Display results with Southern Imperial!

We are a manufacturer of display and fixture solutions for almost every area of the retail environment. We carry over 2000 stock solutions in our catalog, and there are millions of solutions we can customize for you. We have worked closely with the top retailers throughout the world for over 50 years, and we continually find that there are 4 key focal areas:

- Increase Sales
- Maximize Merchandising Space
- Reduce Shrink
- Reduce Overall Costs

Our solutions are designed to help retailers achieve those goals. Contact us today and put Southern Imperial to work for you!

We are changing!

Over the past six months, it is possible you have noticed changes taking place at Southern Imperial. First, we are in the midst of building a new leadership team for our company. Additionally, we are starting to re-engineer many of our processes to ensure improved customer service throughout the order-to-delivery cycle. Capturing our renewed energy and look towards the future, we have also launched an exciting new brand campaign, as evidenced by our new corporate logo and catalog design.

All that said, what has not changed is our commitment to our customers - bringing innovative and integrated display and fixture solutions to retailers and brand manufacturers worldwide. Many of the product and process changes we are launching are being designed to deliver improved value proposition to our customers. We have enlisted additional systems, operations, design, sales, and customer service expertise to create a seamless flow of new product solutions to our customers. We have re-focused all our efforts to serve you better. These changes and improvements will take some time to realize their fullest potential, but we are well on our way.

Our new branding and company identity reinforces our long-standing commitment to you, our customer. Southern Imperial has a rich history of great products and service, and our quest to continuously improve upon this legacy will never end.

I hope you enjoy the many benefits our catalog has to offer, and on behalf of all Southern Imperial employees, we look forward to serving you and helping your company reach all of your merchandising goals.

Warm Regards,

Steven Vandemore
CEO and President, Southern Imperial, Inc.

WIDE SELECTION OF TRAYS IN STOCK FOR A VARIETY OF APPLICATIONS

NEXT Bar/Shelf - Stock Trays

For Freezer, Deli,
Dairy, Candy and Dry Goods
(Available in different configurations)

NEXT Pizza - Stock Trays

(Available in different configurations)

NEXT

Tray Merchandising System

[Go to page 124-133](#)

NEXT™ Benefits

- Increase sales 10-15% based on industry case study*.
- Reduce fixture costs.
- Minimize labor associated with stocking and facing.
- Reduce shrink associated with spoilage and theft.
- Enhance inventory rotation.
- Organize product appearance.
- Grow categories by 25-30%.
- Improve sustainability.

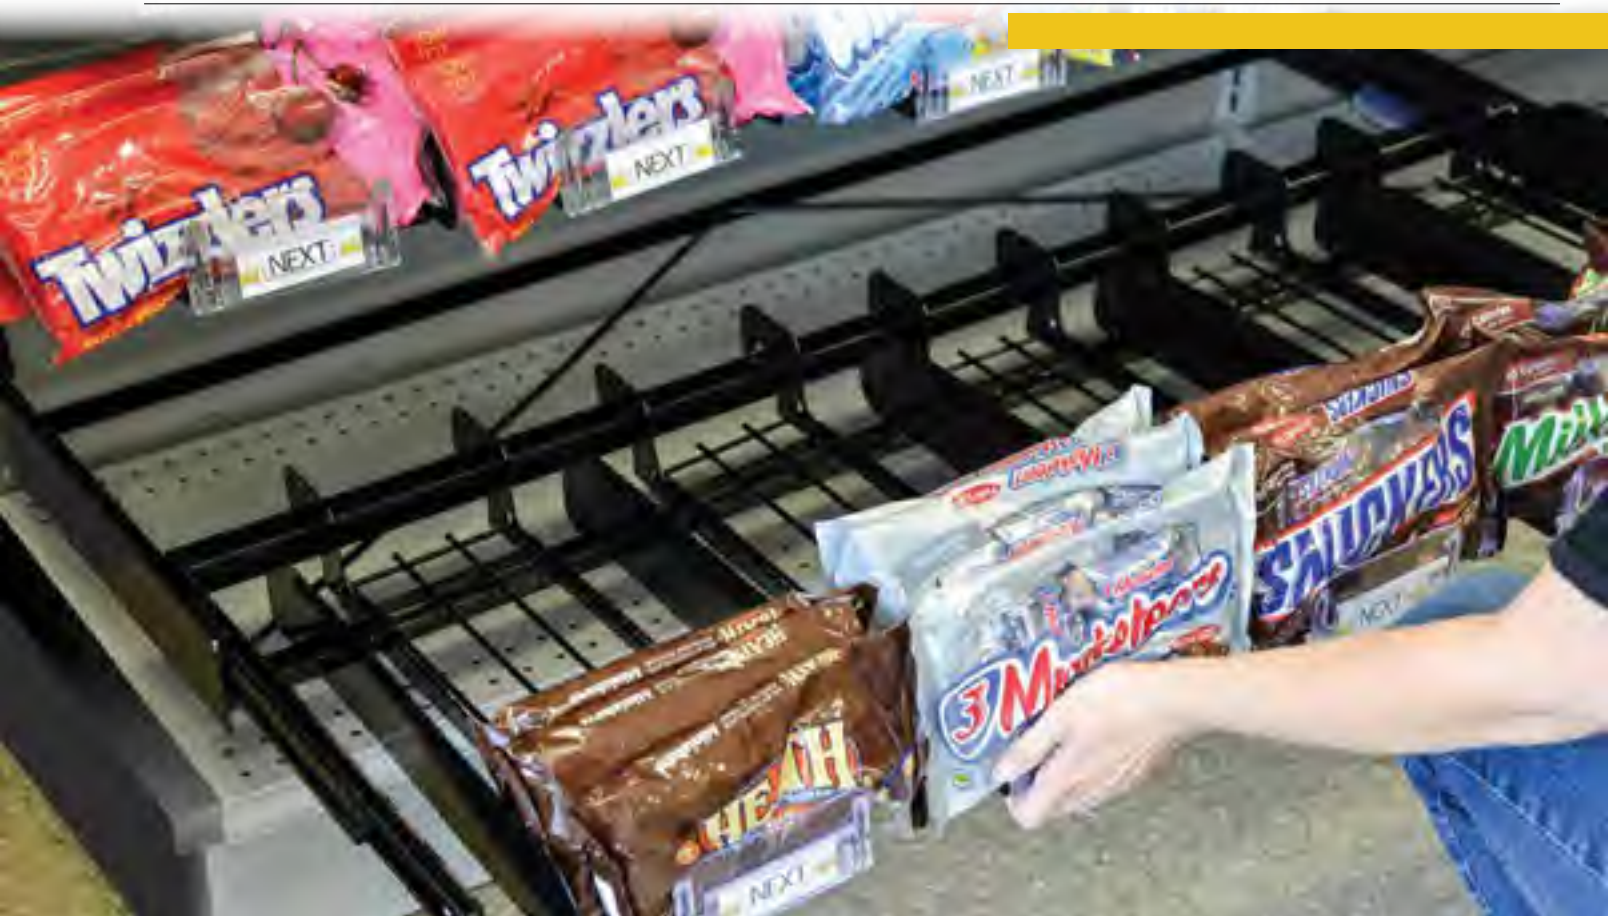

Stock NEXT trays now available!

Increase merchandising space and product visibility with the NEXT System. The NEXT system compacts the retail space and allows more facings in the given space. Additionally, each item is faced and visible to the customer for easy product selection.

By switching to the NEXT System, you can eliminate expensive shelving and put more product in its place. Studies have shown that retailers can increase their merchandising space by 30% and more.

- Trays available for freezer case including pizzas, packaged deli meats and cheeses, packaged salads and produce, candy, dry goods and more.
- Variety of stock configurations.
- Custom configurations and colors are available. Call for a quote!

[Go to page 132](#)

NEXT[™] Pull-Out Tray System

NEXT[™] Benefits

- Mounts on 1" NEXT Bar.
- Holds 17" and longer NEXT Trays.
- No tool needed for installation.
- Strong durable construction.
- Easy installation.

About NEXT[™] Pull-Out Trays[™]

Provides pull out convenience of NEXT System trays. Allows more efficient product rotation and labor reduction, and is the ideal fit to help make loading products faster and easier. The NEXT Drawer is effective for product categories that are time sensitive to reduce spoilage.

New version mounts directly onto 1" NEXT Bar for easy installation and offers a smooth sliding function. Braced frame is sturdy enough to hold multiple trays loaded with product.

24v
LED

Allura™ LED Lighting

[Go to page 156-166](#)

Sustainable lighting.
Increase sales. Reduce energy costs.

LED Benefits

- Low-Voltage.
- Display adaptability.
- Delivering bright light for affective illumination.
- Energy and cost savings, up to 80-90%, when compared to traditional lighting.
- Free of toxic chemicals to reduce your carbon footprint.
- Over 50,000 hour lifespan.

About Allura LED Lighting

LED (Light Emitting Diode) technology is changing the face of retail. Its low cost, extended life, and flexible applications provide a sophisticated lighting and energy management solution that will help balance design and performance with your budget, while committing to sustainability.

LED lighting platforms create extraordinary value by providing high-quality illumination and color rendering of products for visibility, visual comfort, display aesthetics with minimum energy consumption.

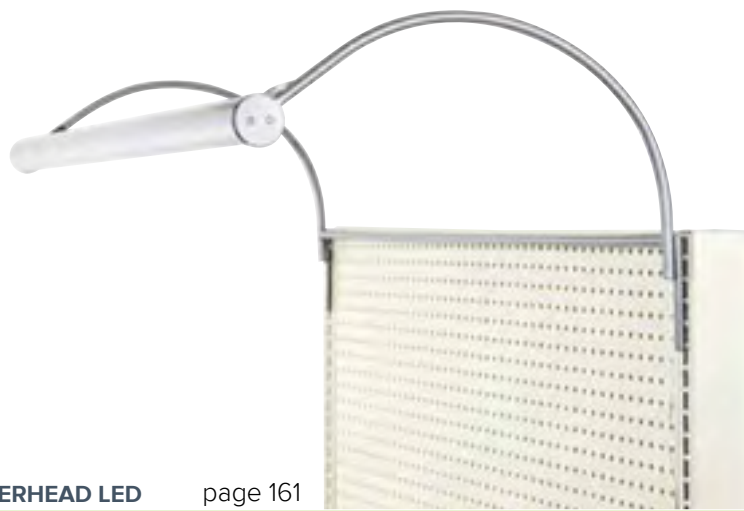

Our LED fixtures gives you the peace of mind that comes with knowing your products will get the best representation to drive sales and build customer confidence.

Allura™ LED Lighting

LED LIGHTS

page 158

We carry a wide variety of LED Lights that provide economical lighting for a wide variety of uses, from the shelf edge and under-shelf, to freezers, coolers, and more!

OVERHEAD LED

page 161

Bright 425 Lumen LED provides optimal light distribution. Canopy-style illumination features a slim, low-profile design that is easily mounted on uprights.

WATERPROOF LED STRIP

page 160

Completely waterproof.

Can be used indoors and outdoors. A great lighting source to use in coolers.

Waterproof Spider Cord allows lights to chain together up to five lights per cord.

Waterproof power supply.

Flex LED

Mini LED

LED

Allura™ LED Snap Frame

[Go to page 164](#)

Illuminate your message.

Bus Bar Benefits

No tools are required to assemble and graphics are extremely easy to change.

Produce images with greater dynamic contrast.

Extremely slim profile.

Long lifespan.

Low power consumption.

Bus Bar compatible.

Custom sizes available
(Maximum size 48" x 48").

About Snap Frame

Replace standard signs with high-impact, illuminated snap frames! Adding illumination to store signs will instantly draw additional attention to store promotions and advertisements.

LED Snap Frames are slim, lightweight, and extremely durable. LED strips are positioned around the rim of the frame and use a special diffusion panel to spread the light evenly behind the screen.

24v
LED

Allura™ Bus Bar

Go to page 162

One power source for all
integrated LED components.

Bus Bar Benefits

- Installation time savings.
- Easy to retrofit using quick mounting and wiring.
- Panel space savings.
- Reduced maintenance.
- ETL approved to UL standards.
- Repeatable low-impedance electrical performance and reduce wiring errors.
- Reduce system cost. Improve reliability.

About Allura™ Bus Bar

One power distribution source for all of your integrated LED components. The modular, Allura Bus Bar system provides a flexible solution for distributing common power to many different electrical components.

Components can be easily added or removed using quick disconnects, saving valuable time and cost during installation and maintenance. Simply twist on the Bus Bar Pucks and use cables to connect to LED Lights or other components. Features multiple strain relief points. Cord will unplug instead of damaging light or bus bar fixtures.

PATENT PENDING

IMPulse™

Trackless Pusher System

[Go to page 138](#)

Benefits

Front Fence available in 2" height, and in 3 foot and 4 foot lengths. Custom lengths are available.

Dividers are available in 3" height, and lengths of 11", 13", 15", 17", 19", 21" and 23".

Stock Pushers available with a light duty, medium duty, or heavy duty pre-loaded spring.

Dividers modified for easy clip in stabilization of products without sliding.

About I.M.Pulse™

Southern Imperial's IMPulse Trackless Pusher System makes facing your product easy. The trackless feature of the IMPulse System avoids the loss of spring energy from product binding on tracks, allowing for smooth facing of product.

- Improved product facing gives stocked appearance and increases impulse sales!
- Face a wide variety of product.
- IMPulse pusher can extend past the back rail to maximize product packout.
- New molded front fence for better support and control of product.
- Features a new clip system for easy use.
- New flat face pusher shape for optimal facing.

IMPulse™

Side-Trac Pusher

[Go to page 139](#)

Benefits

- Pusher and divider all in one assembly.
- Clips onto front fence of impulse.
- Uses same rail as I.M.Pulse.
- No rear attachments required.
- Easy to adjust.
- Optional paddle for larger products.

About Side-Trac Pusher™

Simplify the merchandising process! The Side-Trac Pusher is an all-in-one divider-pusher assembly. It snaps into the front rail of the Impulse System and is ready to load. No back rail is required, making it easier to fit onto different depths of shelving. An optional paddle extends the functionality of the system.

Turtle with Strap Mount

Turtle can be used with existing straps to secure boxed packaging.

Go to page 304

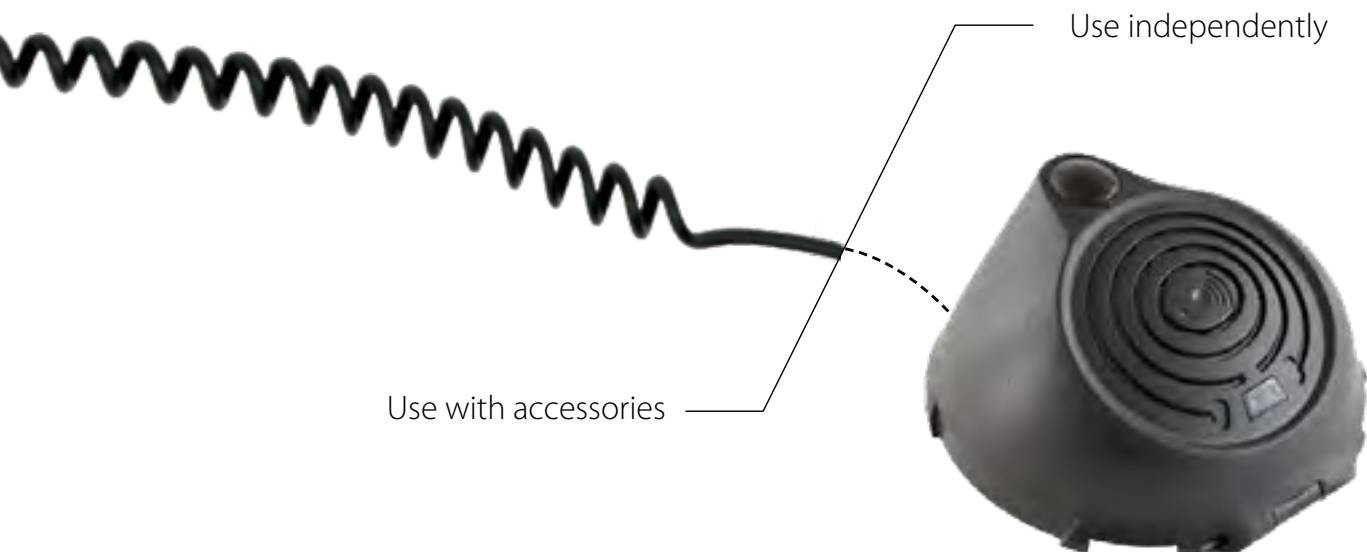

Turtle Benefits

- Prevent unauthorized opening of packaged goods.
- Protect demo products.
- Use with various sizes and types of products.
- Stack products without any restrictions.
- No adhesive residue when removed from packaging or promotional sample.
- No tangling cables or damaging wires.
- Adapt and expand usage on-site with optional accessories.

