ORDERING INFORMATION

ORDERING INFORMATION

Key Number Range By Products

- Each Master Lock padlock has its own specific numbered key number. The products and appropriate key numbers are listed below.
- To order a specific key number, specify product number followed by a key number. If no key number is indicated, Master Lock will select a random key number from the appropriate range.

Example: 12 No. 5KA = 12 No. 5 padlocks keyed alike to a randomly-selected key number in range A101-A2084.
12 No. 5KA A101 = 12 No. 5 padlocks keyed alike to key number A101 and receive forecast and Point of Sale (POS) data via EDI.

Keying Options

- **Keyed Alike (KA)** - This provides "same key" convenience and eliminates the need for multiple keys where numerous padlocks are used. All padlocks in the set are keyed the same. Most Master Lock padlocks can be ordered keyed alike. Keyed alike padlocks are listed in this price book with a "KA" suffix in the product number.
- **Master Keyed (MK)** - In a master keyed system, the master key opens all locks in the system although each lock has its own unique key. Master keyed items are ideal for permitting supervisory or emergency access. Master keyed padlocks are listed in this price book with an "MK" suffix in the product number.
- **Rekeyable Padlocks** - Padlock cylinders can be removed and replaced to restore security quickly without requiring a new padlock. This is ideal for situations where keys are lost or stolen due to theft or employee turnover. Rekeyable padlocks are found in the commercial price book.
- **Reserved Key Systems (RSV)** - Reserved key padlocks are not available to the general public and are not listed in this price book. Key blanks and cut keys are supplied directly by Master Lock through distributors and dealers when requested by registered end users. This adds security through the restricted distribution of duplicate keys. This option requires a custom quotation (see page 1).
- **ML Line Patent Key Control** - Keys for this patent pending key control product offer the ultimate protection against unauthorized duplicate keys. Blank keys are available to locksmiths only and controlled by contract. These keys are recommended for all master key applications. Contact your local locksmith for full details.
- **Non-Removable Key (NR)** - The key cannot be removed from the padlock when the padlock is open. This helps prevent users from accidentally leaving the padlock in the open position. Only selected padlocks offer this option.

Key Number Range By Products

- **Special Marking** - Key numbers or other customer specific information may be stamped or laser engraved on the padlock or key for identification. This is useful for recording company owned padlocks as well as identifying employees using specific padlocks. Please call your Master Lock sales representative for details on laser engraving. Other customer specific information requires a custom quotation (see page 1).
- **Color Coding** - Some padlocks are available with colored bumpers or lock bodies for easy department identification.
- **Key Number Maintenance (Charting)** - Master Lock will maintain records of your key system for future reference. This is useful when reordering padlocks to current keyed different, keyed alike, master keyed, or safety lockout systems. This option requires a custom quotation (see page 1).
- **Chain and Tag Attachments** - Small chains may be attached to padlock shackles in order to affix padlocks to truck doors, gates, equipment, or other applications. Brass tags may be affixed to padlocks for identification purposes. These items are available separately (see Commercial Price Book) or can be attached at the factory. The factory-attached option requires a custom quotation (see page 1).

Explore Master Lock's wide range of innovative products across all categories. From commercial grade security to automotive security, to door entry security there's a solution for every customer need – at home, at work, or on the go.

A collection of Master Lock products is displayed. In the background is a large red and black toolbox with a black handle and a silver latch. To its left is a smaller red fireproof safe with a black handle and two red combination dials. In the foreground, there is a yellow padlock with a silver shackle, a red combination dial, and a white warning sign that reads "DANGER DO NOT OPERATE".

A collection of five different types of door hardware. At the top left is a black lever handle with a silver-colored base. Below it is a brass-colored knob with a silver-colored base. To the right of the black lever handle is a silver-colored deadbolt with a green digital keypad. Below the brass knob is a brass-colored deadbolt. To the right of the silver deadbolt is a silver-colored handle with a black circular detail.
