

BACKER-ON®

ROCK-ON®

**SAME DESIGN.
SAME PRODUCTIVITY.**

**NOW IN ONE
FASTENER**

GET OPTIMAL PERFORMANCE ACROSS CEMENT BOARDS.

APPLICATIONS: Attaching cement board to wood or light gauge steel studs. For common cement board materials including HardieBacker® and Durock® cement board.

Serrated Head:

Designed to drive flush even at an angle

Star Drive with T-25 Bit:

Provides Stikfit™ for easy one-handed installation and eliminates cam-outs

Sharp Points:

Offers immediate pick-up and eliminates the need to pre-drill

Climacoat Finish: Corrosion resistant for preventing rust from bleeding into tile

Hi-Lo / Single Threads:

Starts quickly and drives smooth in cement boards