About Turtle

All-in-one security sensor with multiple applications to protect high-theft packaged goods and demo devices. Use the Turtle independently or with accessories. Adhere to demo products or packaged goods. Secure demo products via multiple sensor heads including: Loop Lanyard Sensor, Mouse Sensor, USB Sensor and Connection Cable.

Available in Black & White

Turtle Applications

Promotion Samples

Loop Lanyard Sensor available in single, dual, or loop and mouse lanyard options.

Dual Tether Unit

Mouse sensor available in single, dual or mouse and loop lanyard options.

Adhesive EAS Tag

Turtle can be mounted to packaging with non-residue adhesive.

J-Plug™ Cable Lock Tether System

JPLUG Benefits

Secure products with a high-security, flexible steel cable that stops grab and run.

Provides a physical connection to the product without getting in the way of its style and function.

Specially-designed, 360 degree rotating head. No tangled cables and no restrictions on human experience.

Save space. Cut cost.

Security and style without compromise.

About J-Plug

All-in-one alarm unit for mechanical and alarmed security. Secure any product with a standard audio socket with the J-Plug Lock. The J-Plug System supports a wide range of products. Your customers want features but they buy fun. The J-Plug gives them touch screens they can touch, phones they can weigh in their hand and imagine taking home with them. Because they've felt the fun and not the security.

All you need for live product displays in one compact case. Stock one simple range and cut staff training costs. The J-Plug is easy, intuitive and strong.

Secure items such as Tablets, Smart phones, GPS Devices, Speakers, E-Readers, MP3 Players, Laptops & PCs, Sound Systems, and more.

Need a J-Plug Solution? Call for pricing.

J-PLUG HEADLOCK

Universal mechanical security via unique audio lock that fits standard 3.5mm audio jack. High security flexible steel cable.

J-PLUG SPLITTER

J-Plug Splitter gives the customers a touch screen they can touch, accessories they can freely interact with and a display always fully charged.

J-PLUG JACK

Universal 3.5mm audio jack with Stainless Steel Pin

J-PLUG LOOP

Mechanical security via loop cable (fixed or free available) for headphones, housewares, purses, accessories and more.

J-PLUG ALARM

Secure live mobile and tablet displays, all in one compact case. Built in siren and LED lights act as a physical presence to deter theft. Provides power throughout.

LM Tag

LIGHT AND MOTION SENSOR

[Go to page 308](#)

Prevent theft by identifying product concealment.

LM Tag Benefits

Labor saving design - just peel and stick.

Unique strobe key that can be pre-programmed for your store.

One size fits all - small to large-sized packaging.

Reusable - Replacement adhesives sold separately.

4-alarm system.

About LM Tag™

The revolutionary LM Tag™ protects merchandise from theft by alarming when product is concealed.

This unique method of protection deters theft well before a potential thief reaches the store exits. When a product is concealed in a bag, under a coat, or in a pocket and there is movement of the product, the LM Tag™ turns on and counts down and beeps after the tag will alarm to alert store staff.

Unlike traditional box wraps and case systems, the LM Tag™ is a smaller, multi-product unit that protects merchandise without distracting product branding.

The LM Tag™ can also be used with other systems like Safe Cases to provide added security.

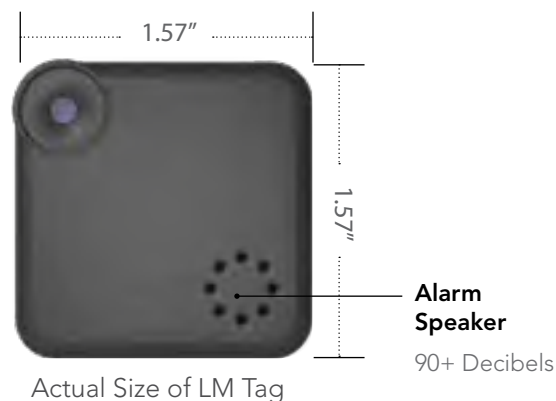

PATENTED

LM Tag™

The combination of light and motion sensors detect and alarm at theft through product concealment. No false alarms will activate when the product sits still on a shelf.

Works with RF and AM Systems

Light Sensor
and Internal
Motion Sensor

NEW - LM Tag™ Wrap

- Small and compact package wrap system, that uses existing LM Tag™. Single wire wraps around and/or through product.
- Disposable wire, comes in different lengths. LM Tag™ will alarm if the wire is cut or removed from product. Removal requires strobe key.
- Available in Clear.

BENEFITS OF LM TAG

Light Sensory Alarms when it senses light levels and is in motion.	Motion Sensory Tag alarms when concealed and in motion. No false alarms under shelves, on displays or when store is closed.	Brand Visibility No cables to distract from product packaging	Custom Programming Customer specific programming of strobe keys is available.	Battery Life Expected 2 years plus. Replaceable battery. Low battery indicator is two short beeps every few seconds
Sleep Mode To conserve power the unit will go into a deep sleep after one minute of no movement	Easy to Use Lowest cost, easiest attachment on the market - just peel and stick to place on product.	Shelf Optimization Regain shelf space that had been lost to protective cases or wraps.	One Size Fits All Eliminate the need for product specific sizes. LM Tag fits almost any size product.	Multi-Product Category Uses Health & Beauty Electronics Hardware Sporting Goods And more...

Bottle Top Tag

Put an end to liquor theft.

Go to page 316

Bottle Top Tag Benefits

- One-handed installation and removal.
- For bottle tops from 1.03" to 1.4" in diameter.
- RF or AM technology.
- Impact resistant lock.
- Works with magnetic detacher (12,000 Gauss).
- Reusable.

About Bottle Top Tag

Bottle Top Tag puts an end to liquor theft. It fits securely over the top of each bottle without diminishing the appearance of the product or taking up extra merchandising space. It installs on almost any size bottle and comes in both the AM and RF frequency.

The Bottle Top Tag's one-handed installation is easy to apply and quick to remove at POS. Simply place it over the top of the bottle and press the button to lock - no twisting required.

PATENTED

Zip-It™

Open merchandising made easy.

[Go to page 324](#)

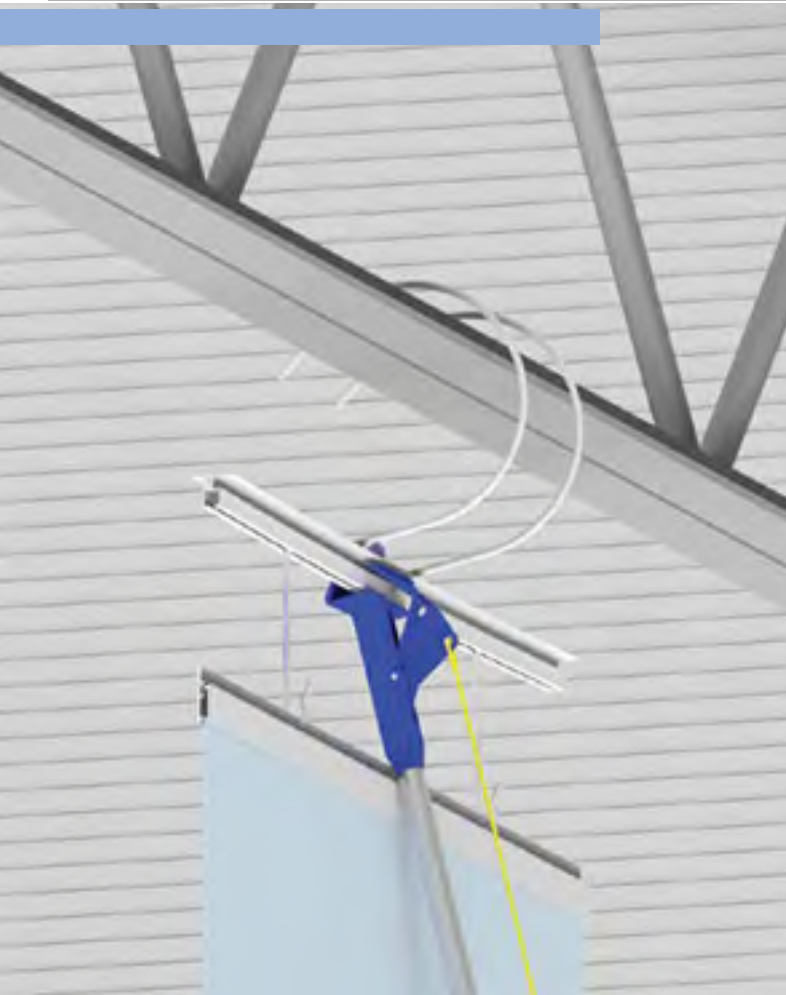

Zip-It Benefits

- Durable security pouch.
- High security hanger to work with existing anti-sweep solutions.
- Expandible design to perfectly fit your merchandise.
- No training required.
- Quick and easy to fit.
- Compatible with standard magnetic detachers.
- Includes AM or RF tags.
- Intuitive to use for staff.
- Works alongside your current security solutions.
- Reduce your losses with ease.

About Zip-It

Zip-It provides the most cost effective way to provide open product displays. The patent pending locking system keeps theft at bay. Adhere your RF/AM tags to Zip-It not the product. Your tags can be used for the lifetime of the Zip-It to maximize your ROI.

PATENT PENDING

Sign-EEZ in Open Ceilings

Sign-EEZ Mall Grid Holders

Go to pages 236-254

Magnecorp Hanging Solutions

Hang banner and signs with ease!

Magnecorp Benefits

Quick way to hang large banners and P.O.P. signs.

No ladder system to reduce risk and avoid liability claims.

No more moving merchandise out of the way.

Telescoping pole allows banners to reach high ceilings and create uniform displays.

Magnetic holders for easy sign changing.

Banner holding accessories for many sign hanging methods.

About Magnecorp Products

Protect your employees and your bottom line by providing a safe solution to hanging signs! Retailers have trusted the Sign-EEZ System for over 30 years! Sign-EEZ provides a quick and easy way to change out seasonal and promotional ceiling signs without a ladder.

The innovative Sign-EEZ works with ceiling grid and in windows. The new Sign-EEZ solutions bring the ability to safely and easily hang signs and banners from open ceilings and from mall grids.

SIGN-EEZ IN OPEN CEILINGS p. 241

Quick way to hang large banners and P.O.P signs to open ceilings. Mounts over steel truss, beams, girders, utility risers and piping.

THE GLOBAL ASSOCIATION FOR MARKETING AT RETAIL

OMA 2015 Bronze Award Winner

Southern Imperial's Ocean Vodka Display
wins 2015 OMA Bronze Award

Ocean Vodka Display

Southern Imperial announced that it won the Bronze 2015 POPAI's Outstanding Merchandising Achievement Award at GlobalShop. The Ocean Vodka Display won in the Beverages – Wine and Liquor Display category. This is Southern Imperial's first entrance into the award program.

The Ocean Vodka Display program was successful for Southern Imperial's customer. It achieved minimum case orders per unit for retailers to participate. Participation reached 245% of plan allowing brand to open new account doors as well. Initial depletions ranged from 200% to 1000% over prior periods. Retailers supported the program with premium floor placement and multi-case display activity.

Southern Imperial, Inc. of Rockford, IL is the industry's leading manufacturer of store fixture hardware and retail display solutions – delivering proven results and influencing point-of-purchase for the nation's top retailers and their suppliers. For more information about Southern Imperial's custom solutions, call toll free (800) 747-4665.

Fastback® Hooks

- The Fastback® display hook has been an asset to thousands of retailers for over twenty-five years. The labor saving features and durability make the Fastback® hook the best choice for single arm display hooks.
- Fastbacks® are the easiest way to peg merchandise, saving you time and money.
- Fastbacks® work directly under shelves and existing merchandise.
- Fastbacks® are the strongest plastic back hooks available, and do not have to be taken apart.
- Fastbacks® are easy to install. First lay out the Fastback® backs. Match the display planogram, then push in the Fastback® hooks.
- All Fastback® hooks come with a safety ball tip. Special tips available, call for more information. Design of loop hooks stabilizes unbalanced product and has a safety end.
- Special bagging and combination packaging are available for all of Southern Imperial's hooks and products. Call for a quotation.

Gravity Feed Hooks

Southern Imperial's Gravity Feed Hooks offer the simplest form of product facing for pegged merchandise.

The unique design of this hook provides just the right amount of slope to allow the merchandise to naturally face forward for optimal product presentation. The hook also has a special, lubricious coating to aid in proper product facing.

The Gravity Feed Hooks are available in 8", 10" and 12" lengths and utilize Southern Imperial's FastFlip™ label holder (sold separately).

Custom sizes are available. Call for more details.

SONIQ™ ALARM HOOK

STOP LOCK

ONE SHOT™

INTERACT HOOK

ANTI-SWEEP SCAN HOOK

FIRST-LINE™ SECURITY LOCK

FIRST-LINE™ SECURITY SWING

FIRST-LINE™ LOCK BAR

- **SONIQ™ Alarm Hook**

Open system design that allows customers to remove and replace product without assistance. Soniq 2™ features switchable modes so retailers can choose between an alarming function and a "beep only" mode.

- **Stop Locks**

Secure on your wire display hook and save money by deterring theft. Stop Lock for loop hook is usable on existing loop hooks up to .250" diameter wire.

- **One Shot™**

Prevents multiple item sweep with product stop triggered by product removal.

- **Interact™ Hook**

Two-handed interactive hook method eliminates product sweep, and the paddle mechanism faces the remaining merchandise.

- **Anti-Sweep Hooks**

Deters product sweep by making product removal more deliberate. Available in scanning and single stem versions.

- **Lock Hooks**

All-in-one locking hook solution for locking pegged products. Available in scanning versions of wire, and butterfly hooks, as well as a single stem version.

- **Swing Lock**

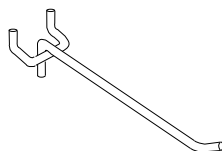

Works with your existing scanning hooks. Locks around both wires with metal arm to protect products.

- **Hook Lock**

Economical solution that works with your existing scanning hooks. Locks around both wires with plastic ratchet arm.

- **Lock Bar**

Full bar solution with locking gate to protect merchandise. Available in 36" and 48" widths.

Mega Bar Brackets

Slotted Bracket

Clamp Bracket

Mega Bar

Get more out of your display space with the new Mega Bar Peg Display System. The Mega Bar is a strong, durable display system that allows for cleaner, more effective product facings while being adaptable to various display applications. The Mega Bar will handle heavy loads as it utilizes the strength of the gondola uprights. Its steel tube construction increases weight bearing capacity as well, which increases product pack-out!

