterproof protection
- Closure loops are tabbed to allow for easy, one-hand closure, even when wearing gloves

SKU	Description	Men's Whole Sizes	Packaging
11003	Black, 10.2 cm height	XS-XL	1 pr/bag, 12 pr/case
11001	Black, 30.5 cm height	XS-XL	1 pr/bag, 6 pr/case

STUD SOLE

Stud Sole

- Durable and stretchy rubber pullover fits snugly and securely over work shoes and boots, preventing possible trip hazards from ill-fitting pullovers
- Slip-resistant tungsten carbide-studded pullover bites into snow and ice helping to prevent worker injury from slips and falls
- Pullovers are compact and can be easily stowed in a jacket pocket if workers are moving from outdoor to indoor jobs

SKU	Description	Sizes	Packaging
SR101	Tungsten carbide studs	S-2XL	1 pr/bag, 50 pr/case