Fully compatible with the Magna-Bar™ System from Cannon Equipment™

Mega Bar Stem Hooks

.281 diameter wire for strength and stability.

Mega Bar Scanning Hooks

Over-bar attachment. Welded 2" label plate.

Mega Bar Extension Kit

Extends Mega Bar above height of gondola. Use with Clamp Bracket style. Sold as left and right pair.

Metal Stampings

**RRB**

- Fits on any 1" tubing.

**R16-SW-BK2P
Slatwall Back**

- Works in all standard slatwall and slatgrid.

**R64-3-BRKT-P
Grid Back**

- Hangs on 2" and 3" grids.
- Notched to fit on cross wires.

**R16-BR2P
2 Prong Flat Back**

- Works in 1/4" peg paneling and slatwall.

**R16-BR4
4 Prong Flat Back**

- Works in 1/4" peg paneling and slatwall.

**RCB-CTRL
1" Grid Clamp**

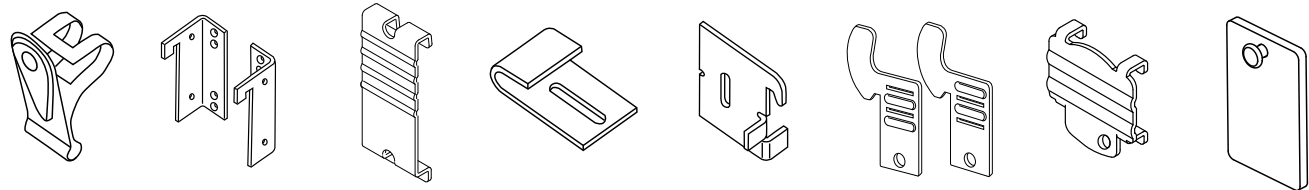

- Use to connect wire grids and welded racks.

**RCB-CURL-D
Crossbar Bracket**

- Grips onto 1" bars and wire with notched back.

**R16-PRCH-CLP
Price Channel Clip**

- Snaps into 1-1/4" price channel.

**R16-WR-CLIP**

- Pressure fits onto .206" diameter wire.

**R57-HL/R57-HR
Upright Hanger**

- For slotted upright.
- Tapped with six 1/4" - 20 holes.

**RF4SW
Slatwall F4 Back**

- Fits in 3" slatwall only.
- Straight entry hooks.

**RI-J-CLIPS
J-Mount**

- Use for hanging wire displays.

**R40-II-GDCLZ
Upright Mount**

- Universal mount for any slotted upright (zinc plated).
- Patented stabilizing fins.

**R16-UCB
Crossbar Bracket**

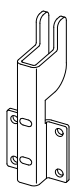

- Ideal for flat steel crossbars.
- Works in most slotted uprights.

**RF4
4-Prong Peg Back**

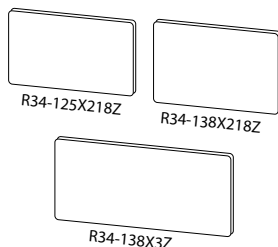

- Fits in 1/4" perforated board only.
- Straight entry hooks.

**R40-MTGP-K
Fastrack Pallet Adaptor**

- Weld on to Fastrack for pallet mounting.

**RUMB
Metal Gondola
Upright Back**

- For utilizing Gondola Uprights

**Metal Plate Label Holders**

Plastic Backs

R33-186-100
Scanning Fastback®

- For .186" diameter scanning wire, beige plastic.
- Works in 1/4" peg paneling and slatwall.

R33-212-100
Scanning Fastback®

- For .212" diameter scanning wire, gray plastic.
- Works in 1/4" peg paneling and slatwall.

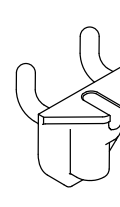

R33-250-100
Scanning Fastback®

- For .250" diameter scanning wire, white plastic.
- Works in 1/4" peg paneling and slatwall.

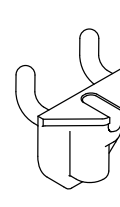

R22 Fastback®

- For .149" diameter wire, white plastic.
- Works in 1/4" and 1/8" peg paneling and corrugated.

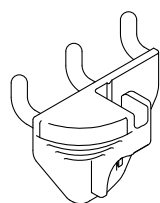

R30 Fastback®

- For .186" diameter wire, beige plastic.
- Works in 1/4" peg paneling and slatwall.

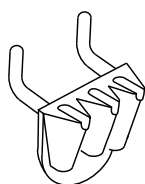

R23 Fastback®

- For .224" diameter wire, white plastic.
- Works in 1/4" peg paneling and slatwall.

R34 - Three Prong
Scanning Fastback®

- For .250" diameter scanning wire, white plastic.
- Works in 1/4" peg paneling and slatwall.

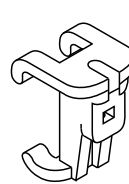

R28 Fastback®

- For .149" diameter wire, white plastic.
- Three pockets designed to hold loop wires with a scan arm.
- Works in 1/4" peg paneling and slatwall.

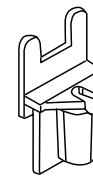

RHF Fastback®

- For .149" diameter wire, white plastic.
- Lower cost for disposable displays and light products.
- Works in 1/8" peg paneling with 1/2" hole spacing and corrugated.

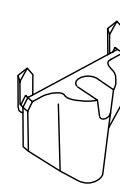

R24 Fastback®

- For .149" diameter wire, white plastic.
- Works on crossbars and 1" spaced wire grids and end-cap merchandisers including Fastrack grid panels

R39 Fastback®

- For .149" diameter wire, white plastic.
- Works in 1/8" corrugated, metal, and plastic paneling.

R27-100
Fastback®

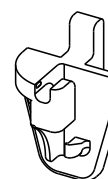

- For .224" diameter wire, white plastic.
- Works in diamond hole metal paneling.

PATENT PENDING

Custom Hooks and More

In today's retail environment, retailers are often challenged with merchandising beyond just a standard peghook.

Southern Imperial can turn an ordinary in-line product set into a destination point that educates the customer and helps them to create informed purchasing decisions.

Custom Solutions

- • Custom Fabricated Hooks.
- • Powder Coating.
- • Prototyping.
- • Freestanding Units.
- • Metal and Wood Displays.

Custom Powder Coating

Add a splash of color to your display components! Southern Imperial's powder coating capabilities allow you to transform any of our stock metal products with color for added display appeal! Call today for a custom quote on powder coating for your next order.

Benefits

- Available characteristics: durability, resilience, high gloss and electrical insulation.
- Finish is resistant to wear, corrosion, impact, chemical reaction, and weather.
- Unlimited selection of colors with excellent color matching capabilities.
- More cost effective than traditional paint.

Use in Price Channels and Label Holders

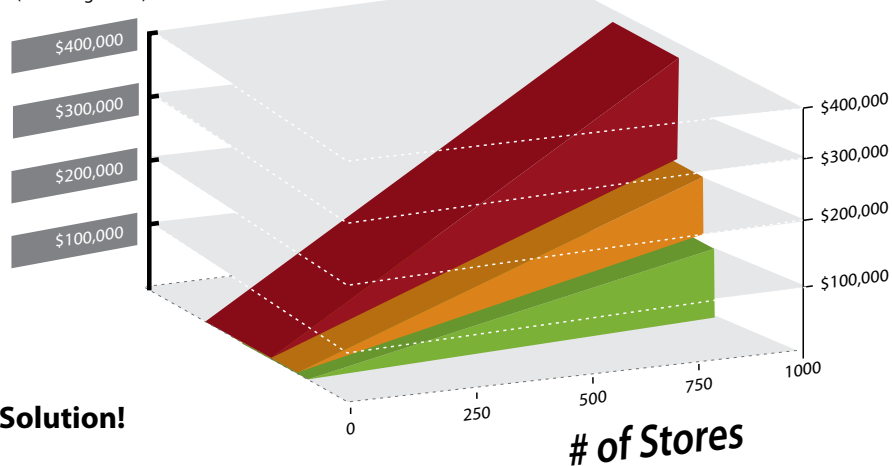

Easy-Release Paper Tags

Save 40% over vinyl and almost 1/3 of the cost of standard perforated tags!

Q-Tag™ is a revolutionary new product that can save thousands of dollars in labor costs in retail shelf marking. Q-Tag™ is based on a “dry adhesive” technology, which keeps a pre-cut tag adhered to a liner - even through laser printers - until it is removed from the liner for placement into price channels and label holders. The Q-Tag™ is as easy to use as standard adhesive labels, but it is a paper tag. Look into Q-Tag now and begin to realize the savings!

Total Cost
(Including Labor)

Save thousands of dollars in labor cost in retail marking with Q-Tag Paper Tags over Standard and Vinyl Labels.

- Standard Paper Tags
- Vinyl Adhesive Labels
- **Q-Tag™ - The Low Cost Labeling Solution!**

Compare Q-Tag™ to Standard Tags and Vinyl Labels

Standard Perforated Tags

1. Fold

2. Separate

3. Collect

4. Insert

Time to separate and insert:
2 minutes - start to finish

Label Cost = \$0.0025/ea
Separation cost = \$0.01/ea

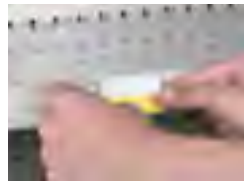

Total cost per tag = \$0.0125/ea

Vinyl Adhesive Labels

1. Peel

2. Stick

Time to apply:
2 seconds - start to finish

Label Cost = \$0.007/ea
Separation cost = \$0

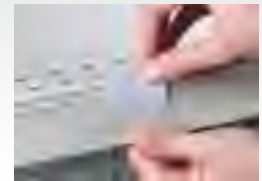

Total cost per label = \$0.007/ea

Q-Tag™

1. Peel

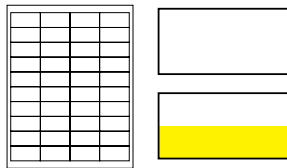

2. Insert

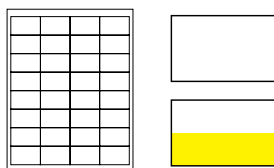

Time to insert:
2 seconds - start to finish

Label Cost = \$0.004/ea
Separation cost = \$0

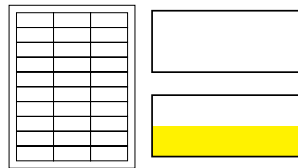

Total cost per Q-Tag = \$0.004/ea

Label•Release®

From price channels to scanning hooks, Label•Release® will change the way you look at labels!

One of the most time intensive and costly areas of running a store is dealing with labels. From removing old labels to placing new labels on shelves and other label holders, labeling can seem like a never-ending process. But, what if there was something that made it easier? Something that allowed you to easily remove and replace labels? Something that allowed you to use inexpensive paper adhesive labels? And what if that product even improved the look of your store fixtures?

Label•Release is designed with those very issues in mind – to simplify the process of labeling and to save you money.

Simply apply Label•Release to fixture.

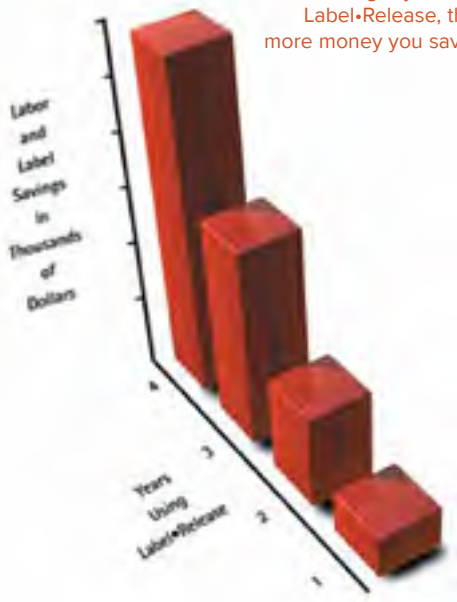

Apply label.

Remove and replace as necessary!

The longer you use Label•Release, the more money you save!

Features

VERSATILITY

- Near transparent appearance.
- Labels stay put, but easy to remove and replace when needed.
- Store resets become a breeze.
- Cleaner looking shelves - hides those dents & scratches.

AVAILABLE FORMS

- Non-adhesive for "C" shaped price channels.
- Adhesive for flat face price channels.
- Scanning hook sizes available.

SAVINGS ADVANTAGES

- Save 50% with use of paper labels versus vinyl labels.
- Reduce time for label resets.
- Re-face your shelf in any color.
- Label Release® is versatile and works with almost any label.

COLORS

- Stocked in a variety of colors.
- Custom colors and logos available.

PATENTED

Adhesive Label•Release® VPS for all shelving

- Base of adhesive vinyl to be used on flat faced shelving. Peel off liner.
- Produced in convenient 200' rolls, perfed every 11.875".
- One roll provides enough material for fifty 4' shelves.
- Durable 3.2 mil vinyl with removable adhesive.

Custom Plastic Extrusions

LABEL SOLUTIONS

Custom profiles and extrusions for any standard or custom application, size, shape, or color.

Sunbelt Plastic Extrusions is an industry leader in complex, extruded plastic solutions. Our customers look to our expertise with dual-durometer extrusions, co-extruded and tri-extruded plastic pieces, and large extruded panels.

Sunbelt Plastic Extrusions specializes in hollow profiles and panels up to 28 inches wide.

We also offer enhancing additives including custom colors, flame resistance, static dissipation, conductivity, anti-friction and UV resistance.

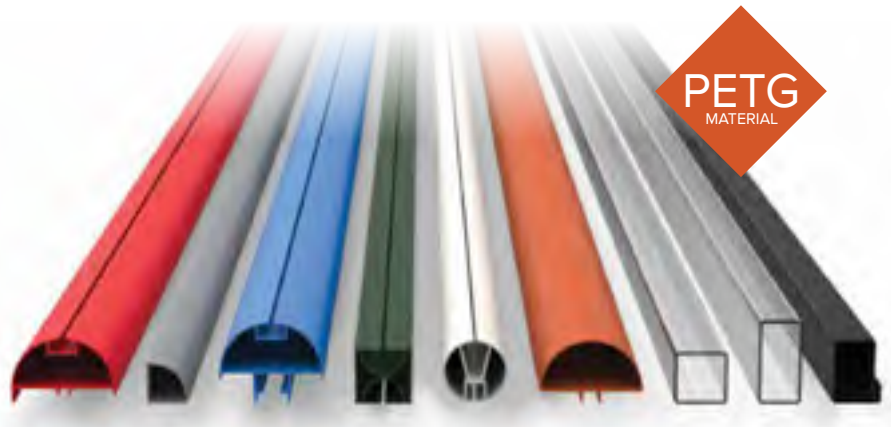

Additionally, we provide a variety of post-process functions to provide the finished product you need in the way you need it to work.

Call (800) 922-4029 or go to www.sunbeltplastics.net

A partner you can trust

Sunbelt Plastic Extrusions, has a rather simple philosophy - Build the Best Part, for the Best Price and always Deliver On-Time. When you combine these three strategies into a single goal, it leads to satisfied customers. This is how we think, how we work and what we promise. It is why our customers keep coming back.

Sunbelt has been providing plastic extrusions to the world since 1981. Our commitment and loyalty to excellent service makes us your best choice for attractive, top-quality thermoplastic extrusions.

Custom Products

Sunbelt specializes in producing profile extrusions for a wide variety of applications out of many popular thermoplastic materials. Our experience with most engineered plastics eliminates the learning curve that ensures you a low cost product and a rapid turn around.

Proven Process

Our staff is ready to work with your team to develop innovative solutions – whether you need a new design, an improved product or just want to reduce your product costs. Our streamlined process is well suited to produce your required product regardless of your project size.

First-Class Service

We combine our engineering expertise with our multi-faceted capabilities to offer you distinct advantages. Sunbelt can provide quick turnaround on custom solutions, as well as proprietary engineered solutions to meet and exceed specifications. We can also handle large, national rollouts.

LABEL SOLUTIONS

Custom Label and Sign Printing

Southern Imperial is proud to be the only display and fixture manufacturer with in-house flexographic printing. Through our extensive experience, we can provide complete solutions for retail labeling and sign production.

- In-line flexographic printing up to six colors and specialty varnishes.
- Full in-line automation for roll production of printing, laminating, varnishing, die cutting and sheeting in a single pass.
- High-resolution output for seamed and seamless plates up to 150 lpi.
- We process a variety of materials including paper and synthetic pressure sensitive, non-adhesive substrates and a variety of specialty materials.

Hang Tabs

Hang Up Your Products and Increase Sales

Hang Tabs provide a proven, practical method for increasing retail sales by displaying more products vertically, where consumers can see them. When customers see your product, they buy your product. Hang tabs give your product display flexibility — with a hang tab on your product you can hang it anywhere in the store.

A more visible product improves your brand awareness. Hang Tabs also allow you to display more products in less space, repair damaged hang holes, and can lower your overall packaging costs.

Hang Tab Styles

SLOT HANG TABS are the most versatile of our hang tabs. The delta shaped hanging area self-centers on any peg fixture.

ROUND HOLE HANG TABS are great for a variety of single peg fixtures and display strips.

HOOK HANG TABS make selecting the exact product quick and easy. Customers can remove and replace product from any position on the display peg. Hooks fit a variety of peg fixtures and speed up the rotation of stock. Hooks are ideal when displaying more than one size or color of the same product on the same peg fixture.

FLEXIBLE HANG TABS have a thicker hang hole area and thinner adhesive area. This design gives flexible tabs the ability to stick well to curved, uneven, or uniquely shaped packages.

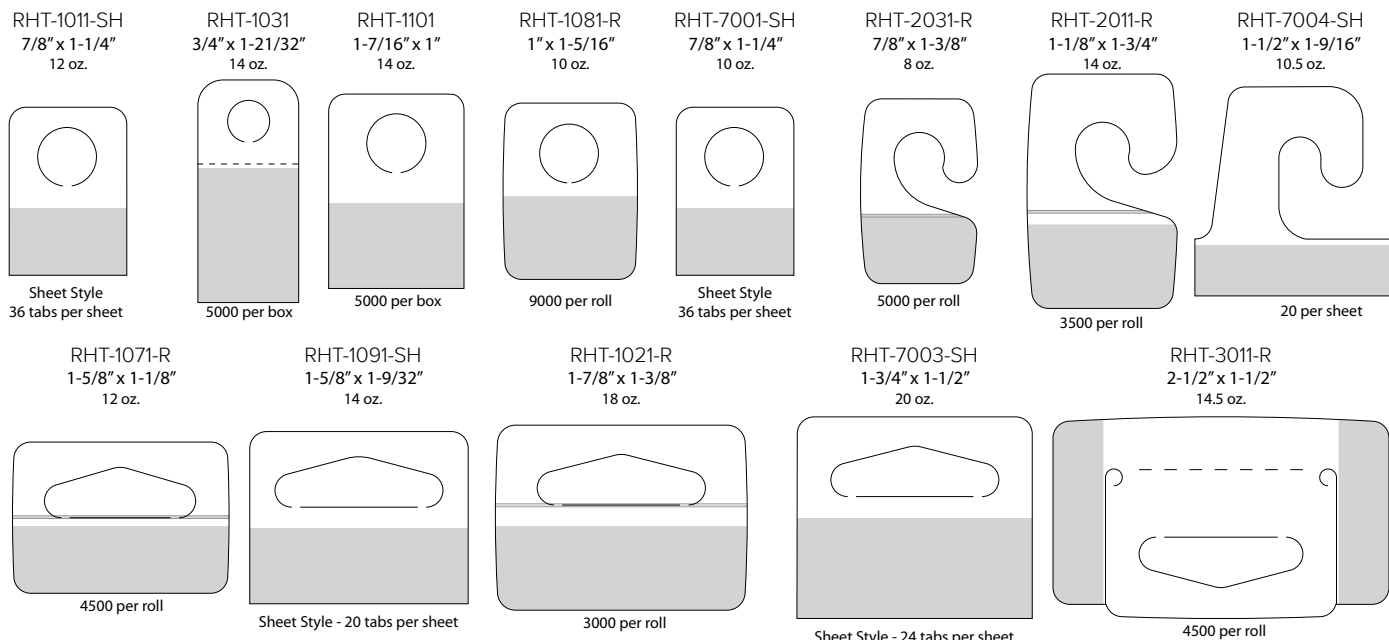

FOLD-UP HANG TABS apply to the back of the package and lay flat for master carton packaging and shipping. The hang tab remains flat until folded up for display on peg fixtures.

IN
STOCK

Every last product sells.

Before

After

1. Standard freezer shelves are expensive and consume valuable merchandising space.
2. Category management on shelves is difficult and can result in product spoilage. Product is merchandised in a manner that does not maximize visibility.
3. NEXT Trays maximize merchandise space. Total number of facings can increase by as much as 30%, which increases the sales potential per category.
4. Each product is maintained and faced with NEXT Trays. Product and packaging are always visible, creating a billboard of merchandise that increases impulse sales.

Studies show NEXT increases space by **25-30%**
with an **ROI of roughly eight months!***

Key Benefits

1

Increase Sales

Increase sales 10-15% through enhanced product appearance. Average ROI of eight months.

2

Increase Merchandising Space

Increase the number of facings in a section by as much as 30% by removing shelves and optimizing planograms.

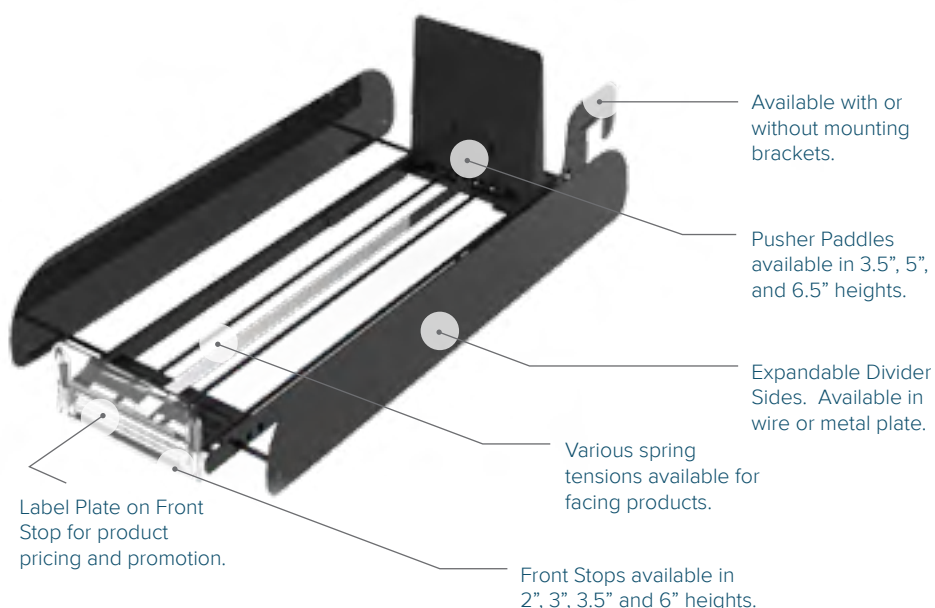

3

Reduce Labor Costs

Upon product removal, each product is faced with spring-loaded action

Store-wide system benefits

- Increase Sales 10-15% based on industry case study*
- Reduce Fixture Costs
- Minimize Labor Associated with Stocking and Facing
- Reduce Shrink Associated with Spoilage and Theft
- Enhance Inventory Rotation
- Organize Product Appearance
- Grow Categories by 25-30%
- Improve Sustainability

NEXT™ Tray Pull Out Drawer

- Provides pull out convenience of NEXT System trays.
- Allows more efficient product rotation and labor reduction, and is the ideal fit to help make loading products faster and easier.
- Pullout drawer adapts to any upright configuration using NEXT™ Bar
- The NEXT Drawer is effective for product categories that are time sensitive to reduce spoilage.
- Mounts directly on NEXT™ Bar. Braced frame is sturdy enough to hold multiple trays loaded with product.
- Holds 17" and longer NEXT Trays.
- No tool needed for installation.
- Strong durable construction.

Additional volume discounts available. Call for pricing.

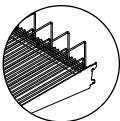

Paint Rack Pusher System

- Provides a quick and easy way to face spray paint cans or tall, narrow packaging to the front of the shelf.
- No more hassle in keeping brand lines straight. The patent pending design avoids unwanted multiple can removals due to cans snagging each other and the spring fed, user friendly pusher reduces the labor cost in product facing.
- The full display attaches directly to the gondola or base deck for easy installation. Combine the base deck and upright versions to create a stunning visual display. The clear front fence allows a clean view of products and allows the brand to get full attention while up front and center. Its durable steel construction and materials allow for increased functionality and longevity in the retail environment.
- Increases sales by improving product visibility.
- Reduces theft by minimizing the ability to sweep shelves.
- Base deck available in 16" and 19" depths.
- Upright version available in 16" and 19" depths.
- Includes 1.25" C-Channel for price tags.

MERCHANDISING SOLUTIONS

AUTOFRONT™

Roller Shelf System

Labor saving solution to keep products faced and increase sales!

AutoFront shelves allow products to roll forward to the front of the shelf, providing maximum visibility of available merchandise to increase impulse sales.

Using gravity feed to face products also reduces costly labor to face and organize product.

How It Works

Each shelf contains small rollers that when combined with a minimal incline, faces the merchandise to the front of the shelf. A variety of front stops and dividers are also available to keep merchandise organized on the shelf.

PATENTED

FEATURES

BENEFITS

All-In-One Design

Comes fully assembled and ready to install over existing shelves.

Product Facing

Every product is visible, increasing impulse sales and enhancing the store appearance.

Labor Savings

Merchandise automatically gravity-feeds to the front when first item is removed, saving labor costs.

Easy to Maintain

Dust and other debris can be simply removed with a damp cloth.

Customs Available

AutoFront can be manufactured to your specific display space and maximize product merchandising.

Easy to set up and change out system

Simple, yet durable system comprised of rails, dividers, and pusher tracks.

Universal Rails

Dividers and pusher tracks snap over universal rails to provide a secure and tight fit to prevent shifting.

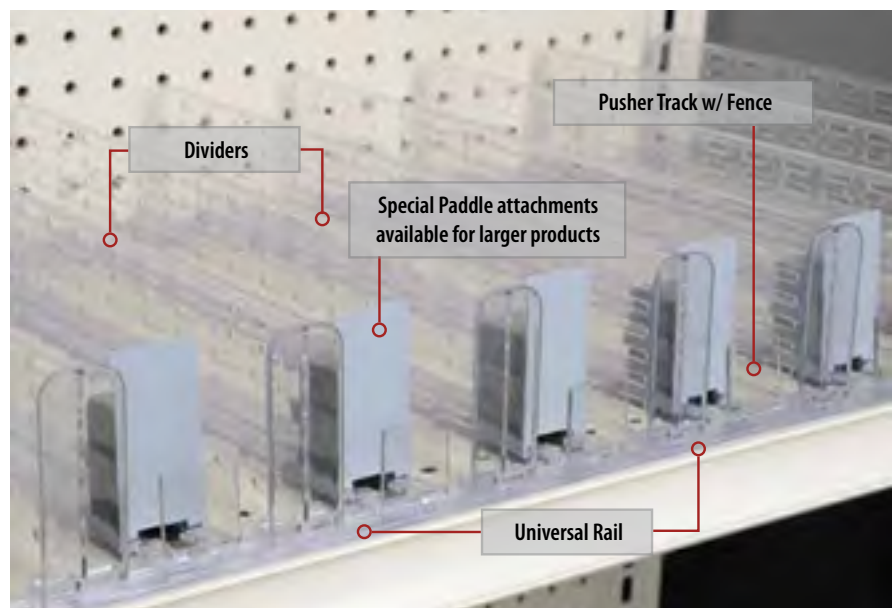

Drag-free Pusher Paddles

Unique design of pusher paddle places the spring on a spool, keeping it from creating drag and binding with pusher for better performance.

HD SnapTrack™ Pusher System

HD SnapTrack™ System is one of the simplest facing systems around. Products will show full facing view with limited distraction through the clear facing construction. The system consists of the rails, dividers, and pusher tracks. The front and back rails are the same, and attach with push pins. The dividers and pusher tracks can be placed anywhere along the rails. Once snapped onto the rail, the dividers and pusher tracks hold firmly in place and won't slide or be easily bumped off.

Custom configurations available. Call 800.747.4665 for details!

Universal Rail

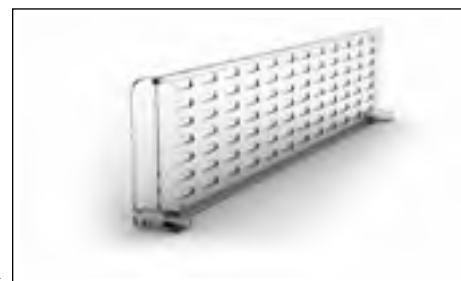

- T-style design is universal, so front and back rails are interchangeable.
- Can be attached to standard shelf perforations using push pins or attached with adhesive (both sold separately).

Part #	Dimensions	Finish	Pack	Price
RFTP-DT3F	36" rail	Clear	20	Call for Price
RFTP-DT4F	48" rail	Clear	20	Call for Price

Divider

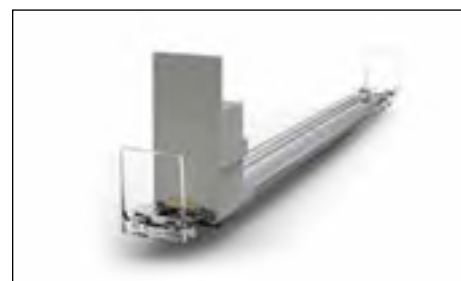

- Dividers provide front stop to keep products from falling off the front of the shelf.
- The unique fit of the dividers onto the Universal Rails provides a snug, secure fit so dividers won't slide along track or easily pop out from pressure of product.

Part #	Dimensions	Finish	Pack	Price

IMPulse™ Trackless Pusher System

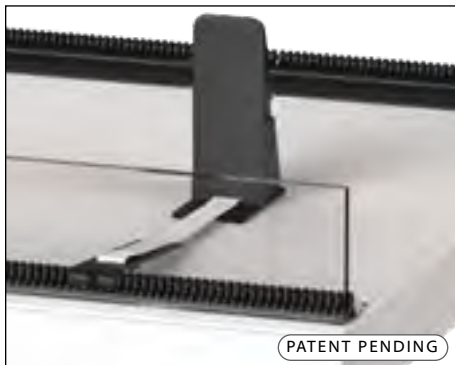

Southern Imperial's improved product facing is designed to increase impulse sales! The new molded front fence provides better support and control of product. The IMPulse System faces a wide variety of product, and can extend past the back rail to maximize product packout.

- Front Fence available in 2" height x 4' lengths. Custom lengths are available.
- Dividers are available in 3" height, and lengths of 11", 13", 15", and 17".
- Stock Pushers available in medium-duty. Light-duty and Heavy duty strengths available. Call for details.
- Dividers modified for easy clip in stabilization of products without sliding.

IMPulse™ Trackless System Includes:

Pusher Units • Front Fence • Reversible Dividers
Stock Color: Black

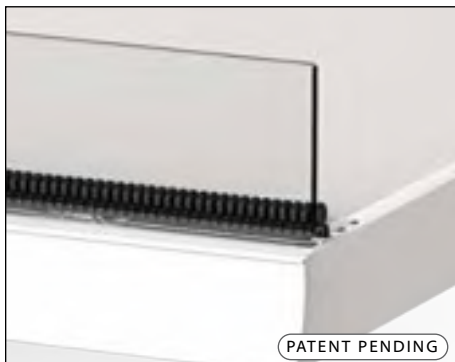

Call today for your custom quote!
800.747.4665 or 815.877.7041

Pusher Units

- New pusher shape designed to better handle a wide range of products.
- Easy to adjust.
- Utilize multiple pusher units to move wider and larger products.
- Available in Black. Custom colors available.
- Paddle extension plate available. Size: 4"H x 3" W. Call for details.

Side-Trac Pusher

New, all-in-one assembly provides an easier system to install and utilize. The divider and paddle are combined into one easy-to-install unit. This unique design eliminates the need for a rear track, and snaps easily onto the IMPulse front rail for a secure fit.

NEW

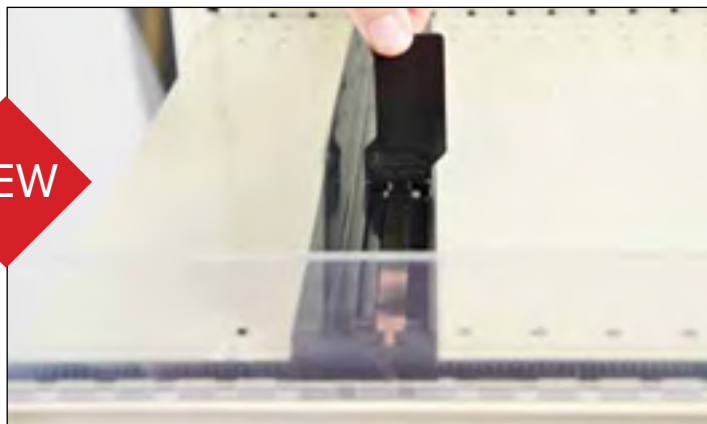

- All-in-one pusher and divider assembly.
- Clips onto front fence of Impulse.
- Uses same rail as Impulse.
- No rear attachments required.
- Easy to adjust.
- Optional paddle for larger products.
- Available in Black. Custom colors available.

To secure installation, snap Ratchet Divider to front and back of existing shelf.

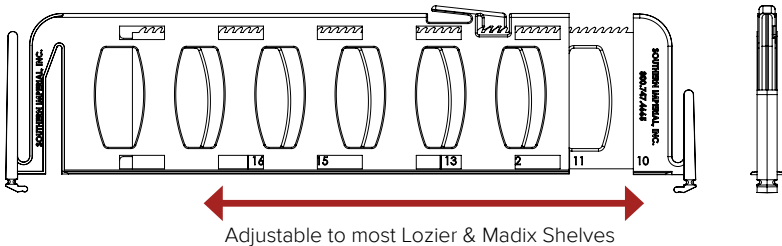

Integrate Front Product Stop and POP-In Pushers for a complete shelf management system.

Ratchet Divider

Southern Imperial's Clear Ratchet Dividers provide a quick and easy way to merchandise and maintain product. The Ratchet Divider is ideal for merchandising products on any size Lozier and Madix display shelving. Reduce the number of different shelf divider SKUs you need to carry! Ratchet Divider telescopes to fit most shelf depths. Facing product creates a more appealing presentation and increases impulse sales.

- Adjust and snap Ratchet Dividers into Lozier and Madix shelving to create instant dividers!
- Ratchet Divider available in 10"-16" length, and 16"-22" adjustable length.
- Snap on to Lozier and Madix shelves, so you can merchandise your products in no time. No tools needed!
- Reduce the amount of different shelf divider SKUs you need.

See POP-In Pushers™ on page 142. Items sold separately.

Stretch Divider

Southern Imperial's Stretch Dividers provide a quick and easy way to merchandise and organize product on standard perforated shelves. Save inventory costs by using one Stretch Divider that is adjustable to fit different shelf depths with ease and works without the need of a front and back rail system.

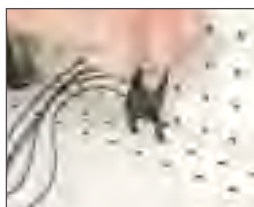

The Stretch Divider is ideal for merchandising products on Lozier and Madix display shelves ranging from 14" to 20" deep. To customize your display and add product facing use Southern Imperial's POP-In Pushers. Facing product creates a more appealing presentation and increases impulse sales.

Stretch Divider can stretch to fit from 14" to 20" shelf depths.

Product Features

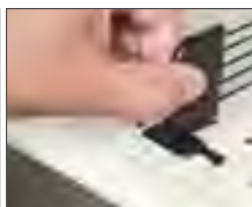

Stretch fabric allows the divider to adjust to different shelf depths with ease. No tools needed! Stock material is black A.B.S.

1. Select Shelf Spacing and Depth.

2. Stretch Divider.

3. Slide Stretch Divider to Align.

Keep products faced without any worries of unorganized displays. Utilize our P.O.P-In Pushers™ to add self-facing capabilities to your displays.

P.O.P-In Pushers™

Southern Imperial's new P.O.P-In Pushers™ are the ideal fit to add self-facing capabilities to your displays and fixtures. This trackless pusher system keeps products faced without the worries of unorganized displays. Your products can be kept aligned and automatically pushed with variable spring force.

Whether you are designing corrugated displays or utilizing your existing shelf and display space, the P.O.P-In Pushers™ allow flexibility and customization. There are four different styles, all with light, medium, and heavy weight spring tensions to accommodate your specific display needs.

PATENTED

BEFORE

Messy category with out of stock situations. Some bottles are pushed to the back reducing sales.

AFTER

Create a billboard of products with all the brands aligned with their price ticket at the front of the shelf.

Facer

Southern Imperial's Facer system provides a quick and easy way to merchandise and organize your wine section on standard perforated shelves. Save labor costs by spending less time on re-stocking, counting and facing up. Sell more and make wine selection more profitable.

Facer is a simple approach to optimize stock throughout trading hours. Each lane of bottles is easily pulled to the front of the shelf to keep a tidy presentation.

Use the label pocket to create an attractive and selling product segmentation. Optional endcaps can be added to prevent Facer frames from being pushed over to the next shelf. As an additional benefit, the endcap contains a built-in sign grip for perpendicular signage.

Save Time. Save Labor Cost.

- Less time spent on re-stocking, counting and facing.
- Reduction of out-of-stocks.
- Less risk of over-stocking & broken bottles.
- Better communication to develop impulse buying.
- Products neatly aligned.
- Improved shopability.
- Adjusts to fit any size bottle.

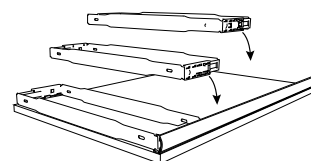

The Facer system was developed with a view to improve management of wine sections, making it easier to quickly face and maintain.

Facer Frames

- Facer frames are easily adjusted to the width of the bottles and work on all standard shelving types.
- Stepless width adjustment from 2.643" to 4.328"
- Works no matter which way it is turned.

Visi-Pull™

The Visi-Pull™ is designed to reduce labor costs and restocking time in the stackable product sections.

Traditional pusher systems are not advisable for stacked product and organizing by hand is a difficult. This new system is designed with height to cover stacked containers. Instead of manually facing product, containers are pulled forward in a fast and orderly manner.

Visi-Pull™ also adapts to most cooler shelves with a front lip and includes 24" width fronts for shelves without a front lip.

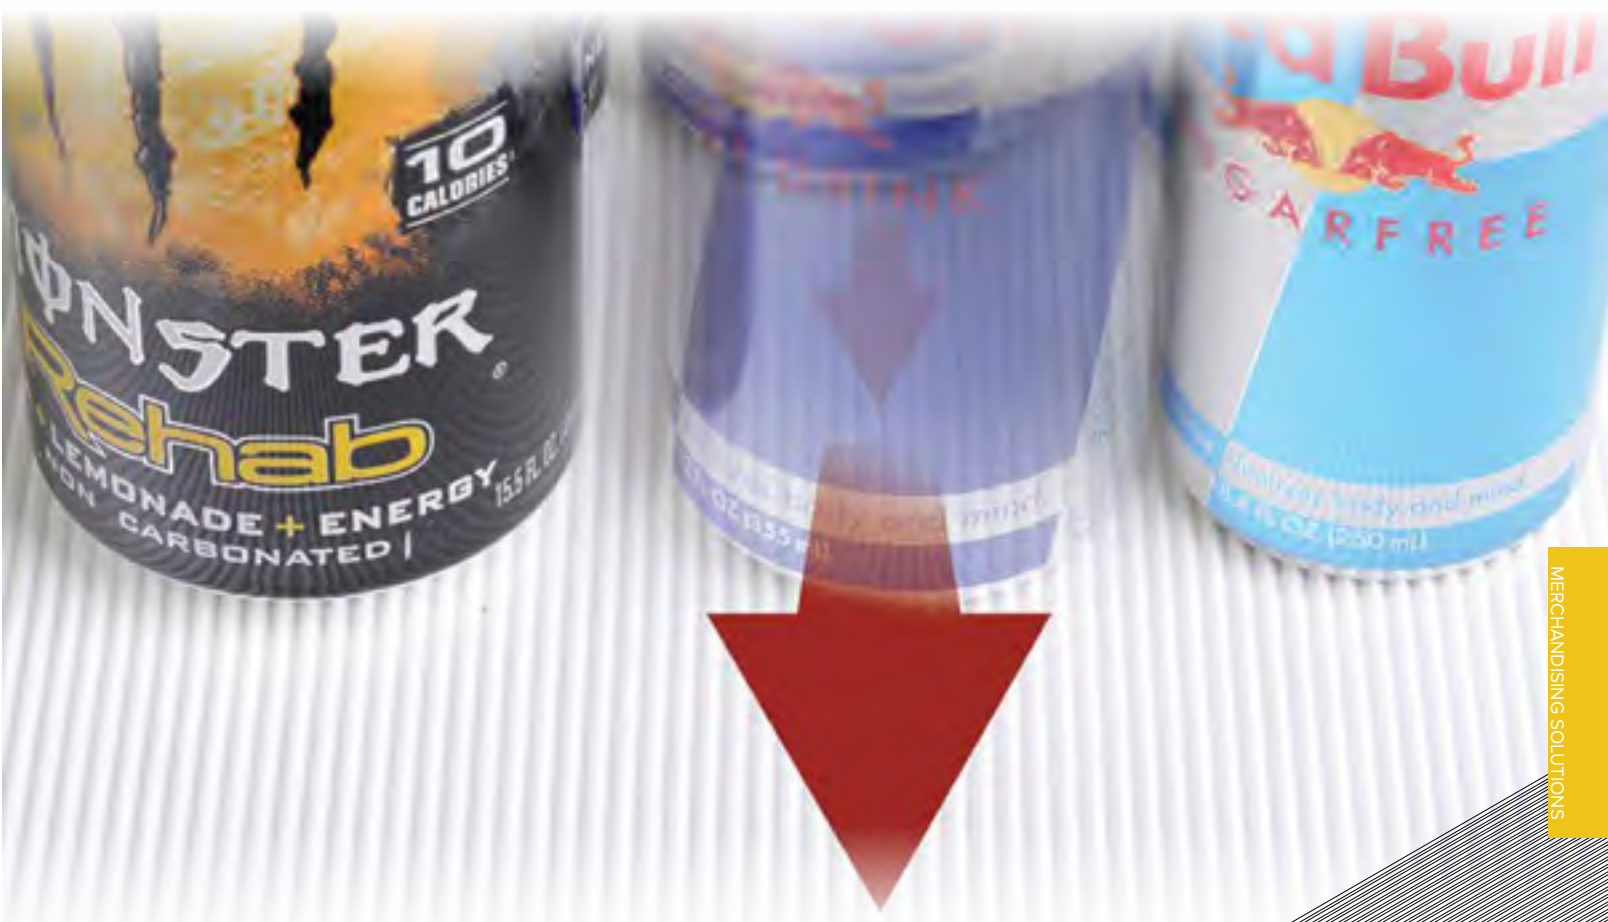

PRODUCT HIGHLIGHTS

- Adjustable from 2.5" to 4.25" width for a variety of container sizes.
- 7.7"H Frames allow for multiple products to be stacked.
- Divided lanes prevent product mixing.
- Adhesive base helps connect front fence to standard retail shelf.
- Use with a variety of stackable products.

Kinetic Mat

Southern Imperial's Kinetic Mat is a coated mat system that enhances the performance of a gravity fed system. The Kinetic Mat features a slippery coating to reduce product drag so gravity fed product moves forward easier. Great for dairy products, bottled drinks, beer packs, and boxed food.

A soft cloth with warm water can be used to wipe down the Kinetic Mat during cleaning.

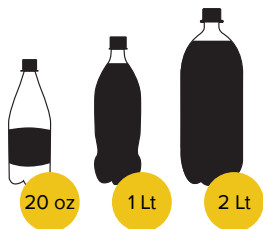

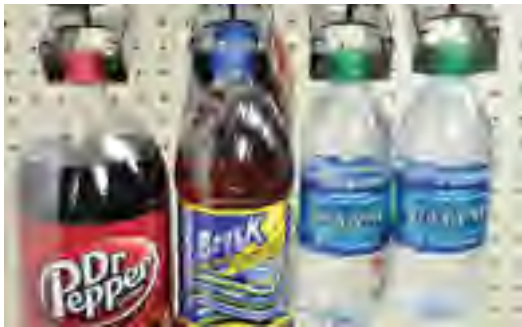

Kinetic Mats are available in black and white. Custom colors available. Minimum quantities apply.

PRODUCT HIGHLIGHTS

- Helps gravity feed product on an inclined plane.
- Moves product in low temperature environments.
- Kinetic Mat channels are easily to cleaned.
- Available in black and white.
- Dimensions: 24" x 24" x .080".

Holds 2 liters, and smaller size bottles.

NEW

Gravity Feed Bottle Display

PATENT PENDING

Gravity Feed Bottle Display is a bottled beverage organizer that is placed on existing fixtures using the NEXT™ Bar. The individual tracks are angled to utilize gravity and to keep product forward, faced and organized. Facing product keeps aisles looking full and organized and eliminates perceived out-of-stocks, ultimately increasing beverage sales.

- Reduces merchandising footprint, thus saving retail floor space, and reduces labor costs.
- Front and rear load option - ideal for open coolers.
- No shelves or dividers required.
- Label mounts to the top of the tracks.
- Remove or add as many tracks as needed without disrupting the display.
- Can be used with a variety of bottle sizes.
- Each tray is sold individually.

LED Lighting

Sustainable lighting. Increase sales.
Reduce energy costs.

LED Benefits

- Low-Voltage.
- Display adaptability.
- Delivering bright light for affective illumination.
- Energy and cost savings, up to 80-90%, when compared to traditional lighting.
- Free of toxic chemicals to reduce your carbon footprint.
- Over 50,000 hour lifespan.

About IMPulse™

LED (Light Emitting Diode) technology is changing the face of retail. Its low cost, extended life, and flexible applications provide a sophisticated lighting and energy management solution that will help balance design and performance, with your budget while committing to sustainability.

LED lighting platforms create extraordinary value by providing high-quality illumination and color rendering of products for visibility, visual comfort, display aesthetics and minimum energy consumption.

Our LED fixtures gives you the peace of mind that comes with knowing your products will get the best representation to drive sales and build customer confidence.

The keys to unlocking the power of LED Technology

Increase Sales. Reduce Labor. Manage Products.

Why Southern Imperial for LED Lighting?

Solution provider for over 50 years!

Southern Imperial has been providing display and fixture solutions of all types to the retail industry for over 50 years.

Our ability to combine low-cost, high-quality LED lighting with our custom fixture capabilities means we can provide the most effective retail display for you at a highly competitive price.

We have offered a variety of lighting solutions for many years and we are constantly innovating to meet and exceed our customers' expectations.

Call us today about your next project and let us prove to you how we can be a valued partner with LED lighting and fixture capabilities!

ALLURA LED

Why 24 volt versus 12 volt LEDs?*

Doubling the voltage results in half the current for a given load. This results in a smaller voltage loss and therefore less dimming further away from the power source using 24VDC instead of 12VDC.

LED Feature Legend

Lumen

Lumen measure how much light you are getting from a bulb. The higher the lumen, the brighter the light.

Low Voltage

LED lighting consumes a low amount of electricity, especially compared to other light sources.

Light Color Temperature

LEDs color temperature can affect how color is rendered and ultimately the impact of a room or environment.

Color Render Index

CRI is a quantitative measure of the ability of a light source to reproduce the colors of various objects faithfully.

Bus Bar

Bus bars provide a power source to input LED lighting into, reducing the number of cables and electrical drops.

Beam Width

The beam angle is the degree of width that light emits from a light source.

Waterproof

Sealed silicone seals protect LED electronic components from harsh environments, improving performance, reliability and life.

Lifetime

LEDs offer up to 50,000 hours of illumination with a fraction of the energy used by incandescent bulbs.

Watts

LEDs draw a low amount of watts, meaning more lights can be used on a single, low voltage power source.

LED Strips

NEW

Flexible LED Kit

Flexible LED Strips are ideal for cove, under-shelf, sign and display applications. Flexible LEDs play a significant role in highlighting a product or a display environment. Allura™ Flexible LED Strips provide high-quality light, and are flexible to bend around curved surfaces.

The sealed, silicone casing provides waterproofing to increase the applications where the strips can be used. The Flexible strips are compatible with the Allura Bus Bar.

Assembled in a high-quality silicone sleeve. Includes VHB Adhesive Tape for adhering to flat surfaces, as well as magnetic clips for easy installation under metal shelves.

Custom lengths, color temps, and other features are available.

NEW

Mini LED Rigid Bar Kit

High-quality, rigid LED bars are ideal for under-shelf applications to highlight products and display cases. The low watt requirements means that more strips can be used on a single power source, such as the Allura Bus Bar (see page 162).

Assembled in a high quality aluminum extrusion. Includes VHB Adhesive Tape for adhering to flat surfaces, as well as magnetic clips for easy installation under metal shelves.

Custom lengths, color temps, and other features are available.

LED Strips

Ultra LED Rigid Bar

High-powered Ultra LED Light Bars are ideal for product and category lighting. The high lumen output along with the rigid aluminum housing make this solution ideal to light a broad section of a retail environment.

The Ultra LED Light Bar is compatible with the Allura Bus Bar (see page 162 for details).

Assembled in a high quality aluminum extrusion. Includes VHB Adhesive Tape for adhering to flat surfaces, as well as magnetic clips for easy installation under metal shelves.

Custom lengths, color temps, and other features are available.

Under Shelf Light Kit

This durable LED replacement to a standard, T5 fluorescent fixture reduces energy consumption and provides accurate color rendering of the product. The rigid housing protects the LEDs and diffuses the light to reduce any lighting hot spots.

Each fixture comes with its own power cord and plugs directly into a 110 volt power source.

Assembled in a high quality extrusion. Includes VHB Adhesive Tape for adhering to flat surfaces, as well as magnetic clips for easy installation under metal shelves.

Custom lengths, color temps, and other features are available.

NEW

Allura™ Overhead Light Kit

- Overhead, LED lighting creates a bright continuous perimeter of light above a product display, softening the retail environment and providing additional lighting to enhance products.
- The housing on the Overhead LED rotates to permit a wide range of illumination coverage, whereby the proper lighting angle can be manipulated to maximize product visibility.
- The Overhead LED also works in conjunction with the Allura™ Bus Bar to quickly integrate LED lighting into existing retail set-ups.
- Stock color: Grey
- Available in any custom color and length. Call for more details.
- Customizable to daisy chain lights together and use spider cables to extend power.

Allura Bus Bar

NEW

One power distribution source for all of your integrated LED components. Reduce system cost. Improve reliability.

The modular Allura Bus Bar system provides flexible solutions for distributing common power to many different electrical components. Components can be easily added or removed using quick disconnects saving valuable time and cost during installation and maintenance.

Simply twist on Bus Bar Pucks and use cables to connect to LED Lights or other components.

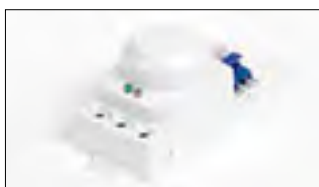

Features multiple strain relief points. Cord will unplug instead of damaging light or bus bar fixtures.

PATENT PENDING

The advantages of the Bus Bar system:

- Installation time savings.
- Easy to retrofit using quick mounting and wiring.
- Panel space savings.
- Reduced maintenance.
- ETL approved to UL standards.
- Repeatable low-impedance electrical performance and reduce wiring errors.

24v

Masterpiece™ Custom Printed Retailers

Southern Imperial's Masterpiece Strip Retailers are a true piece of art. Offset printed at 133 LPI, these retailers add a visual punch to your promotions and allow your sales to really blossom! Creating your own, custom retailer has never been easier or more affordable!

Check out these features:

New Design Materials (samples are available)

Frosted PP .015" thick

Frosted PP .020" thick

Clear PP .015" thick

Clear PP .020" thick

Over 2X the Resolution

Masterpiece Retailers are printed at over 2X the resolution of standard retailers. Pictures and text are sharper and the printing dot is almost invisible.

No Custom Die Charges

That is correct, no custom die charges! This is a major cost savings that removes the barrier to creating the exact piece you need.

No Plate or Screen Charges

This cost savings is enormous! Standard printing for strip retailers have added costs up to \$750.

Production Samples

Yes, production samples can be ordered for each custom strip! In fact, it costs \$400, but 50% is refunded with a production quantity order! Important Note: The \$400 fee is per design. If there are 3 different designs, the fee will be \$1,200. However, \$200 is refunded with the production order of each design.

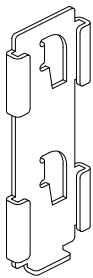

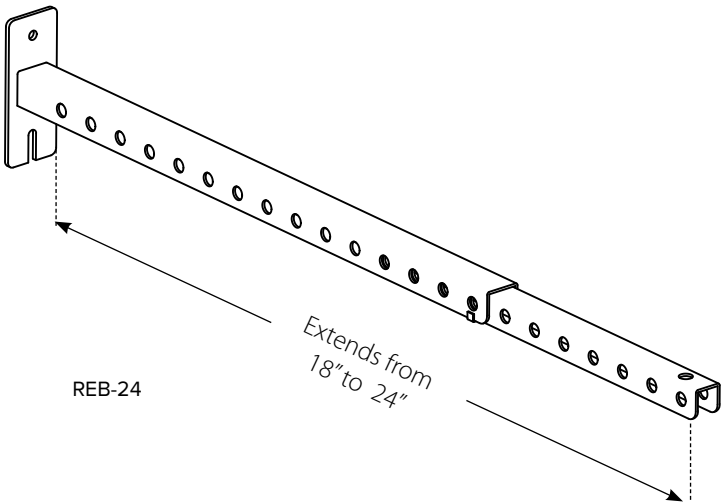

LOWER PRICE
than screen
printing with
twice the
resolution!

Extenda-Bar™

- Studies prove that items that stand out will catch the attention of customers. By extending your product beyond a standard display, you increase the sales potential of your merchandise.
- This strong, durable display arm is ideal for creating eye-catching end-cap displays and aisle invaders.
- Designed to work with standard gondola uprights, the Extenda-Bar allows you to get your heavier displays and products out in front of your customers and increase sales.
- Simply install the Extenda-Bar into the gondola, extend it to the length you need (up to 24 inches long), and hang Fastracks, wand and strip retailers, or signage from them.
- Custom powder coat colors are available.
- Kit includes: 2 bolt fasteners, clips, and Extenda-Bar Arm.

REB-BRKT_

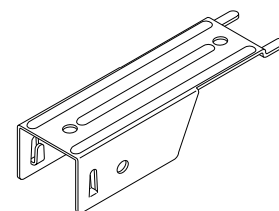

- We now have the Extenda-Bar Quick-Mount Bracket for easier installation in standard gondola uprights.
- Works with Lozier and Madix uprights (LM) and Streater uprights (S)

FastGripz II™ Banner Rail

- This low cost banner hanging system grips your existing sign or banner in place. The Fast-Gripz™ Banner Hanger has a rigid, clear PVC body with vinyl fingers for a firm sign holding grip.
- The Fast-Gripz Banner Rail with hanging clip hinges open for sign or banner insertion. Soft fingers grip banner when snapped shut.
- These banner hangers can be used at both the top and bottom of a banner. The top for the hanging of the sign and the bottom as the weighted end to help prevent curl.
- Can be used with double-sided adhesive to mount rails to any wall or window.

Spiral Sign Board and Number Kits

Southern Imperial's new sign boards and accessories makes adding promotional signs and pricing easy. These sign boards are ideal for end caps and other promotional areas with changing price points.

The sign boards fit on most standard retail gondolas or hang from ceilings. There are many sizes and styles to choose from, and custom versions are also available.

- Holds spiral signs pads and graphics on one or both sides of Spiral Board.
- Mounting holes allow signs to be hung from fixtures or ceiling cable systems.
- Double-sided sign board holds signs and spiral bound pads.
- Polystyrene signs and spiral pads (Dollar Sign Pad, Cent Sign Pad, and Reader Sign Pad).
- Available in custom colors with minimum quantities.
- Custom Configurations: Size, Color, Slots, Fixtures.

NOTE: It is recommend to stay within the standard spiral sign pad sizes. Spiral Sign Fixtures and Sign Pads are sold separately.

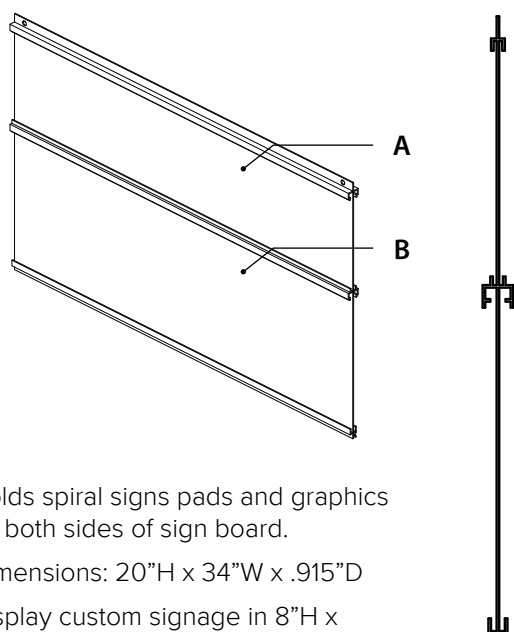

Spiral Sign Fixtures for hanging Sign Boards.

Mount to existing gondola.

20x34 Spiral Sign Board - Dual Sided

Adjustable Pallet Sign Holder

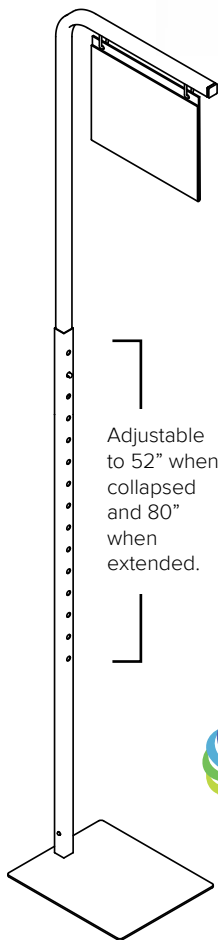

Attract attention and make shopping easier for your customers with our new Adjustable Pallet Sign Holder. Eliminate “aisle skippers” and direct shoppers to your pallet display. The portable sign gives you more flexibility by placing signs above the product and in the line of sight for shoppers.

Adjust the sign height with a simple push of the button on the pole. The stand locks in place to an adjustable height for displaying signs. Insert your custom printed sign into the protective covered sign holder and hang to pre-welded hooks. The Adjustable Pallet Sign Holder stands on a non-intrusive base for balanced support. Stock color is black. Custom colors are also available.

Height adjusts from 52” high to 80” H.

Heat-folded sign holder is 11” x 8.5”, with hooks that are 9” on center. Custom sign holders are available.

Note: This item contains 2 sign holders per box.

Modular Sign Holders

With Southern Imperial’s Modular Sign Holder Systems, you can mix and match components to meet your needs. All components are interchangeable to offer hundreds of sign solutions.

All frames may be used either horizontally or vertically, offering greater versatility and multiple uses from a single sign frame. Modular Sign holders also offer savings through reduced shipping and storage costs.

- Complete line of interchangeable components.
- High impact styrene with miter-edge finish for easy fit of standard-sized signs.
- Light and durable for use with POP and store shelving applications.
- Stock colors are red, black and white. Custom colors are available.

Large selection of components to create your ideal sign solution!

Plate Stem Mount for Fast-Gripz II™

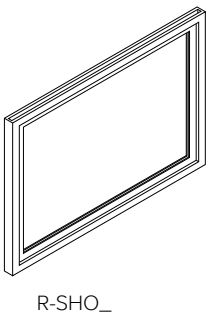

Add the power and flexibility of Fast-Gripz sign holders to modular stem components. Available in 3" x 1.25", and 3" x .5" sizes, its clear construction minimizes visual distraction. See page 229.

SIGN HOLDERS

Modular Sign Frames

- Compatible with industry standard sign sizes. Dimensions listed below denote the size of the sign that the frame is designed to hold.
- High impact styrene construction with mitered edge finish.
- Can be used horizontally or vertically.
- Standard colors are red (R), white (W), and black (K).

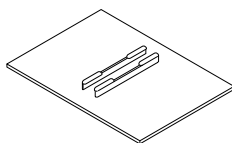

Red (R) White (W) Black (K) Specify color when ordering.

NEW

Solutions for every application!

There is a Sign-EEZ solution for almost every sign hanging application!
Choose from our wide selection of products starting on page 240.

Need a customized solution? Not a problem!

We can design and manufacture to your particular need.
Call us today to get started on a custom quote.

PATENTED

How it works

Sign-EEZ is the easiest and safest system on the market for hanging promotional signs and banners!

1. Slide Lexan Hooks into magnetic holder and hook to banner rail.

2. Pull cord on Gripper to grab magnet holder and raise pole and sign to ceiling or window.

3. Attach magnetic holder to ceiling grid and use cord to release once it is in place.

The Case Against Ladders

Protect your employees and your bottom line by providing a safe solution to hanging signs!

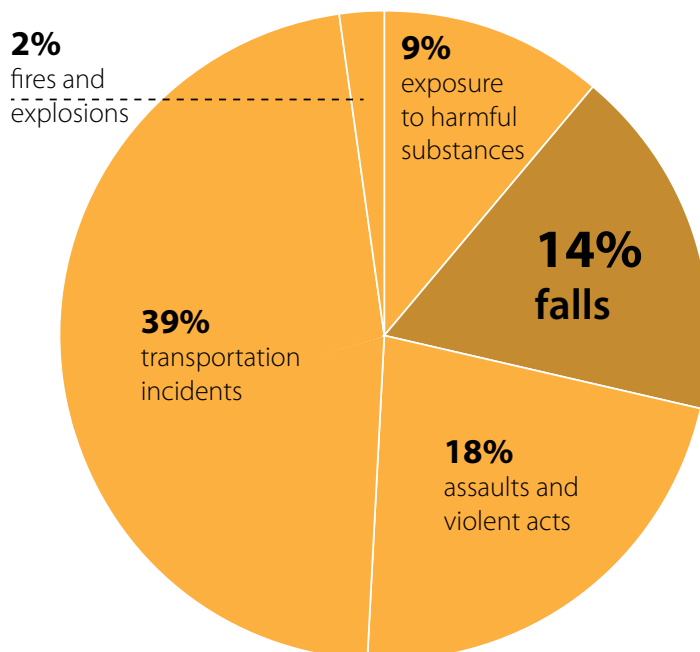

- Do you want your employees on ladders?
- Are your people in the stores trained to use ladders?
- Are you willing to take the risk to put your employees in danger while on a ladder?
- Are your insurance policies large enough to handle all the claims for using ladders?

Injury is costly! Fall reduction is smart.

- Over 20,000 injuries occur every year with the use of ladders.
- Over 11,000 of these injuries resulted in work loss from 1 to 364 days.
- 66% of all injured had not been trained on how to use the ladder.
- 53% of the ladders were broken during the yearly injuries.

Manner in which fatal work injuries occurred – 2009

Aluminum Telescopic Pole & Gripper

- Telescopic pole is sturdy aluminum with braided pullcord.
- Use to hang Sign-EEZ™ Magnetic Hangers.
- All Sign-EEZ holders can be installed using the telescopic pole.
- Available in 8', 12', 18', and 24' lengths.

Part #	Dimensions	Finish	Pack	Price Per	1
R-ATP08AL	8' extension/13' ceiling	Blue/Silver	1	1	40.00
R-ATP12AL	12' extension/17' ceiling	Blue/Silver	1	1	48.50
R-ATP18AL	18' extension/23' ceiling	Blue/Silver	1	1	64.50
R-ATP24AL	24' extension/29' ceiling	Blue/Silver	1	1	80.00

Additional volume discounts available. Call for pricing.

Magnetic Holders

- Attach to any ceiling grids or other magnetic surfaces for hanging banners.
- Available in 12", 26" and 36" lengths to accommodate most banner sizes.
- Use with clear Lexan, block-end hooks (See page 241).

Freedom to change
configurations.
Anytime. Anywhere.

Modular Fastrack Display

The Mobile Rack can be moved through the store for seasonal displays. Its knock down capabilities allow the unit to save space when storing. The unit can be changed into five different configurations to provide a variety of refreshing display styles. Display products on up to four sides.

Benefits of the Modular Fastrack Display

Compact – Ships and stores as one compact unit.

Expandable – Modular design allows unit to have multiple configurations.

Graphic Ready – Easily add promotional messages for added impact.

Mobile – Caster wheels to move your display with ease.

Adaptable – Ideal for roll-outs to multiple store formats.

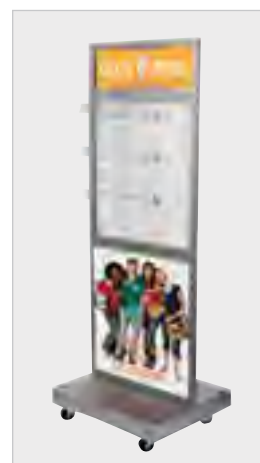

Max Height – Display stands at max height of about 56.5" H

Stable Base – Base is 24" x 20.5"

Color – Silver. Call for custom colors.

Shipping – Ships assembled in one of the display variations.

Unit consists of wire grid fast racks, wire grid walls, metal frame, metal base with casters, and magnetic fast grip sign holders.

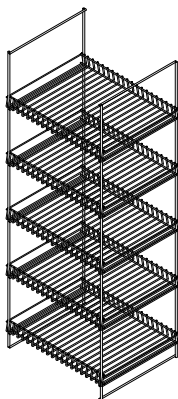

From simple....
2-sided configuration

To complex.
4-sided configuration

Problems with traditional security systems:

LOCKED CASE //
Inconveniences shoppers

LOCKED BOXES //
Discourages interaction

BOX WRAPS //
Dilutes brand impact

is a product facing system with built-in security features that detect theft. To the average shopper, the OPEN system looks and operates like a standard store fixture. However, “invisible” technology detects product movement and sends notification to store associates in the event of sweep.

This integrated technology allows merchandise to be securely displayed in an open environment that drives sales. Unlike most product-security solutions that simply reduce loss, the shopper-friendly OPEN Merchandising System also helps retailers sell more.

Solutions are available for packaged and pegged goods.
For more information call 800.747.4665

RESULTS

The following figures are based on a 6-month, 27-store test conducted by Inventory Management Consultants of Berlin (IMCo), a third-party consulting group.

88% Shrink Reduction

14% Sales Increase

<8mo ROI

While these statistics represent averages calculated by IMCo's large-scale test, subsequent tests by ILP have proven shrink reduction as great as 95%.

HOW OPEN WORKS

Open keeps products secure by detecting product movement.

Honest Shopper

Sounds quiet beep when single item is removed.

Quiet Beep

ALARM!

OPEN
Merchandising System

Shoplifter

Sounds alarm when multiple items are removed and sends alerts via:

FACED FORWARD //

((())) Pusher mechanism ensures merchandise is always front faced and visible.

SHOPPER FRIENDLY //

((())) Open shopping format allows guests to interact with merchandise and access products without employee assistance.

MESSAGE DRIVEN //

((())) Optional monitor delivers promotional content to attract shoppers.

PAGER //

((())) Pager notifies store associates of the location sweep is occurring.

INTERCOM SYSTEM //

((())) An overhead page can alert associates that assistance is needed.

PUBLIC VIEWING MONITOR //

Monitor switches from promotional content to recording mode.

WHY OPEN WORKS

CLEAR DETERRENTS

OPEN's audible and visual deterrents are easily identifiable for risk-averse thieves.

EARLY DETECTION

OPEN detects theft at the display level unlike EAS devices that alarm once the shoplifter exits the store.

STAFF AWARENESS

Remote notification ensures associates offer assistance at the right time. Service-oriented staff awareness is the #1 theft deterrent.

LM Tag™

LIGHT AND MOTION SENSOR

The LM Tag™ uses the combination of a light sensor and motion detector to notify when the product is both in motion and concealed. It is the only device on the market that alarms at the point of theft, alerting you before product walks out the door.

Theft Deterrent

When a product is concealed in a bag, under a coat, or in a pocket and there is movement of the product, the LM Tag turns on and counts down for a period of time and beeps lightly every second. After time is up, the tag will alarm to alert store staff.

The LM Tag is ideal for multiple product types, lines and categories:

- It doesn't damage or distract from brand packaging.
- Ideal for small to mid-sized products.
- Customers access product without staff assistance.
- Maximize valuable retail space.
- Turtle Dimensions: 1.5"W x 1.5" H x .58" D.

J-Plug™ Cable Lock Tether System

J-PLUG Benefits

Secure products with a high-security, flexible aircraft-steel cable that stops grab and run.

Provides a physical connection to the product without getting in the way of its style and function.

Specially-designed, 360 degree rotating head. No tangled cables and no restrictions on human experience.

Save space. Cut cost.

Security and style without compromise.

About J-Plug

J-Plug line security contains a unique pin that locks into an audio socket. This allows for universal and future-proof security for any electronic device with an audio socket such as tablets, smartphones, speakers, PCs, laptops, GPS devices, MP3 players and more. J-Plug offers mechanical, alarming and charging versions of the audio lock. In addition to the audio lock solutions, J-Plug offers the smallest-profile camera security on the market and a sleek loop security solution featuring aircraft grade cable.

Secure items such as Tablets, Smart phones , GPS Devices, Speakers, E-Readers, MP3 Players, Laptops & PCs, Sound Systems, and more.

Need a J-Plug Solution? Call for pricing.

J-Plug™ Lock

Simple mechanical security solution for any device with a standard audio socket. No obstruction, no restriction. Give the customers a device that they can weigh in their hands. Secures any device with an audio socket. Allows device to freely rotate, no tangled cables. J-Plug allows wireless charging, unlike standard adhesive tamper devices.

J-Plug Lock

ILP-JLK-100-A-Y
ILP-JLK-200-A-Y

Secures any device with an audio jack. Provides physical connection to the product without getting in the way of its style and function. 360° rotating head.

J-Plug Loop (Fixed)

ILP-JLP-100-A-Y
(standard)

Fixed to one loop position so no one can unloop your products. Secure headphones, speakers, bags, and more. Quick and easy to install. No training required.

J-Plug™ Loop

Secure your merchandise with a high security non-detachable steel loop cable to stop grab/cut and run. The J-Plug Loop provides a strong physical connection to the product without getting in the way of its branding and function. Crafted with style and strength; aluminium body, CNC-finished stainless steel core. Choose security that's built to last.

J-Plug Loop (Free)

ILP-JLP-118-A-Y
ILP-JLP-200-A-Y

Secure products with a high-security, flexible steel cable that stops grab and run. The adjustable sized loop can freely adjust to any size for various products.

Tetrakey

ILP-APT-100-A-Y

Proprietary security key for JPlug range.

Need a J-Plug solution? Call for pricing.

J-Plug™ Alarm

Secures any device with an audio jack. A small and simple high-security solution designed to protect your displays without reducing the customer's product experience. A bank of J-Plugs builds on your design and boosts your point of sale. This is the smallest alarm system on the market. Others bring you clutter. J-Plug get out of the way.

- Quick and easy to install. Easy to manage.
- All-in-one alarm unit for mechanical and alarmed security.
- The J-Plug Alarm has a built-in magnetic pad that's designed to work on its own or with the current stand range.
- Aircraft grade stainless steel cable.
- Aluminium crafted body.

J-Plug™ Splitter

The only solution designed for new form factors. Tablets, ultrabooks and convertibles. Three level security with audio lock, charge and alarm.

- High security cable with 'Trip Wire' technology.
- 98 db siren alarm.
- J-Plug patent pending 3.5mm audio lock.
- Creates a clean product display.
- Quick and easy to install.
- One alarm unit for mechanical and alarmed security.
- Cable size: 17.7", Diameter: .05".
- Available colors: Red, Black, White. Call for details.

SelectSafe™

SelectSafe™ combines the best of product display with theft prevention. This combination keeps product from being swept and stolen, while remaining shoppable for customers without the need for employee assistance.

The SelectSafe™ is ideal for medications, razors, gloves, and other high-theft items. Simply place the vending display on your gondola upright, load products on the peg modules or pusher trays and you're ready to sell. The customer simply slides the selector to the product they want, and press the button until product is dispensed.

- Modular and flexible to accommodate an array of products (horizontal and vertical orientations).
- System merchandises a pegged product as well as a packaged product.
- Customizable to have multiple peg module rows, multiple tray module rows for packaged goods, and combinations of the two together.
- Slow feed design allows customer to purchase product without store personnel assistance.
- No power supply required.

Peg Modules Over Pusher Tray Modules

Power•1™ reduces theft while remaining convenient for honest shoppers. Ideal for high-theft items such as razors, medicine, video games, DVDs and more, Power•1™ is a shopper-friendly alternative to locking away products. After a product is dispensed, Power•1™ blocks all facings for a preset time to prevent sweep.

Shoppers press a button to select an individual product which is immediately dispensed into a tray. A tone sounds and lights illuminate when a product is selected to generate awareness and deter potential shoplifters.

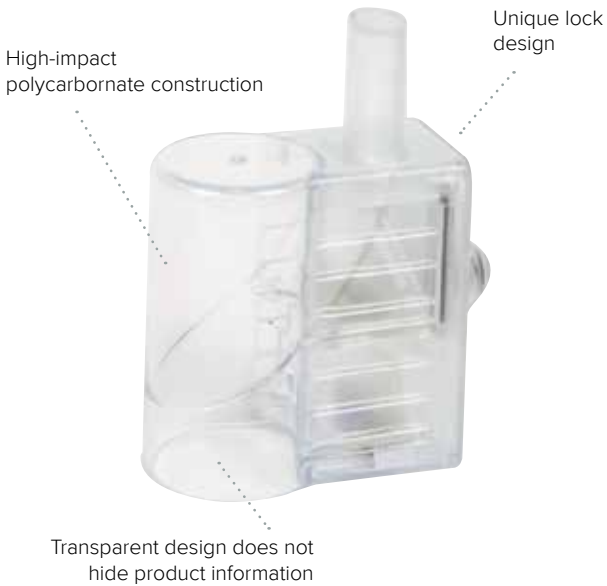

If an item is out-of-stock, the corresponding light will flash to signal store staff to replenish that product. Restocking is as simple as unlocking the unit, pulling the drawer forward and refilling the pusher lanes.

Available in 3' version with 8 facings and 4' version with 10 facings.

Bottle Top Tag

Bottle Top Tag puts an end to liquor theft. It fits securely over the top of each bottle without diminishing the appearance of the product or taking up extra merchandising space. It installs on almost any size bottle and comes in both the AM and RF frequency.

The Bottle Top Tag's one-handed installation is easy to apply and quick to remove at POS. Simply place it over the top of the bottle and press the button to lock - no twisting required.

- One-handed installation and removal
- For bottle tops from 1.03" to 1.4" in diameter
- RF or AM technology
- Impact resistant lock
- Works with magnetic detacher (12,000 Gauss)
- Reusable

Alarm for Tether Systems

- Secures products that are tethered without the need of an expensive powered cable.
- Alarm can be reset and used multiple times.
- Triggers an audible extended alarm when a tether is cut and retracts past the alarm box.
- Designed to allow customers to review secured product as normal.
- One piece design for quick and easy installation.
- Mounting holes fit #6 screws (0.14" diameter hole x 0.6" deep)
- Clean low profile design doesn't detract attention away from product.
- Utilizes a simple plunger switch to trigger the alarm.
- Extended alarm sounds until turned off with the use of a remote control.
- Point remote control within 1"- 6" above the black sensor on top of the hook.
- Includes replaceable battery (Type: CR2032). Battery lasts up to one year.
- Remote control (RJB-38) is sold separately.

Insert tether into the channel and install onto the display. Designed to work with all Heavy Duty Tethers.

If the tether cable is cut it retracts past the alarm box. Extended alarm will sound until it is turned off with remote control.

Tether Shelf

Tether Shelf is a tether shelf system that is able to hold multiple bases with adhesive tethers. Shelf contains two rows for holding tether stands. Tether stands easily adjust with thumb screw from the bottom of the display. Lower access has a hinged cover to protect stands from being removed from the display.

- Straight entry brackets for easy installation into existing retail space.
- Attaches to standard 4' Madix and Lozier uprights.
- Customize the shelf with different quantity and styles of stands, tethers, or colors.
- Stock version utilizes the Standard Duty Tether with Flexible Adhesive (RJB-9713-Y05).
- Dimensions: 47"W x 15.3"D x 9.4"H
- Customize shelf top with your own graphic.
- Color: Black or Silver.

Includes 14 adjustable stands with adhesive tethers.

SOFT TAGS

Security Tags

Southern Imperial has a variety of labels and tags to protect a wide range of merchandise. Security Tags are easy to apply, either in-store or at source, easy to detect when passed between RF EAS antennas, and can be easily deactivated with top of the line deactivation solutions when a customer makes a purchase.

- Easy to apply and remove. Reusable.
- Most tags will not damage delicate fabrics.
- Light weight, unobtrusive design.
- AM (58 KHz) and RF (8.2 MHz).
- Ink tags provide benefit denial of theft.
- Magnetic Detacher required for removal.
- Various shapes and sizes.
- Multiple applications.

Audible deterrent upon product removal.

Deactivate continuous alarming with Strobe Key Deactivator.

SONIQ²™

ALARM HOOK

The Soniq2 alarm hook has an open system design that protects product and allows customers to remove and replace product without assistance. Features switchable modes so retailers can choose between an alarming function and a “beep only” mode. The new deactivation method utilizes a light sensor eye located behind the label holder. Use the innovative strobe key to deactivate.

Audible Deterrent

A simple beep upon product removal denotes activity and deters theft.

Extended Alarm

An extended alarm sounds when the label holder is held up for 10 seconds or multiple products are removed.

Anti-Sweep Design

Added curvature to the product hook creates barriers to sweep and product removal more deliberate.

Switchable Modes

Switch alarm between alarming and beeping mode.

Extended Deactivation Reset

5 Minute Deactivation/Reset Time. Allows store personnel to stock hooks with no alarms occurring.

Interact™ Security Hook

- Deter Theft while keeping product faced and visible!
- The Interact™ Hook requires shopper interaction to access product.
- Removal of product requires shopper to pull front gate forward to access product. This two-handed requirement, along with the up-turn of the hook makes product sweep difficult.
- Easy Reload – Simply pushing at the top of the paddle moves it to the back of the hook for product reloading.
- Two-handed shopping method eliminates product sweep, and the paddle mechanism faces the remaining merchandise.
- Available with or without Ratchet.
- For use with standard pegboard.
- Custom versions are available.

One Shot™ normal shopping product release.

Unique One Shot™ trigger rises to form a stopper to prohibit product sweep.

FirstLine™ One Shot™

OneShot™ trigger activated during one product removal, customers can not sweep other packages behind the stop trigger. Customers can continue with normal shopping behaviors while inventory is secured to the fixture. These security solutions make it harder for criminals to acquire the product in one sweep, thus deterring theft.

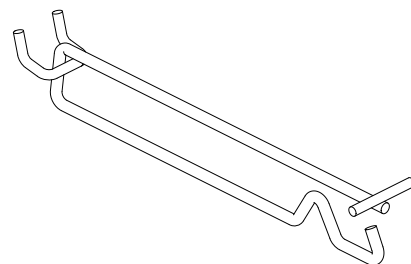

- Works as a normal peghook when single products are removed.
- Will not interfere with a normal shopping experience.
- Adapts to FastFlip labels.
- Product will have to be removed one at a time.
- Finish: Chromate.
- Available in 8" and 10"
- All wire back attaches to standard pegboard displays.

First Line™ Security Hook Lock

This economical solution utilizes a durable plastic construction that securely snaps onto the scan arm (from .186" through .250" wire diameters) and ratchets around the scan hook, requiring a key to access merchandise.

- 1. Ratchet design for secure fit.
- 2. Reinforced plastic arm snaps onto scan arm of hook.
- 3. Universal Key.

Part #	Dimensions	Finish	Pack	Price Per	Under 100	100	500
RSHL-003	2.375" H x .625" W x 2" D	Gray	10	1	0.80	0.70	0.66

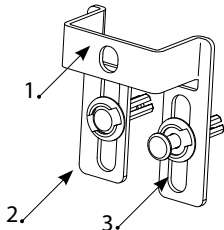

Additional volume discounts available. Call for pricing.

First Line™ Security Peg Back Lock

The Peg Back Lock secures the hook to the pegboard. Simply slide it over the bottom wire of a scan hook and use the included push pins to lock it in place.

- 1. Easily slide over lower arm of scan hook.
- 2. Steel construction for durability.
- 3. Push pin design expands on entry into pegboard and locks in place.

First Line™ Security Lock Hooks

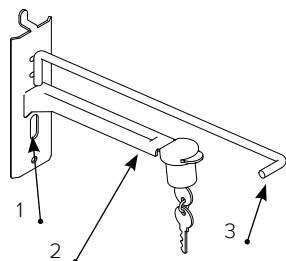

At Southern Imperial, we've developed the First Line Security Solutions to combat shoplifting. They are designed to deter shoplifters at the initial stage of the theft. With their strong locks and ability to be secured to the fixtures, these security solutions make it harder for criminals to acquire the product, thus deterring theft.

The Original Lock Hook features Heavy-Duty .250" Diameter wire with a locking end to secure products from being removed. Available in standard stem and "butterfly" style stem.

Security Lock Hook
with Butterfly-Style Stem

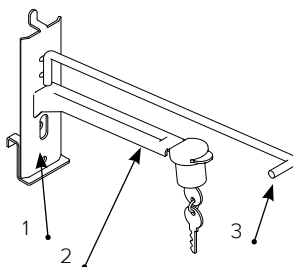

RSL-X-SCN

1. Insert screw and anchor to secure to pegboard.
2. For butterfly and delta slotted products.
3. Use Quad-Wire, Fast Tag, or R35 label holders.

Slatwall Security Lock Hook
with Butterfly-Style Stem

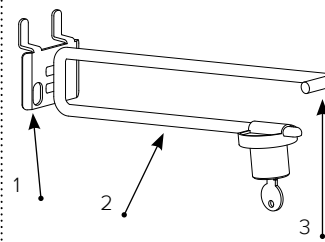

RSL-X-SCN-SW

1. Insert screw into adaptor to secure to slatwall.
2. For butterfly and delta slotted products.
3. Use Quad-Wire, Fast Tag, or R35 label holders.

Security Lock Hook
Standard Scan Hook

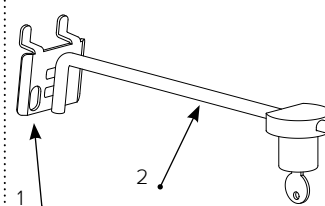

RBR2SH-X

1. Insert screw and anchor to secure to pegboard.
2. .250 diameter wire for standard peg items.
3. Use Quad-Wire, Fast Tag, or R35 label holders.

Security Lock Hook
Standard Single Stem Hook

RBR2SSH-X

1. Insert screw and anchor to secure to pegboard.
2. .250 diameter wire for standard peg items.

PLUS + POINT

Universal Keys

All locks feature a universal key design that will work with all of the lock hooks. Custom keys can be made to order.

First Line™ Security Cabinet

Our Security Cabinet is shipped pre-assembled and ready to merchandise. Simply place the First Line™ Security Cabinet (dimensions: 24" W x 16" H x 16" D) on your shelf or counter top, and you're ready to go.

- Cabinet also features tempered glass for added safety in case of breakage.
- For additional security, utilize the included bolts to secure the Security Cabinet to the perforations in standard shelving.
- Replacement lock (RGSC-LK) for the First Line™ Security Cabinet. Includes 2 keys. Finish: chrome.

First Line™ Security Lock Bar

The Lock Bar System allows retailers to display high ticket items without the worry of consumer theft. This unique lock bar system allows the entire product package to be seen and held while remaining safely secured to the fixture.

- Hinged front gate locks to secure product.
- Hooks secure to bar and slide into position.
- Tab insert secures fixture to gondola uprights.
- One-piece design fits into standard 36" and 48" width gondola uprights.
- Includes twelve, 10" hooks for 48" version, and eight 10" hooks for the 36" version and two keys.

Part #	Dimensions	Finish	Pack	Price Under	10	10	25
RLB-36-0810-A	36" W x 10.5" D x 3.5" H	Almond	1	1	40.25	34.62	30.18

Additional volume discounts available. Call for pricing.

First Line™ Visi-Box™

- Enhance and protect your valuable products. Preserve the integrity of your collectibles and high-theft items while on display.
- The Visi-Box can be used as a stand-alone product protector, or place multiple boxes next to each other to lock up an entire shelf section for a low cost loss prevention solution.
- Simply mount the front fence and metal security back to standard perforated shelving, and slide protective Visi-Box cover over select product. Lock it and make potential shoplifters think twice!

Part #	Dimensions	Finish	Pack	Price Per	Under 10	10	25
RSLB-1210	12" W x 14" D x 8" H	Clear	2	1	30.00	28.00	26.00

Additional volume discounts available. Call for pricing.

First Line™ Security Cover

- The Security Cover provides instant anti-sweep protection for merchandise on a shelf. The height of the cover, as well as the amount the cover extends over the product, is fully adjustable.
- The Security Cover bolts to standard retail shelving perforations and features a metal and thick acrylic construction. The clear acrylic cover allows for product visibility, while its downturn at the front edge provides a rigid beam to reduce bending of cover so it can't be lifted up to retrieve product.
- The Security Cover is ideal as a stand alone solution, or in conjunction with a self-facing, product management system. It is also ideal for use with any front edge shelf fence.
- Ideal to use with a shelf management system such as Southern Imperial's IMPulse trackless pushers.

Part #	Dimensions	Finish	Pack	Price Per	Under 10	10	25
RASC-48-14-A	48" W x 14" D	Almond	1	1	79.00	62.00	55.00

Additional volume discounts available. Call for pricing.

Fake Security Camera

Utilize the fake security camera to provide the illusion of active security monitoring. The realistic appearance and flashing red light of the fake camera provides an immediate deterrence to potential thieves, as people tend to be more cautious if they believe they are being monitored or recorded.

- Mounting hardware included. Batteries sold separately.
- No wiring needed.
- Press the camera unit to activate the battery powered, flashing red light.
- Special pole attachment fits standard pole thread and is ideal for placement of camera on ceiling grid.

Part #	Dimensions	Finish	Pack	Price Per	Under 10	10	25
RDCR-040M	4.5" D x 3" H - Fake Camera	Black	1	1	17.07	14.49	13.48

Additional volume discounts available. Call for pricing.

CCD Fake Security Camera

Installing realistic-looking fake security cameras will deter crime and prevent property damage by fooling criminals into believing you have a real surveillance system. It's impossible to tell the difference between our CCD Fake Security camera and the real thing!

- Increase security presence without high costs.
- Pivoting arm allows the camera to be adapted to multiple locations and angles.
- Wall mounted bracket includes installation hardware.
- Flashing LED light and fake wire create the illusion of a functioning camera.
- Easy installation with no wiring required.
- Battery Powered LED uses two AA Batteries. Slide shield back to access battery compartment. Batteries are not included.

Part #	Dimensions	Finish	Pack	Price Per	Under 10	10	25
RDCR-030	7" H x 3.25" W x .975" D	Silver	1	1	20.00	17.50	15.00

Ordering and Shipping Information

All factory locations have toll-free numbers and customer service representatives for your convenience.

Rockford, Illinois

800.747.4665
or 815.877.7041

Fax your orders in for the fastest turnaround and the best documentation of special orders. (Custom orders and packaging require a fax or original purchase order to start production.)

Rockford, Illinois
815.877.7454

1400 Eddy Avenue
Rockford, IL 61103

Minimum Order: \$100.00

Any order under minimum will be charged an extra \$10.00 handling charge, box quantities only. Cash in advance or credit card only for these orders.

All returns must be within 30 days of purchase. Please call for an authorization number and instructions on any return. Unauthorized returns will not be received. Custom manufactured and special packaged items cannot be returned. Special-run quantities of an item are returnable, subject to the current inventory requirements of Southern Imperial. Stock items may be returned, subject to a 25% restocking charge.

When products are damaged by a freight carrier, please file a claim with the carrier when received, or receive as damaged. Please notify Southern Imperial immediately when there is a shipping shortage on your order. Please give as much detailed information as possible, as this will insure the expediting of the replacement product. Inspect all shipments within fifteen days of the date of shipment. Failure to advise Southern Imperial of defects within fifteen days of shipment will constitute the acceptance of the shipment.

Payment terms are net 30 days on an approved account. To open an account, please supply references from one bank and five vendors. Allow two weeks for processing. Credit card shipments are possible on stock orders. An interest charge of one and one half percent is applied to all late invoices. Prices are subject to change without notice. Southern Imperial reserves the right to change or improve products without notice. Purchaser assumes all risk of liability and damages due to improper use of products.

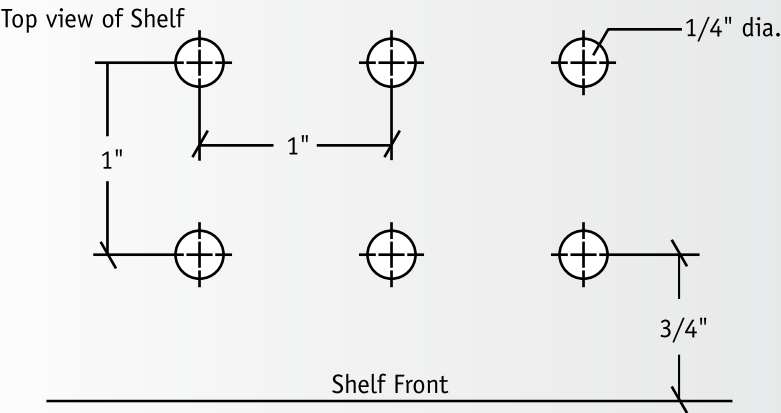

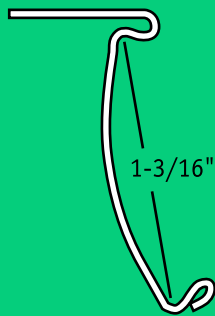

Southern Imperial does not accept liability for incorrect spelling, printing errors (including prices), incorrect manufacturer specifications or changes, or grammatical inaccuracies in any product included in this catalog. Southern Imperial, Inc. reserves the right to discontinue or require minimum order quantities for products shown or described in this catalog without prior notice.

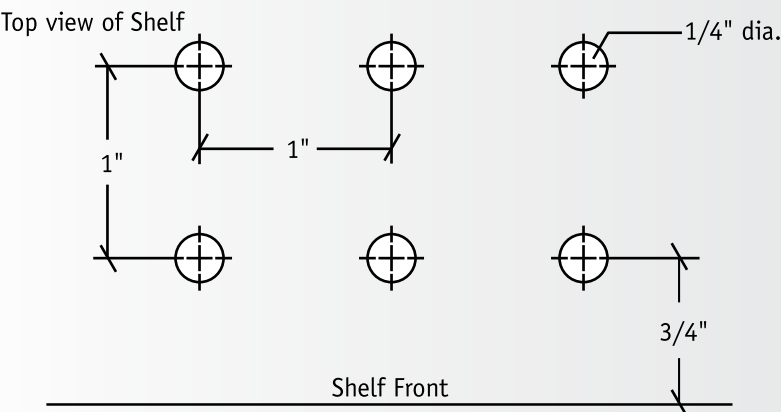

When placing credit card orders, two charges will be applied to your credit card per order. The first charge, which is applied at the time of the order, represents the purchase of the product only. The second charge, which is applied at the time of order shipment, represents the actual shipping and handling charges of the order.

available on
page 72.

PRODUCTS SPECIFICATIONS - WIRE AND LABEL HOLDER REFERENCE

Hook Length

At Southern Imperial, we understand that when you want to buy a hook of a particular length, that you are intending to use that much of the hook to hang merchandise. That's why when you buy a hook from Southern Imperial, you get that much usable space for your product.

For instance, when you buy a 6" hook from Southern Imperial, you get 6" of wire to merchandise with. Other hook manufacturers will sell a 6" hook, but the 6" is the overall length, and may not carry the pack-out you intend.

That's what makes Southern Imperial the world's leading manufacturer of Display Hooks and Accessories. We understand and listen to our customers, provide the best products and service, and strive to provide useful tools to assist in your product and merchandising plans.
